nature's safe ally, and beauty's regenerator.—Manufactured by J. CRISTADORO, 68 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. s30dawlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and shortness of breath for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PIERRE PATCHER.
Beaver Dam, Schuyler Co., N. Y. Sept. 14, 1866.

Local.

☞ Young America seems to be taking more and more part in our City Government. Younger men than ever before, have held seats in the Board of Aldermen for the past few years; and Mr. Jones, the new Mayor elect, is the youngest man ever chosen to that place, and we think the youngest ever nominated. But few men of any age have more executive ability, or have had such extensive and successful business experience. He is one of the few who can have many irons in the fire, and keep all from burning.

We notice the Portland Star says Mr. Jones was an extensive brewer, but his establishment has been closed by the action of the prohibitionists. This is incorrect; his brewery is still in operation, and large quantities of his ales find their way to all parts. There are various opinions as to the making and using such beverages; but if a man is going to engage in any business, we like to see him take hold of it as if he knew how and meant to accomplish it.

POLICE COURT, Nov. 28.—In the case of Alfred Tucker, 2d, charged with commission of an assault upon John Grimshaw, it was considered there was no cause to hold the defendant, and he was discharged.

The complaint was originally made by Ellwood Hutton, and set forth that on the 9th Nov., Tucker used a knife and made an assault and attempt to kill and murder, and did inflict a grevious wound of the length of six inches and depth of one inch, upon Grimshaw's body. At the examination now, Grimshaw testified that *he never before saw Tucker*, and Judge Odell discharged the prisoner. Grimshaw, it is stated, had previously sworn that Tucker was the party who committed the assault. Circumstances alter cases, don't they ?—especially political circumstances.

An undutiful and disobedient city son attempted to chastise a City Father on Market street, on Wednesday evening; but the tables were turned, and the young man was most severely whipped, and had to pay "4.86" as well. It appears that Charles Clark made an unprovoked assault upon Aldermen elect Daniel H. Spinney, in which encounter Clark was excellently mastered, and suffered the consequences stated.

Edwin Dwyer, William Elliott and John Hobur, three marines, became invigorated with the "essence of election" and were more boisterous than Marshal Johnson thought was proper, and were captured, station housed, "Police Courted" and properly muleted in the sum of "6.86" each.

ROWING MATCH IN THIS HARBOR.—On Thanksgiving Day, a trial of skill and speed in rowing took place between two boats' crews of Marines, in the U. S. boats belonging to the Marine Corps on the Navy Yard. The white boat was manned by Wood, Reed, Nellins, Edwards and Smith. The black boat's crew were Farclough, Flynn, Langdon, Quigley and Marshall.—In a two-mile race, the white boat won by 100 yards. The prize was a nice Thanksgiving dinner for both crews, paid for by the losers of the race. The match and the dinner were enjoyed by the parties, and the race was witnessed by the officers and others with much interest.

JUDGE BARTLETT AND MR. WEBSTER.—Upon the coming in of the Court on Saturday afternoon, Mr. Charles H. Bell, in behalf of the Bar, laid before the Court resolutions expressive of their respect for the character and memory of the late Judge Bartlett; and Mr. W. H. Y. Hackett presented fitting resolutions in reference to the character of the late Horace Webster, Esq. The Court was then addressed by Messrs. Bell, Hackett, Claggett, Hatch and Frink. The resolutions and remarks of the gentlemen of the Bar were appropriately responded to by Judge Doe, who ordered the resolutions to be entered upon the records of the Court.

REV. J. J. HASTINGS, a Hungarian refugee, will deliver a lecture at the Methodist church in this city on Sunday evening next, upon the condition of Hungary and her claims upon the sympathy of the American people.

Mr. Hastings was a member of the staff of Kossuth, and came with him to this country in 1852. Upon the breaking out of the Rebellion he enlisted as a private in the Union army, was subsequently promoted to a Captaincy, and was for a time acting Brigadier General in connection with General Butler's command at Dutch Gap. He passed uninjured through the entire four years' war. He speaks good English, and our citizens will doubtless be interested to hear him.

☞ The City Treasurer will at once cause the arrest of delinquent tax payers. He did not desire to do so before Election, fearing that prejudiced persons might assert that it was done for political effect.

☞ Lovers of Dickens can procure copies of the fine Portrait of him just issued in Boston, and advertised elsewhere in our columns—at Mr. Foster's Bookstore.

☞ The steam tug Portfire towed down and to sea on Wednesday afternoon, the new and beautiful bark Quickstep, Capt. Albert P. Chase, bound for Savannah. A dozen or more of the friends of the young captain accompanied him as far as the bark had the aid of steam, returning on the tug. The day was fine and a sniff of fresh sea air really invigorating. The Quickstep looked a perfect picture as she bore away southward, her white sails glistening in the bright sunlight, and bore with her the good wishes of many. The Quickstep took out a freight of hay and potatoes, and also carried as passenger Capt. John Chase, to whom she is consigned. The bark had not got out of sight from Newcastle on Friday morning, owing to bad weather.

ELECTION INCIDENTS were not so plentiful on Tuesday last as is often the case.—The day passed off very quietly; the earnestness of the contest lending more dignity to the struggle than is usually the case when the issue is between two sets of office-seekers who talk merely for "buncombe."

Of the men who gave rein to their appetite for drink, a large majority came from the suburban towns. Of those who "fell early in the fight" was J——y M——r, a laboring man with a wife and five or six children, who lay upon a sidewalk in Daniel street. He was tenderly cared for by two Democrats, who bore him into the office of the "Stars and Bars" with the remark, "We can't afford to lose his vote."

A "sijolly" farmer met with a *reverse* on Market Square early in the afternoon, from attempting to turn his wagon in too short a space. The vehicle was capsized, the farmer thrown out, and a great fall of poultry —into the mud—resulted. With that immunity from injury which seems to attend a drunken fall, the man was unhurt, the wagon righted itself when the horse started, and sympathizing bystanders reloaded the displaced freight.

☞ The barn of Widow Phillips, at Kittery Point, was destroyed by fire early on Thanksgiving evening, together with two tons of hay and a lot of poultry. The fire was set by an incendiary, but we have not learned whether the property was insured or not.

☞ The ball of Sagamore Steam Fire Engine Company at Congress Hall on Wednesday evening, was numerously attended, and all present enjoyed themselves hugely, the dancing being kept up far into the morning.

☞ Rear Admiral H. K. Hoff visited the Navy Yard Friday, with a view of inspection of the steamer Contoocook as the flag ship of his squadron. On landing at the Yard he received the usual salute and was met by Commandant Lanman with other officers and appropriately entertained. The Contoocook will probably be the flag ship.

☞ The Journal mentions the rumor that Mr. Jones will decline to occupy the position of Mayor; but we are informed he stated yesterday he shall not do so. By the new State laws, the Aldermen can take away nearly all his control of city matters.

☞ Some folks think it is upholding mob-law, to elect a man Alderman who was even present at a mob. Perhaps it is—and if so, no law and order man can defend it, and we shan't try; but what shall be said, on the other hand, of electing another man Moderator in a Ward, who was shot in a midnight street riot?

☞ A rain all along the coast between this port and the Potomac, Friday evening.

GOLD, Friday, 139.

MARRIAGES.

500 MILES
OF THE
UNION PACIFIC RAILROAD.
Running West from Omaha

ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly forward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States government found it necessary to secure the construction of the Union Pacific Railroad to develop and protect its own interest, it gave the companies authorized to build it such assistance as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS.

Having 1,000 miles to run and below 7 per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and for ms a sinking fund which may finally discharge the whole amount of the loan. The claims against the government since April of the current year amount to four and one half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, *and no more, and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S Senator from New York, and the Hon. Fisher Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $6,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising nearly all of the most difficult portions of the work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles), at the average price of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount fixed at not less than $6,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the one hundred miles assumed to be built by the Pacific Company to be $60,000 per mile,

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles, at 90,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$82,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds	$29,328,000
First Mortgage Bonds	2,328,000
Capital stock paid in on the work now done	5,369,750
Land Grant, 13,000,000 acres, at $1.50 per acre	21,120,000
Total	$58,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be effected in part or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and several parties are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $5 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt as to the value of the Union Railroad, as finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting upon very heavy or bulky articles of comparatively low values, shortness of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track to necessary. California and Oregon must not only be supplied with means of transport for passengers, mail, treasure and other freights, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It is the only avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develope its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31 an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails, &c.	$723,755 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$735,530 92
Net Earnings to balance	467,508 03
Total	$1,203,038 95

The net operating profits on the commercial business for the quarter were $277,980 56. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$733,755 54
Expenses " " "	237,966 50
Net Profit	$485,789 04

The amount of bonds the company can issue on 235 miles at $16,000 per mile is $3,760,000. Interest in gold, three months, at 6 per cent. on this sum is $75,00; 20 40 per cent in currency, to correspond with currency earnings, is $130,200—showing that the net earnings for the quarter will more than four times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six Per Cent in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at six per Cent in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & Co., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—2m

Morning Chronicle.

REV. THOMAS WOLSTENHOLME.—The Columbus (Miss.) Index contains interesting particulars respecting the Rev. Thomas Wolstenholme, who died there on the 2d inst., at the age of 73 years. He drove to town Saturday morning in his buggy, and was sitting on the trial of Henry Hawthorne for murder, when he was taken ill. Going to his office, he at once laid down on his couch, and notwithstanding excellent medical attendance, he expired in a very short time of congestive chill. When dying, he desired that no parade should be made over his burial. A moment before his death, he turned on his back, and looking up at his physician, said quietly: "Doctor, I'm free from trouble at last." He was born at Manchester, England, and was dissipated in youth. He used to relate that in company with drunken companions he was wont to attend divine service to ridicule and scoff, and that on one occasion he spat upon the robes of the Archbishop of Canterbury, to show his contempt for religious matters. That dignitary had baptised him when an infant. He emigrated to this country, and became a Presbyterian minister. At his death he was the oldest living Odd Fellow in America; he had belonged to the order fifty years.

☞ Horace Greeley says, "the stockholders in the Tribune realize and accept the fact that a journal radically hostile to the gainful arts, whereby the cunning and powerful few live sumptuously without useful labor, and often amass wealth, by pandering to lawless sensuality and popular vice, can never hope to enrich its publishers so rapidly and so vastly as though it had a soft side for the liquor traffic, and for all kindred allurements to carnal appetite and sensual indulgence."

—One of our exchanges predicts a war of races—foot races—as a consequence of the Western tour of Weston.

— The pressure of public sympathy has again burst open the door of Garibaldi's prison. The Liberator is again on his way to Caprera.

— Honduras is in the market for a loan of a novel character. It has been so sickly that the young people have died off, and they want to borrow three thousand infants.

— A Grant Club has been organized in Chicago. John Wentworth is among those engaged in the movement, which also includes editors of the Tribune and the Journal.

— A few weeks ago, the Louisville Courier came out strong for Sherman for President. It now repudiates him, simply because he speaks disrespectfully of the "lost cause." It says: "We can find no words strong enough to express our indignation."

— The Hartford Courant contains a remarkable local item, the gist of which is that a married couple in that city got into a dispute, and the husband, to revenge himself, "sprang out of bed" and seated himself "on a hot cooking stove." But this wasn't the worst of it. The stove was so hot that "the man's flesh burned on and he was unable to release himself." His cries finally brought in two men, who "pulled him off the stove by main strength."

— Many, if not most of our citizens, have seen those two singular specimens of humanity, the so-called Aztec children, alleged descendants of the ancient Mexicans. They have been exhibiting recently in Charleston, but death abruptly closed exhibition. The young man was taken sick on the 12th inst., died the same night, and was buried the next day in Magnolia Cemetery. The sister, who survives, is about fourteen years.

THE NEW-HAMPSHIRE GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargements is now the Largest Paper in the State—and the cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local items from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

Caution

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 Emerson St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, Suppression and other menstrual derangements, all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.

Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hour from 9 A. M. to 9 P. M.

Boston, Aug. 6, 1867.—lyeo

A. E. TAYLOR, New Britain, Conn.

AMERICAN HOMESTEAD LAND and Immigration Office. Lands in tropical Florida for sale in tracts from 40 to 400 acres. These lands are adapted to the growth of the pea-nut, orange, pomegranate, grape, Muscadine, lemon, banana, guava, fig, corn, tobacco, sugar, and all vegetables of the North. One acre in Orange county will yield a crop equal to 133 acres in wheat, or 44 in potatoes. The country abounds in game, and the rivers are full of excellent variety. Price $2.50 to $5 per acre. Climate the most equable in the world. A. B. STONELAKE, M. D., late Register U. S. Lands, 66 Broadway, N. Y.

TORREY'S PATENT WEATHER STRIPS.—An examination of its merits will convince any one that Torrey's Patent Weather Strips excel all others. Send for illustrated circular. Agents wanted in every town. E. S. & J. TORREY & CO., Sole Manufacturers, 72 Maiden Lane, New York.

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Rothschild.

PARIS, 5th April, 1864, 25 Rue Faubourg St. Honore.

Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should endeavor to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever yet discovered for pain, taken inwardly, or outwardly applied, has no equal. For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises,* &c., it is unequalled.—It is also most effectual when taken inwardly in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum,* &c., and in all cases of Colic in Man or Beast. Wonderful Panacea the world affords. NO FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. All DRUGGISTS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated.

Be sure and ask for **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. For sale at wholesale and retail by Benedict, Burnham & Co., 21 Park Row, N. Y.; Gale & Robinson, 180 Greenwich street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN ENOS LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,

Manufactured under Patents of the Colwells, Shaw & Willard Manufacturing Co.

Adopted by the Cities of Boston, Charlestown and Chelsea.

A NEW WATER PIPE, free from all the objections to common Lead Pipe. One-fifth of its thickness is Tin, and the two are united by a coat of Lead, forming a perfect union. Water conveyed through it only comes in contact with the tin.

Is as Strong as Lead Pipe of twice the weight per foot.

Costs less per foot than Lead Pipe of the same strength.

Also, superior qualities of WHITE LEAD and ZINC, dry and ground in oil, RED LEAD, LITHARGE, LEAD TRAPS, TIN PIPE, SHEET LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by **Boston Lead Co.,**

New Carriages got up to order. m27—tf

Carriage Manufactory.

The subscriber has established his business so that he is now prepared to MANUFACTURE and REPAIR Carriages of all kinds in the best manner. I am constantly making, and usually keep on hand, EXPRESS, BEACH, PLEASURE and CONCORD **WAGONS,**

Light and Heavy WHEELS. Also,

Sleighs, Pungs, Express Sleighs, &c.,

All made in the best manner, of the best stock, and in the best style of workmanship.

The best of SEASONED LUMBER always on hand.

I employ the best workmen, and mean to get up Carriages as good as can be obtained at any other place, thereby enhancing the business and prosperity of the city. My Carriages are in constant use here, and elsewhere, and give good satisfaction. All kinds of

Blacksmith Work done in the best manner.

☞ In the **Horse Shoeing** department I have employed Mr. FRANK C. GOWING, of Providence, R. I., who cannot be beat.

Public patronage respectfully solicited.

GARDNER J. GREENLEAF,
State Street, next to the Custom House,
PORTSMOUTH, N. H.

Patent Elastic Ventilating
INNER SOLES.

They are a sure and perfect **Remedy for cold or sweaty feet.**

They will relieve RHEUMATISM and NEURALGIA.

They are an **Elastic Cushion** under the feet of the wearer, a substitute for the ELASTICITY OF YOUTH to the aged.

They work as air pumps under the feet when walking, and raise the feet above the contact of dampness or cold.

They encourage and absorb the Natural Perspiration of the feet, PURIFY THE BLOOD, and contribute to the HEALTHY condition of the system.

They may be worn inside of Rubber Boots without slippers, and will prevent the bad results of the perspiration of the feet.

They may be worn with thin soled **lenky boots** in any walking with perfect safety.

They are of GREAT VALUE to the Students of SCHOOL CHILDREN, who are liable to sit all day with damp, cold feet, and sow the seed of disease.

They are the **Cheapest Inner Soles** in the Market.

One pair will outwear **eight pairs** of any other Inner Soles known to date.

Sold by Boot and Shoe Dealers. Retail price $1 per pair. Circulars and Certificates sent free. A wholesale only by E. A. HILL, Proprietor, No. 7 Union street, Boston, Mass.

Certificate from H. Williams, Esq., Treasurer of the Worcester Railroad.

WORCESTER, Oct. 22, 1867.

MR. HILL:—I have used PATENT ELASTIC VENTILATING INNER SOLES through a portion of the last winter with great satisfaction, as a means of keeping the feet warm and dry.

Being troubled with tender feet, I have continued their use with lighter boots through the summer, and find them to exceed my anticipations, keeping them DRIER and COOLER in hot weather, and giving an agreeable elasticity in walking.

Very truly yours,
HORACE WILLIAMS.

LOSS AND GAIN.

From Poems of Faith, Hope and Love by Phoebe Cary. Published by Hurd & Houghton.

Life grows better every day,
If we live in deed and truth;
So I am not used to grieve
For the vanished joys of youth.

For though early hopes may die,
Early dreams be rudely crossed;
Of the past we still can keep
Treasures more than we have lost,

For if we but try to gain
Life's best good and hold it fast,
We grow very rich in love
Ere our mortal days are past:

Rich in golden stores of thought,
Hopes that bring us wealth untold;
Rich in all sweet memories,
That grow dearer, growing old.

For when we have lived and loved,
Tasted suffering and bliss,
All the common things of life
Have been sanctified by this.

What my eyes behold to-day
Of this good world is not all,
Earth and sky are crowded full
Of the beauties they recall.

When I watch the sunset now,
As its glories change and glow,
I can see the light of suns
That were faded long ago.

When I look up to the stars,
I find burning overhead
All the stars that ever shone
In the nights that now are dead.

And a loving, tender word,
Dropping from the lips of truth,
Brings each dear remembered tone
Echoing backward from my youth.

When I meet a human face,
Lit for me with light divine,
I recall all loving eyes
That have ever answered mine.

Therefore they who were my friends
Never can be changed or old;
For the beauty of their youth
Fond remembrance will can hold.

And e'en they whose feet have crossed
O'er the noiseless, calm abyss,
To the better shore which seemed
Once so far away from this;

Are to me as dwelling now
Just across a pleasant stream,
Over which they come and go,
As we journey in a dream.

— An illicit distillery was discovered by the revenue officers at Woodside, Long Island, on Wednesday. The engine for running it was eighty feet under ground, and the water supply was twenty feet below that.

— Spencer who was arrested some time ago for the alleged counterfeiting of seventy-thirty bonds, and was released on twenty thousand dollars bail, appeared before the United States Commissioner at Newark, when his examination was postponed and his bail increased to $30,000. His wife, who is implicated with him, also had her bail increased to the same amount.

— It is no wonder that Delaware is a Copperhead State, the so-styled Democracy being really a narrow aristocracy. The Wilmington Commercial says: The Legislature of this State, comprised of an equal number of members from each county, regardless of population, was thus apportioned in 1792. Having undergone no change since then, the situation has become such that in the Senate a majority of the members is chosen by *one-third* of the adult male population, and in the House *by less than one-third.*

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twelve* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. THOS. EWBANK,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—all of who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.
John H Moran, W H Thompson U S N
Joseph H Gardner, Alexander L Robinson
John H Morrill, Elizabeth Hewitt,

Adams' Novelty Skirt.
PATENTED JUNE 18, 1867.
This celebrated Patent Skirt is pronounced by hundreds of ladies who have given it a thorough trial, to excel all other Skirts ever offered to the public. The chief point of its excellence are, PERFECTION IN FIT, upon a new principle just invented. Equal distribution of weight around the waist-band so that every skirt is EXACTLY BALANCED. Entire Freedom from injury to Under Clothing. The Bustle Springs are fastened together in front, and made an one complete hoop. A double support down the front of the skirt where support is most needed. PREVENTS the Skirt from SAGGING. Every skirt is stamped with its positive waist size and length upon the band, and the relative proportion of the hoops to the waist-band is perfect in every skirt. It is Absolutely Impossible for the Hoops to work up around the wearer while standing or sitting in a crowd. Sold at BACHMAN & CO'S.
o23 Portsmouth, N. H.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 2, 1867.

NEW HAMPSHIRE ITEMS.—Lectures to raise funds to buy a Bell, in Lebanon, netted $103. About an acre and a half of land, situated in Lebanon, was recently sold for four hundred and sixty-five dollars. A beautiful situation, and the buyer, Mr. Samuel Bean, intends to erect some elegant buildings.

A State Temperance Convention is to be held in Concord on the third Wednesday of January next.

"Ox-Bow village," of pleasant memory to the readers of Dr. Holmes' "Guardian Angel," is said to have its counterpart in Hanover. Dr. Holmes was a member of the Dartmouth Medical faculty in 1838.

The Statesman says that Dudley Leavitt, author of the almanac which bears his name, kept one of the winter schools in Concord fifty years ago.

Chief Justice Perley, of this State, has less than two years to serve before reaching the age of seventy, the period of constitutional retirement from the bench.

The Selectmen of Plainfield, at a Town Meeting, Nov. 21st, were authorized to sell all the Town Property, including the remaining part of the Farm.

The Philadelphia Ledger mentions a call by a gentleman from Nashua, aged 82 years, who was married last week, and is now on his wedding tour.

A lad named Joseph I. Merrill, 15 years old, was killed on Monday morning, at Goffstown, by falling down stairs, supposed in a fit.

Charles G. Briggs, aged 13, was killed at Charlestown, Nov. 19, by a falling tree.

G. W. Bean, formerly of the Stark Mills, Manchester, but latterly of Lewiston, Me., has been appointed Superintendent of the Great Falls Manufacturing Co.—Major J. E. Angell, of the Stark Mills, takes charge of the carding department, at the Great Falls Co.

A son of Mr. Sherebiah Garland, of Rochester, aged about 10, was drowned 19th inst., while crossing the river near his father's house.

Richard Richardson, formerly of Rochester, son of Ephraim Richardson, was recently killed at Oakland, California, while trying to arrest a negro.

DRUNKEN RIOT at East New York, on Thanksgiving Day.—This was a great outrage. A Williamsburg fire company had been on a visit to another fire company at East New York. They had the usual dinner, and drank large quantities of whiskey Leaving the engine house after midnight, they marched through the streets. Upon arriving at Miller's Hotel they demanded admittance, but it was closed in compliance with the excise law, and Miller refused to admit them. The rowdies first smashed every window in the house, then burst open the door and smashed all the furniture they could lay their hands on. Not satisfied with this, they then commenced beating men, women and children in brutal style, and attempted to burn down the hotel by throwing the stores over on the floors. The scene was horrible. The Cordia Singing Club, of East New York, which was holding a soiree at the time of the attack, repaired to their homes, obtained shot guns and revolvers, and returned. They drove the ruffians from the hotel into the street, where a terrific fight took place, guns, pistols and bludgeons doing good work in punishing the scoundrels and driving them off, after an hour's battle.—No police were to be found.

Several of the firemen are under surgical treatment, having been carried home by their brother roughs, but none are known to be killed.

THE COUNTERFEIT SEVEN-THIRTY NOTES.—The Washington correspondent of the New York Herald says:

"After the return of Col. William P. Wood, Chief of the Treasury Detectives, with the electrotype plates for printing the face, back and tints of the spurious one thousand seven-thirty notes, it was questioned whether these spurious issues had been printed from these electrotype plates or from steel plates. This doubt has been dispelled after a careful comparison and examination by experts, and no doubt now remains that the spurious notes were printed from the identical plates now in the possession of the Secret Service division of the Treasury Department."

The statement by the Detectives, that they would secure these plates and arrest the counterfeiters, has been verified.

☞ At Berlin, Prussia, Nov. 28, the citizens of the United States held a festival, in observance of the National Thanksgiving Day, at which, in the afternoon, 170 American ladies and gentlemen were present, besides a number of eminent foreign guests and friends of America. Hon George Bancroft was chairman and made a speech, which was replied to by Herr Forkenbrek, President of the Prussian Chamber of Deputies. Both speakers gave expression to the cordial state of feeling existing between the American and German nations. The festivities concluded in the evening with a brilliant ball.

Gazette Correspondence.

ABOUT ARITHMETIC AND SLATES.

By Rev. I. F. HOLTEN, So. Malden, (Revere) Mass.

Dear Oddest,—My long silence has lasted an appreciable part of your existence, and I do not now think I can finish up what I have to say in a single letter; so I detach one subject to get it off my mind. It is an important one, and has occupied me long. I began teaching Colburn's First Lessons in the Academy at South Berwick, when the book was new and I was young—not thirteen. Then, and ever since, I have wanted assistance that the books have not afforded me. The faculties to be acquired are two: an ability to add, subtract, multiply and divide; and, what is harder to teach and to learn, to apply these operations. The first is easy to learn; and long strings of sums, all done alike, are rather a hindrance than a help to the other. And this is aggravated by hard sums in mental arithmetic.—"Nine-eighths of forty-eight are how many times two-sevenths of twenty-eight?"

My little girl, in just two years after fording the rubicon of "words in three letters," was marched into a quagmire of this kind.—After floundering there long enough, I wrote to her teacher that I thought the page they were on had damaged the class about $5 each. Her answer in substance was "TAPE!" No visible progress was made till a change of schools brought a change of evils. The Acheron of the larger Arithmetic in which she was immediately whelmed, was a set of metaphysical definitions of *Quantity, Mathematics*, &c. She had nearly mastered the definition of *Rule*, when she escaped without touching shore, into Mr. Carleton's Physiological School, of which I think I had before written you that I hoped it would initiate a reform in the health of women—of educated women especially, a race verging on self-extermination.

Here she found herself across the dismal flood, fairly entered on numeration, and soon was in multiplication. Her book is now Eaton's, the third of a series published by Taggard & Thompson. I know of no better series. My hopeful girl tells me that if one horse will trot twelve miles in an hour, two will trot twenty-four miles in the same time; and that if a bin of oats will last one horse six weeks, it will last three horses eighteen weeks. Such conclusions I hoped would be avoided by the use of the first two of Eaton's books. Furthermore, this series contains our new weights and measures. It ought not to be the only one of which this is true, but I know of no other.

Do not understand me that I value slightly the mere ability to add and multiply correctly, rapidly and with ease. Many persons are ruined for mathematics for the want of this. I once had a pupil of the age of twenty-six, of respectable capacity, who had taught school, had often been part way through Compound Addition, but never further. I found that she did not know all the multiplication table, and she believed that it was impossible for her to learn the whole. I took her a *square* multiplication table—*no other ought ever to be used*—laid a small coin on it and drew a mark around the space it covered. She found in that little circle all that she did not know.—She soon mastered it, and marched in triumph through the book.

But my great problem has been to familiarize addition. It is not many weeks since I first solved it to my entire satisfaction. This was by inventing a Daily Praxis for the use of the young pupil till it can be executed without effort. Here it is:

DAILY PRAXIS.

32 plus 2	54 plus 8	57 plus 8
43 plus 3	65 plus 9	68 plus 9
54 plus 4	76 plus 7	97 plus 9
62 plus 3	87 plus 8	68 plus 5
73 plus 4	94 plus 6	29 plus 7
84 plus 5	25 plus 7	97 plus 8
92 plus 5	36 plus 8	49 plus 8
23 plus 6	45 plus 6	38 plus 6
32 plus 7	56 plus 7	16 plus 9
43 plus 5	63 plus 8	29 plus 5
52 plus 6	72 plus 9	97 plus 6
65 plus 5	84 plus 7	46 plus 5
76 plus 6	12 plus 8	86 plus 8
87 plus 7	13 plus 9	95 plus 7
28 plus 8	25 plus 8	18 plus 5
30 plus 9	36 plus 9	29 plus 4
43 plus 7	44 plus 9	84 plus 7

This is to be read thus: "Two and two are four; thirty-two and two are thirty-four; three and three are six; forty-three and three are forty-six; four and four, etc. The praxis may at length be limited to the third column, which contains the most difficult combinations. This praxis will exterminate finger counting and counting of marks like a dead-shot.

Now about slates. At No. 1 Cornhill, where I find the only ink which I trust in my fountain pen since a genuine sample of Arnold's has become a matter of chance, I lately happened on some artificial slates that ought to displace the mineral specimens which are so heavy and noisy. They are made of bookboard faced with a patent composition which preserves its grit and blackness wonderfully. Sold in a liquid form, it is used for roofs and also to line vessels of wood or iron for holding strong acids. I boiled a slate half an hour—boiled it in pieces, in fact—and afterwards applied muriatic acid to its surface without detriment. It is too harsh at first, and rather improves with wear.

Speaking of slates, I should like to "break the slate" of our politicians. Has the party that crushed the power of England and Dixie become so poor in men, that they must take for corypheus one for whose truth to the party one man must testify, for his temperance another, and for his statesmanship *no one?* I wish to vote for a man who has been temperate as long as I have, right on the question of human rights longer than I, and whose literary attainments are greater than mine. I wish to vote for two such men. Are we not sure that we have them? Better rob the beach of Chase or Underwood than take a man about whom there can be a doubt. Our strength is the righteousness of our cause; let us not impair it, for in justice is ultimate victory.

THE U. S. SENATE, Nov. 29, discussed at length, in Executive Session, the duration of the first session of the Fortieth Congress.—President Johnson and Secretary Seward assert that the session ended in July, and that a recess of Congress then commenced; but the Senate decided that Congress has been in continuous session since the 4th of March, and that the first session of the 40th Congress will not expire until the time fixed for the adjournment, *sine die*, which is Monday at half past eleven.

Nominations before the Senate are returned at the close of a session, but the Senate has retained those sent to it by the President in July, and Friday, after having decided that there had been no legal recess, took action thereon.

Horace Capron of Illinois, who was a Col. of volunteer cavalry, and afterward a Brig. Gen. during the war, was confirmed as Commissioner of Agriculture, in place of Isaac Newton, deceased.

Horace Greeley's nomination as Minister to Austria, was taken up and confirmed.

On motion of Mr. Fessenden it was resolved that all subjects before the Senate at the close of the present session, including those before the Committees, should be continued to the next session, and then shall be continued in the same manner as if no adjournment had taken place; and the papers which have been referred to the Committees and may be in their possession at the close of this session, shall be informally returned to the Secretary, and by him returned to the Committees when appointed at the next session.

☞ The counterfeiters of foreign perfumery pay but a poor compliment to the sagacity and taste of American ladies, if they expect them to buy their simulated "extracts," when Phalon's Night-Blooming Cereus—the finest article of the kind in any country—is obtainable everywhere.—*Appleton Crescent.*

A SHOCKING CASE OF DESTITUTION IN LYNN.—The Reporter states that a family in Franklin Court were discovered to be utterly destitute and without a particle of food or fuel, a few days ago. The woman was confined, when one of the children went to secure the assistance of a neighbor. On entering the house, the neighbor was shocked at the unexpected misery that it revealed. Four children, including the infant that had just been born, were in the house. One child had died, probably from want, within a few hours of the birth of the baby, and still lay dead in the house, and another child was sick, almost unto death. There was not a crumb of food in the house nor a cent to buy any. The neighbors at once remedied this condition of things. The woman's husband is a Second Advent preacher, and at the last camp-meeting of the Adventists $76 were subscribed to enable him to go to Nova Scotia and preach "until the Lord should come." He went, and has not since been heard of, his wife not knowing whether he is dead or alive. The unfortunate woman had borne her terrible privation in silence.

THE "THRIFTLESS" RACE.—Mr. Clark of Manchester, who talked so feelingly about the present condition of the "unfortunate" southern Freedmen, at the recent Concord Convention, would find many evidences in Washington, (says Perley) that they are not so badly off as he thinks.—For instance: the October monthly statement of the Freedmen's Savings Bank shows that at the office, in Washington, during the month, the amount of deposits was $25,489 56; drafts, $23,952 32; due depositors, $58,464 66. The total amount of deposits for the month, at the various offices for Freedmen throughout the country, was $207,945 13; drafts, $177,763 76; excess of deposits over drafts, $30,181 36; total deposits, $2,617,517 93; total drafts, $2,083,114 07; balance due depositors, $534,400. This shows that the Freedmen are not all "unfortunate," although they are no longer slaves.

☞ Considerable excitement has been occasioned in Amesbury, in consequence of the sudden disappearance of Mr. Robert Butterworth. A hat picked up in the street Sunday morning, answers to the description of one worn by him. He is said by the Villager to have been a very industrious man, and not given to overindulgence, in drink, but no man who "drinks" at all is *ever* safe from "overindulgence," and we fear there may have been a brick in that hat.

☞ Hall's Journal of Health for December has a leader on Cookery, &c.

Has your Daughter secured a Certificate of the Washington Library Company of Philadelphia, in aid of the Riverside Institute, for educating orphans? Each certificate costs a dollar, with a beautiful engraving, worth more than a dollar at retail, and secures besides, a present at the Great Distribution by the Company, and an equal chance that the present may be one worth thousands of dollars. Such may be made rich through an act of benevolence. Read advertisement. 9

O, is there aught on earth so sweet,
The wearied husband's eye to greet,
As when from labor he returns,
Finds a bright fire which for him burns—
The snowy cloth for him is laid,
With light and wholesome food o'erspread,
Loves fills each heart and lights each eye.
Knowest thou, ye fair, the reason why?
Bread, cakes and hearts owe their affiatus
To Herrick Allen's Gold Medal Saleratus.

FRANKLIN'S WHISTLE.—Dr. Franklin, when a child, paid all his money for a whistle that was useless to himself, and a great annoyance to his friends. He "was sold," but not so badly as those who buy the health-destroying common Saleratus found in our markets. Flye's Saleratus is pure and wholesome. Sold by grocers everywhere, in pound packages. 30

☞ A Washington letter says, "The leading Democrats here profess to be angry about President Johnson's forthcoming message, which they say will virtually announce his determination to carry out the Congressional plan of reconstruction, although his opinion of it is unchanged. He believes that a majority of the people sustain him. The Democrats believe that Mr. Johnson should declare that the recent elections show that he has been right in his policy, and should assume a defiant and independent position before Congress. Of course they also desire a new deal of offices, as the present incumbents refuse to contribute to the electioneering fund, almost without exception."

To Let.

Dental Card,

HIGHLY IMPORTANT.

DR. GOODALL announces to the citizens of Portsmouth and vicinity that he has purchased the right to use the

NEW PACKING RIDGE.

In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction Firmness and Freedom from Food and Moisture working under the Plate.

The expense of the Patent is considerable, but I shall at present charge only 5 dollars additional whenever I apply it.

I am administering ETHER continually, and from long and successful experience, will promise any one they shall not suffer pain from the extraction of 1 tooth or 32. So put aside your needless fears, and prepare for this Great Improvement in Artificial Teeth.

P. S.—I can also insert Teeth (in many cases) with this New Patent, without extending the Plate over the floor of the Mouth.

E. B. GOODALL, 60 Congress Street,
n28 Portsmouth.

Dental Notice.

At No. 8 MARKET STREET, FOLSOM & WEED are using, and have been using for nearly a year, the Patent PACK RIDGE on rubber dental plates, invented by Dr. N. P. Folsom of Boston.

Also, put in the Alviola Plate with same Ridge.

AMERICAN

WALTHAM

WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. The first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good, of course there must be no defect in the principle or plan of the movement, and no mistake in the sizes or shapes of the pieces of which it is composed; nothing wanting in their properties, and no error in their positions. Then, when one once thoroughly settled, it rests wholly with the machinery constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of delicate gauges and microscopes, tests and inspection for the detection of defects in the cutting tools, and for faults and flaws in steel or brass, are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to fit properly in its place. Every pin may be pushed full to its pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they have produced watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good watch, and nobody need be afraid to buy it.

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and Provinces.

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm. IT CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, at though its daily and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

Local.

☞ It sometimes becomes the duty of men in public positions,—as clergymen and editors,—to censure and condemn the acts of other public or prominent men in political or military life—and it may be perhaps intimate friends or pleasant associates or acquaintances. And while this is neither agreeable nor desirable on the part of the censor, any man who would shrink from doing his duty in such an event, must be unfit for the place of a teacher or journalist. But none save the veriest sectarian or partisan would ever attack a man on account of his religious belief or political opinions, unless exhibited or expressed in an improper manner.

☞ Judge Doe is well known as a stickler for the proprieties of the Court Room, and defender of witnesses from the abuse of insolent pettifoggers, (for no true lawyer, not to mention gentleman, ever insults or attempts to browbeat a decent man on the witness stand); and His Honor often brings his great powers of sarcasm to bear on some limb of the law who has mounted too high stilts of bombast, or dug too deep in the too often privileged slime of the "profession," forsooth!

We have heard a story of this same Judge, sometime since—how a somewhat noted limb of the law, and especially of "jaw," in an interior town, who was at one time in military life—was pleading a case in another county; and with wine in and wit out, ran all to wind and buncombe. The Judge told him he didn't like his style—he replied that very few people did, in fact he didn't like it himself; and pretty soon he got going at the same gait again. This time the matter-of-fact Judge of what is right and proper, as well as lawful, brought him up with a round turn, and launched at him so scathing a rebuke, that he not only stopped short in his bifaluten speech, but left his case and that Court and town forever.

So last year, at the Term in this city, a certain rather noted Democratic attorney was so censured by Judge Doe on one or two occasions for outrageous conduct toward witnesses, that he deserted the Court—as much disgusted with the treatment, as everybody else, except perhaps his client, was with him. And this year, during the trial of Portsmouth Police Officers on a criminal's account, (rather a reversal of the usual order of things, and of justice, it would seem,) plaintiff's counsel shew so much bitterness toward the defendants, that His Honor called him to order by reminding him that there was no need to get so excited about the matter. He replied that perhaps the Court would prescribe the proper course for him to pursue in the case; but was answered that a practicioner of his talents and experience did not need to be instructed as to the manner in which he *should* proceed, or words to that effect—and the case went on; though it should have gone "off," according to our way of thinking.

☞ The Journal says, "Mr. Stevens received a larger vote than was ever before given to a Republican Mayor. The party were united and have increased in strength, casting 176 more votes for Mayor than were given last year, and hold the control of the city government. Notwithstanding the desperate efforts of the Democrats, they have not increased relatively above the Republican party."

—We can't understand how Portsmouth throws 2052 votes. The population is less than here, but the vote much larger.—*Newburyport Herald.*

The wonder was as great here. It was thought that some grave yards must have had a thorough application of a garden rake and a fine tooth comb to produce the many apparations who will never again appear to be checked.—*Journal.*

☞ Lieut. and Brevet Major Wm. D. Fuller, last stationed at Fort Constitution, has just been promoted and confirmed as Captain of Co. F, 3d U. S. Artillery, and ordered to Fort Independence, Boston Harbor. He is to be succeeded here by Lt. E. Pendleton, (incorrectly reported heretofore).

So it seems that the courts martial which have recently been held here have been of no particular utility, unless in acting as arbiters of disputed questions. As we have been the recipients of courtesy, and nothing else, at the hands of *all* the officers at this post, it has been only in our capacity of public journalists that we have made mention of occurrences which might seem to reflect upon the conduct of some of them.

☞ Mr. Ralph Waldo Emerson's lecture before the People's Lyceum in this city last week, was as usual with him, a string of pearls, but not presented in the most impressive style. In appearance,—person and dress—Mr. Emerson is about as good a specimen of ungainly Brother Jonathan as we ever saw; and as he stood at the low desk, so tall as to be more above than below it, and spun out the thread of his silken discourse, in the most dreamy, unimpassioned manner—or at intervals, pausing, turned over and over his random pile of half sheets of paper, hunting for his "place;" half audibly remarking, all the while, that he was very unfortunate to get his papers so disarranged—though we were told by a friend present, this is always his way of doing,—he presented a picture almost ludicrous, did not one know the splendid mind and rich culture of the man.

☞ Admiral John D. Sloat, U. S. N., died in New York on Thanksgiving Day, aged 87. He is remembered here as a Commandant on the Navy Yard, several years ago.

☞ Mr. Barnabee announces the first Concert of his series, this evening, at the Temple, with a strong cast. Mrs. Smith is a charming singer and a beautiful woman; the new tenor,—new here, we mean,—it is fair to presume is a nice vocalist; and the player on the mouth harmonica is quite a hero in and around Boston. Mr. Dow will preside at the piano. As for Barnabee himself, we suppose we may expect something new and rich from him to-night. Concert begins at a quarter before 8. Tickets for the series of four concerts, only $1; single evening, 50 cents.

Mr. Barnabee gave a benefit to the poor citizens of Portsmouth last winter. Let *him* have a full benefit to-night; he is every way worthy of it.

☞ We regret to hear that our neighbor of the Journal had the misfortune to knock a page of their paper into *pi*, after Friday's edition was printed. Coming so soon after Thanksgiving, such a heap of amusement must have been particularly unpalatable.—Thus may a boy, in a moment of carelessness, do more injury than he can do good in a month—in a printing office, as many other places.

☞ The Rockingham Ten Cents Saving Bank is now open for business, at their newly-fitted rooms, over Mr. B. Cheever's store, Market Street. "A penny saved is two pence earned."

☞ The brig Sally Brown, Capt. Matthews, light, bound for Wiscasset, started to leave this port on Saturday morning, but being short handed was obliged to come to anchor off Church Point, to prevent being carried ashore by the tide before enough canvas could be spread to give her headway. On the turn of the tide she made a second attempt, the wind blowing fresh as a young hurricane, and was carried ashore on Seavey's Island, near the gut which separates it from the Navy Yard. Efforts to remove her that evening proving futile, she lay there until high tide on Sunday, when she came off uninjured and went to sea.

GOLD, Saturday, 138 7-8.

— The solution of the Albemarle ghost, which has been causing great excitement in that portion of Virginia for several weeks past, has been found. A negro with a magic-lantern had been employed by a man who wished to buy Morris' farm, to frighten the family off, so that he might get it for a low price. He has been arrested, after having brought the entire community into unusual fever for more than three weeks.

500 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they are still at work with the same energy until the connection of the Western Division is being pushed rapidly eastward from sacramento by the Central Pacific Company of California, and it is expected that the whole line will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and most laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money

have already been expended by this two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad to develop and protect its own interest, it gave the companies authorized to build it such inducements as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and being six per cent. currency interest at the rate of $16,000 per mile for all miles on the Plains, and at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half is retained and placed to the company's credit, and forms a sinking fund which may pay the whole charge the whole amount of this lien. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *no more, and only as the road progresses.* The Trustees for the bondholders are Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from government of 12,800 acres to the mile on the line of the road; which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of the line have been let from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, has been made with responsible parties (who have already finished over 500 miles), the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all machinery shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, mail and freight cars under the requisite rolling stock, to an amount that shall not be less than $3,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles, at 90,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,389,750
Land Grant, 14,089,000 acres, at 1.00 per acre	21,120,000
Total	$85,145,750

The Company have ample facilities for supplying the additional that may be required for construction. This may be done without any part by additional subscriptions to capital stock.

Another item which already been made for a portion of these lands, and arrangements are proposed to offer a part of them for sale. While their value is great, it will not be available for some years to come, they will remain in the meantime a source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $5 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over its line, connecting railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation. Such as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid st amers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the rich spices and other products of Asia. Asia. Excepting some very heavy or bulky articles of comparatively low values, shortness of time decides the destination of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track to necessary. California and Oregon must not only be supplied with means of transportation for passengers, mail, treasure and other freights, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Montana will communicate with the Eastern States almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting the ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, for the present business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 328 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails,	$723,755 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,839 92
Net Earnings to balance	807,508 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were $27,966 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$73,755 54
Expenses " " "	27,966 50
Net Profit	$45,789 04

The amount of bonds the company can issue on 328 miles at $16,000 per mile is $5,248,000. Interest in gold, three months at 6 per cent. on this sum is $78,00 ; add 40 per cent premium, to correspond with currency earnings, $109,200—showing that the net earnings for the quarter were more than four times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six Per Cent in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at six per Cent in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts of other funds par in New York, and the bonds will be sent free of charge by return express. n3—3m

Secure Profitable Investment.

THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the prefered claim upon one of the most IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Region in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$593,847 92	$192,108 61	$401,739 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and protected the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	3,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 726 miles	$77 834,000

The FIRST MORTGAGE BONDS are in sums of $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from Jan. 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior claim upon the whole property furnished by the above Resources. They have special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, and large and present profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from **12 to 18 per cent. Advantage,** with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

WINTER.

The frost has nipped the buds and flowers,
Along the hills and valley;
No verdure decks the groves and bowers;
The woods look melancholy.

The harvest fields look wild and drear;
The hay seed robes are withered;
No golden fruits the orchards bear;
The garden flowers are gathered.

We oft will muse by Winter's light,
When icy winds are blowing,
Of Autumn days and Summer nights,
And Spring, at its first wooing.

But soon the birds of Spring will come,
With flowers young and tender,
And Summer with its sultry sun,
And Autumn with its splendors. —ANON.

☞ On Thanksgiving evening at Hartford, Conn., Richard Bradley, 81 years of age, a jeweler, an old bachelor and a quiet and inoffensive man, was murdered by an English thief John Brooks, and a colored man Alexander Henry, who broke into his store and robbed it of a few articles of cheap jewelry, knocking the owner down and gagging him with a handkerchief. Both the villians have been arrested. Brooks was seized as he was leaving the store and held by Jacob Kirsh and J. W. Arthur. Henry was taken in a house on Charles street next morning. Immediately after Brooks' arrest, the officers entered the store, and though but a few minutes had elapsed, Mr. Bradley was found dead of suffocation. The coroner's jury found that Bradley came to his death from injuries received at the hands of Brooks and Henry.

☞ "Perley," the well known Washington correspondent of the Boston Journal, is becoming blind. He has lost the sight of one eye entirely, while the other is rapidly losing its power. While at the Nashua State Fair, in September, Major Poore spoke of his approaching blindness with philosophic firmness and resignation.

☞ Jerry Black testifies that he wrote President Johnson's veto message against the Reconstruction bill; but President J. or somebody else toned it down so as to make it less offensive. He has not seen President Johnson since he prepared that veto. Exit Jerry.

— Adm. Farragut, in the Franklin, with his fleet, sailed from Boston, on Nov. 18.

— Mrs. Senator Sumner, who has just returned from Europe, went abroad to attend a sister who was very ill in the south of France.

— A colored convention is holding in Lexington, Ky., for the purpose of petitioning for the privileges granted in other States.

— Silas Bronson, who died at the St. Nicholas Hotel, in New York, on Monday, was a native of Middlebury, Conn. He leaves an estate estimated at over one million dollars. He gives by will $200,000 to the city of Waterbury for a public library, to each of his twenty-five nephews $15,000, and the rest to his heirs-at law.

THE NEW HAMPSHIRE GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Ko hschild, Paris 9th April, 1867. "I am 56 years old. Until now I have enjoyed the most perfect health. But I am subject to a cough, which sometimes troubles me. Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, it will forward you the amount through Messrs. Belmont & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready, as a killer of pain, taken inwardly, or outwardly applied, is the best remedy for the relief and cure of *Rheumatic and Neuralgic Affections Sprains, Bruises, &c.*, it is unequalled.—It is also most effective, taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. BUSINESS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for MAJOR LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; E. C. Wells & Co., 162 Clifton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by DEMAS BARNES, Sole Proprietor, and by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,

Manufactured under Patents of the Colwells, Shaw & Williard Manufacturing Co.

Adopted by the Cities of Boston, Charlestown and Chelsea.

A NEW WATER PIPE, free from all the objections to common Lead Pipe. One-fifth of its thickness is Tin, encased in four thirds of Lead, forming a perfect union. Water conveyed through it only comes in contact with the tin.

It is as Strong as Lead Pipe of twice the weight per foot.

Costs less per foot than Lead Pipe of the same strength.

Also, superior qualities of WHITE LEAD and ZINC, dry and ground in oil. RED LEAD, LITHARGE, LEAD PIPE, TIN PIPE, SHEET LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by Boston Lead Co.,

J. H. CRADDOCK & CO., Agents,
49 and 53 Broad Street, Boston.

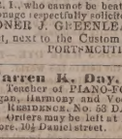
Over Mr. J. H. READ'S Store, which is for sale at the Manufacturers' Prices, and which interiores and the public are invited to call and examine. nt7 T. P. MOSES.

SPEER'S SAMBUCI WINE.

Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated.

As a Diuretic it acts on the Glands, Kidneys and Urinary Organs; and as a Sudorific, is unequalled in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.

The qualities of SAMBUCI are *medium in purity,* being at once a Tonic, Diuretic, Alterative, Diaphoretic and Sudorific.

N B—Vinum bonum bonum sanguinem facit.

SPEER'S SAMBUCI is a pure juice wine with fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting indies and children.

Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.

For sale by Town Agents and Druggists.

The Chronicle.

GEORGIA.—A letter from a prominent citizen of Atlanta says that a new political movement, based upon the belief that reconstruction under the laws of Congress is certain to be accomplished, and conceding impartial suffrage as an irrevocable fact, has been started in that State, and that it is designed to make such liberal concessions to the colored voters as to carry a large portion of them into the party and thus secure the substantial control of the State to the white element. They concede all that Congress has proclaimed.

[What wonderful condescension it must be for these conservatives to concede what they cannot prevent—and how green they must think the negroes have grown, in spite of their black skins!]

☞ The counterfeiters of foreign perfumery pay but a poor compliment to the sagacity and taste of American ladies, if they expect them to buy their simulated "extracts," when Phalon's Night-Blooming Cereus—the finest article of the kind in any country—is obtainable everywhere.—*Appleton Crescent.*

THE SPANISH AMERICAN WAR.—The New York Times recommends that some one of the great powers step in and give to Spain and the allied powers on the west coast of South America a chance to make friends, as each is powerless to do more than create expenses to the other, while both parties are injuring others.

It has been more than a year since a blow was struck by either party; and for more than a year past, ever since the bombardment of Valparaiso, in fact, it has been apparent that both parties to the struggle are powerless to damage one another.—Spain has no troops to land in Chili, and her fleets cannot enter at Valparaiso or at Callao, nor can they devastate the coast settlements or blockade the seaports. Chili and Peru cannot cross the ocean and enter any seaport of Spain, and all the mighty preparations for preying on the commerce of Spain and making a descent upon Cuba, have resulted in little or nothing. Meanwhile trade with the west coast of South America has been paralyzed by the nations making mouths at each other, without having the power to do more.

GEN. CUSTER'S SENTENCE.—A Fort Leavenworth letter of the 25th states that the sentence of Gen. Custer, Lieut. Col. of the 7th Cavalry, whose case was sent to Washington some time ago for the President's final action, was received there and read before the troops on dress parade that evening. Some of the charges upon which he was tried were, absence from his command without leave, and leaving his men in the hands of the Indians without any effort to rescue them; making haste on his return march, thereby causing much damage to the stock; and conduct prejudicial to good military discipline. The sentence finds him guilty, and suspends him from rank and pay proper for one year.

—Gen. Howard remonstrates against the proposed mustering out of the officers of volunteers on duty in the Freedmen's Bureau, and Congress may pass a joint resolution instructing Gen. Grant to retain them. Should this be done the General will have to obey either Congress or the President on a direct issue.

They Have Never Been Beaten.

The PIANO FORTES manufactured by Messrs. HALLET, DAVIS & CO. of Boston, have never been excelled.

The subscriber has sold and used them for many years, and they have proved equal in all respects to any other make, and superior to most.—Pianos which I sold to parties in this city from FIFTEEN to TWENTY YEARS ago, are giving perfect satisfaction to-day.

THE STOVE FOR THE MILLION!

THE
KEARSARGE
HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jenness, Capt John Fisher, Mrs Wm Hasket, Israel Marden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob G Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred D Moses, James Douglas, Ephraim R Downs, George Booth, Mrs Augustus Shackley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Beal, William Akers, Silas A Kaud, John Kimberly, W H Thompson U S N, Alexander L Robinson, Elizabeth Hewitt, Wm B Norton, J G Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Bilbrook, Chas A Green, Simon H Mills, Mrs Mary McAuley, Phineas Hoyt, Nathan Whalley, E A G Holmes, Oliver Stacy, Edwin Sanborn, Jas F Jenness, John Senter, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, George K Childs, Chas Locke, Frank Watkins, Albert Leach, Wm Hunter, I F Lord, James Greenwood, Leonard Evans, Oliver Frys

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 3, 1867.

☞ We commend to careful reading the series of articles we are now publishing from our old and highly esteemed correspondent I. F. H. Some of the same influences which he relates in his letter for to-day, as carrying the election in Massachusetts, may doubtless fairly be set down as affecting voting in other places.

Of the rum business he says, "It impoverishes community by flooding it with liquor; a traffic that requires less nerve than piracy and less skill than counterfeiting; but more cruel than either, and more wasteful than both."

So of the voters for rum in Massachusetts—as Falstaff said of his recruits, "Faith, I'll not lead them through Coventry"—so our pungent writer says, "Of the victors, as a whole, it is safe to say that had they been paraded in strict alphabetical order, the sight of their own company would have stampeded them in half an hour."

No doubt of it—and at any rate, a voter in Ward One in this city, who was present at the meeting on which an embargo was laid—tells us that the general appearance of the men present, did not compare at all favorably with the roughs who came here to see the Smith's Isles prize fight recently.

COTTON AND THE BANKS IN LIVERPOOL.—A recent letter from an intelligent source, says:

Business is exceedingly dull in Liverpool, and confidence in cotton speculators is on the decline. Many of them have bought cotton on a high figure, and have been carrying it on a falling market. To enable them to do so, they have borrowed money from banks and bankers until they have involved them all, and failures are the consequence. I hear of one instance where a lady was a stockholder in a bank in Liverpool which recently failed, who lost the amount of her investment, five hundred thousand dollars, and had to pay five hundred thousand more—each stockholder being liable to the amount of his stock—making a total loss to her of one million dollars, all owing to speculation in cotton. Rather hard on the lady, surely.

Our present system of banking is better than that.

SHOOTING AFFAIR AT RUTLAND, VT. We learn from the Rutland, Vt., Herald that while a daughter of Daniel Dougherty, of that town, named Anne, and about fifteen years old, was talking with a youth about two years older than herself named William Long, on Tuesday, Long used insulting language towards her, whereupon she called him a liar and dared him to repeat his remarks, saying that if he did she would slap him. The language was repeated, and, true to her promise, she stepped up to him and administered a blow on the side of his face, when he drew a pistol and fired, the ball taking effect in the abdomen of the girl and burying itself in her intestines, where it still remains, and whence medical skill pronounces it impossible to extract. Although living Tuesday evening, it was not thought possible for her to recover. Long fled to the woods, but was pursued and captured. He belongs in Mount Holly.

☞ The New Hampshire State Teachers' Association is to hold meetings in Concord on the 12th and 13th days of December instant. Ex Governor Smyth is President. Amos Hadley, Esq., State Superintendent of Public Instruction, "believing that Teachers would be benefited by attending the meeting, earnestly recommends to School Committees to allow a vacation for those days to those teachers who desire to attend."

The design is to make the Session preeminently a practical one, so that teachers of all grades can obtain material for use in the schoolroom. Experienced teachers have been engaged, not to read papers upon trite, worn-out subjects, but to tell how to teach. It is hoped that all the teachers in the State will come ready to work. Liberal arrangements for the entertainment of those in attendance will be made. Female Teachers attending the meeting will be entertained free. Persons attending the meeting will obtain Free Return Tickets over the principal railroads. A large attendance would tend to the improvement of the schools in the State, we have no doubt.

Two years ago Mr. J. P. Upham, of Claremont, bought a young Durham Heifer for $75. Last Spring said heifer's calf, four weeks old, was sold for $50. Mr Upham was offered $200, for the heifer. The calf at 5 months old, weighed 600—and $150 was bid for him.

The Tailor's Shop of G. H. Backus, Claremont, was broken open on the night of the 27th inst., and three pieces of his best Broadcloths, valued at about $300, stolen.

—He who is at war with his neighbor, cannot be at peace with himself.

— A subscription of $250,000 is said to be on foot in New York for starting a new Democratic organ.

— A workman by the name of White died suddenly in Norwalk, Ct., recently, of a paralytic shock, caused by a sudden fit of anger. A workman threw a small soft shell clam across the workroom, which striking the belt, threw the liquor upon Mr. White's glasses. This excited Mr. White's resentment.

Gazette Correspondence.

By Rev. I. F. HOLTON, So. Malden, (Revere) Mass,

No. II.

THE GREAT VICTORY.

And this leads me to speak of the great victory which rum has won in Massachusetts. It was a stunner. I had expected it, but I had no anticipation of its extent. "Wine is strongest," said the chamberlain of Darius in the apocryphal book of Edras, but he little knew the might of modern whiskey. Wi' tippenny we fear nae evil, wi' usquebaugh we face the Devil. I was prepared for defeat, but not for *the* defeat. I had hoped that Bullock, who was to be re-elected of course, would veto any bill which should not refer the temperance question to a popular vote. I did not suspect (what I am now told) that if the Governor had not pledged himself not to veto a bill repealing the prohibitory law, he would himself have given place to a Democratic Governor of old Massachusetts! But behold a rum majority elected, amply sufficient to carrry a bill over a veto in both houses! Liquor stands confessed the greatest power in America. The revenue laws are but a fence of bulrushes.—The State Constabulary was the only mastiff whose grip it could ever feel, and that grip is loosened in death, as only it could be.

WHO ARE THE VICTORS?—*First*, Some thousands of convicts. Fairly in the toils of the Constabulary, they had made a defence unparalleled in the history of civilized jurisprudence. They had carried their cases to Washington on the flimsiest quibbles. The end of a lavish outlay of money was the alternative of fine and imprisonment or a repeal of the law. What they expended on the "hearing" last winter, no man can say. What witness fees they paid to bring Dr. Bacon from New Haven, or Dr. Todd from Pittsfield, those gentlemen best know. If there was a decent minister in New England who was on their side and did not testify, I am not aware of the fact. And now, as they faced the eventful fifth, there was nothing for them but either victory or the felon's cell. They have their reward. Their sentences are suspended and legislative amnesty is certain.

Second, Thousands of others who live by impoverishing community by flooding it with liquor. A traffic that required less nerve than piracy and less skill than counterfeiting, but more cruel than either and more wasteful than both, was on the brink of utter destruction.—It has saved itself for a time.

Third, The drunkards of Massachusetts.—True, it is usual for some of these to be earnest for the maintainance of prohibitory laws, but these are insignificant exceptions. An unquenchable thirst naturally wishes enmity to the barriers to its gratification.

Fourth, The Democratic party. It often made no nominations, for the cause of rum was its own. In other cases their candidates were elected as if by magic. But I do not assert that a rumseller, a drunkard and a Democrat usually threw three votes. Often they *tres juncti in uno*—the same man in three capacities.

Fifth, A large portion of the Republican politicians, particularly those who would live by politics as a trade. And here is my consolation: many of them will lead that party no more. It will take years for it to recover from the stabs they have given it, and regain the strength it manifested in 1864 and 1866. But these men will be then remembered.

Sixth, Not a few religious men marshalled themselves in these motley ranks. All the Romish priests and some other ministers and members of churches, who are either open or secret drinkers. But you will find nearly all of them in the classes that enjoy an income of over $1000 per annum. Besides the Chelmsford man, I know of no minister among them with a salary of less than $1500. Of the laymen, many took the wrong side through ignorance, prejudice, oddity, or congenital pseudo-democracy. Of the victors as a whole, it is safe to say that had they been paraded in strict alphabetical order, the sight of their own company would have stampeded them in half an hour.

WHAT SHALL WE DO? In the first place we have the old battle to fight again; and the devil of rum will furnish as new weapons.—Many thousands of the victors of 1867 will have slunk into drunkard's graves—a large fraction of them Irish—before the defeat of their survivors and successors. 2d, we must not forget what the rum papers of Boston have done for us. Can we not import either the Montreal Witness or your Chronicle—the two best dailies, *meo judicio*—to represent our cause? Lastly, the share of the American Board of Commissioners for Foreign Missions in our defeat, should be firmly looked in the face. I say this in sorrow, for my love for the American Board has been life-long, and such as I have felt for no other body. But had it refused to re-elect a prominent executive officer as soon as his hostility to prohibition began to injure their cause, much scandal would have been averted. But his services were valuable from his many years' experience in a very peculiar department, and he asked no other recompense than the prestige their confidence gave him; and this very prestige was worth thousands to the liquor dealers, and was probably sold to them accordingly. I have no advice to offer others in the premises; my own duty as an earnest friend of the Society is tolerably clear to me.

Finally: THE LORD REIGNETH; LET THE EARTH REJOICE!

—A fashionably dressed lady, and very wealthy, dropped dead—drunk, in a Cincinnati drug store recently. So says the Boston Herald.

— The Omaha Republican, the chief organ of the Republican party in Nebraska, boosts the name of Grant for President and Reuben E. Fenton for Vice President in 1868.

☞ At Richmond, Va., Nov. 29, a meeting of colored Republican was held at the Capitol Park, at which resolutions were adopted declaring that in view of the efforts of the Conservatives to intimidate colored voters, Hon. John M. Botts, Gov. Pierpont, Franklin Stearns and others be requested to call a State Convention of white Republicans to assist and direct the colored people in carrying on the election for the ratification of the Constitution. The two colored delegates from that city were present and joined in the request. Addresses were made urging the necessity of having the aid of white Republicans in carrying the election.

☞ The Gospel Banner states that in a series of revival meetings in Stampool, Conn., an estimable lady, who had recently joined the Orthodox church, applied to herself certain remarks made by the revivalists, concerning unworthy church members, and abandoned herself to despair. A few days of terrible suffering, a disordered mind, and a plunge from the steamboat, tell the rest of the dreadful story.

☞ The Herald of Health for December closes the volume of one of the best monthlies in America. The Publishers will send the October, November and December numbers free to new subscribers. $2 per annum; 20 cents single number. Miller, Wood & Co., 15 Laight street, New York.

☞ Blackwood's Magazine for November contains: Part 11 of "The Brownlows," At the Alps Again, Conversation, Linda Tressel, Reynolds and the Portrait Painters of the Last Century, Women in the Middle Ages, The Impending Crisis in America, &c. L. Scott Publishing Co., New York. $4 a year.

☞ That beautiful little annual, "The Lady's Almanac," for 1868, in blue and gold, is now ready for delivery. Mailed for 50 cents postpaid, by George Coolidge, No. 3 Milk St., Boston.

☞ Nathaniel Brewer, Jr., President, and Joseph B. Wheelock, Treasurer, of the Allouez Mining Company, have been arrested in Boston for alleged over issue of bonds and other irregularities.

A HELPFUL BOOK.—We clip the following article, with regard to Prof. Stowe's valuable work, from the editorial columns of the New York Independent of Nov. 14th:

"Rev. HENRY WARD BEECHER, a few Sundays ago announced from his pulpit that the members of his congregation would be called upon by a Book Agent, having in charge the sale of Prof. Stowe's new work, 'The History of the Books of the Bible;' adding, 'I trust every person who comes to Plymouth Church will put that excellent book into his library.' We believe we are doing our readers, of all denominations, a signal service by repeating this advice to the christian public at large.—Every clergyman, every Sunday School teacher, every theological student, every pains-taking bible reader, will find this new volume as useful, interesting and invaluable help in the study of the Sacred Word.

"It is not our custom to make mention of books in these editorial columns; and we make this present notice (which is additional to a critique printed two or three weeks ago) solely with a view to the intellectual and spiritual profit of the eight thousand clergymen and the twenty thousand Sunday School teachers who take the Independent. Prof. Stowe's book ought to have wings, wherewith it shall fly to every minister's study-table, and perch in every Sunday School library."

This popular work is sold only by Agents, and nearly twenty-one thousand copies have been delivered. It is published by The Hartford Publishing Company, Hartford, Conn.

TWO REPORTS.—According to letters from Kingston, Jamaica, there is no truth in the report telegraphed from Havana, to the effect that there had been another outbreak among the blacks,—but there was a riot of soldiers (probably drunken) at Falmouth. Eventually the disturbance was suppressed and the ringleaders punished. The trouble grew out of the award of a prize for target shooting, which was won by a member of the constabulary, to the chagrin of the soldiers.

Per Contra.—A Kingston, Jamaica, letter states that there were great fears entertained of another rising of negroes in the parish of St. Thomas and vicinity at Christmas. Negro drilling is going on at the interior settlements. The Rector of St. Thomas parish has been warned to leave by the negroes, and is going to obey the warning.

— The Indian on the border has buried the hatchet. It was in the brain of an Omaha peddler, bound West.—*Ex.*

Who hath redness of eyes, baldness of head, deafness of ears? He that eats bread made with the foul exhalies in the market. Who so simple is, let him eat his fill thereof and get his long home. But he that is wise, he that would be strong, he that would skip like the roe, with breath like the fresh breeze of the morning, let him use none other than Herrick Allen's Gold Medal Saleratus, and he shall flourish like the tall cedars of Lebanon, and live to a good old age. 17

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair. First, the prompt, quick action, great growth, life and vigor that it is sure to give the Hair, never failing by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, dewlike and unchangeable in any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury to dress their Hair. It retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing immediately all scurf, dandruff and pimples. Price One Dollar. Sold by all Druggists. n21–1m

FRANKLIN'S WHISTLE.—Dr. Franklin, when a child, paid all his money for a whistle that was useless to himself, and a great annoyance to his friends. He "was sold," but not so sadly as those who buy the health-destroying common Saleratus found in our markets. Flye's Saleratus is pure and wholesome. Sold by grocers everywhere, in pound packages. 30

PETTY GAMBLING.—Sunday school gambling schemes—or in other words, lotteries and raffles at church fairs—have become so common a feature at these annual entertainments that the charge of a New York Kings County Judge to the Grand Jury held it was the duty of that body to indict every participant in such practices for violation of law.

—New York is a Democratic city by sixty thousand majority. Its municipal government is a scandal to the nation. Put these two facts together, and educe the conclusion, if you can, that the Republic would be safer in Democratic than in Republican hands.

—It is asserted with more confidence than ever that Dr. Livingstone, the distinguished explorer in Africa, still lives. The particulars are few, but it is said he was safe last April, several hundred miles from the place where it was supposed he was slain.

To Let.

TURNER'S ELIXIR D'OUDUREUX OR UNIVERSAL NEURALGIA PILL: is a safe, certain and speedy Cure for all forms of Nervous Diseases. The severest cases are completely and permanently cured in a very short time. Neuralgia in the face or head is utterly banished in a few hours. No form of Nervous Disease withstands its magic influence. It has the unqualified approval of many eminent physicians. It contains no mercury or injurious drug to the nervous system. Sold everywhere. Sent on receipt of $1 and two postage stamps. TURNER & CO., 120 Tremont st., Boston, Mass., Proprietors.
Boston, July 1, 1867. 1eodswly

Holloway's Pills.—Pregnancy.—During the delicate situation, ladies will experience great relief by using this mild cathartic medicine for correcting those indispositions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach and bowels. They are so mild that the most delicate constitution may take them with perfect safety. For assisting females at the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists. n30daw

Dr. S. S. Fitch's Family Physician,
Dr. Fitch's "FAMILY PHYSICIAN," a most excellent book in all families, 75 pages, 25 cents, sent free of postage to any address. Send no money until you get the book and approve it.—Direct all letters for books or consultation to 25 TREMONT ST., Boston, Mass. It will not be convenient for Dr. Fitch to visit Portsmouth again. s30sd6m

DR. MILLER'S
Soothing and Healing Balsam,
or, Nature's Assistant.
IT HAS PROVED INVALUABLE for Burns, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear Ache, Deafness, Rheumatism, Erysipelas, and Inflammation of the Eyes. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.
AS AN INTERNAL MEDICINE, when taken in season, it will cure Inflammation of the Bowels, Dysentery, Kidney Complaint and Cholera Morbus. It will also cure Diphtheria, Dry Cough and Asthma.
This medicine is purely vegetable in its composition, soothing and healing in its influence, and may be used with safety on any age or sex with perfect safety. It has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a medicine. For sale by all Druggists. **C. D. Leet,** Proprietor, [mh26—dawly A) Springfield, Mass.
Dennis Simmons & Co., 21 Park Row, New York, will also supply the Trade at List Prices. Also by Geo. C. Goodwin & Co., 38 Hanover St., and Ira R. Mansfield, 24 Indis St., Boston.

MOTHER BAILEY'S QUIETING SYRUP, the great quieting remedy for children teething, allays all pain, cures wind colic, convulsions, griping, &c. Large bottles 25 cents. Sold by druggists. s27—dawly

AMERICAN
WALTHAM
WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement, and no mistake in the size or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is found to fit properly in its place. Every pin may be pushed until it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.
This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always as good as new. Hence the high grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit different tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.
Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

ALLEN'S LUNG BALSAM!
THE REMEDY FOR CURING
Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative, diuretic, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and cleanses the lungs from the phlegm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is the secret of many of the most delicate child, although an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.
n11—1m

ONLY 25 CENTS FOR LARGE BOTTLE!—Mother Bailey's Quieting Syrup for children relieves the child from the distress and pain of teething, allays all pain, reduces inflammation, corrects acidity of the stomach and never fails to regulate the bowels. Sold by all druggists. e27

CHILDREN'S LIVES SAVED For 50 Cents. Thousands of Children die annually of Croup.—Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobins' Venetian Liniment in the house, you never need fear loosing your little ones when attacked with this complaint. It is now 29 years since I have put up my Liniment, and never heard of a child dying of Croup when it was used, but thousands of cases of cures have been reported to me, and many state if it was 820 per bottle they would not be without it. Besides which, it is a complete cure for Burns, Scalds, Toothache, Sore Throat, Swellings, Mumps, Colic, Diarrhœa, Dysentery, Spasms, Old Sores, and Pains in the Back and Limbs. No one once tries it will be long without it. It is warranted perfectly safe to take internally. Full directions with every bottle.—Sold by the Druggists. Depot 50 Cortlandt street, N.Y. se2dwlm

ALLCOCK'S POROUS PLASTERS.
SORE CHEST AND COUGH CURED.
DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me as the time I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness for months, but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PHŒBE PATCHER.

Local.

REAL ESTATE IN PORTSMOUTH.—*Conveyances for November.*—[Compiled from the County Records for the Chronicle.]—Benj. F. Webster to Chas. C. Whittemore for $1000, 1-2 of land and buildings bounded by Pleasant street and by Franklin Avenue.

James M. Sheldon and als. to John Conlon for $139, land on Islington street, bounded north by Eastern Railroad.

John H. Slater, jun., to John Conlon for $59, land on Islington street, bounded north by Eastern Railroad.

George Taylor to Joseph M. Edmonds for $1275. Land and buildings on Islington street.

Hugh McCulloch, Secretary of Treasury, to Isaac Dow for $2700. The old Custom House.

Sarah Shelburne and als. to Ebenezer H. Sheldon for $350. Land on Myrtle st., bounded north by Charles Annable.

Thomas H. Odlon and als. to Benj. F. Webster for $800. Land on west side of Union street.

George Billbrook to Nancy W. Denny for $4000. 20 acres land and buildings on road from Portsmouth to Greenland, bounded east and south by Charles Hayes.

Edward F. Sise and al. to Jeremiah Leary for $800. Land on Bow street, bounded north by Joanna Berry.

James Newbury to John Buckley for $755. Land and buildings corner Jefferson and Mast streets.

Elizabeth C. Mason to David H. Montgomery for $2510. Land and buildings at northeast corner of State and Winter streets.

☞ The Portsmouth Howard Benevolent Society has been in operation nearly for 9 years, and has dispensed among the aged and infirm of the city not less than $13,000 in supplies of provisions; and much good has been done by a systematic mode of dispensing charities. The orders given out have been all for provisions, each order of 75 cents value—759 orders were given last year, amounting to $571. These have been bestowed during the winter among about fifty families, and during the summer among 23 families.

Through the liberality of friends of the Society, the funds supplied have been ample to meet all the calls the past year. The call made in March, when the funds of the Society were low, found a ready response. There were received:

From the proceeds of a Ball at the hands of Clement March,	$134 50
From Mr. Barnabee's benefit Concert,	79 60
From J. T. Fields of Boston,	50 00
From Portland Dramatic Club,	73 85
From surplus of Lyceum Course,	21 28
From Mrs. B. H.,	20 00
From Greenland Post Office,	20 00
From members of the Society,	292 25
Total,	$691 48

The following are the officers for the current year: President, Ichabod Goodwin; Secretary, Charles W. Brewster; Treasurer, John Stavers.

Directors.—Horton D. Walker, William Bodge, William Day, Benjamin Chesever, Lyman D. Spalding, Samuel S. Green, Joseph D. Pillow, John H. Bailey, John W. Fernald, Joseph M. Edmonds, I. F. Waterhouse.

☞ On Thanksgiving Day, 1866, a young couple were married in this city. Since that time a child had gladdened their home, but on Thanksgiving Day of this year sorrow entered the little household, the wife dying on the first anniversary of the marriage, which had promised so much for the happiness of the future.

☞ The excellence and purity of the Cod Liver Oil prepared by Messrs. Marston & Randall of this city, is attested by an order received a day or two since from a leading physician in Washington, ordering a quantity of their oil for the use of patients in that city.

☞ The Republicans of Wards One and Two will find calls for meetings in their respective Wards, on our fourth page this morning. The delegates elected to the various conventions go far to determine the character of the candidates put in nomination.

☞ The subject before the Lyceum this evening, by Rev. John Lord, will be "Queen Elizabeth." The lecturer is too well known in this city as a thorough scholar and fine writer, to need anything more said of him than to publish the following letter:

PORTSMOUTH, Sept. 3, 1867.
REV. JOHN LORD, LL. D.—Rev. and Dear Sir,—It is consists with your engagements, we shall be glad of the privilege of listening to one or more of your interesting Historical Lectures before you leave our vicinity. We are, with the highest respect, your most obedient servants,

Signed—Theodorus Bailey, Charles Burroughs, Henry Wood, J. W. Peirce, Wm. G. Temple, William N. Parrott, N. M. Harrison, N. W. Oliver, Thos. F. Davies, Stephen Decatur, James Jones.

— Mrs. Long has resigned the position of leading soprano at Trinity Church, Boston; will hereafter give her time exclusively to teaching.

— Horace Greeley states that since he commenced the New York Tribune in 1841, there have been not less than two hundred new journals started in New York, and two only can be said to be alive today—the Times and the World.

CONTINUED FROM FIRST PAGE.

WORK AT THE PHILADELPHIA NAVY YARD.—The only work now being done at the Philadelphia Navy Yard is upon two new vessels, the Antietam and the Omaha, and upon the Juniata, which is undergoing repairs. The work on the new vessels is proceeding slowly, and the number of men employed is small.

REUBEN H. WALWORTH, formerly Chancellor of New York, died at Saratoga Springs Thanksgiving Day, aged 78. He was an eminent and honored man.

☞ The Boston Journal says, "There is a good deal of wisdom in the saying that he who itches for office has the right to be scratched."

☞ On the 18th and 19th of Nov., there were shocks of earthquake at St. Thomas and several other West India Islands, with volcanic eruptions and overflows of water, destroying lives and property. The Island of Sabo was cut in two by the water.

☞ At Springfield, Mass., Saturday night, the safe of the Boston & Albany Railroad was blown open, and $12,500 stolen, in bonds, &c.

GOLD, Monday, 136 3-4.

—The export of teas from Japan to New York this season is greater by 10,000,000 pounds than that of last year.

—The oldest bishop in the world, the bishop of Lodi, has just completed his 100th birthday.

— When the ladies at the Court of Sweden got thro' hugging and kissing Admiral Farragut, they each and all exclaimed—farry good!"

—Horace Greeley telegraphs declining the Austrian Mission, and adding that it is his intention to remain in the country until after the Presidential election.

— A disappointed lover in Mobile attempted to burn the house in which his once beloved passed her wedding night with his successful rival.

— The Commonwealth says, "nobody believes General Grant is a man of profound and well established political views." The editor is one of the nobodies.

— The authorities of New London have ordered all evergreen trees in cemeteries to be cut down, even in private lots where parties have planted and reared them at some trouble and expense.

— The manager of a school near Philadelphia has cut down the fruit trees and destroyed the grape-vines which adorn the premises over which he has charge, in order, as he says, to remove from the pupils temptation to steal. He ought next to tear up his linen and burn his boots.

— The London Times says it appears that in addition to the £2,000,000 in gold to be paid for Russian America, the United States have agreed to disburse £1,500,000 for St. Thomas and San Juan, with an additional £800,000, provided France will waive her claim to the neighboring island of Santa Cruz, making a total of £4,300,000. It has been understood that the payment to Russia is to be made at the end of the present year.

A fine-toned, second-hand PIANO, in good order, will be sold cheap. Apply at the Chronicle Office. d3

500 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the next eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE
to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-half of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money
have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific railroad to develop and protect its own interest, it gave the companies power to build it and made all the aid needed to render its speedy completion beyond a doubt—The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS
Having thirty years to run and being six per cent. currency interest at the rate of $16,000 per mile for 247 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains, and at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States Government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The claims against the government since April of the present year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.
By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, *and only as the work progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.
The Union Pacific Railroad Company has a land grant or absolute *donation* from government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.
The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.
Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except engineering, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. That price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidentals of railroads, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount that shall not be less than $1,000 per mile of road built, and for the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $20,000 per mile.

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles, at 90,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$83,445,012
As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the	
AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:	
U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,389,750
Land Grant, 14,089,000 acres, at 1.00 per acre	21,120,000
Total	$85,145,750

The Company have ample means for meeting any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to the stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.
The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must employ over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of the world of transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean, bringing the rich teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles of comparatively low values, shorter routes are decisive the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find it for its interest to necessary. California and Oregon must not only be supplied with means of transport for passengers, mail, treasure and other freights, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which are only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.
While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails,	$732,755 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,208,038 95
EXPENSES.	
Fuel, Repairs, Offices, Conductors, Trains, &c	$395,530 92
Net Earnings to balance	807,508 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were $727,966 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$733,755 54
Expenses " " "	727,966 50
Net Profit	$485,789 04

The amount of bonds the company can issue on 325 miles at $16,000 per mile is $5,200,000. Interest in gold, three months, at 6 per cent. on this sum is $78,00; add 40 per cent premium for gold to respond with currency earnings, is $109,200—showing that the net earnings for the quarter were more than four times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,
whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay
Six per Cent in Gold,
and are offered for the present at NINETY CENTS ON EACH DOLLAR, and accrued interest at six Per Cent in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.
SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

Secure Profitable Investment.
THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION in the world, as it forms the link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the
Main Trunk Line across the Continent.
The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expense Account for Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$693,342 92	$361,613 61	$331,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	9,000,000
U. S. SUBSIDY BONDS, 725 miles, (coordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 725 miles	$77 834,000

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and bear the same security as the Bonds granted by the Government, and are the prior lien upon the whole valuable property pertaining to the Road-bed. These Bonds possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, cumulness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES
Central Pacific First Mortgage Bonds,
now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Morning Chronicle.

IN THE CHURCHYARD, TREMONT ST.

BY FRANK FOXCROFT.

I sit in the churchyard damp,
Only a foot apart
From the people's ceaseless tramp
And the city's throbbing heart.

I gather a lesson here
From the strangeness of this scene;
The dead and living seem so near,
With only this fence between.

And the thought comes over me,
Banish it as I will,
That however young in life we be,
We're near its ending still.

And a voice comes from the ground,
Soft as an angel's breath,
With this the burden of its sound—
"In life ye are in death." —*Transcript.*

LABORERS FOR THE SOUTH. — Some talk is made, by those who do not work, in our Southern States, of getting foreign laborers. But their agents in Europe say Germans will not go South, as a general thing; therefore they must be Irish. But says the Tribune:

Let nobody get the foolish idea that Irishmen are coming to America to starve. In their poor cabins along the railroad, they live in a style the Southern planters would call a perpetual frolic. Ireland is known as the Emerald Isle because the grass is so green, and an Irishman is accustomed to milk and butter, and above all, to potatoes. Think of those long weary miles through the South, where scarcely a spear of green grass is to be seen. Milk is a rarity, butter a myth, and it is doubtful whether a dozen wagon-loads of round potatoes are raised for market between Nashville and Memphis. To expect that an Irishman is going to live on seed-tick coffee, rusty bacon and corn bread, when there are good wages, beefsteak, potatoes *and Democratic caucuses* at the North, is an absurdity.

—The Germans at St. Louis have succeeded in obtaining the repeal of the Sunday liquor law.

—Railway travel to the South is falling off, and only one through train daily leaves Washington for New Orleans.

— By the terms of settlement with the exploded firm of Frazer, Trenholm & Co., the treasury department receives four or five ships of war, and cotton to the value of £20,000 sterling.

—The four sisters of Duffy, the Irish Fenian, who were turned out of their situations in the National Schools immediately after his commitment, are in New York, seeking in America that means of employment of which they were deprived in Ireland.

The Oldest American Newspaper.

THE NEW-HAMPSHIRE GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $3 a year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local items from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

Notice.

The Republicans of Ward One are hereby notified to meet at the WARD ROOM on Elm street, on THURSDAY EVENING, Dec. 5th, at 7½ o'clock, for the purpose of choosing Delegates to the several Conventions, and for the transaction of such other business as may properly come before the meeting. Per order.

Ward Two Notice.

AMERICAN HOMESTEAD LAND

and Immigration Office. Lands in tropical Florida for sale in lots of from 40 to 400 acres. These lands are adapted to the growth of the peach, orange, pomegranate, grape, Muscadine, lemon, banana, guave, fig, corn, tobacco, sugar, and all vegetables grown North. One acre in bananas will yield a crop equal to 133 acres in wheat, or 44 in potatoes. The country is mountainous, and the rivers in fish in endless variety. Price $2.50 per acre. Climate the most equable in the world. B. B. STONELAKE, M. D., late Register U. S. Lands, 66 Broadway, N. Y.

TORREY'S PATENT WEATHER STRIPS.—An examination of its merits will convince any one that Torrey's Patent Weather Strips excel all others. Send for illustrated circular. Agents wanted in every town. TORREY & CO., Sole Manufacturers, 72 Maiden Lane, New York.

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Rothschild to Major LANE, dated Paris, 8th April, 1864, 25 Rue Faubg St-Honore.

Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment, if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready; as a killer of pain, taken inwardly, outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections Sprains, Bruises, &c.*, it is unequalled.—It is also most efficatious taken inwardly in the cure of *Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. NO FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price 50 Cents per bottle. For sale by all druggists and retail by Demas Barnes & Co., 21 Park-Row, N. Y. Gale & Blanchard, 186 Greenwich street, N. Y.; F. C. Wells & Co., 122 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y. and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. F. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,

Manufactured under Patents of the Colwells, Shaw & Williard Manufacturing Co.

Adopted by the Cities of Boston, Charlestown and Chelsea.

A NEW WATER PIPE, free from all the objections to common Lead Pipe. One-fifth of its thickness is PURE TIN, encased in four fifths of Lead, forming a perfect shield, and not exposed through it only comes in contact with the tin.

It is as Strong as Lead Pipe of twice the weight per foot.

Costs less per foot than Lead Pipe of the same strength.

The superior qualities of WHITE LEAD and ZINC, dry and ground in oil, RED LEAD, LITHARGE, LEAD PIPE, TIN PIPE, SHEET LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by **Boston Lead Co.,**

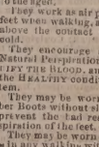
Patent Elastic Ventilating
INNER SOLES.



They are a sure and perfect Remedy for cold or sweaty feet.

They will relieve RHEUMATISM and NEURALGIA.

They are an Elastic Cushion under the feet of the wearer, a substitute for the ELASTICITY of YOUTH to the aged.

They work as air pumps under the feet when walking, and raise the feet above the contact of dampness or cold.

They encourage and absorb the Natural Perspiration of the feet, PURIFY THE BLOOD, and contribute to the HEALTHY condition of the system.

They may be worn inside of Rubber Boots without slippers, and will prevent the bad results of the perspiration of the feet.

They may be worn with thin soled Jenny boots in any walking with perfect safety.

They are of GREAT VALUE to the health of SCHOOL CHILDREN, who are liable to sit all day with damp, cold feet, and sow the seed of disease.

They are the Cheapest Inner Soles in the Market.

One pair will outwear eight pairs of any other Inner Sole known to us.

Sold by Boot and Shoe Dealers. Retail price 81 per pair. Circulars and Certificates sent free.

At wholesale only by E. G. HILL, Proprietor, No. 7 Union street, Boston, Mass.

Certificate from H. Williams, Esq., Treasurer of the Worcester Railroad.

WORCESTER, Oct. 22, 1867.

MR. HILL:—I have used PATENT ELASTIC VENTILATING INNER SOLES through a portion of the hot weather with great satisfaction, as a means of keeping the feet warm and dry.

Being troubled with tender feet, I have continued their use with higher boots through the summer, and find them to exceed my anticipations, keeping them DRIER and COOLER in hot weather, and giving an agreeable elasticity in walking.

Very truly yours,
HORACE WILLIAMS.

The Chronicle.

RARE INSTANCE OF DEVOTED FRIENDSHIP.—The four unfortunate Misses Morgan, who were burned to death by the dreadful accident on the railroad, near Cincinnati, on Thursday morning last, were ladies of education, refinement, goodness and respectability, and, as we have already stated, daughters of the late Mr. Benjamin Morgan, formerly of the firm of Price and Morgan, merchants in Philadelphia, and afterward President of the Bank of Louisiana, at New Orleans, and interested in large sugar estates. At the time Messrs. Price and Morgan dissolved partnership, they each possessed a handsome fortune, and they mutually agreed that in case of pecuniary misfortune or loss befalling either of them, the other, if still in good circumstances, was to share his property with the unfortunate one. Many years afterward Mr. Chandler Price failed in Philadelphia, and Mr. Benjamin Morgan transferred to him a fine row of buildings on Tchoupitoulas street, New Orleans. Some years after, about the time of Mr. Morgan's death, the latter became much embarrassed by indorsements for his acquaintances. Mr. Price having in the meantime accumulated another fortune, after the death of his old partner reconveyed the same valuable property on Tchoupitoulas st. to Mr. Morgan's children. This is one of the rare instances, in this life, of faithful, honorable and undying friendship, and quite as extraordinary as the sudden and violent death of all four sisters.

☞If the tailors and fashion followers keep on, gentlemen will some of them have to decline sitting down, going up stairs, getting into an omnibus, and taking off their pantaloons on going to bed. Tights are coming into fashion at a ridiculous rate.—Small clothes used to be the genuine style in the days of our ancestors, but not such queer sheathing-cases as our fellows stick their legs into now. One good thing the fashion does,—it advertises the number of spindle shins. What sort of a posterity are we likely to have, with an ancestry of such pipe-stem proportions in the legs? The tailors have many a good laugh to answer for.—*Great Falls Journal.*

A LADY'S DRESS COMING OFF.—A man who had never been initiated into the secrets of a lady's toilet, and had not examined the fashion plates, was recently, at a party, struck with astonishment and commiseration upon beholding a lady dressed in full ball costume, with an exceedingly lengthy trail dragging behind, and very earnestly spoke to an acquaintance, and requested him to assist in finding a friend of the lady who could inform her that her dress was coming off.

—At the new dining hall in Glasgow, neat, clean and airy in all its appointments, a dinner of hot broth, potatoes, boiled beef and pudding costs five pence, and a breakfast of porridge, milk, coffee, butter and a roll is furnished for three pence.

— Gen. Howard says that the freedmen in the schools at Chattanooga, taking mathematics as a test, are not behind the whites. He found in one of the schools a colored man who solved promptly and orally a problem that even he, Gen. Howard, who had graduated at the head of his class at West Point, could not solve mentally.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:
Portsmouth.
John H Moran, Joseph B Gardner, Alexander L Robinson, John H Morrill, Elizabeth Hewitt, Edward J Moulton, Wm B Norton, Addison Carroll, J S Hill, Mrs Isaac Jenness, Mrs J N Sherburne, Capt John Fisher, Patrick Crane, Mrs Wm Haskell, Michael Murray, Israel Marden, George Philbrook, James D Ackerman, Chas A Green, Samuel Cook, Simon R Mills, Gideon Walker, Mrs Mary McAuley, John Frisbee, Phineas Hoyt, George Herbert, Nathan Whalley, Mrs Chas Hodgdon, Mrs Thomas Holmes, J H Downing, Oliver Stacy, Jacob G Crockett, Edwin Sanborn, John Mills, Jas E Furnes, Thomas Moore, John Senter, Mrs Hannah Stevens, Miss Dow 10 Austin St, Ebenezer Haines, Mrs Anna Crowley, Alfred D Moses, Mrs Elizabeth Horrock, James Douglas, James Chadwick, Ephraim H Downs, Misses Sherburne, George Booth, George A Childs, Mrs Augustus Shackley, Chas Locke, Daniel Philbrook, Frank Watkins, Andrew J Greenleaf, Albert A Welch, Abner Greenleaf, Wm Hunter, Robert Bell, I F Lord, William Skeels, James Greenwood, Allen A Rand, Leonard Evans, John Kimberly, Oliver Frye

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications *fifty appeals*; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. THOS. EWBANK,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him for the care of their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGART,"
Boston, Jan. 1, 1867.—3tawly

s25 47 Congress Street.

CHARLES H. JOY,
DEPUTY SHERIFF,
Office No. 3 Market street. Bills Collected, Writs Served, and all business appertaining to his office promptly attended to. se2—3m

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 4, 1867.

THE PRESIDENT'S MESSAGE sustains his character as a demagogue, and his pro rebel and ante-Congress policy very fully.—His arguments against the Reconstruction Law, and reasonable, fair reconstruction, and against the Tenure of Office Law, are worthy of Vallandigham, Breckenridge, or Gov. Wise. They can be found, for substance, in the copperhead and secession papers. He asks Congress to repeal the Reconstruction Law. His remarks on finance (doubtless suggested by Sec. McCulloch) are of more value.

He elaborates the financial question, and invites to it the early consideration of Congress. In comparing the currency circulation of seven years ago with the present, he says that the striking fact makes it the ob vious duty of the Government to take such measures as will enable the holders of its notes and those of the National Banks to convert them, without loss, in specie or its equivalent. A reduction of our circulating paper medium need not necessarily follow. This would depend on the law of demand and supply, though it should be borne in mind that, by making legal tender and bank notes convertible in coin or its equivalent on the present specie value, it would be enhanced one hundred per cent. The varied issue of our bonds, and the gold and paper interest on the same, is alluded to at some length, and the President declares that equal and exact justice requires that all the creditors of the Government should be paid in a currency of uniform value—not gold for one and paper for another. He favors the necessity of retiring our paper currency, that gold and silver may cease to be articles of traffic, and return to our avenues of trade. He says it is unreasonable to expect a return to a sound currency so long as the Government, by continuing to issue irredeemable notes, fills the channels of circulation with depreciated paper.

The attention of Congress is earnestly invited to the necessity of a thorough revision of our revenue system, and a large reduction in the number of articles used is urged.

The President says that a treaty has been concluded with the King of Denmark for the cession of the islands of St. Thomas and St. Johns to the United States, and he asks pay for Alaska of Congress. He concludes as follows:

"The abuse of our laws by the clandestine prosecution of the African slave trade from American ports, or by American citizens, has altogether ceased, and, under existing circumstances, no apprehensions of its renewal in this part of the world are entertained. Under these circumstances it becomes a question whether we shall not propose to Her Majesty's Government a suspension or discontinuance of the stipulations for maintaining a naval force for the suppression of that trade."

This is a pretty strong confession for an ex-slaveholder and an ex-pro-slavery man to make,—and the treaty may be abolished sometime within a year or two; but it had better not be abolished immediately, as there are rascals still in the trade; and especially as we have plenty of ships of war now, part of which might as well be in the Atlantic as anywhere.

THE REPORT OF THE SECRETARY OF THE NAVY shows that during the year the aggregate naval force has been reduced forty vessels and four hundred and eighty-two guns. The vessels in squadron service are 56; total number of vessels in use 103 and 898 guns.

The Secretary details Admiral Farragut's trip on the Mediterranean squadron, and says that the offer to remove the suffering women and children from Crete was refused by the Turks. American commerce in the East suffered detriment during our war, and Prussia and others have profited by our misfortune. Sailing vessels under the Prussian flag are in every port receiving freights cheaper than offered by any other nation.

The Secretary urges an extension of our navy yards—says they are too circumscribed, and says that the estimates for improvements are larger now than last year, owing to the omission of Congress to make any appropriation last winter.

The experiments at the Charlestown Navy Yard in the use of petroleum for fuel under marine boilers, show that convenience, health, safety and comfort are against its use.

MEXICO.—Juarez is reported to have received a majority of votes in each electoral college of the Mexican States. This is an unmistakeable proof of the gratitude of the Mexican people toward the man who, with marvelous firmness, upheld the cause of the Republic when it was almost generally despaired of. It is also reported that the ammendments to the Constitution which were submitted by Juarez to a popular vote, and against the constitutionality of which so great an outcry was made, have probably been adopted.

☞ Rev. T. H. Miller is to preach at Wells, next Sabbath.

Gazette Correspondence.

By Rev. I. F. HOLTON, So. Malden, (Revere) Mass, NO. III.

ILLUMINATION METAPHORIC AND LITERAL.

Friend Miller: From Arithmetic I pass to a kindred topic, drawing. I am led to this by four-tenths of Harper's series of writing-books. They involve several new principles, which will prove as many decided successes or failures. The pupil begins by tracing over white letters on a tinted ground. Thus the pen learns to go right, before it begins to go wrong. The hand acquires some ability before it is compelled to rely on the judgment alone. This is carried through all the copies of two books, for first three lines on a page, and then two. Again, all the books are ruled with lines of the slant of which a letter should be, and as far apart as the first and third strokes of an *m* should be. A third and most important innovation is an attempt to combine drawing with writing. If it fail, I hope another will be made; but if this do not succeed I know not what can. Horace Mann maintained that "a child will learn both to draw and write sooner and with more ease than he will learn writing alone." Nine out of every ten that are even moderately educated, ought to be able to draw any article of furniture from the object itself, and it is a shame that the reverse is the case. The drawing lessons are continued in white on a tinted ground, down the margin of all the books.—These are first to be traced, and next to be copied from that tracing, and then from memory. Lastly objects are to be drawn. Many of these are combinations of laths or boards; others are familiar objects. The writing lessons are equally to be copied in an exercise book. This system is on trial in Mr. Carleton's school, and I am quite confident of its success.

Next I come to my favorite topic—because so generally undervalued—physical culture. Here we have Wood's Physical Exercises, issued by the Harpers in a neat duodecimo of 316 pages, with 125 illustrations. Besides the lighter gymnastics used in such schools as Mr. Carleton's of this place and that of Dio Lewis at Lexington, it treats of the severer exercises of the trapeze, bars, ladders, etc.—These occupy 88 pages, and describe one thousand different exercises. Boating, swimming, skating, sparring, fencing, cricket and base ball occupy the bulk of the book, while training and the care of the health occupy about 60 pages at the close. A faithful record of the greatest muscular feats is given. From this we note that William Richards ran a mile in 4 minutes 17 1-4 seconds, William Clark skated a mile in 1 minute 56 seconds; "Firetail" is said to have run a mile in 1 minute 4 seconds; and "Flying Childers a half mile in 20 seconds! "Gladiateur's" mile in 1 minute 39 seconds is the fastest given as reliable.—"Chandler" leaped 39 feet over water; "Flying Childers," in a race, covered over 30 feet in a leap, on level ground; Henry Chester leaped 29 feet 7 inches, and Norman Bortles 12 feet 5 inches at a standing jump. The steamer Daniel Drew went 27 miles in an hour, in 1864; the Flying Scud sailed 460 miles in 24 hours; James Hamill is said to have rowed three miles in 22 minutes 30 seconds. Last and toughest, a falcon escaped from Henri IV. of France, at Fontainbleau, and was found at Malta, 1300 miles distant, in 24 hours.

But I forget my title, and have got from the head to the heels. I will start from a higher point. One of the greatest theological undertakings of the day is McClintock and Strong's Cyclopædia of Biblical, Theological and Ecclesiastical Literature. The letters A and B occupy an octavo of 947 very large pages. This is supposed to be about a sixth of the work. It takes of course a wide sweep—even to false religions; to all the particulars, implements and vestments of Romish worship, the biography of men of all religions, and, what particularly interests me, fac similies of specimens from all the more important manuscripts of the New Testament, with full accounts of them.

The theology of the work is of course Methodist, and doctrines and denominations are viewed from that stand-point; but it is able to spare one of its large pages to Lyman Beecher; nor are Hosea Ballou, Walter Balfour and Laban Ainsworth forgotten. The engravings are much better than those of Kitto's valuable two-volume dictionary, whose substance of course is to be swallowed and digested by this all-devouring giant. There are 368 engravings and groups of engravings, many of them maps and plans of cities.—Those of Austria and Belgium will answer for readers of modern history and travels. I am sorry the work is sold by subscription only, a course I do not believe in for ordinary works.

The tickets for Dickens' first reading are eagerly snapped up. The beauty of Ticknor & Fields' diamond edition of his works has tempted me to spend more time over his word-pictures than ever before. While he was probably on the Atlantic, I have been following Martin Chuzzlewit over the same track. It is not to be denied that Dickens has caricatured America and offended Americans. But I count it indiscretion, not malice, and I am glad that so much is forgiven to his great talent and his apparent interest in the welfare of the masses. He was wrong; for while he might rightfully take liberties with creatures of his own imagination, his pictures of real individuals or cities or nations, should either be strictly faithful or indulgent. Let him do what he pleases with Watertoast or Eden, but surely an unfair picture of the New York press is too bad.

By the way, interested parties complain that he commends Ticknor & Fields as the only firm whose sales benefit him. Others may have bought advanced copy of him. If they had the sole use of it, that closed the transaction. It was doubtless a profitable one to the publishers. But it now another firm freely offers him a royalty, and he accepts, who can complain? People will buy beautiful books when sold cheap whatever claims others may raise from transactions fifteen years ago.

Now for Kerosene. You know how earnestly and how long I have watched every improvement in lamps, believing that every step in this is a blessing to the human race, because God has ordained the household as a Normal School for adults as well as infants. The kerosene burner of the last eight years has been a nightly triumph. Steam navigation did not do so much in twice the time,—nor did railroads. Still I have wished to see the chimney abolished. Its liabilities to crack with heat and to break in falling, its weight and the impossibility of lighting another light by the kerosene lamp, have been serious objections. Still another, less suspected but very serious, is the waste of light by dirt on the chimney, the interior of which is not very accessible to the hand. But my experiments on naked flame have been such as to partially reconcile me to the chimney. Lately I have seen a lamp that will burn kerosene decently without a chimney, by means of a blower driven by a spring like that of a clock. My conjecture is that it will get less light from a gallon, but whiter than common; but the lamp is neither light nor cheap.

But now comes a revolution. This is a new chimney, held on by internal pressure applied more than an inch above the base. It is but two-thirds the heighth of the old one, so large at the bottom as to be readily cleaned, scarcely warm at the bottom and not uncomfortable to the touch half way up, and as easy to take off and put on with one hand as the cover of a teapot. You can light an allumette or a splinter over the top, and this saves us from the fumes of sulphur or phosphrous. It never falls off from being put on insecurely. A drop of water is not so apt to brake it. It ought to be cheaper, but at present is dearer. Its burners do not heat the oil in the lamp, and thus avoids those few lamp explosions that do not take place in pouring kerosene near flame. I am glad that there is more than one patent burner that uses this chimney. My friend Williams (with the green sign, at 71 Union street, Boston) will show you several different ones. I have examined the sun burner only.

I feel provoked with myself to think how long I have lived witnout a coal sifter. I have seen several complex, double-action sifters that needed only a steam engine to them to make them perfectly ridiculous; but the simplest thing I ever saw is Greenleaf's, 116 Union street, Boston. A round seive, with a handle eight inches long, sits in a swing of strong wire resting on the top of a flour barrel, or better still, on a cast iron rim that goes on the top of the barrel. There is nothing else but a cover to keep in the dust. Where ashes are sifted hot, the barrel must not be of wood, if it stands where you are unwilling to have a bonfire. Wood ashes must never be considered as dead. A coal-sifter is a horticultural necessity. It receives a mixture of ashes, cinders and coal—three good things, forming a useless compound. The cinder is useful for walks, and the ashes dilute manures and temper the soil. And a better or simpler means of separating them I never expect to see.

I have space left for two admirable homecomforts which I believe I have never praised to your readers yet. One is the GOVERNOR Cook Stove of G. W. Walker, 50 Union St., Boston. It was a serious task for me to go the rounds of the cook stoves of Boston in the summer of 1865, but I did it thoroughly, and took, I think, the best, though not one of the highest priced articles. I have seen better stove furniture, but not a more managable stove. The same I can say, by the way, of the Stewart Parlor Stove from the same firm. It bakes some things better than any other stove I know of, but cannot boil while baking. It is a good thing for thanksviving.

The other thing is the Pendulum Curtain Fixture. I have used it ever since I have kept house. The only objection to it is the cost; the poorest methanic can afford it, and a child of four can operate it.

God bless our homes!

IN THE U. S. HOUSE OF REPRESENTATIVES, DEC 2, Mr. Blaine of Maine offered this resolution, and it was adopted without division;

Resolved, That the Committee on Banking and Currency be instructed to inquire into the expediency of so changing the law in respect to the taxation of national bank stock as to permit all stock owned in the State where the bank is located to be assessed and paid in the city or town where the stockholder resides.

Gen. Banks introduced a resolution declaring that the funded debt should be redeemed in a depreciated currency, but the House refused to second his demand for the previous question. This is indicative of an approval of Gen. Butler's views, or from unwillingness to commit the House to any one view of finance till the subject shall be more fully examined and discussed.

AMERICAN NOTES.—Ticknor & Fields, Boston, have republished "American Notes," by Dickens—price 50 cents. It is even more interesting now than when first published, because of the strange contrast in the two periods.

— Rev. J. D. Emerson was dismissed from the pastorate of the Congregational Church in Haverhill Mass by a council convened there November 19.

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and in point of economy is without rival. Sold by all first-class grocers. 51

To sleep well at night,
Let your supper be light,
Or else you will complain
Of a stomach in pain,
Is a trite but true adage, but where Herrick Allen's Gold Medal Saleratus is used, and no other, even a dyspeptic may eat a comfortable supper before retiring, and experience no inconvenience. 18

—A boy, about fourteen years of age, named Littlefield, was run over by a fire engine, in Saco, Me., on Saturday evening, and died shortly after.

Adams' Novelty Skirt.
PATENTED JUNE 18, 1867.
This celebrated Patent Skirt is pronounced by hundreds of ladies who have given it a thorough trial, to exceed all other Skirts ever offered to the public. The chief points of its excellence are. PERFECTION IN FIT, upon a new principle just invented. Equal distribution of weight around the waist-band, so that every skirt is PERFECTLY BALANCED. Entire Freedom from injury to Under Clothing. The flexible springs are fastened together in front, and made as one complete hoop. A double support down the front of the skirt where support is most needed. Therefore the Skirt from SAGGING. Every Skirt is stamped with its positive waist size and length upon the band, and the relative proportion of the hoops to the waist-band is perfect in every Skirt. It is Absolutely IMPOSSIBLE for the Hoops to work up around the wearer while standing or sitting in a crowd. Sold at BAGLEY & CO.'S,
o29 Portsmouth, N. H.

AMERICAN
WALTHAM
WATCHES.
The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made accurately. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purp se, to produce the finished pieces. By means of multiplying gauges and microscopes, tests of admirable nicety for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage of its progress to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to fit properly in its place, so that it can only be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.
This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest detail, so that each part, and each tool will always be good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, and they are offered in all sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.
Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Influenza, Whooping Cough, and Diseases of the Pulmonary Organs.

Its action is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS, and PURIFIES THE BLOOD, which is the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, although an active and powerful remedy for curing the system. There is no necessity for so many deaths by consumption. when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.
n11—1m

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—SIR: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly get a full breathe. I was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest with cough and hoarseness, for months, but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

PHILIP PATCHER.

Local.

☞ Mr. Barnabee's Concert series opened rich, Monday evening, to the best house of the season. There were many people in that audience of seven or eight hundred, whom we have not seen at an entertainment since Barnabee was here before! The programme was a good one, though containing little that was new. Mr. B. himself says the public keep him at work so constantly he has hardly time to acquire many new pieces—which are also very difficult to find, at once comic and chaste.—He sang well, however, and his acting is irresistibly comic—every bit as good as Warren's, in his way.

Mrs. H. M. Smith, soprano, did finely, as she always does; and Mr. Winch, tenor, was well enough, but hardly up to keeping such company. Mr. Dow accompanied at the piano, in the most pleasant, agreeable manner in the world—and it was a pity he couldn't have a heavier, richer instrument.

Altogether, it was a very happy, enjoyable entertainment, and the result secures the success of the series—of which the second (an evening with Barnabee) will be given Monday, Dec. 16th; and we are informed will include some select (serious) recitations by Mr. B., as well as comicalities in his especial line, to suit all.

☞ The premiums offered for the best three manuscripts of books calculated for Unitarian Sunday School libraries, and adapted to children under ten years of age, have been awarded to Miss Sarah H. Foster of Portsmouth, (one hundred dollars); Mrs. Clara W. T. Frye, Chicago, (fifty dollars); and Miss Louisa M. Thurston, of Lynn, (twenty-five dollars).

☞ Drs. Wentworth and Johnson of Kittery, removed a fat tumor weighing a pound and a half from the shoulder of Mrs. Wm. Preble, a short time since, which had been enlarging for twenty years. The patient is doing well.

☞ The Hungarian refugee who lectured at the Methodist church in this city last Sunday evening, was named Rev. J. J Hatlinger, and not Hastings, as our types had it.

☞ The concert at the Temple, Thanksgiving night, by Miss Nellie Ellis' "English Opera Troupe," so called, was well enough in its way, and a very pleasant little entertainment, if it had been put before the public for what it was—a very simple concert, chiefly by several children.

☞ Schooner Loochoo, Capt. A. H. McFarland, bound from Rockland to Baltimore with a load of potatoes, collided with another schooner off Thacher's Island, Cape Ann, on Monday. She entered this port with a loss of bowsprit, jib-boom, head, &c., and is being repaired by Messrs. Pryor & Plumer at their yard on Noble's Island.

☞ Those Virginia Oysters just received by Arad Tibbetts, and to be had at his saloon, will be found of excellent quality.

☞ Philharmonic rehearsal Thursday evening, December 4, at half past 7.

☞ John Stanle, mate of ship Alice Ball, was examined before Commissioner Hallett, in Boston, Monday, on charge of assaulting with a belaying pin one of the seamen named Thomas Wallace. It appeared that Wallace was struck on the head by the mate, but in a stormy night, when it was so dark that an object in a man's hand could not be distinctly seen at the distance the witnesses stated they were from the parties, and Stanle was held only on the charge of beating and wounding.—He furnished sureties in $200 for appearance before the District Court.

☞ John Waller, a farmer of Pittsburg, Canada West, was driving his sister, Mrs. Wollard, to his farm, and while sitting side by side in the buggy, he suddenly drew a revolver from his pocket, placed the muzzle at the back of her neck and discharged it, killing her instantly. He then sprang from the buggy, placed the muzzle of the revolver in his own mouth and fired, blowing his brains out, and of course killing him on the spot. The terrible deed was enacted in sight of Waller's house. The only reason assigned for the act is, that his sister a short time ago married the husband of a deceased sister, against Waller's consent. He frequently threatened her before the marriage, saying that such an alliance was unholy, and that he would never allow it.

☞ Charles Dickens is a native of Portsmouth, England, where he was born in 1812. Seeing that our city and seaport were named after his, and resemble them considerably in character if not in appearance — Dickens ought to come here, hadn't he? His first Reading in Boston, Monday evening, was a complete ovation.

DEMOCRACY.—Nov. 6, the New York city papers stated one Florence Scammell was arrested on the preceding day, for having registered in four wards. Among the Tammany nominees for Councilmen we find the name of Florence Scammell Tammany men, don't split your tickets! Go the whole hog!—*Tribune.*

—The ship Golconda sailed Nov. 20th, from Charleston, S. C., for Mocorola, carrying 320 negro emigrants.

☞ Gen. Hancock, the new Commander at New Orleans, is revoking the recent orders of Gen. Mower, and restoring some officers who had been removed.

GOLD, Tuesday, 137 1-4.

THE Shares of the Washington Library Co. of Philadelphia are being disposed of with unexampled rapidity. The absence of all concealment, the honesty of purpose manifested by those who first inaugurated the enterprise, the fairness with which the proposed final distribution is to be conducted, and the patriotic purpose to which the entire surplus is to be applied, have taken firm hold upon public confidence. Every share of stock will be accompanied by a present at the great distribution of $300,000 worth of presents.

Geo. A. Cooke & Co., Bankers, 33 South Third Street, Philadelphia, are receivers of all the funds, and their name is an assurance of the integrity and reliability of the Company, which is organized for a good purpose, which should not be confounded with the bogus concerns which infest the country. Read advertisement. 9

500 MILES OF THE UNION PACIFIC RAILROAD.

Running West from Omaha

ACROSS THE CONTINENT, ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States government found it necessary to secure the construction of the Union Pacific Railroad to develop and protect its own interest, it gave the company which organized to build it such assistance as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one half the amount of its bills in money for transporting mails, freight, troops, munitions, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this debt. The claims against the government since April of the current year amount to four and one half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and *as more and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from government of 12,800 acres per mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and ironing every rail and completing and equipping, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount that shall not be less than $5,000 per mile. The following table of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company is to $50,000 per mile:

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles at 50,000	9,300,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$82,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds	$29,223,000
First Mortgage Bonds	29,223,000
Capital stock paid in on the work already done	5,269,750
Land Grant, 14,080,000 acres, at 1.00 per acre	21,120,000
Total	$85,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to the capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now pending to offer a part of them for sale. Some of their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land grant companies in the West are receiving equal prices for large properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished, the immense business that is now done over it, as the only railroad connecting the two grand divisions of the North American continent with no one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now building a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean with the rich treasures, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles of merchandise, the cheapest route, all things considered the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track to necessary. California and Oregon must not only be supplied with means of transport for passengers, mail, treasure and other freights, but the inhabitants of Dacotah, Colorado Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the sweep to all the great mining districts, and in itself would furnish ample business for a railway line.

Earnings from Way Business.

While the rough business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 825 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails, &c.	$733,755 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,206,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,530 92
Net Earnings to balance	807,508 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were 49.50 per cent. account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$733,755 54
Expenses " " "	237,906 50
Net Profit	$495,789 04

The amount of bonds the company can issue on 235 miles at $16,000 per mile is $3,760,000. Interest in gold, three months, at 6 per cent. on this sum is $56,400 add 40 per cent. premium, to correspond with currency earnings, is $140,200—showing that the net earnings for the quarter were more than four times any interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and which interest is so thoroughly secured, must be classed among the safest investments they pay

Six per Cent in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR; and the accrued interest from July 1, Six Per Cent in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No 7 Nassau St.
CLARK, DODGE & Co., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent, Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the prefered claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION of the world, as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$393,847 28	$102,058 61	$291,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	6,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,317,000
Resources first 726 miles	$77 831,000

The FIRST MORTGAGE BONDS are in sums of $500 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield over NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and as the prior lean upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among the BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from 12 to 19 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or through responsible Banking agencies.

CHOICE LOTS OF

HARD AND SOFT WO

Morning Chronicle.

NEW HAMPSHIRE ITEMS.—The Annual Meeting of the Rockingh m County Agricultural Society was held in Exeter Town Hall Saturday, and resulted in the choice of the following board of officers: President, J. W. F. Hobbs, North Hampton; Secretary, Samuel S. Thing, Exeter; Treasurer, Wm. B. Morrill, Exeter. Trustees, Gardner D. Dargin, Epping; Geo. B. Wiggin, South Newmarket; Warren Brown, Hampton Falls; William H. Robinson, Exeter; Darius Towle, Kingston.—The meeting adjourned to January 26, at 1 o'clock (A. M. the News Letter says—but we guess they meant P. M.) The Committee on Orchards awarded to John F. French, of North Hampton, first premium of $10—and the second premium of $5 to Samuel Meserve of Hampton.

Mr. Thornton B. Hoyt has leased the hotel formerly known as the "Union House," in Exeter, and named it Hoyt's Hotel.

By the last report of the State Treasurer it appears that the debts of the towns in Rockingham County amount to $1,202,916 more than the assets.

The citizens of Franklin (the papers say irrespective of party or sect,) have raised the sum of $1500 for the purchase and erection of a granite monument to perpetuate the memory of the officers and soldiers from that town who gave their lives for the country in the recent war.

R. M. Nute, of Farmington, recently slaughtered a hog, nineteen months old, which weighed 588 1-2 lbs.

☞ The Boston Daily Advertiser appeared Monday morning enlarged by nearly six columns and in a new typographical dress. The proprietors of this long established journal have found it necessary, whilst taking possession of their fine new building on Court street, to increase the size of their paper, in order to make room for the constant increase of news and other matters demanding publication. The enterprise which has marked their course for several years past will continue to make improvements, so that as the largest daily in New England, all its departments shall meet the requirements of the times. It is hardly necessary to wish the proprietors success; their energy and liberal outlay are sure to command it. Comparatively venerable in years; in its activity in all that belongs to a first class newspaper, the Advertiser is younger than ever.

—A young man named Charles Pearson was found in an out of the way place near Portland, on Sunday morning, in a dying condition. He died same forenoon. He had been poisoned and robbed.

—The Sultan's journey to civilized parts has already had a result. A school will be shortly opened at Constantinople for the united instruction of 300 Christian and 300 Mussulman children.

—The Bangor Jeffersonian says that the Divorce docket was called for week before last. Judge Cutting stated to the counsel that he should not hear those cases this term, and gave as a reason that if the cases were postponed the parties might come together again during the winter season.

The Oldest American Newspaper

THE NEW-HAMPSHIRE GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local n ms from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon Rothschild.

PARIS, 8th April, 1864, 26 Rue Fauby. St. Honore.

"Will you be kind enough to have forwarded to me here per Overland your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. Belmore & Co., New York."

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready. As a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, Pain in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. NO FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. Mariners and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of stomach and bowel plaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. For saleat wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 185 Greenwich street, N. Y.; E. Swift & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the United States. A genuine article signed by JOHN THOS. LANE and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

SPEER'S SAMBUCI WINE.

Prescribed by Physicians for FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system in the most debilitated.

As a Diuretic it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.

The qualities of SAMBUCI are "*unum in parvo,*" being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

N B—Vinum bonum bonum sanguinem facit.

SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and beneficting indies and children.

Be sure the signature of *ALFRED SPEER,* Passaic, N. J., is over the cork of the bottle.

For sale by Towns Agents and Druggists.

For sale wholesale by GOODWIN & CO.

Also, SPEER & CO.'S P. J.

The Chronicle.

DANGEROUS CHIMNEYS AND FLUES.—The modern box chimney is best for present uses, but it should not be built *too thin*, and there should be at the bottom, in the cellar or basement room, either a fire-place or some other opening, closed by an iron door, so that falling soot can be removed easily and frequently.

The Concord Statesman gives some facts that bear on this subject, as follows:

"Five instances have recently come to our knowledge of wood-work being ignited because of the carelessness of builders; and in the last instance a very costly and beautiful church narrowly escaped destruction. The other cases were in dwelling-houses, where danger was not so imminent, because the fire was discovered while the family were about. These proofs of carelessness were all afforded in this part of the city.

Chimneys are in some instances constructed with only the thickness of a brick. Added to this, wood is placed against brick, and multitudes of chimneys are built with no fire-place, and with no means by which to remove accumulation of soot. In the course of years these deposits are large, take fire, and may burn forty-eight or more hours. Intense heat is thereby generated, and wood, several inches distant, is set on fire and the building often consumed.

The last instance was on Sunday morning, a few minutes before 7 o'clock, at the South Congregational church. The fire was speedily extinguished; but had it attained the same head at 5 o'clock that it had at 7, the edifice might have become a wreck. It was first supposed the fire took from the furnaces, in one of which a coal fire was set on Saturday. But subsequent investigation revealed the fact that it was communicated from burning soot to wood-work in too close proximity with brick.—Carpenters and masons should heed these cautions, and owners of dwellings and other edifices remedy all defects of this nature which come to their knowledge

A SCOTCH QUESTION.—The Scotch preacher, Erksine, once proposed a "poser" to a recreant brother, a blacksmith. Erksine determined to silence him. The conversation proceeded as follows: "Walter Simpson!" "Here sir," says Walter, "are ye wanting me?" "Attention, sir! Now Walter, can you tell me how long Adam stood in a state of innocence?" "Aye, till he got a wife," instantly replied the anvil hammerer; "But can you tell me how long he stood after?" "Sit down Walter," said the discomfitted divine.

WESTERN GRAIN.—It is said that the project to ship grain for the eastward via the Mississippi has rather frightened those connected with the railroads, and that they will consent to receive lower freights rather than the scheme should be extensively followed up.

— Nathaniel Fullerton, President of the Bellows Falls (Vt.) Bank, is 92 years of age. He was made a mason in 1797. He still retains much of the vigor of manhood, signs all his bank bills in a full, clear hand, attends lodge meetings quite regularly, and plays euchre with all the relish and zeal of an amateur. He is probably the oldest Mason, the oldest Bank President, and the oldest euchre player in the United States.

— An English merchant was dining with a Chinese mandarin, when it struck him that perhaps the dish which he had eaten of so heartily might have been stewed cats, for he heard that they ate cats in China. The Chinaman didn't know English, so his guest, anxiously pointing to the dish, inquired, "Miow, miow?" "No, no," said the mandarin, "bow-wow."

—Mrs. Partington, reading an account of a railroad accident, was much surprised to learn that the engine had been driven off the track by one of the switches. "I should not think," said she, "that the great iron engine would mind such a little thing as a switch." "Yes, but you must remember, mamma," said Ike, gravely, "the locomotive has a tender behind."

— A Presbyterian church in Ohio, having suspended a member for joining the Masonic order, an appeal was taken to the Presbytery. This body, by a vote of fifteen and ten, sustained the appeal, and restored the party appealing to the communion of the church.

—Mr. W. E. Millet informs the Tribune that Micah Hawkins was the author of the first negro song in America. He kept a dram shop in New York, and by singing the negro melodies which he composed, drew crowds to his bar every night.

— "The sound of the hammer," says Franklin, "at 5 in the morning or at 9 at night, heard by a creditor, makes him easy six months longer; but if he sees you at a billiard table, or hears your voice at a tavern when you should be at work, he sends for his money next day."

—In one of Josh Billings' late papers he says: "The sun was a-going to bed, and the hovings far and near were blushing at the performance!" They havn't had much occasion to blush lately, have they?

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 ENDICOTT St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Falling of the Womb, Leucorrhœa and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience the cure of diseases of women than any other hysician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or hey will not be answered.

Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 24 Congress street. o23 B. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 5, 1867.

WASHINGTON MATTERS.—On Tuesday, the Senate voted to henceforth omit the title of "Honorable," which has always been prefixed to the name of each Senator on the Journals and in the official papers of that body. Sensible.

The proceedings of the House were twice enlivened by spicy remarks about the peddling of the President's Message to distant newspapers by a professed confidential friend of Mr. Johnson. The Democratic members of the House profess to be indignant at the violation of confidence, and say that the President will expose its betrayal.

It was the general opinion in the House that the Message is a carefully written document, cunningly worded as an appeal from Congress to the people, and well calculated to deceive. The impeachers assert that it shows the necessity of removing so great an obstacle to reconstruction, and they think that it will enable them to carry their point.

Gen. Schenck reported from the Ways and Means Committee, Mr. Blaine's bill for the repeal of cotton tax, to take effect on the crop of next year. Mr. Brooks of New York moved to amend, so as to make it apply to the crop this year. Debate ensued by Messrs Schenck, Logan, Ela and others. Indications are that Mr. Brooks' amendment will be defeated, and the bill passed as reported from the committee.

The financial views on Secretary McCulloch's report so far as they pretain to the future funding of the debt, will be supported by all the members who oppose Gen. Butler's views. The withholding of one per cent. annually of the interest, for distribution among the States, promises to prove very popular with the Western States, from which section Secretary McCulloch usually meets with steady opposition.

The House Military Committee paid their respects to Acting Secretary Grant, and afterward the Republican members of the Committee called on Mr. Stanton—the Democratic members declining to accompany them.

Gen. Garfield, the Chairman, said to Mr. Stanton, "under which King?" and was told that Gen. Grant was in possession, which is nine points of the law.

The Committee generally agreed with the views of the annual report of Gen. Grant, and will at an early day perfect legislation to carry them out. One of the bills already before the Committee is to prohibit the restoration to the army of officers dismissed the service, especially cases like Fitz John Porter and Col. Belgers.

☞ "The Tribune" is a leading newspaper in this country or the world. It pays more than $100,000 per annum for intellectual labor (reporting included) in and about its office, and $100,000 more for correspondence and telegraphing—in other words for collecting and transmitting news. And, while its income has been largely increased from year to year, its expenses have invariably been swelled even more rapidly; so that, at the close of 1866, in which its receipts had been over $900,000, its expenses had been very nearly equal in amount. A copy of a great morning journal now contains more matter than an average 12mo. volume, and its production costs far more, while it is sold for a fortieth or fiftieth part of the volume's price.—There is no other miracle of cheapness, in comparison with its cost, which at all approaches it.

CURIOUS CASE.—A novel case has just been tried in the Circuit Court in Kenosha, Wisconsin. Mr. Mason had conveyed to Mr. Washburn his farm, and had taken from the latter a bond for his maintenance during life. The bond expressed, among oth r things, the providing of food and drink. Mr. Mason claimed that whiskey was one of the necessaries for his proper maintenance, because the peculiar condition of his health required it. Mr. Washburn declined to furnish him intoxicating drinks, alleging that they were not essential to his physical life, whereupon Mr. Mason brought a suit for damages. Four physicians were sworn, and gave testimony in respect to the necessity of spirituous liquors in the case of Mr. Mason. The plaintiff obtained a verdict of $52.

☞ The United States Circuit Court of Mississippi, in the case of Col. McCardle, an editor, who was arrested by the military for using infamous language toward Gen. Ord, impeding reconstruction and other matters, has decided that his arrest was perfectly legal and ordered him to be returned to the custody of the military authorities.—The case will be taken to the Supreme Court of the United States.

GOLD, Wednesday, 137 1-8.

—The New York city election resulted in the re-election of Mayor Hoffman, by a majority over both Wood and Darling.—Hoffman (Tammany Democrat), 63,931; Wood (Mozart Democrat), 22,832; Darling (Republican), 18,465; Hoffman over Wood, 40,099, over Darling, 44,466, and over both, 21,634; total vote, 104,228.

IF THE DEMOCRATIC PARTY would drop the Pierces, the Georges and Sinclairs, and all its obnoxious leaders who opposed the war and every war measure from beginning to end, it might hope to make some headway among the people of New Hampshire. But so long as it hangs upon the skirts of men who assured the South that if blood flowed at all, it should flow in Northern streets, or who publicly declared they would vote not a man nor a dollar to carry on the war, or who hoped that every Northern soldier would come home in a wooden jacket, it is of no use.

The "Mozart" movement is apparently an attempt to rid the party of these old leaders. They are not, however, so easily shaken off, as the result of their State Convention shows. They are determined that the Democratic party shall not live at all if it cannot be turned to their account, and made to serve them as a partial shield from the obloquy they have merited by their disgraceful war record. If they must go down and keep down, they are determined to have the whole party for company.—*Lebanon Free Press.*

Now we don't believe any such logic.—What possible question is there between the two parties, except the very ones which caused the war, were included in it, or settled by it? In fact, it is the very absurd attempt to fight over again with ballots, the quarrel which ought to have been more definitely if not more decidedly settled with bullets. So what kind of a party could it be, and what stand could it take—this proposed War Democratic conglomeration?

There was, and is, an anti-war side to the question—as there is to all questions—and those who have consistently and honestly upheld the copperhead side, may be entitled to some respect. But the men who were on both sides at times, as policy seemed to dictate, are entitled to the scorn of all. And in this view, we are surprised at the renomination of Mr. Sinclair, as we were at his first putting up. For not only did he offer himself to go for a soldier, (Colonel,) but during last year's political campaign, he repeatedly desired to resign in favor of Col. Bedel, who *did* go—and he also owned up to having been a Know Nothing. If we couldn't find a better, more consistent and unflinching copperhead than John G. Sinclair, we'd give up the hunt and let the election go by default—if we were old Tammany.

☞ The Dayton (Ohio) Journal gives a long account of the National Soldiers' Home in that town. It says:

To give some idea of the magnitude of this institution, we mention that the amount of money disbursed now is about $5,000 per week for construction alone, and half that sum for the current expenses of the institution—or $7500 per week. The energy with which buildings are constructed, is illustrated by this incident: The builder, with his carpenters, laid the foundation and completely finished the hospital, one hundred feet long by thirty feet wide, lining it inside, and whitewashing it, in three days. Three more three-story buildings will probably be erected by New Years.

Ex-Governor Smyth of New Hampshire is one of the most zealous Managers and Visiting Committee of the Board, and yesterday accompanied Hon. L. B. Gunckel to the Home. After thoroughly inspecting the institution, grounds, &c., the soldiers were assembled in the dining room, when they were addressed by Mr. Gunckel and Gov. Smyth, who spoke eloquently of the character and objects of the Home. He expressed himself both gratified and astonished at the progress which had been made in preparing the Dayton Home.

There are now four hundred men at the institution, one hundred of whom are in the hospital, but they are perfectly comfortable and content. Yesterday the superb band came down from Columbus, and were heartily greeted by their comrades. There are yet about one hundred and fifty men at Columbus, who will be brought down as soon as quarters can be provided. Mr. Smyth says that by spring there will be 500 more from other quarters, and Maj. Gen. Thomas writes that there are 500 in Tennessee who will be sent forward as soon as they can be accommodated.

A NEW FIVE PER CENT LOAN.—Mr. Ela, (rep.) of N. H., offered a resolution in the House of Representatives, on the 2d of this month, instructing the Committee on Ways and Means to inquire into the expediency of authorizing a new loan, payable after ten years, and redeemable after thirty years, in coin, by the issue of five per cent. bonds, the interest payable semi-annually in coin, and the bonds taxable at the rate of one per cent. to be deducted from the interest when paid; also providing for notice to be given to the holders of Government obligations now due or hereafter to become due, that they may receive such bonds in exchange or payment, according to the tenor of such obligations,—which was adopted.

☞ Some of the Democratic papers are alarmed lest the negroes elect our next President. The N.Y. Tribune, for their consolation under this afflicting dispensation, reminds them that the negroes have elected all our Presidents, with the exception of Lincoln, since Jackson's administration. In their capacity as chattels, their importance controlled the white vote which elected Van Buren, Harrison, Tyler, Polk, Taylor, Fillmore, Pierce and Buchanan.—If as slaves they were of sufficient importance to elect eight Presidents, through ballots cast by their masters, will the country perish if as freemen they assist in electing one by casting the ballot themselves?

BUTTER at St. Albans, Vt., Tuesday, 20 to 42 cents.

Communication.

THE PRESIDENT'S MESSAGE.—The public always feel an interest in reading the annual message of the President. It is usually carefully criticised by his cabinet, and gives a brief abstract of the substance of the Reports of Bureau Departments. But the whole is not always written by the President. A large part of the present very lengthy message is upon the subjects of the reconstruction acts, and conferring the right of suffrage upon the colored freedmen. In respect to reconstruction, he holds that all the acts of Congress respecting the same are unconstitutional, and that the rebel States are entitled to representation in Congress in defiance of those acts.

He assumes the false position that those States are still *States*, and have not been out of the Union; and he thus repudiates what he often declared, prior to his apostacy, that "they went out of the Union." We quote his own words, from his published speeches.—Reasoning from false premises, his conclusions must be equally false. But if the rebel States (so called) are still States, and not conquered provinces or territories, and did not forfeit all their constitutional rights, if they did not abjure their allegiance to the Federal Government, and if they did not maintain by arms an independent government "based upon slavery," four years, then some of his positions may be correct. Upon this subject his message is only a rehash of what he has declared in his veto messages. So of his denunciation of the civil rights tenure bill, which relieves him from the ordinary exercise of power in respect to removal from office of faithful officers.

He speaks of the high importance of the right of suffrage, the most important of all rights. Instead of being the Moses to protect the colored people in all their rights, as he solemnly promised them he would do in his speech to them at Nashville, he now comes out boldly and argues that it would be unsafe to allow them to exercise that right,—says they have not sufficient intelligence to exercise it, &c., yet he would allow the right to the mass of the rebels, not more intelligent, who fought to destroy our national existence!

The freedmen know enough to vote in favor of freedom. The mass of the rebels do not, but obey the commands of aristocrats.—If the "negroes," as he calls them, are allowed the elective rights, he expresses fears that they may control some of the States, and influence the election of Members of Congress, the President, &c. This is idle talk, when our white population is now nearly thirty millions and that of the colored about four and a half millions.

The message, so far as it gives an abstract of the reports from the Bureaus, is interesting. It is opposed to the expansion of the irredeemable paper currency, and in favor of a resumption as soon as practicable of specie currency. To this all enlightened persons will concur, except the gold gamblers and speculators. It states that the specie is now hoarded up for speculation—that a vast amount has been exported, but with over a hundred millions now in the public treasury, and what is hoarded up, there would to be enough for a speedy return to a specie basis for the redemption of Government notes and securities, besides paying the interest on the public debt.

It is also correct in favoring a reduction of the internal taxes. The production of precious metals in the United States since 1849, amounts to $1,174,000,000. The total coinage amounts to $64,000,000. The exports of specie since 1849 amount to $741,000,000, and $433,000,000 remain in this country. There is now in the Treasury $111,000,000 of coin. It is estimated that there are now in the country $300,000,000. If this amount is not enough to resume specie payment, the Banks can get a sufficient amount from English capitalists for a five per cent. interest. x

☞ A Detroit dispatch of Dec 3, says, Sheriff Orcutt of Kalamazoo was shot through the breast, early that morning, by some persons outside the jail, who were endeavoring to assist prisoners to escape. A quantity of burglar's tools were found in the jail yard, and a revolver was taken from one of the prisoners, which had been passed in during the night. At last accounts Mr. Orcutt was still alive, but in a very critical condition. The assassains escaped.

☞ Epitaphs are not always veracious, but the are more truthful than the labels of the so-called foreign perfumes now sold in this market. Don't be duped by these printed falsities. They are counterfeit presentments, covering counterfeit articles. Phalon's "Night-Blooming Cereus" is, on the other hand, precisely what it purports to be—a pure, unimpeachable staple of the toilet.—*Chicago Times.*

A Clear Conscience is a most valuable treasure, it not only promotes health, but smoothes the way through life to a glorious immortality. But how can a man possess it who is palming off spurious articles destructive even of life and vitality, such as Gold Dollar, Gold Medallion, Golden Premium, Golden Prize, Gold Eagle, Golden Rule and Prize Medal, all spurious frauds upon Herrick Allen's Gold Medal Saleratus, which is so great an improvement over other brands as to induce a host of imitations. 19

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair. First, the prompt, quick action, great growth, life and vigor that it is sure to give the Hair, never failing by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, delicate and unchangeable in any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable oily smell or odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury to dress their Hair. It retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing immediately all scurf, dandruff and pimples. Price One Dollar. Sold by all Druggists. n21—im

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and in point of economy is without rival. Sold by all first-class grocers. 31

☞ On Monday evening in Brooklyn, N. Y. the police were notified that the dead body of a child was lying in an apartment in a house No. 9 Franklin place. An officer was sent to the place and found it lying on the floor, and the mother beside it in a state of intoxication. Subsequent examination showed that the child had died from starvation.

AMERICAN
WALTHAM
WATCHES.
The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, a Waltham Watch is regarded as not only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces by unerring, multiplying gauges and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from the beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home, instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the bent has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.
This system of watchmaking is unknown in foreign countries, and is entirely confined to the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is manufactured in the smallest details, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.
Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

ALLEN'S LUNG BALSAM!
THE REMEDY FOR CURING
Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Weakness in the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the fever to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, although an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if taken in time.

Sold by all Druggists. Price $1 per bottle.

ALLCOCK'S POROUS PLASTERS.
SORE CHEST AND COUGH CURED.
DR. ALLCOCK.—SIR: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly sp ak or breathe. I was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PIERCE PATCHER.

Local.

☞ On Tuesday evening two boys, aged respectively about 16 and 14 years of age, applied for lodgings at our Station House. Being visited next morning by a number of our citizens, they told a straightforward story of the last five years of their life—a life terribly in earnest for children so young. Wm. Berry, the oldest, stated that they were brothers and orphans; their parents, three sisters and an elder brother having been tomahawked and scalped in the Indian massacre at New Ulm, Minn., in 1862, and that their own lives were preserved by their being in the woods searching for a stray cow.

Since the death of their relatives they have visited many cities and towns, gladly accepting employment when it could be found for boys so young, and in most cases being freely furnished transportation by rail and steamer. At Gloucester, Mass., where they sought an uncle named R. H. Heath, they were told he resided in this city, and came hither, to be again disappointed.—Through the exertions of Marshal Johnson, they have been placed with Superintendent Philbrick at the City Farm until some place can be procured. They are bright, intelligent little fellows, and would doubtless strive to render themselves worthy of any situation which might be given them.

☞ We are glad to learn that the new Rockingham Savings Bank opens so encouragingly—a large number and considerable amount of deposits received the first half week, evidencing the confidence of the public in the new institution. There is no question as to the ability and integrity of the managers, and no doubt of its success.

Communication.

ROCKINGHAM BAR—OBITUARY.—At the meeting of the Rockingham Bar, on the 23d ult., Mr. Hackett having presented a resolution in respect to the death of Horace Webster, Mr. Claggett addressed the Court and said: Being one of the oldest members of the Bar, and well acquainted with Horace Webster since he commenced the practice of law in this city, permit me to offer, in a few words, my humble tribute of respect to his memory. Mr. Webster has been called at an early age from this fraternity, when future prospects began to brighten before him. But it has been said that that life is long which answers life's great ends.

He had amiable traits of character—was a well educated, sound lawyer. No extortioner for the sake of gain. I think that his legal opinions to his clients were not hasty; but well matured, and then very correct. His moral habits were remarkably correct, and he maintained an irreproachable character, which was exemplified in his public profession of Christian principles; and he lived up to them in the discharge of the practical duties of life. He was highly esteemed.

When I followed his mortal remains to the silent tomb, I noticed how numerous were his sympathizing acquaintances who followed to pay their respect to his memory. He has left a world where there are afflictions, and pain, and no unalloyed happiness; but his immortal spirit has ascended to the Celestial Paradise, to God who gave it.

Upon his occasion I cannot but reflect how many members of this Bar, some highly distinguished for their legal attainments, have been called away, during my recollection, to that bourne whence no traveller returns. A few were young in the legal profession—one was my own son.*

These successive mournful events should admonish the younger, and especially the older members of our fraternity, so to live that they may be prepared to die,—for this life, at longest, is but a span.

* *Deceased members.*—Jeremiah Smith, Geo. Sullivan, John Sullivan, John S. Wells, Jotham Lawrence, John Kelly, of Exeter; Jeremiah Mason, Joseph Bartlett, Ichabod Bartlett, Edward Cutts, Ichabod B. Claggett of Portsmouth; Amos Kent, Daniel French, of Chester; Josiah Butler, Nathaniel Dearborn, Deerfield; John Porter, James Thorn, Thornton Betton, Derry; Silas Betton, New Salem; Wm. Plumer, Jr., Epping.

☞ Mr. Benjamin Carter, senior, of this city, died in Boston Tuesday evening, rather suddenly. He would have been 92 years old in January. He was formerly a prominent and leading member of the Christian Baptist Church, when that Society worshipped in what is now the Temple, with Elias Smith for preacher. Mr. Carter was one of the few remaining original members of the Mechanic Association, organized 1802. His body will be brought here for burial, and the funeral will probably take place at the Middle Street Baptist Church, Friday.

☞ Republican Caucuses for the choice of delegates will be held in Wards One and Two this evening.

☞ Philharmonic rehearsal this (Thursday) evening, at half past 7.

☞ The friends of the President complain that Congress devotes too much time and attention to the question of reconstruction, and the legislation designed to secure suffrage and equal rights to the South, and too little to the financial questions that affect the whole country. What will they say after reading Mr. Johnson's message, with its "half-penny worth of bread to this intolerable deal of sack?"—*Traveller.*

—At Minneapolis, Minn., Rev. Edward Dunbar, convicted of polygamy, has been sentenced to three years and eight months hard labor in the Penitentiary.

POMOLOGICAL CURIOSITIES.—A correspondent of the Maine Farmer says that Capt. Benj. Allen of Greene, Maine, raises in his orchard a variety of apples, which is a great pomological curiosity as well as a puzzle. It is made up of alternate sections of sweet and sour, each section including about one-eighth of the apple. When the apple is well grown, the sections are regular and very but little, if any, in different apples, and they are always distinct. In size, form and keeping propensities, it resembles the Rhode Island greening—in fact, the sour part is that kind of apple. When first picked, the whole apple is of a green-ish color, and the sweet and sour sections are not easily distinguishable, but as it matures, the sweet sections assume a rich, yellow color, while the sour part is that green-ish yellow peculiar to the greening.

Mr. Benj. Richardson of Monmouth had an apple tree set out in his orchard during the month of May last, which shed its leaves the last part of June and the first of July. In August the leaves came out again, in September it blossomed, and in October apples were growing upon the tree the size of potato balls, when they were checked in their growth by frost.

[Sam'l Lamprey has had in his garden in this city, this winter, some fine specimens of the flower, called Monks-Hood, peeping up through the snow. The plants came up late in the Autumn, and flowered in a few weeks.]

A GOOD MONUMENT.—Fame is a vapor; popularity an accident; riches take wings; the only certainty is oblivion—no man can see what a day may bring forth; and those who cheer to-day will often curse to-morrow; and yet I cherish the hope that the journal I projected and established will live and flourish long after I shall have mouldered into forgotten dust, being guided by a larger wisdom, a more unerring sagacity to discern the right, though not by a more unfaltering readiness to embrace and defend it at whatever personal cost; and that the stone which covers my ashes may bear to future eyes the still intelligible inscription, "Founder of The New York Tribune."—*Horace Greeley.*

USE SALT IN KEROSENE LAMPS.—A number of persons in this town have found by experience that the light of coal oil lamps is greatly improved by adding to the oil one-fourth its weight of common salt.—It makes the light much more brilliant and clear, keeps the wick clean and prevents smoking.—*Norfolk Journal.*

—Queen Victoria has struck and refuses to pay the butchers of her establishment the large prices they have been exacting. It has already, it is said, produced a perceptible reduction in the price of meats in the common markets of England.

500 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha,
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE
to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more labor is are now employed upon it than ever before. More than*

Forty Million Dollars in Money
have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States government found it necessary to secure the construction of the Union Pacific railroad to develop and protect its own interests, it granted the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS
Having thirty years to run and being six per cent. currency interest at the rate of $16,000 per mile for 247 miles on the Plains, and $32,000 and $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States take a *second lien as security.* The interest on these bonds is paid by the United States government, which also pays the company one half the amount of its bills for transporting troops and its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, for from a single road we shall pay nearly all we charge the whole amount of this line. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.
By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *no more, and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.
The Union Pacific Railroad Company has a land grant of an absolute *fee simple* government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.
The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $30,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished a very large part of the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary sums for construction and repairs of cars, depots, stations and all other accidental buildings, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount larger than is called for than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the seven hundred miles assumed to be built by the Pacific Company to be $30,000 per mile,

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058 ..... $62,205,012
186 miles, at 30,000 16,740,000
Add discounts on bonds, surveys, &c. ' 4,500,000

Amount $82,445,012
As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the
AVAILABLE CASH RESOURCES FOR BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds $35,328,000
First Mortgage Bonds 29,328,000
Capital stock paid in on the work now done 5,369,750
Land Grant, 14,080,000 acres, at 1.00 per acre 21,120,000

Total $85,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for completing the road. This may be done in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these bonds, and arrangements are proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad was finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge a remunerative rate. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the rich tea, spices and other products of Asia. Exceeding some very heavy or bulky articles of comparatively low values, shortness of time decides the direction of freights, and most of these lines will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track to necessary. California and Oregon must not only be supplied with means of transport for passengers, mail, treasure and other freights, but the inhabitants of Decotah, Colorado, Utah, Idaho and Montana will communicate with the older states almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the first part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 225 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.
Passengers, Freight, Telegraph, Mails, $723,755 54
Transportation of Contractors' Material and men 479,383 41

Total $1,203,038 95

EXPENSES.
Fuel, Repairs, Offices, Conductors, Trains, &c. $305,530 92
Net Earnings to balance 897,508 03

Total $1,203,038 95

The net operating expenses on the commercial business for the quarter were $27,986 50. The account for the COMMERCIAL BUSINESS stands as follows:
Earnings for May, June and July $732,755 54
Expenses " " " 327,986 50

Net Profit $485,769 04

The amount of bonds the company can issue on 225 miles at $16,000 per mile is $3,600,000, interest in gold, three months at 6 per cent. on this is $78,000; add 40 per cent premium, to correspond with currency charges ..... $140,200—showing that the net earnings for the quarter were more than four times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,
whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six per Cent in Gold,
and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at six per Cent in currency from July 1.

Every purchaser is taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 30 Nassau street, and by
CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 53 Wall St.
And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

Secure Profitable Investment.
THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the best improved LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the
Main Trunk Line across the Continent.
The Road is now nearly completed from Sacramento to the Richest Mining Region in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.
The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the richest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$593,847 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the treight and passengers from the temporary terminus in the mountains.
The United States Government and the State and City of California have so set bulk by the aided the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)		$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)		11,000,000
LOANS (subordinate lien)		3,000,000
U. S. SIX-TEN BONDS, 726 miles, (subordinate lien)		25,517,000
FIRST MORTGAGE BONDS		24,517,000
Resources first 726 miles		$77 831,000

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.
These Bonds, authorized by Congress, Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Road is completed by the Company, and are the prior lean upon the whole valuable property furnished by the above Resources. They possess special advantages over all other issues of other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, roundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO
Central Pacific First Mortgage Bonds,
now realize for the holders from **12 to 18 per cent. Advantage,** with the same rate of interest.
Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Dental Card.
HIGHLY IMPORTANT.
Dr. GOODALL announces to the citizens of Portsmouth and vicinity that he has purchased the right to use the
NEW PACKING RIDGE.
In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction, Firmness and Freedom from Food and Moisture working under the Plate.
The expense of the Patent is considerable, but I shall at present charge only 5 dollars additional whenever I apply it.
I am administering ETHER continually, and from my long and successful experience, will promise my one they shall not suffer pain from the extraction of 1 tooth or 32. So put aside your needless fears, and prepare for this Great Improvement in Artificial Teeth.
P. S.—I can also insert Teeth (in many cases) with this New Patent, without extending the Plate over the Roof of the Mouth.

Morning Chronicle.

— The *bar*-ometer in Massachusetts is rising. How is it here?

— What word is always pronounced wrong? *Wrong*, of course.

— To curb a fast young man — bridal him.

— The divine spark—a woman's first love.

— From lively to severe— Coming home from a dinner late to one's wife.—*Judy.*

— Dramatic authors—Whiskey distillers. —*N. Y. News.*

— The glass of fashion—the glass of Bourbon.

—The language of the sole—creaking boots.

—A young woman's conundrum.—Who is our favorite Roman hero? Marius.

—There are now only 1138 old soldiers in the Hotel des Invalides.

— An American fire engine, the first in China, has arrived at Hong Kong.

—Rev. Dr. Chapin says a man living amid the activities of the nineteenth century is a condensed Methuselah.

—When a man is out of money he shows the least of it. When he is out of temper he shows the most of it.

— Why is exhilaration like the consequence of breaking a rum bottle? Because it is a flow of spirits.

—Never condemn a friend unheard, or without letting him know his accuser and his crime.

—If the happy days of wedlock are called the honeymoon, why shouldn't the unhappy ones be styled lunar caustic?

— There never was any party, faction, sect, or cabal, in which the most ignorant were not the most violent.

—Consider how few things are worthy of anger, and you will wonder that any but fools should be in wrath.

—Rev. C. L. Balch, formerly an Episcopalian minister in Nashua, is now preaching in the West, as a Universalist.

— The Boston Daily Advertiser is now the largest paper issued in New England, and the Hartford Courant ranks next in size.

— The advice of Dickens to the schoolship boys—"Do all the good you can, and make no fuss about it"—is equally good for boys of a larger growth.

— In Iceland the clergyman kisses his congregation all around before preaching. That would be a nice land for young ministers.

— There is a lady's base ball club in Coldwater, Mich. One of the members, a Miss Howard, recently died from the effects of over exertion in a match.

— A "gentlemen's furnishing" firm in Brooklyn announces themselves as "hosiers, glovers and shirters." This outdoes "John Smith, batter and capper," and paves the way for "Hans Sachs, sewer and booter."

A SAFE CERTAIN AND Speedy Cure FOR Neuralgia, AND ALL Nervous DISEASES.
Its Effects ARE **Magical.**

It is an UNFAILING REMEDY in all cases of Neuralgia Facialis, often effecting a perfect cure in less that twenty-four hours, from the use of no more than two or three PILLS.

No other form of Neuralgia or Nervous Disease has failed to yield to this

WONDERFUL REMEDIAL AGENT.

Even in the severest cases of Chronic Neuralgia and general nervous derangements—of many years standing—affecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can ALWAYS be used with

PERFECT SAFETY.

It has long been in constant use by many of our MOST EMINENT PHYSICIANS,

who gave it their unanimous and unqualified approval.

Sent by mail on receipt of price and postage.

One package,	$1.00,	Postage 6 cents.
Six packages,	5.00,	" 27 "
Twelve packages,	9.00,	" 48 "

It is sold by all wholesale and retail dealers in drugs and medicines throughout the United States, and by

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
Paris, 8th April, 1864, 26 Rue Faubg. St. Honore.
"Will you please send me by express, to be forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. Belmont & Co., New York.
Baron Solomon (to thischild having recommended to many of his friends Major LANES LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly, stands by itself, no equal.—For the relief and cure of *Rheumatism and Neuralgia Affections Sprains, Bruises, &c.*, it is unequalled.—It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Be sure to ask for MAJOR LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 189 Greenwich street, N. Y.; F. C. Wells & Co., 199 Fulton street, N. Y.; Chas. N. Crittenden, 58 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

THE PACE THAT KILLS.

The gallop of life was once exciting,
Manly we dashed over pleasant plains;
And the joy, like that of a brave man fighting,
Poured in a flood through our eager veins,
Hot youth is the time for the splendid ardor,
That singes the nerves, that throbs and thrills;
And ever we press our horses harder,
Galloping on at the pace that kills.

So rapid the pace, so keen the pleasure,
Scarcely we pause to glance aside,
As we mock the dullards who are perched at leisure
The frantic race that we chose to ride.
Yes, youth is the time when a master passion,
Of Love or Ambition, our souls fulfils,
And each of us rode in a different fashion—
All of us rode at the pace that kills!

And vanity, O friend, ye strive to bind us;
Flippantly, gaily, we answer you:
"Should Afra Carn jump up behind us,
Strong are our steeds and can carry two!"
But we find the road so smooth at morning,
Rugged at night that the lonely hills,
And all too late we recall the warning,
Weary too late of the pace that kills!

The gallop of life was just beginning,
Strength was wasted in efforts vain;
And now, when prizes are worth the winning,
We've scarcely the spirit to ride again!
The spirit, forsooth! 'Tis our strength has failed,
And sadly we ask, as we count our ills,
"What pitiful, pestilent folly aided us?
Why did we ride at the pace that kills?"

THE ABSURDITIES OF FASHION.—The Lynn Reporter describes a French style of shoes now manufactured in that city in large numbers for the New Orleans and California markets, which is admirably contrived for producing deformity and discomfort.—Upon the sole, which is as thin as a wafer, is fixed a heel an inch and three quarters thick, and tapering off so rapidly toward the base that it does not allow the space of a new cent piece to stand on. In consequence of the excessive thickness of the heel, the foot, instead of being level and parallel with the floor, is sloped down towards it at an angle of perhaps twenty degrees, so that only the inner edge of the heel rests upon the ground, and the flat of the foot is without support. How women can walk in such shoes without spraining their ankles or meeting with other accidents it is difficult to conceive. But they do it, and laugh at the idea of injury.

RIDICULOUS FASHIONS.—The ladies do not monopolize the senseless fashions. Their tilting hoops have been frowned down or "gone up," and their postage stamp bonnets (?) having reached the infinitesimal point, a reactionary increased dimension thereof is apparent, and with the advent of the pretty and becoming walking dress, it became unfashionable to sneer at feminine eccentricities of costume—its many offenses against good taste, and sacrifices of comfort and health. But we started to inquire whether men were altogether without sin in this matter.

The prevailing style of shrunk-shank pantaloons and invitation-to-kick bob-tailed coats, are sufficient answer. The wearers of this costume look, for all the world, like fly-up-the-creeks, lacking in 'heft,' and painfully suggestive of peculiar embarrassment. If all bad lower limbs like the Farnese Hercules, there would be less impropriety in our wearing tights; but instead of Farnese, the majority have near-knees—that is, too near to each other. And, as for comfort, encased in these candlemouths, one dare not laugh, for fear of compound fracture—being restricted, in that respect, like ladies with enameled faces. Tight boots are an ancient wrong, but tight pantaloons are a modern grievance, for which we have to thank the narrow mind of some tailor, who, doubtless, had a big leg.—*Dorpian.*

—"I hope this hand is not counterfeit," said a lover, as he was toying with his sweetheart's fingers. "The best way to find out is to *ring* it," was the neat reply.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:
Portsmouth.
John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jenness, Capt John Fisher, Mrs Wm Haslet, Israel Harden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob G Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred D Moses, James Douglas, Ephraim R Downs, George Booth, Mrs Augustus Shuckley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Bell, William Skeels, Silas A Hand, John Kimberly, W H Thompson U S N, Alexander L Robinson, Elizabeth Hewitt, Wm B Norton, J G Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Philbrook, Chas A Green, Simon H Mills, Mrs Mary McAuley, Phineas Hoyt, Nathan Whalley, E A G Holmes, Oliver Stacy, Edwin Sanborn, Jas F Jenness, John Seaver, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, George Yeaton, George E Childs, Chas Locke, Frank Watkins, Albert Leach, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, George Yeaton, George E Childs, Edwin Sanborn, Jas F Jenness, John Seaver, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, George Yeaton, George E Childs, Chas Locke, Frank Watkins, Albert Leach

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 6, 1867.

CONGRESS.—In the House of Representatives, Wednesday, Dec. 4, the bill to repeal the tax on cotton came up. An attempt was made to have the repeal go back and include the present crop—but this and other amendments failed, and the bill passed by 145 to 20.

In the Senate a debate ensued upon the proposition to print the President's Message.

Mr. Howard hoped the resolution would be laid over. Under the present circumstances he could not vote for printing the President's message. He did not think it worthy of that attention. He considered it a wanton libel on Congress so far as it alluded to the reconstruction policy of Congress and those who voted for it; and he would not vote to circulate it. It was an invidious invitation to the rebel States to use violence in resisting that policy. It was unconstitutional and revolutionary.

Considerable debate followed, which was participated in by Messrs. Sumner, Anthony, Wilson, Buckalew, Dixon and others. Messrs. Buckalew and Dixon defended the message.

Pending the discussion, bills were introduced by Mr. Trumbull to make five Judges of the Supreme Court a quorum, which was passed.

Also a bill by Mr. Wilson amending the bill for the government of the Southern States by allowing a majority of those voting instead of those registered to call a Convention. Referred.

Mr. Drake of Missouri offered a resolution of censure on the President's Message, which was laid on the table and ordered to be printed.

Mr. Edmunds' bill pledging payment in coin was taken up and debated until 2 1-2 o'clock, when the Senate went into Executive session.

☞ From Alabama there come reports of disorderly proceedings of colored men, who "flocked to Union Springs, threatening a general rising and the extermination of the whites and taking possession of the country. During the excitement, the negro church at Perote was burned by unknown parties, it is believed by Black Leaguers to inflame the negroes.—The whites universally regret it. The white citizens have organized for protection. Gen. Swayne was appealed to, and sent a detachment of troops promptly to the scene of trouble to restore order.

Fifteen black insurrectionists have been arrested and lodged in jail to be tried by civil authority. At last accounts order had been restored and all was quiet."

This account is evidently *colored* very highly. We shall see another version of it sometime.

☞ Peterson's Magazine for January, in addition to its fashions and novelties, contains two excellent steel plates,—"The Anxious Mother," and "The Beauty of the Season."—To be had at the Bookstores for $2 a year, or of the Publisher, Charles J. Peterson, Philadelphia.

☞ A great mass meeting of distinguished merchants and others in New York city, was held at the Cooper Institute Wednesday evening,—and unanimously nominated Gen. Grant for the next President of the U. S.

SMOKING.—One of the most eminent physicians of New York attributes the premature death of three of the most eminent divines of this country to the inveterate use of tobacco. The recent death of one of the great financial and political leaders of Paris, M. Fould, has directed public attention to the subject. Nicotine, the redoubtable poisonous principle of tobacco, acts as a heart-poison. It paralyzes the central organ of the circulation, thence sudden death. A dose insufficient to kill, nevertheless produces symptoms analogous to those of *angina pectoris*. The cigar chiefly has this dreadful result upon impressionable persons who lead sedentary lives, and whose minds are constantly on the stretch. This is now an accepted point in medical science, and there is scarcely any practitioner who does not prohibit smoking, or, at least, who fails to recommend the greatest moderation in it to such of his patients as are liable to even the slightest perturbation of the functions of the heart.

☞ A Nashville dispatch states that Governor Brownlow, in a published card, gives a flat denial to the testimony of Detective Baker before the Impeachment Committee, wherein Brownlow is said to have been cognizant of a letter written by Andrew Johnson to Jefferson Davis. The Governor further says that he does not believe that Mr. Johnson ever wrote a letter to Jeff. Davis, or in any other way gave aid and comfort to the rebellion.

—A Philadelphia paper tells a story of the widow of a Union soldier who married again, but was persuaded by her husband to continue drawing her pension. In order to do this she was compelled to take an oath each time that she was still a widow. She is now under indictment for perjury, and the informer was her own husband. [The woman is probably no better than she should be; but the man should go to the State Prison as well as the woman.]

—Rev. J. E. Rankin, of Charlestown, Mass., urges a closer attention to church discipline, not so much for the purpose of cutting off members as to reclaim them and bring them under closer Christian influences. The suggestion is a timely one.—*Advance.*

NEW HAMPSHIRE ITEMS.—A correspondent of the Claremont Advocate writes, that Rev. G. W. Poland, pastor of the Methodist Church in Raymond, was waylaid while walking to church with his wife, on Thanksgiving day, and an attempt made upon his life by a brutal copperhead, named Blake, who had expressed a determination to put Mr. Poland four feet under ground before night. Fortunately Mr. P.'s friends rescued him, and he only received a swinging blow upon his left temple. Mr. Poland had been active in denouncing the liquor traffic, and threats had been uttered against him on this account for three or four weeks, but he had not heeded them.

On Saturday night, Joseph Chase, of Stewartstown, confined in Lancaster Jail on a charge of rape, escaped, by sawing off two of the bars of his cell window, in which he was confined alone.

Paran Stevens has given another $10,000 as a permanent fund to the High School in Claremont, for the establishment of which he previously gave $11,000.

A New Hampshire farmer raised a turkey this year which weighed twenty-one and a-half pounds, being at the rate of two and a-half pounds a month.

A Congregational Church was organized at Lee, on the third instant, of about twenty members; and at the same time and place Mr. Mason Moore, who has preached there for about a dozen years past, was ordained as an Evangelist.

Rev. D. E. Adams of Wilton, has declined the call to Swampscott, Mass., and his parish have raised his salary to $1,000.

The Congregational Society of Peterboro' have also voted to give their pastor, Rev. George Dustan, $1000 salary.

Wm. Stevens, Esq., of Mont Vernon, met with a severe accident while descending the hill in a carriage, accompanied by two ladies. By the fall of the horse he was thrown from the carriage, starting several of his ribs and badly bruising him. The ladies were not materially injured.

☞ The ex-rebel element in the Crescent City is overjoyed at the supercedure of Gen. Mower by Gen. Hancock, the former having made himself quite as objectionable to this class as his immediate predecessor, Gen. Sheridan. One of their organs says of Gen. Mower: "That he is to lay down his authority satisfies our people so completely that they are ready to hail the new commander as a political savior." [If Gen. H. does his duty, the disloyal will soon dislike him.]

☞ Gen. Grant has sent to the House of Reps. a letter recommending the passage of a law that the Superintendent of West Point Military Academy rank as Major General; that a Board of Visitors be authorized to report upon the actual state of discipline at that establishment, and among other provisions, that no candidate for admission who has been rejected upon his examination, shall be reappointed within two years.

GODEY'S LADY'S BOOK, is a Queen of Monthly Periodicals. The number for January, 1868, has for a frontispiece, "New Shoes." There is an engraved page of Winter Scenes, a great display of Fashion Plates, and many other embellishments.

WASHINGTON ITEMS.—The official information from Gen. Canby's headquarters, is to the effect that a Convention in South Carolina is probably called, notwithstanding the apparent failure at first indicated.—The returns from the interior show that a larger vote was polled in the upper counties than at the sea coast.

The Convention in North Carolina will probably be fixed for the early part of January, and that for South Carolina somewhat later in the same month.

A majority of the members of the Military Committee are opposed to merging the Indian Bureau into the War Department, and part of the Committee will urge its being formed into a separate department, similar to that of the Agricultural Department.

—The North American Review is trying to convince all young men who are ambitious of literary fame, that marriage is unfavorable, while celibacy is favorable to success in letters.

— There is to be a reduction of the hours of labor to eight hours a day, at the railroad shops in Augusta, Me., and a corresponding reduction in wages.

— The Bartlett Mills, at Newburyport, closed their small factory on Saturday last. The large mill will run three-quarters time till they run out their stock, and if there should be no improvement in business at that time, the entire work will stop.

— The New Bedford Standard says that the oil market partakes of the general depression in business throughout the country in cotton, dry goods, coal, and all other staples, and there has not been a transaction in oil or bone from first hands for about a month.

— There is a convict in the Philadelphia jail who has been under sentence of death 16 years, and has been reprieved each successive year. There are several cases somewhat similar in Maine, where murderers have been confined for nearly or quite 20 years, and whom any Governor may hang "at pleasure."

☞ For the benefit of the lovers of the marvelous, we clip the following item from the New Orleans Picayune of a late date:

Mr. W. W. Squire, of this city, brings us a limb of a cherry tree, one of seven growing, about two miles from Covington, St. Tammany, under which every day there falls a rain between 2 and 6 P. M. Strange to say, there are no clouds or sign thereof, but the rain comes every day, and has done so for the last two weeks. The lady who resides near by, who lately lost her husband, discovered it soon after his death, and it was never known to be the case before. The spot is visited daily by people from Covington, to whom this singular and miraculous rain, without clouds, is an inexplicable wonder.

GEN. GRANT'S VIEWS.—From the excellent report of Gen. Grant, *ad interim* Secretary of the War Department, to the President, we copy what he says in relation to the Freedmen:

The freedmen, as a people, are making rapid progress in education, in mechanic arts, and in all branches of industry.

The schools have increased in number and usefulness. Normal and training schools are well attended. The total of day and night schools reported, including industrial but not the Sunday schools, is 2,207, with 2,442 teachers, and 130,735 scholars; an increase of 40,000 since the last annual report. Of these 1,056 schools are sustained wholly or in part by freedmen, and 391 buildings are owned by them. Of the teachers 699 are colored and 1388 are white.

Apprenticeship in Maryland still holds large numbers of colored children in virtual slavery. The evils and cruelties resulting from this system, sanctioned by the State laws, are matters of constant complaint.—As many as two thousand cases have been presented in a single county.

In all the schools in the District of Columbia and West Virginia there have been 7998 scholars and 229 teachers. In West Virginia the schools have been sustained in part from the public school fund, where an impartial system of free schools exists. In the District of Columbia the colored schools are also entitled to a proportionate share of the public school fund, but the city authorities have not yet paid the entire sum claimed. It is probable, however, that the trustees of the colored schools will recover all that is due, and in future receive an equitable share of the public funds, in which case the colored schools will be independent of the Bureau.

Several institutions of higher grade than common schools have been established, and have made a good beginning. Among these are the National Theological Institute in Washington, under the auspices of the Baptist denomination; the normal school and college at Harper's Ferry, conducted by the Freewill Baptists, and the Howard University, in the District of Columbia, which is designed to be national and free to all. The normal and preparatory department has been opened with about sixty scholars, and buildings are now being erected for other departments.

☞ The feat of walking one hundred miles in twenty-four hours has been accomplished by a citizen of Portage, Wis., named Hassel, who did it with forty minutes to spare. Yes, but he did not have to walk fifty miles or so the day before and day after, as Weston did.

— No wonder Weston is a good walker. It turns out that he used to be collector for a newspaper office.

— New England rum is quiet and nominal, say the New York prices current. It is to be hoped that the "critter" will remain so.

—The Prussian troops, who formerly only marched one hundred paces a minute, now have to make one hundred and twenty —the French standard.

—The Virginia (Nevada) Post reports that thirty-five men from Bozeman captured eleven horse thieves in the Yellowstone valley, returned the horses to the owners, and accounted for the thieves by saying they had "gone to the States."

—A young fellow in Berlin made a bet that he would kiss twenty-five young ladies on the Thiergarten. He succeeded in kissing three, getting his ears slapped by one of them, and being arrested by a constable.—The police magistrate dismissed him next morning, with the admonition to go and kiss no more.

—Thursday morning, at half past 6, a boiler exploded at the Globe Print Works, in Fall River, which demolished the boiler house, and blew 200 yards away. Another boiler exploded, and went through a stone wall 2 feet thick, making a hole 40 feet wide. Two other boilers went up into the air, and fell on the Dye House. The main building caught fire and was destroyed. Two persons were hurt badly, but none killed.

HAS your Brother secured a Certificate of the Washington Library Company of Philadelphia, in aid of the Riverside Institute, for educating orphans? Each certificate costs a dollar, with a beautiful engraving, worth more than a dollar at retail, and secures besides, a present at the Great Distribution by the Company, and an equal chance that the present may be one worth thousands of dollars. It is wonderful and true. Read advertisement. 10

Breathes there a man with soul so dead
Who never to himself hath said,
Give me my pies and cakes and bread
From poisonous gases free.

The gases generated by Herrick Allen's Gold Medal Saleratus are not only free from deleterious properties, but warranted cleansing, purifying and health-giving. Those affected with dyspepsia and heart-burn are invited to use it freely and relief will be realized. 20

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and is point of economy is without rival. Sold by all first-class grocers. 31

☞ The New Orleans Times quotes the following novel sentence from the charge of R. King Cutter (whom it denominates "that remarkable lawyer, jurist, judge and magician,") to the Grand Jury of Jefferson Parish, La.:

"I have an abiding faith, and do confidently trust that *no act of injustice will be committed or* OMITTED *by you.*"

— Rev. Eli N. Sawtell, D. D., has accepted an invitation to become Secretary of the Pennsylvania Seamen's Friend Society.

Improve Your Eyesight!

MOTHER BAILEY'S QUIETING SYRUP,—the great quieting remedy for children teething, allays all pain, cures wind colic, convulsions, and by giving, &c. Large bottles 25 cents. Sold by druggists. s27—dawly

AMERICAN
WALTHAM
WATCHES.

The true value of Machinery applied to Watchmaking is not first by its use watches are rapidly made, but that they are made perfectly. Very few people know why a Waltham Watch should be superior to any other. In the first place, a Waltham Watch is made by machinery as simply as machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it remains only with the machinery, constructed with infinite delicacy of adjustment for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage, from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to its proper size in its place. Every part may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the slightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and certain in results, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, so easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Weakness of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, and in addition, it is one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to injure by its restrictiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PECULIARLY ADAPTED to the most delicate child, although an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

n11—1m

ONLY 25 CENTS FOR LARGE BOTTLES!—Mother Bailey's Quieting Syrup for children, which greatly assists the child thro' the months of teething, relieves all pain, cures Inflammation, correct acidity of the stomach and never fails to regulate the bowels. Sold by all druggists. s27

CHILDREN'S LIVES SAVED For 50 CENTS. Thousands of Children die annually of Croup.—Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Liniment in the house, you never need fear loosing your little ones when attacked with this complaint. It is now 20 years since I introduced my Liniment, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases would have been reported to me, and many state it it was $10 per bottle they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throat, Swellings, Rheumatism, Colic, Diarrhœa, Dysentery, Spasms, Old Sores, and Pains in the Back and Chest. No one once tries it who is ever without it. It is warranted perfectly safe to take internally. Full directions with every bottle.—Sold by the Druggists. Depot 56 Cortlandt street, N. Y. n8dwlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and weakness, for more; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PHŒBE PATCHER.

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$2 per year; for balance of this year free to new subscribers.

☞ While the Exeter (County) Fair expenses were about $300 more than receipts; and some who were awarded premiums are asking when they shall receive them, (as per our columns last week)—the Piscataqua River Fair here resulted in considerably more than paying expenses; and this with the trotting since, have left the affairs of the Rockingham Trotting Park in so comfortable a condition, that we understand Gen. Hadley, the attentive and efficient Treasurer, recommends a dividend on the stock! This difference shows the odds there is in men, and that this track will "pay."

The new Trotting Park has been constructed and managed for the shareholders by a Board of Trustees, consisting of Messrs. Frank Jones, Henry R. Stoddard and John H. Ferguson, and very judiciously and successfully have they arranged all details—and to Mr. Jones particularly is great credit due, for his unwearied exertions for the cause of good sport. The track is owned in shares of $100, of which there will probably be fifty; and it is designed to ask for an act of incorporation next year.

The Rockingham Society has now about $300 funds left, which may be sufficient to pay the deficit of one more Show (at Exeter.) A prominent member thinks the reasons for the results this time are, the great number of dead-beads ("life-members," &c.) on the rolls, and the great purse so foolishly paid on the extra third day for trotting, just to spite other people—which they didn't make out to do, after all.

We are informed the Annual Meeting was very thinly attended—the Exeter members even not being generally present—not nearly as many of them as went over to Hampton two years ago and outvoted and voted out all but their end of the County. Well, the old Board, who turned over $1000 or more of funds, when they were ousted because they wouldn't hold Fairs till they could see a way clear to make them pay expenses—will probably stand fully as high in the memory of the Society, as the new and brisk managers who have scattered most of the cash.

☞ The members of the Mechanic Association have been notified to attend the funeral, to-day, of one of their oldest members, Mr. Benj. Carter, who left the request for their attendance on this occasion, as well as for the services to be in the Baptist church. This latter arrangement will enable the members of the Association to join in the religious services, as they cannot do in a dwelling of the usual size.

Communication.

THE BLACK WALNUT TREE is not only handsome but very profitable as a wood for furniture, and also yielding sap and nuts. It does not have to be brought from afar, but can be grown at your own door. When grown by the roadside, or in an open field, the branches spread which form the lumber of the kind that the branch veneers are sawed from; worth from $150 to $200 per thousand feet. It is said by a western paper that the sap will make good sugar, and the nuts have been sold in Portsmouth for ten cents per pound. Ten years is sufficient to have the trees in bearing condition, and twenty for a good sized tree.—The unoccupied land by the roadside of most any city or town, if set with the black walnut or other tree of equal value, would be likely, in a few years, to produce a very valuable property.

The city of Portsmouth, and I believe all towns in the States of New Hampshire and Massachusetts, have the legal right to tax each tax payer an amount *not exceeding* 25 cents, for setting trees by the roadsides. In some places in Germany, one can ride for a whole day between fruit trees either in blossom or bearing fruit. And why not, in this country, have the unoccupied land by the wayside set with trees of the most valuable kinds. Trees by the side of a street or road do better than in fields, because the soil is not exhausted; and the fields are wanted for other purposes. If cities or towns do not plant trees, then individuals can; and if they do, they have the right to claim all in front of their own premises. It has been objected that strangers or "the boys" will get some. Well, let them do so—and then let the towns or people make the trees and nuts so plentiful that nuts need not be stolen. It might prevent some crime, and would be a pleasant variety to add to our usual stock of nuts. D.

☞ The Lecture by Rev. Dr. Lord, at the Lyceum Tuesday evening, was a splendid essay on Queen Elizabeth—finely written and well delivered; and displayed at once the finished scholarship of the orator, and the magnificent qualities of the greatest of British Queens. It was one of the best efforts of Mr. Lord, and worthy a place in any Lyceum course.

PORTSMOUTH ABROAD.—The Transcript says the nomination of Mr. Avery Plumer as an Alderman of Boston, gives great satisfaction to the business public.

☞ Two new ships have just loaded nearly four hundred tons of prime quality screwed Hay at this port, for the South.—The price paid was $20 per ton.

☞ Mr. Taylor wishes us to say that he has not sold his store corner of Bridge street, as some have supposed from our record of real estate sales, but may be found there as usual. The house sold was one adjoining.

☞ The Boston Transcript complains of the city clocks there, just as the people do here of ours. But no science or art has yet invented a remedy for the stopping of outdoor clocks, when the water on or moisture in the hand-pinion freezes; so in changeable weather, first warm and wet, and then cold, they must stop.

GOLD, Thursday, 137 1-2

—The London Star states that a Mr. Everett, a London barrister, is now on a visit to the United States, to ascertain how the owners of plantations and other estates in the South can be assisted with capital to develop the resources of these sections. His chief object is to see it absolute and available security can be given.

500 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until 1345 completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE
to the Pacific will be completed in September, 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific railroad to develop and protect the new interests, it gave the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and being six per cent. currency interest at the rate of $16,000 per mile for 247 miles on the Plains; at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien on the road*. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of the bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and goes toward the sinking fund which is to discharge the whole amount of this lien. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *no more, and only as the road progresses*. The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *fee simple* gift from government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $6,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties who have already finished over 300 miles, at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of engines, depots, stations, and other incidental buildings, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount not to be less in all than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $60,000 per mile,

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles, at 80,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$83,445,012
As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the	
AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:	
U. S. Bonds	$30,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,309,750
Land Grant, 14,080,000 acres, at $1.50 per acre	21,120,000
Total	$85,145 750

The Company have ample facilities for supplying any deficiency that may arise in means for completion. This may be done in open market or part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these bonds, and several parties have proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will rapidly develop into a source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $5 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative prices. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy and bulky articles of comparatively low values, shortness of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track so necessary. California and Oregon must not only be supplied with means and transport for passengers, mail, treasure and other freights, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Arizona will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails,	$723,765 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,530 92
Net Earnings to balance	807,508 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were $327,986 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$733,755 54
Expenses " " "	327,986 50
Net Profit	$405,789 04

The amount of bonds the company can issue on 325 miles at $16,000 per mile is $5,200,000. Interest in gold, three months, at 6 per cent. on this sum is $78,000; add 40 per cent premium, to correspond with currency earnings, is $109,200—showing that the net earnings for this quarter were more than three times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six Per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at Six Per Cent. in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.

Secure Profitable Investment.

THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES of COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly pushed forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$593,847 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, while the Local Aids, Franchises, &c.

Morning Chronicle.

From the "Turf, Field and Farm."

DEXTER AND BONNER.— * * * At the club house we found a number of gentlemen assembled, dividing their time between the exciting, rapidly shifting scenes of life on the road, and Mr. Robert Bonner driving Dexter around the track. The air was bracing, and the little wonder stepped with that elasticity which clearly is the offspring of a buoyant spirit. As soon as we had joined the small group of enthusiastic observers on the track, Mr. Bonner straightened his horse and sent him past the club house and up the heavy grade with fearful rapidity. It was a beautiful sight. The horse responded to the call of his owner, and the limbs began to work like a perfect piece of machinery. Faster, faster, and he seemed to fairly skim the surface, to cleave the air like a meteor. We stood in breathless silence, and it was "Hark to the haste of flying feet," as he sped by us "Upon the pinions of the wind."

There was nothing harsh in the motion, but everything beautiful, smooth, regular and systematic. Mr. Bonner handled him with perfect ease, rousing him by a sharp cry to the fury, swiftness and irresistible onward sweep of the hurricane, then soothing him with gentle words, calming his excited nerves, and softly lulling him into a state of repose, as the mother with a sweet, low chant, lulls the obdurate and tempestuous child, clasped with the wild yearning of love to her bosom, into quietude and sleep.

A year ago, no one would have dreamed that the horse that was feared, as we fear the tornado for its speed and power, could be controlled, as Mr. Bonner controls him now. The wonderful transformation sounds like a fairy story of old. The will hope of yesterday is realized to-day; and yet no magician has come before us to touch Dexter with his golden wand, to prove to doubters and unbelievers the glory and potency of his mysterious art. The change may be magical, but the wizard who has performed the miracle is Mr. Bonner; and the wand that he used were the words of kindness made doubly effective by appealing to the reason of the horse.

We emphasize the word purposely, because we believe the horse is possessed of reason to a certain degree. Every day we meet with incidents which tend to confirm this belief; and in this respect, we doubt not that the experience of every intelligent observer urges him to the same conclusion. After making two circuits of the track, Mr. Bonner brought his horse to a stand-still, and as he stood calm and proud before us we recalled the lines of Byron, "A noble steed," not wild and "a Tartar of the Ukraine breed," but one "Who looked as though the *speed of thought* were in his limbs."

Our drive home was after nightfall, and our curiosity to see how the horse would act in the mountain light, when ghostly shadows lurk in the corners by the wayside and flit before and there, was gratified. Dexter jogged along like an old horse, stepping, it is true, with elasticity and buoyancy, but swerving neither to the right or left. In coming through Central Park, Mr. Bonner went some distant in the advance, and, in one of the darkest places, a mad driving party came up behind him, shouting and urging their horses forward at a breakneck speed. They rushed around the bluff, and a runaway brigade burst upon Dexter with alarming suddenness. Several of the wags nearly collided with Mr. Bonner's, and anxiety was intense for a brief time, as Dexter sprang from his feet, and it was feared that the slumbering tornado had been startled into life and fury. In the darkness we could see the lightning motion of the white feet, the white head erect, and hear the soothing words of quiet spoken by his driver. It was but the angry flash of the storm—an electrical gleam from the thundercloud, portentous for the moment, but fading in an instant, and leaving everything calm and reposed. The Hambletonian marvel gained his trotting stride after a few nervous bounds, and we could not resist the exclamation, "King, in truth, is Dexter! Great is Bonner!"

The Oldest American Newspaper.

NEW HAMPSHIRE

GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

A. E. TAYLOR, New Britain, Conn.

AMERICAN HOMESTEAD LAND and Immigration Office. Lands in tropical Florida for sale in lots of from 40 to 400 acres. These lands are adapted to the growth of the peach, orange, pomegranate, grape, Muscadine, lemon, banana, guava, fig, sugar cane, tobacco, sugar, and all vegetables grown North. One acre in bananas will yield a crop equal to 133 acres in wheat, or 644 in potatoes. The country abounds in game, and the rivers in fish in endless variety. Price $4.50 to $5 per acre. Climate the most equable in the world. A. B. STONELAKE, M. D., late Register U. S. Lands, 66 Broadway, N. Y.

TOREY'S PATENT WEATHER STRIPS.—An examination of its merits will convince any one that Torrey's Patent Weather Strips excel all others. Send for illustrated circular. Agents wanted in every town. E. S. & J. TORREY & CO., Sole Manufacturers, 72 Malden Lane, New York.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solemon Rothschild.
Paris, 8th April, 1864, 36 Rue Fauby. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian liniment; if you will send at the same time your account, I will forward you the amount through Messrs. Bernard & Co., Rue de la Paix.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise them to send on a supply to Paris.

THE INDIAN LINIMENT.
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unsurpassed. It is also most efficacious taken inwardly in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Asiatic Cholera, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. NO FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. Miners and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and disorders of Stomach, Bowels or Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT**, and take no other. Price 50 cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 138 Greenwich street, and T. C. Wyeth & Co., 122 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the United States and Canada, unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

DON'T SLOP OVER.

"Don't slop over," the old man said,
As he placed his hand on the young man's head;
"Go it by all means, go it fast,
Go it while leather and horse-shoes last;
Go it while hide and hair on horse
Will hold together. O, go it of course—
Go it as fast as ever you can,
But don't slop over, my dear young man.'

"Don't slop over. You'll find some day
That keeping an eye to the windward will pay.
A horse may run a little too long,
A preacher preach just a fraction too strong;
And a poet who pleases the world with rhymes
May write and regret it in after times.
Keep the end of the effort always in view,
And don't slop over, whatever you do.

"Don't slop over. The wisest men
Are bound to slop over now and then;
And yet the wisest, at work or feast,
Are the very ones that blunder the least.
Those who for spilt milk never wail
Are the ones who carry the steadiest pail.
Wherever you go, go in for the fat;
But don't slop over—and freeze to that!

"Don't slop over. Great Solomon
Once went a little too far with his fun.
Louis Napoleon, as we all know,
Slopped over on Max in Mexico.
Horace Greeley and Jefferson D.,
And Hinton Helper and old J. B.,
And Andrew Johnsing, the great 'I won't,'
All slopped over—take care YOU don't.

Don't slop over, distrust yourself,
Nor always reach to the highest shelf.
The next to the highest will generally do,
And answer the need of such as you.
Climb of course, but always stop
And take breath this side of the top;
And so you will reach it in wind and strong,
Without slopping over. Thus ends my song!"

CHILDHOOD'S FLIRTATIONS.—Flirtations spring up even in the nursery. Why such is the fact we do not pretend to say; but perhaps the cause is humanity's moral naughtiness. At all events we think that flirtations are all very comical to children, and so they are, because they are innocent. Five-year old Freddie walks up to somebody's four-year old Maggie, puts his arm around her neck, and tells her he is going to marry her when he becomes a man; yet the little villain lies. Toddling purses up her mouth, kisses him, and believes every word he says.

A group of youngsters get together to play in the old garret of the farmhouse, and forthwith a parson is made of one of them, and a couple are married with attendant bridegrooms and bridesmaids, and they are the happiest couple under the sun.

By and by Maggie begins to learn that kissing means something, and Freddie ascertains that there is somebody in the world besides her; so the little scamp says that he was only in fun when he married her, and thereupon lavishes his smiles on more attractive faces. She grows indignant, draws her pretty lips together in a sinister smile, and thinks to herself, "I will pay you in your own coin, young lad." And she does as she thinks.

When the dancing school is out, some weeks after, and the lads and lasses are assembled just outside the cloak-room door, he asks if he can walk home with her. The answer is, "I am engaged." It is rather difficult for him to choke down his chagrin when he sees her passing down the stairs with the very lad whom he dislikes on account of his blue eyes, laughing face and flaxen hair. And so commences the tragedy of life.

A glorious time is that youth, when we sit through the dreamy summer days, in the whisper-rippled school-room, with our Fasquelle's First Lessons between our faces and the teacher's, while we look lovingly toward an angel in a white sprog and violet dress, who sits just opposite, and looks so sweet that we long to bite a piece right out of her cheek—if it would not hurt her.

A glorious time is that youth, when we spend our last ten cents for mixed candies, which we divide with the girl who wears the white apron and violet dress, giving her the larger half, of course. But that is not so glorious a time when she does not smile upon us as she leaves the school room, but on the contrary, gives such a delicious look to some other boy. We go home, refuse to eat any supper, and think there never was so wretched a being as we are. The next morning we languidly take our dinner basket and plod along to school; but we do not stop to slide on the icy spots at the wayside, where we have so often slipped down and hurt our elbows; we feel ill; the snow makes us dizzy—and—and we are very faint!

But lo! there she comes—she who didn't smile on us last night! And she laughs!—Think of that—she laughs! We are not sick any more, our cheeks are not sunken; we ask her to slide; she takes our hand and away we go. Hurrah! what matters it if we are late to school? Suppose the teacher frowns and makes us toe the mark on the floor for an hour—what do we care? We would toe that mark for a whole month, for the sake of the enjoyment of the morning, providing she could be by our side. But alas! the day of long dresses and *chignons!* Nous verrons! Perhaps by that time she will have forgotten all these early intimacies, for young ladies are so forgetful!

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jenness, Capt John Fisher, Mrs Wm Haslet, Israel Marden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob G Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred D Moses, James Douglas, Ephraim B Downs, George Booth, Mrs Augustus Shackley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Bell, William Skeels, Allen A Rand, John Kimberly, W H Thompson U S N, Alexander J. Robinson, Elizabeth Hewitt, Wm B Norton, J M Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Bilbrook, Chas A Green, Simon C Mills, Mrs Mary McAwley, Finness Hoyt, Nathan Whaley, E A G Holmes, Oliver Stacy, Edwin Sanborn, Jas F Jenness, John Senter, Miss Dow 10 Austin St, Frank Watkins, Albert Leach, Wm Hunter, I F Lord, James Greenwood, Leonard Evans, Oliver Frye.

Newcastle.

Frank Strobridge, Mrs Jacob Hubley, Charles W White, E F Yeaton, Nathaniel Yeaton, J S Hubley, N M Yeaton.

Rye.

Joseph Drake, J C Garland, J F Jones, Jas M Parsons, Jonathan Jenness Jr, Jos Philbrick, John Locke, Chas N Jewels, Mrs Warren Seavey, Oren Drake.

Hampton.

Edwin D Hobbs, Albert D Brown, James Lane, Prescott Williams, Jos Mason, Chas W Lane, Thos Leavitt, Wm Goss.

North Hampton.

Joseph Moulton, Robert Locke.

Kittery.

Capt Daniel Frisbee, Augustus Jerris, Samuel Keen, Capt Henry Frisbee, Frank Frye, Stephen H Tilll, Jos G Todd, Luther Lewis, Geo Philbrick, Leonard Jenkins, Benj Fernald, Gilbert Spear, Sergeant Mulligan, Levi Briard, John Burnham, Daniel Perry, Edward Appleton, David Grogan, James Clark, Joseph Lutz, Mrs James Philbrick, Jos Sawyer, Wm Durfey, James Craig, T R Craig, Jesse N Wilson, Samuel B Goodwin, Alpheus Dearing, John Locke, Capt J B Erisbee, A J Mason, Sylvester Frye, Edward Safford, Frank Eaton, John Chickering, Ephraim Pettigrew, Timothy Caswell, John Chickering Jr, Albert Adams, James Burns, William F Stickney.

PHILADELPHIA, PA., May 20, 1867.

To the Officers and Members of the Washington Library Co., N. S. READ, Secretary.

Gentlemen:—On receipt of your favor of the 15th inst. notifying us of our appointment as Receivers for your Company, we took the liberty to submit a copy of your charter, with a plan of your enterprize, to eminent legal authority, and having received his opinion in regard to its legality, and sympathizing with the benevolent object of your Association, viz.:—the education and maintenance of the orphan children of our soldiers and sailors at the Riverside Institute, we have concluded to accept the trust, and to use our best efforts to promote so worthy an object.

Respectfully yours, &c.,

GEO. A. COOKE & CO.

Caution

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Falling of the Womb, suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience the cure of diseases of women than any other physician in Boston.

Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hour from 9 A. M. to 2 P. M.

Boston, Aug. 4, 1867.—lyeod

Farm for Sale.

The well known PARSONS FARM, on Boyd's Road, next adjoining the estate of the late Hon. Levi Woodbury; containing 115 acres, has cut 80 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State. Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 32 Congress street. o22 B. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 7, 1867.

REPUBLICAN CONGRESSIONAL COMMITTEE.—At Washington, on Wednesday, there was a caucus of the Republican Senators and Representatives in the Hall of the House, to learn the progress of the canvass of the South, under the auspices of the Committee. Senator Morgan of New York presided, and Representative Cullom was chosen Secretary.—Gen. Schenck, the Chairman of the Executive Committee, made an interesting report, which was based on facts prepared by the Secretary, Hon. Thomas L. Tullock, who was deservedly complimented by Gen. Schenck as faithful, energetic and economical, and whose services the committee gratefully acknowledged. The amount of funds contributed is $40,673. Of this New York contributed $8790, Massachusetts $8623, Maine $1326, New Hampshire $1000, Rhode Island $50, and the other States sums varying from $1000 to $25. Even South Carolina loyalists have sent their mite. In justice to Rhode Island, it was stated that her citizens have expended considerable sums, but independent of the Committee, in creating a proper public sentiment at the South. Massachusetts has headed the column of contributors until $1000 from Mr. Cornell of New York gave that State the precedence. The funds appear to have been judiciously expended. A hundred speakers and organizers have been aided, many of them able colored men; $8000 have been expended for publication of political documents, of which 854,700 have been circulated at the South.

The correspondence at the Washington office, under the personal direction of Mr. Tullock, has been very extensive. He has received 3027 letters, which are bound and indexed, and which will be invaluable to the future historian, as giving an exact account of the position of the Southern loyalists during their struggle. Upward of 3600 letters have been written, and copies of over 1300 have been preserved.

Gen. Schenck proceeded to give a sketch of results. A Convention had been ordered in every State in which elections have been held, unless it is in South Carolina, where there are some doubts as to the result. It now remains to see that the Constitutions adopted by these Conventions are adopted. The ex-rebels, encouraged by the action of the President, will strain every nerve to defeat the constitutions, and it behooves the loyal men of the land to see to it that the Republican party, now so gloriously inaugurated at the South, be sustained.

Gen. Schenck was followed by Senators Wilson and Chandler, and Representatives Ashley, Kelly and Farnsworth, who agreed that the Committee had accomplished wonders with the comparatively small sum at their disposal, and that the good work must be carried on. It was determined to raise more funds by contributions from Republican Congressmen and by an appeal to the Republicans of the country. A large sum was subscribed before the caucus adjourned.

CABLE ITEMS, Dec. 5.—In London, copious extracts of the message of President Johnson, which were received by cable, are published. In commenting, the Times has the following: "The message shows that Mr. Johnson has learned nothing. He transcends himself in impudence. He regards his office as absolute as sovereigns do their prerogatives. He forfeits all respect. It is hard to say where the hope of the people of the United States lies, between Johnson on one side and Thad. Stevens on the other."

Other journals use similar language on the subject. The reference in the President's message to the Alabama claims, coupled with Lord Stanley's dispatch to Mr. Ford on the same subject, has created considerable distrust in financial circles.

In the House of Lords, Earl Derby said that Lord Stanley refused to go into the proposed Conference for the settlement of the Roman question, until a basis, likely to be agreed to by the great powers, had been previously submitted.

At Paris, Dec. 5, in the Corps Legislatif, the debate on Italian affairs was continued. Mr. Rouher said that without France Italy could not have saved Rome from a revolution.

WASHINGTON ITEMS, Dec. 5.—Ex-Gov. Smyth of New Hampshire arrived this evening to attend a meeting of the Board of Managers of the National Asylum.

The President denies that he claims the power to re-instate Gen. Fitz John Porter in the army. He says he has expressed no opinion on the subject, but has referred the case to the Attorney General, who still has it under advisement.

Attorney General Stanbery, in reply to Congressional inquiry, gives it as his opinion that the title of the United States to Harper's Ferry property is absolute and not in trust.

☞ The President nominated to the Senate, Edward Cooper of Tennessee, to be Assistant Secretary of the Treasury, and Noah L. Jeffries of Maryland to be Register of the Treasury. He made several other nominations of appointments made during the recess, where Internal Revenue officers have been suspended. In the latter cases he sent in his reasons for their suspension, in accordance with the Civil Tenure law.

NEW HAMPSHIRE ITEMS.—Samuel C. Eastman, Esq., of Concord, takes the position and interest in the Independent and Monitor office, vacated by the retirement of Mr. Hadley. Mr. Eastman is a gentleman of culture, well and favorably known throughout the State. He is a vigorous and pleasant writer, and admirably fitted for the discharge of his new duties.

Mr. A. G. Chase of Tuftonborough is hard to Beet, judging from a sample of his raising, weighing seven pounds and ten ounces, and measuring 26 inches in length.

A heavy wind prevailed on Lake Winnepisaukee on Saturday, Nov. 30, day and night. Almost everything except netsof fixtures were moved, and many fixtures received a severe shaking. Not only fences, but trees that have withstood the blasts of fifty years, were blown over.

From one acre of land, Mr. Joseph Thompson of Bartlett, gathered 150 bushels of ears of corn. It is fine looking corn, large sixteen rowed ears, and has been planted by him forty years in succession on the same farm.

As Mr. Moses Burnham of Moultonborough was riding in his wagon, his horse took fright and ran away, throwing him out, dislocating one shoulder, and fracturing his skull so badly that he died the next day.

The N. H. Representatives in Congress are distributed among the Committees as follows: Ela on Freedmen's affairs and Printing; Stevens on Naval Affairs and Revolutionary Claims; and Benton on Private Land Claims and Retrenchment.

Judge Smith, of the Supreme Court, whose first term closed last week at Lancaster, after nearly four weeks' laborious effort to clear the Coos Docket, the Republican says has established a desirable reputation with the bar and the people, as a jurist well fitted for the responsible situation in which he was recently placed.

Miss Julia Moore, of Manchester, who studied elocution with Prof. Brown of Tufts College, is giving Readings to good acceptance.

A swinging stage, used in painting the Free Will Baptist church at Pittsfield, accidentally broke, and the workmen were precipitated to the ground. One of them, James B. Sanborn of Pittsfield, was so badly injured that it is doubtful if he will recover. The others escaped with slight bruises.

In Manchester, John G. Brennon, aged 12 years, was killed by getting in from off a mule carriage to clean it while the machinery was moving.

The dry house of Austin & Taylor, woolen manufacturers at North Salem, was prostrated by a gale of wind on the night of the 13th ult. Loss $3000 to $4000.

ABANDONED CHILD.—A man and woman took a room at the Revere House, Boston, Thursday morning under the name of R. O. Hill and lady of Hampton, N. H., bringing with them a carpet-bag, which was taken to their apartment. They went out at about noon, and soon after a child was heard crying in their room. On opening the door a fine, healthy boy was found lying on the bed, and close by on the floor was the carpet-bag, open and empty. Beside the child was a bundle of clothes and the following note, written in a disguised hand:

"To whom it may concern: Take this child to the Baldwin Place Home for Little Wanderers. It is five weeks old on Saturday. My wife is dead and I cannot take care of it. To the Proprietors of the Revere House."

The child, which had evidently been drugged to keep it still while being carried in the bag, was taken to the Temporary Home on Charles street. [Probably the name and residence of the man, are both fictitious.]

The Mirror of Friday evening states that the parties belong in Manchester, and that their name is *not* Hill.

—The man calling himself George D. Stone, who took laudanum at the Pynchon House in Springfield, died on Wednesday. Before dying he confessed that his true name was David Wheeler, and that he belonged in Olmstead, N. H., his father's name being Ira Wheeler. He said he had ruined his character by licentiousness.—*Boston Journal.*

There is no such town in New Hampshire as Olmstead. We have Hampstead and Barnstead.

FROM ST. THOMAS, *via* Santiago, Cuba, Dec. 3.—The Governor of St. Thomas had returned from Europe to deliver that Island to the United States, according to the stipulations. The amount to be paid is $7,500,000.

The U. S. Steamer Susquehanna went to St. Croix to bring off the crew of the Monongahela, which is totally lost. The Susquehanna was also considerably damaged.

Geffrard has returned to the West Indies and is in Jamaica.

A dispatch from Havana, Dec. 4, says:

Forty-seven shocks of earthquakes, rapidly succeeding each other, were felt at St. Thomas on the 20th of November. One shock lasted two minutes. The sea rose 60 feet on the city, and everything was submerged. The loss of life was enormous, and much merchandise was destroyed. The surviving inhabitants, houseless and desolate, fled to the mountains.

The dispatch, of which this is a small part, abounds in self-contradictions, and must have been the work of some crazy sensationist.

—Why is kissing a girl like eating soup with a fork? Because you can't get enough.

YORK COUNTY.—A barn belonging to Charles Bartlett of Kittery Foreside, was entirely consumed by fire Thursday night week, supposed to be the work of an incendiary.—The barn contained about twenty tons of hay, and was insured sufficiently to cover the loss.

A barn containing three tons of hay, owned by the widow of the late John Phillips, of Kittery, was consumed by fire on the evening of the 28th ult., supposed to have been set by Mary Bennett, one of Ireland's not very fair daughters, whose *occupation* is that of washing, and whose reputation would not recommend her as a very worthy example for those desiring to lead a virtuous life. During the fire the lady (?) in question attempted to escape, but was caught and tied to the well curb until the building was consumed, when she was removed to her rooms in the house of Mrs. Phillips, where she had been living for a short time, and a guard consisting of two stout-hearted young men armed with daggers set over the house.—*Biddeford Journal.*

The Collar Company of Biddeford are doing a good business. They are about putting into the market a new style of fancy colored striped collars, which seem to have taken the eye of fanciful Young America. They are also manufacturing some nice "California Collars," for the Pacific market.

Rev. J. D. Emerson of Haverhill, N. H., has accepted the call of the 2d Parish (Orthodox) of Biddeford. His pastorate will commence the first Sabbath in January. Salary, $1350 and rent of parsonage.

David Clark of Kennebunkport has just completed a thorough built three-masted schooner of 562 tons, n. m., named Jefferson Borden, hailing from Fall River. Mr. Clark has just laid the keel of one schooner of 120 tons, and another of 200 tons, to be off next spring.

IN THE U. S. SENATE, Dec. 5, there was a spicy debate on Mr. Sumner's bill to strike the word "white" from all laws relating to the District, in which Gen. Wilson sharply rebuked Messrs. Hendricks and Reverdy Johnson for exulting over the recent elections.—The General told them that Congress had always been ahead of the people, but that the people, although occasionally tardy in moving, never failed to come up in good time to the support of Congress and of all that was enacted.

In 1863, after the issue of the Emancipation Proclamation, some persons had claimed that the Republican party was condemned by the people, but that party went on in what it believed right, and was justified in it.

Mr. Sumner's bill was passed, 30 to 8.

Mr. Edmunds' bill for payment of U. S. debts in coin, was debated and laid over for amendment.

The galleries of the House were again crowded by those who desired to hear the discussion on Impeachment; but after the morning hour a Kentucky election case was taken up, and the contestant, Dr. Blackie, made a speech in the old Southern "bison" style, shaking his locks, stamping his feet, and roaring until he became hoarse, as he eloquently sailed about on the ship of state. His spread eagle eloquence did not convince the House, who gave the seat to Mr. Golladay, and the Doctor philosophically withdrew to the lobby to seek consolation in his pipe.

At last, ten minutes before three o'clock, Mr. Boutwell obtained the floor, and the House gave him two hours' time. Having spoken an hour, he gave way to a motion to adjourn. He will be followed by Mr. Wilson of Iowa, and the Republicans opposed to a further discussion of the subject at this time will endeavor to lay the whole subject on the table. This may be resisted by the impeachers, many of whom have prepared elaborate speeches which they wish to place before their constituents.

☞ Epitaphs are not always veracious, but the are more truthful than the labels of the so-called foreign perfumes now sold in this market. Don't be duped by these printed fatties. They are counterfeit presentments, covering counterfeit articles. Phalon's "Night-Blooming Cereus" is, on the other hand, precisely what it purports to be—a pure, unimpeachable staple of the toilet.—*Chicago Times.*

SUBSCRIPTIONS to the Washington Library Company of Philadelphia are pouring in rapidly. The handsome engravings given away with each share of stock are of rare and excellent workmanship. By subscribing for the stock at one dollar per share you obtain an engraving worth fifty per cent. more than you invest, besides participating in the grand distribution of gifts. Every share of stock will receive some present, with an equal chance of securing some of the valuable articles, as published in the schedule.

The engraving entitled "The Marriage of Pocahontas," which accompanies five shares of stock, is executed in the neatest and most approved style, and fully equal to those of the same character that are now retailed at eight dollars, and each of five shares guarantees one present in the final distribution. The largest is guaranteed to be worth $40,000, the next $20,000, the next $10,000, &c.

—If the heart is the seat of affection, the stomach is the altar, after all, from which love's incense must arise. The piano and harp are well enough in the parlor, but unless the stomach is satisfied the eye can not appreciate beauty, or the ear the harmony of sweet sound. Gold Medal Saleratus produces nicer, lighter and sweeter bread, biscuit, &c., than any other article of Saleratus. 21

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair. First, the prompt, quick action, great growth, life and vigor that it is sure to give the Hair, never failing, by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, delicate and unchangeable in any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury to dress their Hair. It retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing immediately all scurf, dandruff and pimples. Price One Dollar. Sold by all Druggists. n21—1m

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and in point of economy is without rival. Sold by all first-class grocers. 31

—The first persons who bought a Dickens' tickets for the readings in Boston was a colored man who took it station at midnight. The second was a lady.

AMERICAN

WALTHAM

WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to every other watch in the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of many gauging gauges and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to fit properly in its place. Every part may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which renders a watch valuable. Simple in its plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest detail, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, and they are offered in sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Weakness in the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative, sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm; it CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and to produce as speedy relief (as do most other remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, at the same time as active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

n11—1m

ONLY 25 CENTS FOR LARGE BOTTLES!—Mother Bailey's Quieting Syrup for children, which greatly assists the child thro' the months of teething, allays all pain, cures wind colic, regulates the stomach and never fails to regulate the bowels. Sold by all druggists. s27

CHILDREN'S LIVES SAVED FOR 50 CENTS. Thousands of Children die annually of Croup.—Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Liniment in the house, you never need fear loosing your little ones when attacked with this complaint. It is now 20 years since I have used it in my Liniment, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases of cures have been reported to me, and many of them I was 250 per cent. profit they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throat, Swellings, Mercurial Rheumatism, Dysentery, Spasms, Old Sores, and Pains in the Back and Chest. No one once tries it who is ever without it. It is warranted perfectly safe to take internally. Full directions with every bottle.—Sold by the Druggists. Depot 56 Cortland street, N. Y. n24dwim

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corsina, who got me one of your Porous Plasters for my chest. It was so sore through me at the time, I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PHEBE PATCHER.
Beaver Dam, Schuyler Co., N. Y. Sept. 14, 1866.

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$2 per year; for balance of this year free to new subscribers.

LONGEVITY OF MECHANICS.—At the funeral of the late Mr. Benj. Carter, Friday, although stormy weather, there were present six members of the Mechanic Association, whose united ages were 493 years. Mr. Carter was one of the founders of that Association, of whom there is but one other remaining.—Mr. Hanson M. Hart, now of Portland, 92 years of age.

Mr. Carter was the youngest of a family of fifteen children, of which he is the last survivor.

☞ About six o'clock on Friday morning, a fire broke out in the third story of the brick store No. 21 Bow street, occupied with ship chandlery belonging to the estate of Abraham Wendell. The roof of the building and the upper floor were about ruined by fire, the damage being about $1000, which it is believed is covered by insurance. The stock was considerably damaged, both by fire and water.

A stream from the pipe of one of the steamers broke in the window of C. E. Peck's sleigh manufactory, next adjoining, and did damage to some extent among tools, stock and newly painted work. The fire was occasioned by defective flues in the chimney. The real estate we believe belongs to the Rindge estate.

☞ Zechariah long ago doubted the wisdom of those who "despise the day of small things," and the correctness of his judgment was wonderfully illustrated by the remarkable performances of Prof. Wallach on the mouth harmonicon, at Mr. Barnabee's first concert here, a few evenings since. From an instrument which is generally an instrument of torture in the hands of juveniles, by whom it is most affected, Prof. W. produced sounds so sweet and tender, so clear, so rich and so varied that the backneyed phrase "you might have heard a pin drop" seemed often to be realized, with a large audience present.

☞ The Annual Report of the City Missionary will be presented on Sunday evening, at the North Church. Services to commence at 7 o'clock. Besides the Report, there will be addresses by several gentlemen. A collection for the poor of the city will be taken up at the close of the meeting.

POLICE COURT, Dec. 5.—Catharine Quinlan was arraigned on the complaint of Mary Welsted for an assault upon Mary Welsted, Jr., a daughter of the complainant. Catharine was fined $3 and $4.51 costs.

U. S. INTERNAL REVENUE.—We are indebted to the courtesy of Collector Lovering for the following abstract of the collections in this district for the month of November:

Total of manuf. & productions		$48,876.41
" Gross receipts		603.01
" Sales		57 38
" Special taxes		665.80
" Income		1,519.80
" Legacies,		696.60
" Successions		615.61
" Articles in Schedule A		6.75
" Bank circulation & deposits		49.71
" Penalties unassessed		13.50
		$53,104.57

☞ Two men charged with committing a number of burglaries and a reported murder (about which there has been much excitement,) have been arrested by Dover officers upon information furnished by the officers who had the matter in charge.—The evidence of several burglaries and thefts has been secured. For prudential reasons full particulars in regard to the case can not be given at present. Deputy Sheriff Bartlett of Kittery, Marshal Johnson and a Government Detective of this city, in connection with the Dover officers, have been active in working up this case.

☞ Mr. Wendell sells at his store, at 10 o'clock, Harnesses, Blankets, Cloths, &c.,—and at 12 o'clock, at the Navy Yard, a lot of old Rope, &c.

HOUSEHOLD ECONOMY.—A Brooklyn housekeeper has discovered the way to economize in hard times. He announces his ability to feed his family, a small one, for a $100 a year, and purposes to do it by giving them common Indian corn, hulled and boiled. This preparation is said to obviate the bad effect of the too free use of corn meal, and is reported to be quite healthy.—*Exchange.*

There must needs be (we suppose) some nonsense put forth as economy and philosophy. No doubt hulled corn, boiled, is very good food, and not very costly. And no bread can be more wholesome for Yankees than that made of Indian Corn Meal. What its "bad effect" is, we know not, though we have used it FREELY for more than a half a century, ourselves, and fed other persons largely with the same for many years. U. T.

—The rebel ram, Lady Davis, has been purchased by a junk-dealer in Philadelphia, and will be broken up for old iron.

—Gen. Hancock, at New Orleans, seems to please the rebels and to serve his master, Johnson.

—One of Admiral Farragut's cosigns who accompanied him to Russia, has married a daughter of a Russian Admiral. "Farragoot."

☞ Mr. C. W. Felt, Salem, Mass., has issued the first number of his new paper, The American Justifier. It is a novelty in form, arrangement and plan,—being broader than it is long, and advertisements and reading matter alternated in columns; and contains several noticeable articles. Mr. Felt is inventor of a type-setting machine, (*almost,*) and it is said *has* completed a machine to "justify" lines of type.

☞ There is a report, *via* Havana, that Mr. Seward has made a bargain to buy the Island of Cuba for the U. S.

— Jeff. Davis' Executive Mansion is proposed for a freedmen's school house.

— Eight years ago, Dec. 3, Old John Brown was hung in Virginia. His body lies mouldering in the ground, but his soul is marching on.

— The Cleveland Herald says that the road by which Weston entered that city looks as if an army had passed over it. "Buggies minus a wheel or a shaft, pieces of harness, hats and caps, are strewn along the road in endless confusion. It is estimated that the damage to buggies alone would amount to $1000."

CATTLE MARKET at Brighton —Dec. 4. At Market for the current week: Cattle, 1289; Sheep and Lambs, 6571; Swine, 5500.

Prices.—*Market Beef*, which includes the Hide and Tallow at same price.)

Extra, $13 50 to 14 00; first quality, $12 25 to 13 25; second quality, 10 50 to 12 25; third quality, 7 50 to 10 00.

Working Oxen, per pair, from $145 to 235.

Milch Cows, from 645 to 130.

Swine.—Wholesale — a —c per lb; retail 7¼ a 7¾c per lb.

SHEEP — a —c per lb.

LAMBS—$1 75 to 2 00 per head.

500 MILES
OF THE
UNION PACIFIC RAILROAD.
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad to develop and protect its own interest, it gave the companies authorized to build it such assistance as would render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the Government and from its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and bearing six per cent. currency are at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States Government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The amount thus paid the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and on the *same security in regard to mortgage.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from government of 12,800 acres for every mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital stock of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every description of engineering, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty dollars ($68,050) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also includes the passenger, baggage and freight cars and other requisite rolling stock, to an amount that shall not be less than $20,000 per mile, to be paid out of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,050	$62,205,012
186 miles, at 90,000	16,740,000
Add discounts on bonds, surveys, &c.'	4,500,000
Amount	$82,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

AVAILABLE CASH RESOURCES FOR BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,360,750
Land Grant, 14,080,000 acres, at 1.00 per acre	21,120,000
Total	$85,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to the stock, while their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business which will be done over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles of comparatively low values, almost every year decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track necessary. California and Oregon must not only be supplied with means of transport for passengers, mail, treasure and merchandise, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been quite satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails, Transportation of Contractors' Material and men	$723,755 54 479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c	$295,530 92
Net Earnings to balance	907,508 03
Total	$1,203,038 95

The net operating expenses of the commercial business for the quarter were $237,966 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$733,755 54
Expenses " " "	237,966 50
Net Profit	$495,789 04

The amount of bonds the company can issue on 325 miles at $16,000 per mile is $5,200,000. Interest at six per cent. in currency from July 31, on this sum is $78,000; add 40 per cent premium, to correspond with currency earnings, is $109,200—showing that the net earnings for this quarter were more than four times the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six Per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at SIX Per Cent. in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by **FIRST NATIONAL BANK**, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the prefered claim upon one of the most important lines of communication in the world as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the richest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 02	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the large passenger travel from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction of

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	5,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 726 miles	$77 831,000

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 93 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are worth the total amount as the valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, goodness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES into

Central Pacific First Mortgage Bonds,

now realize for the holders from **12 to 18 per cent. Advantage,** with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

A MOVING STORY.

The local of the Buffalo Commercial has been moving. Hear him:

Yesterday was Moving Day, and everybody—except those who were so unfortunate as to own their own houses—thereby being liable at any time to be sent to the State Prison for the taxes—moved.

We moved. And it was the movingest sight we ever saw. Our readers ought to have seen the scene.

Our folks commenced pulling up and tearing down the traps a week ago. Most of the plunder was thrown into a heap and lumped off into loads, with a total disregard of ordinary rules. The paregoric and hive syrup and vial were packed in our new hat, one of J. W. Reed's latest and best. The castor bottles were placed in our other boots, it being so handy to carry them by the loops. The stopper came out of the one containing tomato ketchup, and the top of the mustard concern was broken off—That is the best seasoned pair of boots we ever had.

The other family insisted on coming into the house before we got out. And so things got mixed up some. But we got everything that belonged to us at last.

The cartmen swore because the cooking stove was so heavy, and one said, "I—d if he'd have it if we offered it to him."—Didn't offer it to him, but off red both of them a drink out of a quarter barrel of ale nearly full, standing in the kitchen. They took it—very kindly, but it made 'em thirsty all the forenoon. Guess the spigot must have got out of the barrel on the road, for we couldn't squeeze half a glass out last night.

Finally got moved. Thought it better not to have our supper before we tackled the bedstead and the back-room stove.

Commenced playing put up bedsteads.—It's fun when you like it. But people do not like it, mostly. None of the blasted rails would fit. Got the wrong ones into the wrong posts, and couldn't screw them up. Marked them all with a pencil before we took them down, and thought we would know how they went together again; but somebody wiped the marks all out. And there they were.

Better half suggested that at our time of life we ought to have more patience, and gave it as her opinion that we "could never swear the bedstead together." Found we couldn't.

Finally got 'em up, four of 'em, and commenced putting the cords in. Cords broke, and we had to tie them together. The knots wouldn't slip around the pegs, and we couldn't draw the rope tight. More remarks by the child's mother on the subject of profanity. Didn't pay any attention to her, and thus succeeded in getting through with the beds.

Then went down and "harnessed" the stove. The legs all fell out when we tried to lift it on the zinc, but we got it in position at last. Two lengths and one elbow of the pipe missing. Finally found the elbow in the bureau drawer, and the two lengths rolled up in the parlor carpet. Got a hatchet and a stick of wood and commenced to pound the pipe together. Knocked a chunk out of one of our knuckles, and got the elbow on wrong side up.

Had to take it all apart and change it.—Commenced pounding again, but couldn't make it jibe. Pounded more. The more we pounded the more it wouldn't fit, and we thought we'd give it up. Expressed our opinion about stove pipes in general and this one in particular, and some allusion to the original inventor of this kind of furniture.

Went to the corner grocery and got 'swie lager,' felt refreshed, and resumed the attack on the pipe. Found out that what ailed us before was that we hadn't pounded it enough. Remedied the defect, and the job was done. The stove smoked beautifully.

Got wife to tie rags round three of our fingers and one thumb, and thought we'd sit down and have a smoke. Found meerschaum after awhile, and discovered amber mouth-piece broken. Got the tobacco can, but on ascertaining that the salt cellar had been emptied into it, made up our mind not to smoke.

We concluded we'd better go to bed, and started to pick our way through the mass of things piled up and scattered. Stumbled over the long rocker of a chair and barked one shin. Returned no answer to the interrogatory as to why we "didn't break our neck?" Repeated "Now I lay me," and turned in. Having a strong constitution, which enables us to bear a great deal of sleep, and always paying a strict attention to our sleeping, knew nothing till morning.

Went down stairs, and found wife getting breakfast with tears in her eyes. Told us she "was deceived in the house; if she had known what it was, she would never have moved into it, and that she'd never be able to settle in it."

This settled us; and declining to partake of the frugal morning meal which had been provided, (we remembered the supper) we took our departure, promising to call in the early part of the ensuing week when things were "put to rights." We mean to go.

LADIES AND GENTLEMEN.
You can have a beautiful Card Photograph, free of expense, (with circulars of our great Dry and Fancy Goods Sale) by sending stamp for return postage, to EASTMAN & RANDALL, 65 Hanover street, Boston, Mass.

REVOLUTION IN TRADE!
LADIES, you will be astonished at the value of all kinds of Goods sent by the well known and justly celebrated firm of GRAHAM & CO.,
ONE DOLLAR SALE
Such as Silk, Merino and Alpacca Dresses, Shawls Balmorals, Linen Goods, Embroidered Table Covers, Watches, Jewelry, Silver Ware, Sewing Machines, &c. This is no humbug, but a reality. Send your clubs of ten and upwards, for checks describing the Goods, with ten cents for each check and a letter up of which you will receive a valuable present, worth from $3 to $300, according to number of names sent.
Agents wanted in every town. Circulars sent free. Address, GRAHAM & CO., 64 & 66 Federal Street, Boston.

TO THE WORKING CLASS.
Farmers, Mechanics, Ladies and Everybody. I am now prepared to furnish you with constant employment at your homes, the whole of your time, or spare moments. Business new, honorable, light and profitable. Fifty cents or $5 an evening is easily earned by persons of either sex who are willing to work. Great inducements are offered to those who will devote their whole time to the business; and the boys can earn nearly as much as men. Those who engage at once will find it easy to send me their address and test the business for themselves. To all who are not well satisfied with the business, I will send $1 to pay for the trouble of writing me. Full particulars, directions, &c. sent free. Samples sent for ten cents. Address,
E. C. ALLEN, Augusta, Maine.

WANTED—AN AGENT,—One chance in each town, to give the attention of an active business man, to take the agency for the sale of BRADSTREET'S RUBBER MOULDING AND WEATHER STRIPS, applied to the sides, bottom, top and centre of doors and windows. The sale is beyond anything ever offered before to an agent, and from $10 to $25 per day can be made. Send for agents' circular. The first who apply secure a bargain. Terms for Moulding, cash.
J. R. BRADSTREET & CO., Boston, Mass.

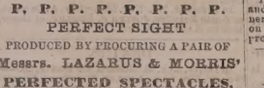
PERFECT SIGHT
PRODUCED BY PROCURING A PAIR OF
Messrs. LAZARUS & MORRIS'
PERFECTED SPECTACLES,
PARTICULAR REASONS why they are **PREFERRED** Above All Others:
BECAUSE They do not Tire the Eye.
Because They do not Inflame the Eyes.
Because They do not Weaken the Eyes,
Because They do not Dim the Eyes.
—AND—
Because They DO Strengthen the Eyes.
Because They DO Preserve the Eyes.
They do not require Changing. They are Perfectly Achromatic; in fact they are the only PERFECT SPECTACLES made.



One of the Firm will be at the Book and Fancy Store of their Agent, Mr. J. F. SHORES, Jr., PORTSMOUTH, N. H., 3 DAYS ONLY,
THURSDAY, FRIDAY & SATURDAY.
December 12, 13 and 14, 1867.
For the purpose of assuting their Agent in fitting the eyes of those persons who require more than ordinary attention.
Mr. J. F. SHORES, Jr., is our Sole Agent for Portsmouth, N. H.

The Chronicle.

HEAVENWARD BOUND.
From "One Wife too Many"—Published by Hurd & Houghton.

Time is rushing in his chariot;
Rapidly his wheels go round;
Though they cast no dust behind them,
Though they leave no rumbling sound;
Silently they bear us onward,
Soon our journey will be o'er;
Soon the friends with whom we mingle
We shall see and hear no more:
Soon our feet shall press the meadows
Of the vast eternal shore.

Flying months and years remind us
Of the world we're passing to;
Let us leave good deeds behind us,
In the world we're passing through,
Which shall be the seeds of kindness
Watered by celestial dew;
And shall bear good fruits for others—
Fruits of joy and peace and love,
Years long after we are singing
In the immortal laud above.

Men are born, and men are dying;
Thousands come, not one can stay;
Time is swift, his wheels are flying,
Never ceasing, night nor day,
For the laughter, nor the crying
Of the stricken or the gay;
Crushing down the God-defying,—
They who laugh at Death's delay;
And from sorrow, sin and sighing
Bearing gentle souls away.

Plans and schemes of men and nations;
Hearts and homes and homestead tree,
Granite walls and Art's creations,
All the eye delights to see,
All the ear delights in hearing,
Crumble, tumble, fall and fade;
O! we need a world more cheering,
Free from graves and cypress shade;
Thanks to God! That world we're nearing,
In eternal sapphires laid.

LOUD.—A man lately went to the post-office, and putting his nose close to the delive y-box cried out: "Louder!"

The clerk supposing the man to be deaf, and that he was requesting him to speak louder, so that he could hear, asked him in a loud tone the name of the party for whom he wanted the letter.

"Louder!" cried the man.

"What name?" yelled the clerk.

"Louder!" again bawled the man, who now supposed the clerk to be deaf.

The clerk took a long breath, and with all his might again bellowed out in the man's face the same question—"What name?"

This was done in so loud a tone that the echo seemed to return from the far-off hills. The man started back in alarm, shouting at the top of his big lungs—"Louder, sir—Louder! I told you Louder—my name is nothing else!"

☞ The Public Spirit, published by Le Grand Benedict, Troy, N. Y., at $1.50 a year, furnishes a large amount of interesting reading in connection with the advertising to which about one-third its space is devoted.

☞ The godly people who were scandalized by the production of "Norwood" on the New York stage, have been still more intensely shocked by the visit of the reverend author to the theatre where it is performed. Mr. Beecher is in the habit of doing pretty much as he pleases, and those who attempt to bind his liberal spirit with the rusty chains of old-fashioned orthodoxy, will have a hard time of it—*Atlas.*

— The Newburyport Herald declines to publish a note from a nominee for alderman who wishes to decline. It says that their is no doubt of his election or that he will be induced to serve.

— The colored race are coming forward as inventors, and the Patent Office report shows that during the past year several have applied to the Patent Office for patents on their own inventions.

— The Cape Cod railroad are to pay 60 per cent. on the award of Commissioners Staples, Bursley and Bearse for losses by the great fire in Plymouth and Sandwich woods which burned over ten thousand acres.

— By special act of Congress two veterans of the revolutionary war have been placed on the pension rolls at the rate of $500 per annum. Of the widows of such soldiers there are on the rolls the names of 997.

Agriculturist for 1868.
Old subscribers to the Agriculturist are reminded that their subscriptions have now closed.—Those who wish to continue during the year 1868 will leave their names, and One Dollar, as soon as possible at the Bookstore of

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 ENDICOTT ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, Suppressed and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered.
Office hours from 9 A. M. to 9 P. M.
Boston, Aug. 4, 1867.—1yeow

Levi Woodbury containing 115 acres, has cut 60 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State. Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 23 Congress street. o22 H. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 9, 1867.

WASHINGTON ITEMS.—The President has pardoned Featherstone, Dunleavy and Collins, who were sentenced to be hanged, for the murder of the captain of an English ship, Gen. Parkhill, in a mutinous affray on that ship at sea, the mutiny being brought about by the men, in consequence of the Captain's announcing that he should run the blockade at Charlestown, instead of proceeding to New York, to which port they had shipped. They were badly treated, and the recommendation for their pardon was very numerously signed. Their sentence had previously been commuted to imprisonment by President Lincoln.

Secretary Seward was waited upon on Thursday by a large delegation of clergymen, who requested him to use his good offices to protect our Missionaries, who have been badly treated by the Egyptian government, and at present labor under great disabilities in that as well as in other countries. They represent that these gentlemen were put to very severe hardships, and stated that they found little or no protection in the fact that they were American citizens. Mr. Seward assured them that he would do all that could be done to secure protection to our citizens wherever the United States has accredited agents.

ACTION FOR FRAUD.—Edward F. Currier of Georgetown was ejected from a car on the Boston and Maine Railrad, some time in October last, for refusing to pay his fare, alleged that he had purchased a ticket from Georgetown to Boston and return, but had mislaid it. The conductor, Mr. Swasey, after waiting a reasonable time for the passenger to produce his ticket, and not receiving the equivalent, expelled him from the car at South Reading, for which Mr. Currier sued the company, placing his damages at $1000. The company then entered a cross action against Mr. Currier for fraudulently evading the payment of car fare by giving a false answer to the conductor. The latter case was brought before Judge Warren of the Police Court, Charlestown, Thursday and was decided against the defendant, he being fined in the sum of $15 and cost of prosecution, from which he appealed, and was required to recognise in the sum of $200 for his appearance at the next term of Superior Court.

CONGRESS.—The proceedings in the United States Senate, Friday, were almost wholly confined to the consideration of financial measures. The Senate adjourned early until Monday. The impeachment question occupied the House of Representatives throughout the session. Mr. Boutwell concluded his speach and Mr. Wilson replied, concluding with a motion to lay the whole matter upon the table. The House adjoined without meeting the question, and it would therefore be in order the first thing on Saturday.

THE WESTFIELD SHOOTING AFFRAY.—The Grand Jury of Hampden County Mass., has failed to find an indictment against Deputy State Constable Chapin and his associates, who were charged with manslaughter in causing the death of Brooks by a pistol shot in Westfield in October last, while they were engaged in breaking up a gaming room.

CABLE DISPATCHES.—The Times, in an article on the correspondence in the Alabama controversy, says Lord Stanley is right in refusing to permit the foreign policy of England to be reviewed by any other foreign power whatever. On all other points England will gladly meet the United States half way, as she is thoroughly tired of the discussion.

☞ Counterfeit Twos on the National Bank of Kinderhook, N. Y., are in circulation in Massachusetts. New Hampshire people should be on their guard. The bills are one-eighth of an inch shorter than the genuine.

New counterfeit Twenty-five Cent currency is in circulation, of the "Fessenden" issue.—The face of Fessenden is very badly done, and the whole face of the note looks like a wood-cut; the back is somewhat better executed.

CENTRAL AMERICA.—A letter from Amoa, Honduras, states that the colony of Georgians that emigrated there are prospering well, and have had numerous favors extended to them by the Government.

The commandant of the post of Amoa has received a letter from Guatemala to the effect that there is now on the borders of the aforesaid republic a force of ten thousand Mexican troops, for the purpose of claiming damages for the burning of Marritan by the army of Guatemala during the Presidency of Gen. Carrera.

The claim of the Mexicans is $8,000,000, which of course Guatemala will pay, as she cannot fight against 10,000 Mexicans, who are the quintessence of all that is barbarous and cruel.

GOLD, Saturday, 136 7-8.

NEW HAMPSHIRE ITEMS.—A general reduction of wages has been made by the Manufacturing corporations in this State and elsewhere. The Cocheco Man'f'g Co., in Dover, has given notice of a reduction of 10 per cent. The Manchester Print Works have reduced wages 12 1-2 per cent. The Stark Mills have also given notice of a reduction without stating the amount. Both of the Manchester corporations, it is said, are losing money fast.

Mr. William Pratt, a resident of East Westmoreland, was run over and fatally injured at that place, by a threshing machine last Saturday.

Two tons of sponge are prepared for bedding every day at Lebanon.

The Amesbury Villager says that a foot-race, with almost a serious termination, took place at Deerfield, about a fortnight since. A match was made between two citizens to run something less than a mile. Stakes fifty cents, each party contributing twenty-five; time set half-past seven in the evening, and the night was quite dark and the ground covered with snow. One of the parties appeared simply clothed in a shirt and pair of pants. His bare feet touched the snow slightly. The other man, fearing an attack of chilblains, wore his stockings. Both came to time in good order, and started from the judge's stand at the word 'go.' The bare-footed man took the lead, but unfortunately made a misstep, and fell heavily. His companion, in his eagerness, did not discover the accident, and stumbled over the fallen man; but gathering himself up, started forth for the goal, and took the stakes, returning to find his competitor still lying upon the ground, nearly insensible.—Mr. Barefoot was kindly cared for, but for some time labored under an aberration of mind. Walking and racing may be healthy, but it is good advice—to be careful when you take your foot up as to where you put it down.

The Dover Enquirer has been sold to John R. Varney, Postmaster of that city, and Joseph S. T. Libbey, Foreman of the Morning Star, who will take charge of the old Enquirer the first of January and enlarge it. The veteran, George Wadleigh, retires on account of ill health. Messrs. Varney and Libbey are said to be men of talent and energy.

The Great Falls Journal says, "It is currently rumored that the Dover Gazette is soon to pass into the hands of Everett O. Foss, a man of talent and energy, and it is to be hoped, a progressive Democrat. Mr. Hills will probably remain as printer."

The Great Falls Manufacturing Company has given notice of a reduction of wages, without stating the amount. The Norway Plains Company, of Rochester, have reduced wages 15 per cent.

Thanksgiving Day, a lady residing on Concord street, Manchester, had occasion to step into the back yard of her tenement, and when she returned, she discovered that in the meantime some one had stepped in and stolen her clock.

The late George W. Kendall, of Texas, an apprentice in the office of the Statesman forty-one years ago, left money sufficient to buy every printing office in New Hampshire and Vermont.

The trial of Charles Jones of Milton, before Justice Hill, for breaking and robbing the shoe store of Mr. Paul, resulted in his being bound for his appearance in court in the sum of $1200. Dyer, his accomplice, was committed in default of $1500.

Mr. S. G. Haley, late teacher of the Dover Chestnut Street Grammar School—now promoted to principal of the High School—was presented with a nice gold headed cane, by his recent pupils, at American Hall, last Friday evening.

The Manchester & Lawrence Railroad will petition the Legislature for leave to build an independent line from Salem, N. H., to Lawrence, to take the place of the section of the Boston & Maine track, now used by them.

The Corporation of the Freewill Baptist Printing Establishment, at Dover having completed the purchase of the Washington Street Church—now the upper part of their building—intend enlarging their operations very shortly. The church portion is to be turned into editorial and other offices pertaining to the business, composing-room, etc., so that with the enlargement of the Morning Star, next March, everything will be on a commodious and grand scale.

In Manchester, on Thursday forenoon, Ann Cassell, aged ten years, fell on the street and fractured both bones of the forearm.

The Littleton Republic states that a number of dies for making counterfeit American coin of small denominations, were found by a son of J. J. Barrett, of that village, in the earth under a stump which he had burned.—They were preserved in oil, in a tightly sealed small can.

Wm. Pratt of East Westmoreland, was run over and killed by a threshing machine on the evening of the 30th ult. He was 24 years of age, and a soldier through the late war.

The cotton factories at Fisherville have reduced the wages of their operatives 12 1-2 per cent. The hours of labor continue as heretofore.

It is said that of the 130 convicts in the State Prison, nearly 50 served in the recent war.

Sixteen inmates of the Almshouse in Concord is a small number for a city of 14,000 people. A few other people receive assistance some portions of the year.

A nephew of one of the oldest clergymen in Boston having pastoral charge, is in the N. H. State Prison; committed on conviction of forgery. The uncle recently visited the nephew.

The two woolen mills in Enfield commenced running three-quarters time on the 2d inst., owing to stagnation in business.

A Frenchman named Laporte, nearly 90 years old, living between Enfield and East Lebanon, fell on a doorstep on the 2d inst., breaking his leg near the thigh. It is thought the injury will prove fatal.

We noticed in our columns two weeks ago, that the house of Mr. Benj. Weeks, at Dover Neck, was destroyed by fire. We have since learned that he lost all his property, house and barn and their contents, saving barely enough clothing to protect himself and wife from the inclement weather.

Max Shinboro, whose achievements in breaking confinement in this State are well remembered, has been playing some of his old tricks in Pennsylvania. He was arrested for robbing the Lehigh Coal Company, and was in charge of Pinkerton's detectives. He was handcuffed to another man, but managed to shake off his jewels and escape.

The Franklin Street Baptist Church, Dover, has been nicely fixed over, looking cheerful and neat in its new trim, the frescoing being very attractive. Rev. Mr. Sherwin is pastor.

A company of Bangor lumbermen has been formed which has just bought 75,000 acres of State land in New Hampshire, on which there is most valuable timber. The company proposes to operate this season.

Correspondence of the Chronicle.

EXETER, Dec. 6.

A fire broke out about 7 1-3 o'clock last evening in the baking establishment of Davis & Brother—the only one in the town—on Middle street, near the railroad crossing.—The fire is said to have taken near the oven in the bakery, and the flames spread rapidly over the inflammable promises, consuming the building, 40 barrels of flour, a lot of sugar, all the baking tools and the bread on hand, with the stable adjoining, a horse, a cosset sheep, three tons of hay, a sleigh and a small bread cart. The building, owned by Mr. Charles Tuttle, was insured for $400, but the loss of the Messrs. Davis, who are young men of much energy, is total, they having no insurance. The young men being deservedly highly esteemed in the community, an effort will of course be made in some degree to ease their burden, although all prudent men will condemn the policy of risking one's all in a hazardous business without insuring against total loss.

Ex.

THE ATLANTIC ALMANAC. — Messrs. Ticknor & Fields have just published an Illustrated Almanac for 1868, edited by Oliver Wendell Holmes and Donald G. Mitchell, upon a plan and in a style entirely new in this country. It contains sixty-four royal octavo double-column pages, over fifty of which are filled with original matter. The literary character of the Almanac is altogether superior to that of any similar Almanac ever before published. The Almanac contains four full-page illustrations, in colors, of the Seasons, reproduced from paintings by Mr. A. F. Bellows, the well-known landscape artist. In addition to these, the text is profusely illustrated by the most skilful artists of the country. It is sold at 50 cents by all booksellers and newsdealers, or will be sent postpaid by the publishers, Ticknor & Fields, Boston.

☞ Part 69 of the Rebellion Rebellion contains portraits of Major Gen. Samuel P. Carter and Major Gen. J. B. McPherson, and many interesting documents connected with the rebellion. D. VAN NOSTRAND, publisher, New York.

☞ Every Saturday for December 14, contains, among other readable matter, The Story of a London Fog, Lilliput Literature, An Actor's Holiday, Old Fashioned Children, Americans in Dresden, and a good batch of Foreign Notes.

☞ One Adam Burnett, pretending to be a miner, deposited with a broker at New York, about three weeks ago, a bag purporting to contain $75,000 in gold bars.—On the strength of the broker's certificate, Burnett bought $5000 worth of jewelry on credit, and disappeared. The bag was opened, and contained nothing but lead.—Burnett has since been arrested in St. Louis, some jewelry recovered, with $2600 in money. He is in custody, bound to New York.

☞ In New Orleans, Gen. Hancock's order revoking Gen. Sheridan's jury order, was elicited by representations of eminent judicial officers that the cause of justice was impeded by that order, and it was almost impossible to obtain juries that could read or write, and it was almost certain that should convictions be obtained by them, the proceedings would be set aside by the Supreme Court.

☞ In Biddeford, on Saturday morning, Charles Harvey, a lad 12 or 14 years of age, was found dead under the elevator in the Pepperell Mills. The coroner's verdict was, accidental death.

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and in point of economy is without rival. Sold by all first-class grocers. 31 n18

—It appears that the use of the name of Gen. Kilpatrick in connection with the Mexican mission was without his authority. In a letter of recent date to a friend in Washington, Gen. Kilpatrick says he proposes next summer to withdraw from official life and accept invitations to stump the States of New York, Pennsylvania and New Jersey in support of the Republican nominee for President.

Improve Your Eyesight!

DIRECTIONS FOR

MAKING YOUR OWN SOAP

WITH YOUR WASTE GREASE!

Penn'a Salt M'fg Co's Renowned

SAPONIFIER:

(Patents of 1st and 8th Feb., 1859,) on

CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes weakened and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—*Be particular in asking for PENN'A SALT M'FG CO'S SAPONIFIER.* d1—eowdawly

ALLEN'S LUNG BALSAM!
THE REMEDY FOR CURING
Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm. CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce (even though an active remedy) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, although an active powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.
n11—1m

ONLY 25 CENTS FOR LARGE BOTTLES!—Mother Bailey's Quieting Syrup for children, which greatly assists the child thro' the months of teething, allays all pain, cures infantile humanities, corrects acidity of the stomach and never fails to regulate the bowels. Sold by all druggists. e27

CHILDREN'S LIVES SAVED For 50 CENTS.—Thousands of Children die annually of Croup.—Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Liniment in the house, you never need fear loosing your little ones when attacked with this complaint. It is now 29 years since this was put up by Dr. Tobias, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases of cures have been made, and to-day and many state if it was not for the Liniment they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throat, Swellings, Rheumatism, Diarrhœa, Dysentery, Spasms, Old Sores, and Pains in the Back and Chest. No one once tries it who is ever without it. It is perfectly safe to take, internally. Full directions with every bottle.—Sold by the Druggists. Depot 56 Cortland street, N. Y. m3dwim

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.
DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. I was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months; but your plaster has cured me, and my health is better than it has been for years. Yours respectfully,
PHŒBE PUTNER.

An Essay for Young Men, on Physiological Errors and Abuses, Incident to Youth and Early Manhood, with the humane view of Treatment and Cure. Sent in sealed letter envelopes, free of charge. Address Dr. J. SKILLEN HOUGHTON, Howard Association, Philadelphia, Pa. s27—s83mdaw

Local.

PORTSMOUTH, New Hampshire, has just elected a democratic Mayor, for the first time in many years, the vote being the largest ever thrown in the city. It is apparent that the reaction has extended even into the remote corners of New England. Maine and New Hampshire will next year range themselves by the side of Connecticut, and cast their electoral votes for the Democratic candidates.—*New York Atlas.*

Perhaps they will,—though folks this way are not so sure of it as our friends of the Atlas and other Democratic papers like it, profess to be—but at any rate, the result of our city election is no indication of it, though we were well aware it would be and is so regarded abroad. The fact is—and everybody here knows it—that our Democratic Mayor elect was chosen chiefly if not solely, by his own personal exertions and influence—his energy and means both being great, and it is said, used without stint. "Himself his only peer," in this respect, or lack of it.

We do not state this as any reproach, but only to have the record right. To be sure, it is not usual, nor hardly considered modest, in this part of the country, for candidates to canvas at the polls for themselves —nor do we think that any other candidate has ever done or would do so, to save their election—but this does not prove that the practice might not be adopted here to advantage, as elsewhere in this and other countries. For our part, we rather like the idea of candidates for office presenting themselves at the polls—provided, always, everything be conducted decently and in order.

As to the election, finally—it went by default of too much confidence in the actual great majority of Ward Two. Had the Republicans there worked as hard to get out their legitimate vote, as in Ward One —Democratic organs far and near would not have had even this morsel of brief comfort to roll under their tongues. But after all, there is about as much chance of Maine and New Hampshire changing front, as for Massachusetts and Vermont.

OLD AGE.—We record the death of the oldest of our male citizens, Mr. Benjamin Carter, about 92 years of age. Mr. Hanson M. Hart, of about the same age, very infirm, is now living with his son at Portland. Our next oldest citizen is Mr. George Tetherly, who is 89 years of age. Mr. Francis Dupray comes next, aged 88—but more youthful in appearance than many men at 60.

There is one female in her 97th year, and three others of about 92 years of age in this city.—*Journal.*

A friend of ours, in revising his list of aged persons of our city, for seven years past, finds, at the beginning of that period, 281 over 70 years old, 103 males and 178 females; during that time 118 of them have died, viz, 53 males and 65 females.

☞ The voter who sold his ballot last year, in our City Election, for a barrel of flour, which he never got,—this year received ten dollars in hand, before voting for the successful candidate.

☞ Our insane contributor made a wonderful discovery while testing those Virginia oysters at Tibbets', the other evening.—He said the reason that it was laid down as a rule that every month in which oysters should be eaten must have an R in it, was because no epicure could swallow such delicious bivalves without an "Ah!"

☞ The Journal, whose editor is considerable of a poet himself—says, "A brighter gem of poetry we have rarely met with than that we give to-day from our friend at the Appledore. The description of the grandeur of a storm on the ocean is perfect." Well, although we were hardly prepared to expect to find a poet in the philosophic Oscar (who, with his brother Cedric, better fill our idea of Sea Kings, than anybody we ever met), still he comes naturally enough by his talent. His father, the old sage of the Isle, was formerly editor of the New Hampshire Gazette, and one of the most able it ever had. Then Oscar is a cousin to our city poet, Albert Laighton, —whose music, by the way, keeps too long silent.

NAVAL.—Midshipman M. A. S. Mackenzie has been detached from duty on board the late Sacramento, and ordered to temporary ordnance duty at this Navy Yard.

Midshipman Asa Walker, of this city, has been detached from duty on board the late Sacramento, and is now at his home, waiting orders.

APPROPRIATIONS asked—for Portsmouth Navy Yard $717,828—for Charlestown Navy Yard $2,382,735—for Brooklyn Navy Yard $3,913,714.

—The Chief Engineer in the War Department asks an appropriation of $25,000 for Fort McClary, in our harbor.

☞ The latest intelligence from St. Thomas reports 30 lives lost by the recent earthquakes. Advices from Kingston, Jamaica, to the 15th ult., report a great earth quake there, but give no particulars.

—The ship Lord Brougham, which arrived at New York Friday, lost 75 persons by cholera during her passage from Hamburg.

Communication.

☞ Three Fenians, named Allen, Larkin and O'Brien were recently executed in Manchester, England, for the brutal and cowardly murder of a police officer in that city. The Newburyport Herald and some other papers applaud the courage of these criminals on the scaffold, and, by implication, intimate that the people of England will and ought hereafter to revere them as saints and martyrs. Perhaps the English people will do so. ☞

—Eight cities in Europe have streets named in honor of President Lincoln.

—The Dorpian says: "The pedestrian Weston's motto is—West! On!" The Dorpian's veracity is brought into question when, by transposing the name, we find it's Not sew. (not so)—*Park Gazette* (Newark, N. J.) Mr. Park Gazette man, take our hat!—*Dorpian.*

—No government in the world issues so many patents as ours. Three hundred and thirteen new ones have been issued the past week. There is, invariably, a large crop weekly, but only about one patent in five hundred is really valuable.

AMERICAN
WALTHAM
WATCHES.
The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, a Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. The watches are perfect, if it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—and no error in form or shape of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, if the machinery is correct, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of powerful magnifying microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, and by means to prove the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is found to properly in its place. Every pin may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

500 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE
to the Pacific will be open for business in 1870.—*More than one-third of the work has already been done, more than one-third of the whole line is now in running order, and more laborers are now employed upon it than ever before. More than*

Forty Million Dollars in Money
have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific railroad to the coast and promote its own interest, it gave the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt.—The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS

Having thirty years to run and being six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien as security.* The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and from a sinking fund, which is made by this charge the whole amount of this lien. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the amount of the bonds issued by the Government, and *so more, and only as we read progress.* The Trustees for the bondholders are the Hon. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, completing the road-bed of the same, bridging the work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058), per mile. This price includes all necessary shops, for repairing engines and cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage and freight cars and other requisite rolling stock, to an amount that will be no less than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile,

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, $68,058	$62,205,012
186 miles, at 90,000	16,740,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$82,445,012
As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the	
AVAILABLE CASH RESOURCES for BUILDING ELEVEN HUNDRED MILES:	
U. S. Bonds	$50,228,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,320,750
Land Grant, 12,800,000 acres, at 1.00 per acre	21,120,000
Total	$155,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be met wholly or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain as a basis for the issue of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $25 per acre, and other land grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and Japan, which is doubtless the pioneer of other lines that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy and bulky articles of comparatively low values, shortness of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track to necessary. California and Oregon must not only be supplied with means of transportation for a sensible result, treasure and other freights, but the inhabitants of Dacotah, Colorado, Utah, Idaho and Montana will communicate with the Atlantic states almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

Earnings from Way Business.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

EARNINGS.

Passengers, Freight, Telegraph, Mails	$729,755 54
Transportation of Contractors' Material and men	479,283 41
Total	$1,209,038 95
EXPENSES.	
Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,530 92
Net Earnings to balance	807,508 03
Total	$1,209,038 95

The net operating expenses on the commercial business for the quarter were $27,926 90. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$743,755 54
Expenses " " "	257,996 10
Net Profit	$485,759 05

The amount of bonds the company can issue on 225 miles at $16,000 per mile is $3,600,000. It is found by 600 days' work, or two months, on this sum is $78,00; add 40 per cent premium, to correspond with currency earnings, is $109,200—showing that the net earnings for the quarter were more than four times the interest on the First Mortgage bonds on this length of road.

First Mortgage Bonds,
whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments they pay

Six Per Cent in Gold.
and are offered for the present at NINETY CENTS ON FIFE DOLLAR, and accrued interest at six Per Cent in currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and at the current rate of premium on gold, pay

Over Nine Per Cent. Interest.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

Secure Profitable Investment.
—IN THE—
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and interest payable in Gold coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the great Eastern Basin, over which the immense overland travel must pass, and the
Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 92	$102,08861	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	5,500,000
U. S. SUBSIDY BONDS, 736 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 736 miles	$77 831,000

The FIRST MORTGAGE BONDS are in sums of $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lean upon the whole valuable property granted by the above Resources. They have special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENT SECURITIES OF THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES

Morning Chronicle.

From the Portsmouth Journal.

SEA-WARD.

The Isles of Shoals are rough and fast,
And swept by many a north-east gale,
That rends the bolt-rope from the sail,
And cracks in twain the groaning mast.

A storm is gathering in the air,
The gulls fly high in circles wide,
A murmer ushers in the tide,
That licks the rocks all brown and bare.

Wild foot go by with troubled flight,
Duck Island sends her warning cry,
I hear the reefs off Cedar sigh,
And catch the distant roar of White.

A blinding mist shuts in the Coast,
New Hampshire's hills are drowned and gone,
The fierce north-east wind wakes strong,
And marshals white its tumbling host.

The sea and wind grow loud, and oft
Staunch vessels struggling on our lee
Are staggered in the rising sea,
That sends a chested ghost aloft.

Close hauled with double reefs they fly,
While seething waters mark their track;
Ring load the bell on old Whale's Back,
Ring long and loud the harbor by!

O cheering bell, in fog and sleet
How often have I blest thy tone,
That guides the hardy fisher home,
When winds pull heavy at the sheet,

And dreaded night begins to lower,
God save the vessels in our bay!
White Island light is lost in spray,
Wild howls the wind round Appledore.

OSCAR LEIGHTON.

— We see it stated that a movement is in progress for the Banking institutions of Maine to make up about $60,000 by voluntary contributions, of the loss of $80,000 that the Bowdoinham Bank sustained.

— The N. Y. Tribune prefers Mr. Chase for the Presidency, but will heartily support Gen. Grant or any other good republican, on the platform of equal rights for all citizens of the Republic—the only platform on which it is possible for a republican candidate to stand long enough to be elected.

— A few days since Moses W. Wilson of Westport, was expelled from the bar of Fairfield County, Conn. Wilson's offence consisted in having cruelly slandered a young lady who is his wife's sister. He confessed, paid $2500 damages to prevent a law suit, and was expelled from the bar by his brother lawyers.

— At Poughkeepsie, Dec 5, Richard Lewis was sentenced to one year imprisonment for the murder of Rev. J. C. Richmond. On a former trial he was found guilty of murder in the first degree and sentenced to be hung, but his counsel obtained a stay of proceedings and he pleaded guilty on the new trial to manslaughter in the fourth degree.

—The Supreme Court of Illinois have laid it down as a principle of sound law, that when a plaintiff sues for damages because of injuries received by a railroad, it is not enough for him to prove negligence on the part of the corporation, but he must by affirmative proof show that he himself was exercising due care, and was not negligent, before he can recover.

—Thomas Pananan, clerk of Martin Carr, the United States Revenue Collector at Vicksburg, Miss., was arrested on a charge of absconding from Vicksburg with a large sum of money embezzled from the Collector's office. Nearly $5000 was found on the person of his wife, who is connected with one of the most respectable families of St. Louis.

The Oldest American Newspaper. THE NEW HAMPSHIRE GAZETTE.

Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local Items from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

TURNER'S TIC DOULOUREUX OR Universal Neuralgia PILL.

A SAFE CERTAIN AND Speedy Cure FOR Neuralgia, AND ALL Nervous DISEASES.

Its Effects ARE Magical.

It is an UNFAILING REMEDY in all cases of Neuralgia Facialis, often effecting a perfect cure in less that twenty-four hours, from the use of no more than TWO OR THREE PILLS.

No other form of Neuralgia or Nervous Disease has failed to yield to this

WONDERFUL REMEDIAL AGENT.

Even in the severest cases of Chronic Neuralgia and general nervous derangements—of many years standing—affecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can safely be used with

PERFECT SAFETY.

It has long been in constant use by many of our

MOST EMINENT PHYSICIANS,

who gave it their unanimous and unqualified approval.

AMERICAN HOMESTEAD LAND
and Immigration Office. Lands in tropical Florida for sale in lots of from 40 to 400 acres. These lands are adapted to the growth of the peach, orange, pomegranate, grape, Muscadine, lemon, banana, guave, fig, corn, tobacco, sugar, and all vegetables grown North. One acre in bananas will yield a crop equal to 133 acres in wheat, or 44 in potatoes. The country abounds in game, fish and oysters. Title clear. Prices range from $2.50 to $5 per acre. Climate the most equable in the world. A. B. STONELAKE, M. D., late Register U. S. Lands, 66 Broadway, N. Y.

TORREY'S PATENT WEATHER STRIPS.—An examination of its merits will convince any one that Torrey's Patent Weather Strips excel all others. Send for illustrated circular. Agents wanted in every town. E. S. & J. TORREY & CO., Sole Manufacturers, 73 Maiden Lane, New York.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild, PARIS, 8th April, 1864, 25 Rue Fanby. To Price.
Will you be kind enough to have forwarded to me here 500 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—For the relief and cure of *Rheumatic and Neuralgic affections, Sprains, Bruises, &c.*, it is unequalled—It is also most effectious when taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and comes attacks of pain, though complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 1356 Greenwich st., N. Y.; F. C. Wells & Co., 162 Fulton street, N. Y.; Chas. N. Crittenton, 58 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN TODD LANE and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

SPEER'S SAMBUCI WINE.
Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated.
As a Blood Purifier, it is powerful, it imparts a healthy action to the Glands, Kidneys and Urinary Organs; and is very beneficial in Dropsy, Gout and Rheumatic Affections.
As a Blood Purifier, it is superior, being one of the best alterratives known to the medical pharmacopœia.
The qualities of SAMBUCI are "*unitum in pares*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.
N B.—Vinum bonum bonum sanguinem facit.
SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefiting babies and children.
Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.

The Chronicle.

INTERESTING TO SMOKERS AND CIGAR DEALERS.—Mr. Jere W. Mower, doing business as a dealer in cigars and tobacco on Union street in Boston, was examined before Commissioner Hallett, of the U. S. Court Saturday forenoon, on the charge of refilling cigar boxes upon which the revenue stamp had not been defaced. From the evidence, and Mr. Mower's admission, it appears that he received an order from Portsmouth, N. H., last summer, for a quantity of cigars of the "Wandering Jew" brand, and, not having enough of that kind to fill the order, took other cigars and filled boxes which bore the brand of the "Wandering Jew."

A portion of the cigars were first discovered in Portsmouth by U. S. Deputy Marshal Kent, whose suspicions were aroused by seeing green cigars in old boxes. Subsequently about thirty-two boxes were seized. Mr. Mower claimed, through his counsel, Mr. E. W. Morton, Jr., that the cigars were taken from boxes which had duly passed inspection, and he merely assisted in filling those upon which there were proper stamps. The Commissioner ruled that the breaking of a stamp in opening a box of cigars or cutting it, wasn't defacing it, and also that a box once emptied of cigars could not be refilled unless newly stamped. He took Mr. Mower's personal recognizance in $1000 for his appearance before the U. S. District Court on the third Tuesday of March next, when a final decision upon the two law points above mentioned will be given.—*Boston Journal.*

The law says, in regard to this matter:

"That any person who shall sell, give away, or otherwise dispose of any empty cigar box or boxes which have been stamped, without first defacing or destroying such stamps, or shall refill any cigar box without first defacing or destroying such stamps, shall on conviction of either offence be liable to a penalty of one hundred dollars or to imprisonment not exceeding sixty days, or both, in the discretion of the Court, with the cost of the trial; and it shall be lawful for any cigar inspector or Revenue officer to destroy any empty cigar box upon which a cigar stamp may be found."

GOLD, Monday, 136 5 8.

—To make lazy boys thrash beans, thrash lazy boys.

— A vocalist says he could sing "Way Down Old Tar River," if he could get the *pitch*.

— A gentleman presented a lace collar to the object of his adoration, and in a jocular way said, "Do not let any one else rumple it." "No dear," said the lady, "I will take it off."

HENRY A. YEATON,
OFFICE AT J. BROOKS' Coin and Flour Store
No. 110 Market Street.
PORTSMOUTH, N. H.,
Agent for the
Mutual Benefit Life Ins. Co.,
AND THE
CONTINENTAL FIRE INS. CO.,
OF NEW YORK.
Also for the
NAT. TRAVELLERS' INS. CO.,
OF NEW YORK.

S. GILBERT,

n15 J. W. & A. STAVERS.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington† under the Act of 1837.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring Inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
Boston, Jan. 1, 1867.—3tawly

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of whom I know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Morsn / W H Thompson U S N
Joseph H Gardner / Alexander L Robinson
John H Morrill / Elizabeth Hewitt,
Edward J Moulton / Wm B Norton
Addison Carroll / A Gould
Mrs Isaac Jenness / Mrs J N Sherburne

THE WORLD RENOWNED
PEERLESS STOVE
Which has taken the
FIRST PREMIUM
—AT THE—
WORLD'S FAIR IN PARIS!
—AND—
GOLD MEDALS
—AT—
VARIOUS STATE FAIRS
In this country, is in many respects
THE BEST STOVE EVER MADE!
It Excels all other Stoves in Weight and Durability of Castings; will resist the abuse of servants, and
LAST A LIFE TIME.
Just the Stove for City or Country, Hotel or Family Use.
IT IS EQUALLY GOOD
FOR WOOD OR COAL,
And is so arranged that
The Ashes can be removed without making any dust!
—AND—
Fire can be Kept in it the Year Round.
THE STOVE IS A VERY QUICK BAKER.
It has a large oven, through which a current of hot air is constantly passing and is furnished with a SPIT for ROASTING meat in the old-fashioned way—far superior to the ordinary method of baking it.
The PEERLESS is having an extensive sale in all parts of the country, and not a single Stove has failed to give satisfaction.
We refer to a few purchasers in this vicinity:

Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 23 Congress street. o22 H. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 10, 1867.

IN THE U. S. HOUSE OF REPRESENTATIVES, Dec. 7, a vote was taken on the resolution to impeach President Johnson for high crimes and misdemeanors: yeas 57, nays 108. Sixty-six of the nays are said to be Republicans. This vote makes it almost certain that no President of the U. S. will EVER by impeached. This provision of the Constitution is now about as dead as the provision about treason.

Among those who voted for impeachment were Lynch of Maine, Stevens and Ela of New Hampshire, and Boutwell and Butler of Massachusetts. All the other Republicans from New England voted against impeachment except Twichell of Massachusetts and Jenckes of Rhode Island, who were absent.

The House passed the bill suspending the power of the Secretary of the Treasury to contract the currency, 138 to 47.

CABLE ITEMS.—The Paris Presse says that the Conference will not meet at Munich, as at first proposed, but in Paris, at the time originally appointed. The envoys of the various powers resident in Paris, will represent those powers in the Conference.

In London, Friday night, Her Majesty's Theatre, one of the largest in the city, took fire after the audience had retired, and was totally destroyed. No lives were lost.—Origin of the fire unknown. Loss very heavy.

The London Globe editorial says the present attitude of France renders a conference of the European powers for the settlement of the Roman question utterly impossible. [The Paris Conference will be a farce.]

The Italian Government has granted universal amnesty to the adherents of Gen. Garibaldi.

The present state of political affairs in Italy creates some anxiety and distrust in monetary circles in London.

525 MILES.—We can hardly keep up with this Union Pacific Railroad. Three weeks ago we read of four hundred and some miles completed, then of five hundred, and now we are told that the base of the Rocky Mountains, 525 miles from Omaha, has been reached.—But this is not all, even for this year. To the summit of the Black Hill (the eastern ridge of the Rocky Mountain range) is but thirty miles further; and this point, the highest on the whole line, is expected to be the halting-place for a railway train in a few weeks more. The vigor with which this great national undertaking is being pushed forward is one of the wonders even of this wonderful age. Over the plains—across the rivers—up the mountain slopes, and through the defiles beyond, the same restless energy urges on the work, leaving as no reason to doubt that the Pacific Ocean will be united with the Atlantic by rail in 1870.

All these great achievements cost money, and a great deal of it. Over forty million dollars have already been expended on the two ends of the line, and yet funds have never been lacking. With directors of great energy and financial experience, supported by a wealthy and powerful corporation, it is no wonder that "the work goes bravely on."—But still, if Uncle Sam had not put his shoulder to the wheel, opened up his purse, and offered his broad acres, the locomotive would not have whistled at Brigham Young for a long time to come. But Uncle Sam's great farm of half a continent needed a road through it—his Indians needed a touch of railroad civilization to keep them peaceable, and it was very necessary that he should open those great and rich mountain pockets so full of gold, which nothing but a steam engine could unbutton. It seems wise, therefore, that he should lend fifty million dollars, and give even twenty million acres of land, which would otherwise be worthless, to improve his own property, and take a second mortgage on the greatest railroad in the world for security, especially when his own freight bills for work done at a quarter of the old prices, more than pay the interest. But profitable as the investment is to the country, it gives remarkable safety and value to the Company's own First Mortgage bonds. The Government *stands behind them*, and gives them such a guarantee as it never gave to the securities of any private enterprise. We never desire to recommend anything beyond its actual merit, but that any one who has a thousand invest, would do well to call upon Pacific Railroad Company's agent, their office, No. 20 Nassau street, for a very interesting pamphlet, a map of the line, and a full statement to the progress of this great enterprise. 1dlaw

A RACE EXTRAORDINARY.

Some years ago a race was run at the Hague, in Holland, which, for its novelty, excited more than ordinary interest. It was between a fast trotting horse in harness and a full-grown *hog*; single heat—distance, six English miles—for a wager of one thousand guilders.

The circumstances which led to this unique trial of speed were as follows: At a sporting club at the Hague, a young member of the club expatiated upon the beauty, symmetry and extraordinary speed of a trotting-horse he had that day purchased, expressing an eager desire to get up a match to prove the superior qualities of his horse. A gentleman, engaged in a hand at cards, but whose attention had been attracted by the ardent remarks of the speaker, quietly remarked: "Come sir, don't be bragging so much about the swiftness of your horse, for I have a pig, which, for a trifling wager, I would not hesitate to run against your horse."

Peels of laughter greeted this strange proposal, to which—when partially subsided—the owner of "Grunty" quietly interposed: "Well, gentlemen, I now challenge to run my hog, Nero, against that gentleman's fast trotter in harness, one straight heat, six English miles, for one thousand guilders a side." "Done, done," was the eager response from many voices. "Provided," the challenger resumed, "that the horse carry two persons, and that fourteen days' time be allowed me for training my animal." "Agreed, agreed," resounded all round; for the joke was deemed too good and too novel to give it the go bye.

Preliminaries being satisfactorily arranged, and the stakes deposited, it was agreed that the match should come off that day fortnight, at 11 o'clock A. M. precisely; and the beautiful avenue leading from the Hague to the sea-shore at Scheveningen was selected as the course. The news of this extraordinary match for a trial of speed between a fast trotting-horse and a full-grown porker spread like wildfire, and caused the most intense excitement, not only in sporting circles but among the people generally—all eager to see the fun. The day was anxiously looked for, and the training of Nero began.

On the first day poor Nero was starved, strict orders having been given by his owner that no one should feed him, be alone attending to that matter. On the second day Nero was pretty sharp set, when, punctually at 11 o'clock, his master made his appearance. A rope was securely fastened to one of his hind-trotters, and the master drove him, with many a kick and forcible persuasion, all the way over the course to Scheveningen, where he fed him on a scanty meal of two herrings, which Nero ravenously devoured, after which he had to trot back to the Hague. It may be proper to remark here that the hog prefers fish to any other food.

On the third day Nero felt perfectly ravenous, but he had to bide his time, and his master had to resort to the strictest hog-discipline to start him off, when, at 11 o'clock, he presented himself to drive him over the course. After a liberal and energetic application of a booted foot, and a little loud and angry discussion between the respective parties, they arrived at their journey's end, where Nero was regaled with three herrings, being one extra, and which he dispatched voraciously in double-quick time, looking for more, but in vain. He was then, with much coaxing and kicking, persuaded to resume the return trip homeward, and which was safely accomplished, although not without considerable opposition, accompanied by vigorous squealing and the most determined grunting on the part of Nero.

On the fourth day, punctually at 11 o'cl'k, when his master presented himself, Nero seemed to understand somewhat the object of his calling, and walked off not only without compulsion but with considerable alacrity and at a good round pace, to get to his journey's end, where his master regaled him, not alone with his coveted dinner of three herrings, but, as a reward for his tractability and good conduct, with one herring extra, which Nero devoured with incredible velocity, as soon as they came in reach of his grinders.

On the fifth day Nero was fully up to the game, and his master experienced considerable difficulty to keep up with him. At Scheveningen the usual allowance, now, of four herrings, was placed at his disposal and were disposed of by him in short metre.

On the following days, and up to the time of the race, his master had no further difficulty with Nero but to keep up with him; Nero invariably taking the lead; though on his return trips the same difficulties always recurred. A vigorous application of boots was in such case the only convincing argument with Nero, who never could see the point nor comprehend the necessity of this back-track movement, and over obstreperously squealed and grunted his objections, deeming this extra exercise probably superfluous to his health, as he had never shown any signs of either dyspepsia or indigestion. But be that as it may, Nero had to submit to strict discipline, his master intending to thus train him up to fame and renown.

On the ninth day Nero had become perfectly trained, and having grown extremely thin upon his scanty meals, he ran like a race-horse, a veritable Eclipse, invariably distancing his master, who followed with a fast trotting-horse in harness. Both exercise and spare diet were, however, strictly adhered to up to the day preceding the one on which the race was to come off. On that, the thirteenth day, as on the first day, poor Nero was again starved. At the usual hour of eleven his master appeared, but Nero was doomed to disappointment—no trot, no herrings on that day. With eager eye and impatient grunt he signified his desire to be released from his pen, but alas! it was not so to be; he had to submit to a day of fasting and prayer—or, at least, prepare for the race.

On the fourteenth day both horse and hog appeared at the starting-post, eager for the race. It was a beautiful day, and the road was lined the entire distance, on both sides, with anxious and delighted spectators eager to see the sport. Punctually at 11 o'clock, at the tap of the drum, off they started, and the shouts and hurrahs of the multitude. The first two miles were closely contested—it was emphatically a neck and neck race; but Nero, light as a feather, (and having in his mind's eye, probably, his delectable meal) now fairly flew over the course, gradually leaving the horse behind, keeping the lead the entire distance. Amid shouts and hurrahs, the waving of handkerchiefs, and the wildest excitement, he reached the ending-post, beating the horse half a mile and winning the race triumphantly.

For this extraordinary performance Nero was rewarded with a pailful of herrings, having feasted upon which to his heart's content, he waddled back to the Hague, in the care of his master, "the admired of all admirers." His master, pocketing the purse of one thousand guilders, generously spent one hundred guilders for Nero's portrait, which is now preserved at the sportsman's club at the Hague.

NEW HAMPSHIRE ITEMS.—There are eleven sawmills in operation in Whitefield, capable of producing from 500,000 to 3,000,000 feet of lumber each annually.

Mrs. Mary G. Booth, formerly of Newport, was burned to death at her home in Jacksonville, Oregon, Nov. 9th, by her dress taking fire from a stove.

The prisoners in the Hillsborough county jail, about forty in number, having been incarcerated for "raising Cain" generally, now net the county $600 per year by putting cane seats to chairs. The work is contracted for by Massachusetts parties, and this is said to be the only jail in the State which earns anything to go into the county treasury. The employment of the prisoners is said to promote better discipline in the institution.

G. B. Moore of Gofistown has sent to Boston this season 160 bushels of chestnuts, for which he received nearly $2000.

J. W. Hussey, of Philadelphia, a native of Rochester, this State, has improved a steam press for making brick, that turns out fifty-six bricks a minute, requiring no previous preparation of the clay.

☞ The Secretary of the Treasury has sent to the House a detailed statement of the internal Revenue receipts from distilled spirits, during the fiscal year ending last June. The aggregate, as appears from the report of Commissioner Rollins, was $28,296,264; of this amount there was collected:—from Maine, nothing; New Hampshire, $1,234,000; Vermont, nothing; Massachusetts, $662,185; Rhode Island, $69,067; Connecticut, $185,462. [So it seems our little State pays considerably more than one-half the entire revenue on distilled spirits from the whole of New England.]

LOST AND FOUND.—A poor woman, living in Manchester, N. H., a short time ago, had the good fortune to learn that a legacy of $1000 had been left her by a deceased relative. Finding that the presence of her husband, who was in California, was necessary before the money could be paid, she wrote for him, and he met her by appointment in Boston, not many days ago, and drew the money. The wife conceiving now that they were in possession of so much money, that there could not be any objection to her returning to California with him, proposed to do so, to which he made no objection. He however managed to give her the slip, taking with him the $1000.

Wandering through the streets in search of him, she attracted the attention of a female at the door of a lodging house, and appearing to await the arrival of a second party. The female observing her to be weary, invited her to partake of refreshments, saying that she had been making merry, as her husband had come from California, and had drawn a legacy of $1000, and was that day expected in Boston. These with other particulars, aroused the real wife's suspicions, which were soon confirmed by the husbands entering the house in a state of intoxication. A scene ensued; the two wives asserted their claims, but the new wife and her husband, being both overcome by the superabundance of good things they had taken, were helpless, and they both fell asleep. The first wife who was not under the influence of Bacchus, searched her husband's pockets, and and found there $900, with which she forthwith started for Manchester, leaving the drunken couple to enjoy their meditations when they awoke.

—An exchange wants to know if, when young women blush and weep, they can be said to raise a hue and cry?

— State Constable Boynton at Haverhill, Mass., destroyed 14 barrels of condemned beer, that had been some time in the lockup. The Gazette says the effluvia arising therefrom was anything but grateful to the olfactory senses.

— At the installation of Rev J. J. Lewis as pastor of the Broadway Universalist Society, South Boston, last week, Rev. Dr. Miner preached the sermon from 2d. Timothy 4th, 5th: "Make full proof of thy ministry;" and the charge to the pastor was by Rev. A. J. Patterson.

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in which no other over all other preparations for the Hair. First, by prompt, quick action, great growth, life and vigor that it is sure to give the Hair, never failing, by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, delicate and unobjectionable in any degree. Second, its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a splendid Toilet Luxury to dress their hair. It retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing dandruff and dandruff and pimples. Price One Dollar. Sold by all Druggists. 1d21—1m

GREAT DIRT EXTRACTOR.—Pyle's O K Soap is the article, and in point of economy is without a rival. Sold by all first-class grocers. 31

525 MILES
OF THE
UNION PACIFIC RAILROAD.
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* on the work, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger of more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made at par, or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

1868.
Scientific American.
THE BEST PAPER IN THE WORLD.
Published for nearly
A QUARTER OF A CENTURY.

This SPLENDID NEWSPAPER, greatly enlarged and improved, is one of the most reliable, useful and interesting Journals ever published.—Every number is BEAUTIFULLY PRINTED on Fine Paper, Elegantly Illustrated with several ORIGINAL ENGRAVINGS, representing New Inventions, Novelties in Mechanics, Agriculture, Chemistry, Photography, Manufactures, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, people in every profession of life, will find the SCIENTIFIC AMERICAN to be of great value in their respective callings. Its counsels and suggestions will save them hundreds of dollars annually, besides affording them a continual source of knowledge, the value of which is beyond pecuniary estimate. All patents granted, with the claims, published weekly.

Every Public or Private Library should have the work bound and preserved for reference.

The yearly numbers of the SCIENTIFIC AMERICAN make a splendid volume of nearly one thousand quarto pages, with from Three to Four Thousand Ordinary Book Pages. A new Volume commences January 1, 1868. Published Weekly. Terms: $3 a year, $1.50 Half Year, $1.50, Clubs of Ten Copies for One Year, $25, Specimen Copies sent gratis. Address

Munn & Co., 37 Park Row, N. Y.

☞ The Publishers of the SCIENTIFIC AMERICAN, in connection with the publication of the paper, have acted as Solicitors of Patents for 22 Years. Thirty Thousand Applications for Patents have been made through their Agency, and more than One Hundred Thousand Inventors have sought the counsel of the Proprietors of the SCIENTIFIC AMERICAN concerning their inventions. Consultation and advice to inventors cheerfully and free. Pamphlets concerning Patent Laws of all countries, free.

☞ A Handsome Bound Volume containing 150 Mechanical Engravings, and the United States Census by Counties, with Hints and Receipts for Mechanics, mailed on receipt of 25c. d10

COLBY'S PILE REMEDY!
Warranted to Cure Blind or Bleeding Piles.

Thousands in the Western country can testify to the miraculous cures it has done. Soon as it becomes known, not a person that is troubled with the Piles but what will secure a bottle to try. Don't say about this, but go and get it. Pronounceable, no drugs are used in preparing it, and it is warranted to cure or the money refunded.

Give it a Trial and be Convinced.

Two Bottles Warranted to cure in three weeks if taken according to Directions, or the money refunded. $1 per Bottle. Sent free on receipt of price. JOHN M. COLBY,
d15tu9 95 State Street, Boston.

DR. TOBIAS' VENETIAN LINIMENT. As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Contraction of the Muscles, Headache, Bone Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are extraordinary.

Taken Internally in cases of Sick Headache, Colic, Bowel Complaints, Cholera, Dysentery, Vomiting and dyspepsia, its soothing and penetrating qualities are felt as soon as taken.

☞ If the reader or his friends have any complaint named in this advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.

Ask for Dr. Tobias' Venetian Liniment and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and Oils now flooding the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d3d4w

DIRECTIONS FOR
MAKING YOUR OWN SOAP
WITH YOUR WASTE GREASE!
Penn'a Salt M'fg Co.'s Renowned
SAPONIFIER:
(Patents of 1st and 8th Feb., 1859,) or
CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (cups) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—Be particular in asking for PENN'A SALT M'FG CO'S SAPONIFIER. d1—eowdawly

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

nsumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its action is expectorant, alterative, sudorific, dative, diaphoretic and diuretic, which renders one of the most valuable remedies known for ring Consumption in the first stage. It excites expectoration and causes the lungs to throw off the legm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated aris; gives strength to the digestive organs; rings the liver to its proper action and imparts reagth to the whole system. It is warranted to ve entire satisfaction, even in the most confirmed cases of consumption, and not to produce coseness (as do most medicines or elect the head, it contains no opium in any form. It is PERCTLY HARMLESS to the most delicate child, al ough an active and powerful remedy for restor the system. There is no necessity for so many eaths by consumption, when ALLEN'S LUNG ALSAM will prevent it, if only taken in time. Sold by all Druggists. Price $1 per bottle.

SUDDEN DEATH

Is the fate of every fibre upon which the CAUSTIC POISON

of an ordinary hair dye falls. There is no RESURRECTION

for the filaments thus blighted. But, as it were, in the TWINKLING OF AN EYE,

hair of any obnoxious color is changed to a RICH AND GLORIOUS HUE,

and at the same time vitalized and improved by use of CRISTADORO'S HAIR DYE.

Nature's safe ally, and beauty's regenerator.—Manufactured by J. CRISTADORO, 68 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. n30dewlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Carolina, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly sp ak or breathe I was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months, but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

JESSE TURNER.

Beaver Dam, Schuyler Co., N. Y. Sept. 14, 1866

Principal Agency, Brandreth House, N. Y. Sold by 100,000 Druggists, to whom we refer as to their superior qualities. n9tuw m

Local.

☞ The splendid new ship Merrimac, Capt. B. F. Jacobs (formerly of ship Granite State), was towed to sea by steamboat Potter, on Monday evening, bound for Savannah. She is laden with hay, and takes out "mine host" Philbrick, of the Philbrick and Farragut Houses, as passenger. Her tonnage is 1208. She is owned by Horton D. Walker, John Neal & Co., Capt. Jacobs and others.—She was built by Messrs. Neal & Co., of the best material, and her whole appearance is a graceful model of strength and beauty, with a capacity of carrying four thousand bales of cotton. Many of our citizens have enjoyed the courteous hospitality of the captain and agent (H. D. Walker), on board, the past week.

It is seems a little singular that a ship built on the Piscataqua, should be named for a sister river—and we suggest to the christener of this, that he name one of the many other fine craft we hope he will put afloat, after old Strawberry Bank.

☞ The Lyceum lecture this evening will be delivered by Gen. Henry K. Oliver of Salem,—who is State Treasurer of Massachusetts, a famous musical amateur, and author of several of the sweetest and most popular tunes. We are not informed of the subject of his lecture, nor are we acquainted with his success in the desk; but from what we do know of his ability elsewhere, we have no hesitation in expecting something worth hearing.

P. S.—We since learn that the subject will be "Socrates the Athenian;" and a former pupil of Gen. Oliver's, now a resident of this city, informs us that he was for many years teacher of the Salem High School, and Adjutant General of Massachusetts, and that his audience will not be disappointed in expecting a very interesting lecture, and advises attendance.

☞ August Belmont, of New York, agent of the Rothschilds in this country, is reported to have purchased a farm in this city. The farm, we learn, is that recently owned by Mr. Winchester, on Lafayette Road.

☞ Thermometer 3 below zero Monday morning—and ball day (no work) at the Navy Yard, the earliest for many years. A very biting atmosphere, though rather clear and bright.

☞ The manifold uses of India rubber have rendered it one of the most necessary materials of every day use. Its application to articles necessary to the toilet has furnished us with various descriptions of brushes far superior for wear and cleanliness to those backed with horn, ivory or wood, as of yore. These goods are for sale by David Kimball, in this city, and a trial will prove the truth of the manufacturer's statement.

☞ Dr. Dessauer, long and favorably known in this city as an optician, will be at the Franklin House this morning, where he will remain the rest of the week, for the convenience of those desiring his services.

BIDWELL & LOCKE'S DRAMATIC COMPANY are to occupy the Temple three nights, commencing Wednesday evening, Dec. 11th. This Company have been playing in Lowell, Salem, Lawrence, Newburyport, and in a number of other cities. We clip the following notice from the Lowell Courier:

Rarely has so large an audience assembled at Music Hall as that on Saturday evening to witness the presentation of the sensational drama entitled "Nobody's Daughter," by Bidwell & Locke's dramatic company. The aisles were filled with temporary seats, and many were glad to avail themselves of standing room in order to witness the performance. The triple characters of Jennie Milsom, Lady Eversleigh and M'lle Brewer, were well sustained by Dollie Bidwell, who is quite versatile and zealous in her profession. The talent of Kate Reignolds was not expected to find a counterpart in these characters, but it must be acknowledged Miss B.'s acting on this occasion was far superior to what was expected by many of her warmest admirers. Mr. B. S. Meldrum, one of the finest leading actors of this section, appeared to good acceptance as Joyce Harker and Larkspur. Mr. Bidwell as Black Milsom, Mr. Churchill as Victor Carrington, Mr. Wilkinson as Dennis Wyman, Mr. Locke as Reginald and Mr. Conner as Sir Oscar Eversleigh, Miss Langley as Lydia Graham, Mrs. Churchill as Jane Payland and Mrs. Thompson as Mother Megg, also appeared most favorably. The scenic effects were most excellent, much enhancing the interest in the entertainment.

☞ One of the firm of Lazarus & Morris, the great perfected Spectacle manufacturers, announces in their new advertisement (on the 4th page) that he will be at the store of their agent in, this city—Mr. Shores' Congress Block Bookstore—the 12th, 13th and 14th inst., to fit peculiar or difficult eyes.

☞ A dispatch over the Western Union Line, states that the municipal election in Boston, on Monday, resulted in the election of the Democratic candidate for Mayor (Shurtleff), by 450 majority.

A later dispatch, by the International Line, gives the result in Boston as follows:

Shurtleff, dem.,	8333
Norcross, rep.,	7875
Shurtleff's majority	458

[At the Gubernatorial election in Massachusetts, last month, Boston gave Adams (dem.) 8775, and Bullock (rep.) 7292; being a majority of 1483 for Adams.]

In Newburyport, on Monday, Peter (dem.) was elected Mayor by 399 majority, the vote standing:

Pierce, dem.,	1093
Currier, rep.,	624

MARRIAGES.

In this city, Dec. 1, by Geo. G. Brewster, Esq., Mr. THOMAS LAIGHTON, Jr., to Mrs. MARY A. JARDIN, both of Saco, Me.

In Kittery Nov. 28, by Rev. T. L. Ellis, FREDERICK A. BILLINGS to Miss PRISCILLA M. WALDRON, both of Kittery.

DEATHS.

In Rye, Dec. 8th, very suddenly, Mrs. MARTHA MARDEN, aged about 50 years, wife of Mr. Geo. Marden.

AMERICAN

WALTHAM

WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the machine—no mistake in the size or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and junction expressly for the purpose, to produce the finished pieces. By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is formed to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by a Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,347 02	$103,088 61	$401,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	6,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	25,517,000
Resources first 725 miles	$77,831,000

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, roundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from **12 to 18 per cent. Advantage,** with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

THE FARMER'S TIME.

BY C. H. LELAND.

Autumn is the farmer's time;
Ladies fair may love the spring,
Lovers give it welcoming;
Merchants laugh for joy to see
Open roads and rivers free;
Let them live and trade and rhyme—
Autumn is the farmer's time.

Let them in the city's hum
Laugh to see the winter come;
Dancers then are brisk and gay,
Banquets drive the hours away;
Every season hath its prime—
Autumn is the farmer's time.

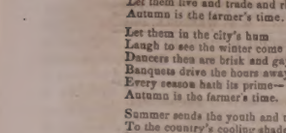
Summer sends the youth and maid
To the country's cooling shade;
Then we eat the golden grain,
Then we load the creaking wain;
Then we work till rest seems crime—
Autumn is our better time.

Autumn brings us cooler nights,
Autumn brings us fresh delights;
Autumn heaps the richest fruit,
Autumn yields the branch and root;
Sings each season in its prime—
Autumn is the farmer's time.

☞ Epitaphs are not always veracious, but the are more truthful than the labels of the so-called foreign perfumes now sold in this market. Don't be duped by these printed fables. They are counterfeit presentments, covering counterfeit articles. Pnalon's "Night-Blooming Cereus" is, on the other hand, precisely what it purports to be—a pure, unimpeachable staple of the toilet.—*Chicago Times.*

Printing Press for Sale.

The ADAMS (double feeding) Power PRESS, on which the Portsmouth Journal and Gazette are now printed. Is in good order, and may be seen running any morning from 4 to 6 o'clock.—Will take a form 30 1-2 x 27 1-2 inches—and is sold only because too small for our use. Price only $150.



Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local News from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

NEW ENGRAVINGS!

FIVE BEAUTIFUL IDEAL AMERICAN FACES, Engraved on stone in Paris by the most eminent Lithographers in the world These faces, which are most beautiful and poetic conceptions, are designed to represent the best ideal types of American Womanhood, representing their charities, devotion, sympathies, attachments and heroism. The lithography is in the highest style of the art, and is such as has rarely been equalled, and cannot be excelled. These portraits have received unqualified praise from the most eminent artists and prominent newspapers of the country, and they should adorn every household in the land. For particulars and descriptive circulars, address

THE RICHEST MAN IN THE WORLD.

Extract of a Letter from Baron Solomon de Rothschild. PARIS, 8th April, 1864, 26 Rue Fauby. St. Honore.—Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment: if you will send at the same time your account, I will forward you the amount through Messrs. Belmont & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.,* it is unequalled.—It is also most efficatious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Infantum, &c.,* and is without exception the Most Wonderful Panacea the world affords. No Family should be without it. Every TRAVELER by Land or sea should have a bottle. FARMERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price **50 Cents** per bottle. For sale at wholesale and retail by Druggists, Jaynes & Co., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

These vessels are fitted up with new accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, with State Room, $6. Cabin passage, $5. Meals extra.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.

Shippers are requested to send their freight to the steamers as early as 2 P. M. on the day that they leave Portland. For freight or passage apply to EMERY & FOX, Galt's Wharf, Portland, or J. E. AMES, Pier 38 East River, New York. jel7 Jeod—1y

Pacific Mail Steamship Company's
THROUGH LINE TO CALIFORNIA.
To sail Mexican Ports and Carrying U. S. Mail
Through in Twenty-two Days.

Steamships on the Atlantic:	Connecting on the Pacific with the
ARISPE,	COLORADO,
HENRY CHAUNCEY,	CONSUELO,
NEW YORK,	GOLDEN CITY,
OCEAN QUEEN,	SACRAMENTO,
NORTHERN LIGHT,	GOLDEN AGE,
COSTA RICA,	MONTANA, &c.

One of the above large and splendid Steamships will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock, noon, on the 1st, 11th and 21st of every month, (except when those dates fall on Sunday, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway, with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at ACAPULCO.

Departures of the 1st and 21st connect at Panama with Steamers for the SOUTH PACIFIC and CENTRAL AMERICAN PORTS. Those of 1st touch at MANZANILLO. Departure of 11th each month connects with the new steamer line from Panama to AUSTRALIA and NEW ZEALAND.

For Japan and China.—Steamer of Dec. 21st, connects closely at San Francisco with steamer CHINA, leaving Jan. 16, 1868, for Yokohama, Hong Kong, &c., &c.

A discount of *One-Quarter* from Steamers' rates allowed to second cabin and steerage passengers with families. Also an allowance of *One-Quarter* on through rates to clergymen and their families and school-teachers. 100 lbs. baggage allowed each adult. Baggage-masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads, and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For Passage Tickets or further information apply at the Company's ticket office, on the Wharf, foot of CANAL ST., NORTH RIVER, NEW YORK; to F. R. BABY, Agent, or to the Company's Agents, C. L. BARTLETT & CO., 16 Broad street, Boston. mh20—3m

THE WHITE MOUNTAINS.

NANCY'S BROOK.—In Scotland, a highland pass, so wild and romantic as that from Upper Bartlett to the Crawford House, would be overhung with traditions along the whole winding wall of its wilderness; and legends that had been enshrined in song and ballad would be as plentiful as the streams that leap singing towards the Saco, down their rocky stairs. But no bill, no sheer battlement, no torrent that ploughs and drains the barriers of this narrow and tortuous glen, suggests any Indian legend. One cascade, however, about half a mile from the former residence of old Abel Crawford, is more honored by the sad story associated with it, than by the picturesqueness of the crags through which it hurries for the last mile or two of its descending course. It is called "Nancy's Brook;" and the stage-drivers show to the passengers the stone which is the particular monument of the tragedy, bearing name "Nancy's Rock."

Here, late in the autumn of the year 1778, a poor girl, who lived with a family in Jefferson, was found frozen to death.—She was engaged to be married to a man who was employed in the same family where she served. She had intrusted to him all her earnings, and the understanding was, that in a few days they should leave for Portsmouth, to be married there. But during her temporary absence in Lancaster, nine miles from Jefferson, the man started with his employer for Portsmouth, without leaving any explanation or message for her. She learned the fact of her desertion on the same day that her lover departed.

At once she walked back to Jefferson, tied up a small bundle of clothing, and in spite of all warnings and entreaties, set out on foot to overtake the faithless fugitive.—Snow had already fallen; it was nearly night; the distance to the first settlement near the Notch was thirty miles; and there was no road through the wilderness but a hunter's path marked by spotted trees.—She pressed on through the night, as the story runs, against a snow-storm and a northwest wind, in the hope of overtaking her lover at the camp in the Notch, before the party should start in the morning. She reached it soon after they had left, and found the ashes of the camp-fire warm.

It was plain to those who, alarmed for her safety, had followed on from Jefferson to overtake her, that she had tried in vain to rekindle the fire in the lonely camp. But the fire in her heart did not falter, and she still moved on, wet, cold and hungry, with resolut on unconquered by the thirty miles' tramp through the wilderness, on the bitter autumn night. She climbed the wild pass of the Notch, which only one woman had scaled before—for it was then a matter of great difficulty to clamber over the steep, rough rocks—and followed the track of the Saco toward Conway. Several miles of the roughest part of the way she travelled thus, often fording the river.

But her strength was spent by two or three hours of such toil; and she was found by the party in pursuit of her, chilled and stiff in the snow, with her head resting upon her staff, at the foot of an aged tree near "Nancy's Bridge," not many hours after she had ceased to breathe. When the lover of the unhappy girl heard the story of her faithfulness, her suffering, and her dreadful death, he became insane; and, after a few weeks, as one account informs us, after a few years, as another states it, died a raving madman. And there are those who believe that often in still nights the valley walls of Mount Crawford echo the shrieks and groans of the restless ghost of Nancy's lover.

THE NOTCH.—In North Conway we were surrounded by mountain splendor, cheer, and peace; the gradually darkening pass through Bartlett, and the pathos of the story murmured by Nancy's Brook, prepare us for the impression of mountain wrath and ravage when we reach those awful mountain walls whose jaws as we enter them, seem ready to close together upon the little Willey House, the monument of the great disaster of the White Hills.

There is no Indian tradition connected with the Notch. We have no record that any Indians ever saw it. It was discovered in 1772 by a hunter named Nash, who had climbed a tree on Cherry Mountain. The farmers of Jefferson and Bethlehem were very glad to learn that there was a prospect of a more direct and speedy communication with the towns below, and with Portsmouth, than by winding around the easterly base of the great range. But the early experiments of passing through the Notch to reach the lowlands seemed to cost in toil and peril more than an equivalent for the gain in time.

Horses were pulled up the narrowest and most jagged portion of the Notch between Mount Webster and Mount Willard, and let down again by ropes. And the primitive method of transporting any commodities was to cut two poles some fifteen feet in length, nail a couple of bars across the middle, on which a bag or barrel could be fastened, then harness the horse into the smaller ends, which served as thills, and let the larger ends, which had no wheels under them, drag on the ground. The first article of commerce that was carried in this way from the sea-shore, through the solemn walls and over the splintered outlet of the Notch, was a barrel of rum. If was laxed heavily, in its own substance, however, to ensure its passage, and reached the Amonoosuc meadows in a very reduced condition. The account between highlands and lowlands on the large ledger of traffic was balanced, soon after, by a barrel of tobacco, raised on the meadows of Lancaster, which, by horse power and ropes, was let down the pass under Mount Willard, and, after crossing the Saco thirty-two times before reaching Bartlett, was sent on its smoother way to Portsmouth. In 1803 a road was laid out through the Notch to Bartlett, at a cost of forty thousand dollars.—*Starr King.*

THE STOVE FOR THE MILLION!

THE
KEARSARGE
HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carrill, Mrs Isaac Jenness, Capt John Bauer, Mrs Wm Haslet, Israel Marden, James D Ackerman, Samuel Cook, Gideon Walker, John Pinkee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob B Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred O Moses, James Doughs, Ephraim H Downs, George Booth, Mrs Augustus Shackley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Bell, William Skeels, Allen A Knud, John Kimberly,

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 ENDICOTT St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Falling of the Womb, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered.
Office hour from A. M. 10 to P. M.
Boston, Aug. 4, 1867.—1ycao

oct10 n6

Farm for Sale.
The well known PARSONS FARM, on Boyd's Road, next adjoining the estate of the late Hon. Levi Woodbury; containing 116 acres; has cut 60 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State. Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 21 Congress street. o22 R. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 11, 1867

NEW HAMPSHIRE ITEMS.—Three new patents, bearing date Dec. 3, have been issued to parties in this State: Charles M. Templeton of Concord, for improvement in stuffing box packing; Ashbel P. Barlow of Claremont, for improved curtain fixtures; J P. Haynes of Bedford, assignor to self and Samuel C. Forsaith of Manchester, for improvement in headblocks for sawmills.

Mr. Daniel Walker of Lempster has lately sold from his herd, to George Dana of Boston, (a gentleman who appreciates fine cattle and has a farm in Lempster,) one yearling Short horn Heifer for $250; one *undivided half* of the splendid bull Calf lately brought from Rensselaer Co., N. Y., for $150. To Robert C. Fay, of *Walpole*, one three-year old Heifer for $325; one bull calf 5 months old, for $150.

The Commissioners appointed at the last session of the N. H. Legislature to secure the return of salmon and shad to our waters, have lately received eighty thousand salmon spawn from Miramichi River in New Brunswick. Of this number, forty-five thousand have been sent to the Cold Spring trout ponds in Charlestown, for stocking the Connecticut River. They were received by Mr. Stone, the proprietor, the week before Thanksgiving, and have already been placed in hatching boxes. The spawn are about the size of a rather small p a, and are in the shape of an oblate spheriod; that is, not quite globular, but a little flattened. The healthy ones are translucent; but when the living principle in them becomes dead, the egg becomes opaque and whitish. About five-sixths of them were found to be healthy. They were taken from the nose in which they were packed, rinsed perfectly clean, distributed among the hatching boxes, and the dead ones picked out with long slender pincers. It is expected that they will hatch somewhere about the middle or end of January. Mr. Stone will retain them till they get large enough to do something towards taking care of themselves, before he places them in the river.

There are fifty little petty towns in this State unprovided with settled ministers or regular worship; which shows the need of less towns, rather than of more ministers.

Some burglar or burglars made attempts to rob four houses in Exeter on Friday night, but got nothing.

Henry H. Blake of Raymond is bound over in $500 to be tried for an assault upon Rev. Mr. Ruland, who had offended him by a lecture on temperance.

In the will of the late Edward D. Kimball, of Salem, Mass., he gives to the North Parish Society in Plaistow, (with which his father and mother worshipped, and himself when young,) $2500, on condition an organ shall be put up within one year of the receipt of this legacy; and if no regular use shall be made of it for three consecutive months for church service, it shall revert to his estate. There is also a bequest of $10,000 to the Atkinson Academy; but this is subject to certain remote contingencies.

BOSTON CITY GOVERNMENT.—Like ours, has a Mayor of the Democratic party, who has waged and toiled for the place; and also like our case, the Boston Board of Aldermen for next year will consist of seven Republicans, experienced in the duties of their office—all being present members of the Board—and five Democrats. The Common Council will consist of thirty-eight Republicans and twenty-two Democrats.

☞ We give in this issue an advertisement of the Manchester Weekly Mirror and Farmer, one of the best papers in the State, —setting forth the improvements to be made there in the coming year, club rates, &c. The Mirror and Farmer, besides being one of the best general news and family papers in the State, is the *only* Agricultural publication; and will be of course there are other similar papers of greater resources of writers and means in Massachusetts and New York, yet we will believe any of them are of more value to the New Hampshire farmer than his own home Mirror. Mr. Clarke is by far the best horse editor in the State, and has able assistants in all departments of the farm, out doors and in. His paper ought to circulate in every neighborhood from the White Mountains to the sea. It will be seen that soldiers can procure it for a song, and anybody very cheap.

CRETE.—Cretan affairs remain in the same unsatisfactory state. The real revolutionary government of Crete is established in Sycia, and they will not accept any concessions or compromises offered by the Ottoman government. The removal of the famine and the assistance they receive through blockade runners will undoubtedly enable them to continue the revolution so long as they are permitted to entertain hopes of foreign intervention.

Globe, Tuesday, 135 7-8.

—Two young ladies of Danvers, Mass Palmer and Miss Goodale, walked to Boston last week, 18 miles, in five and a half hours. Good.

TEMPTATIONS, CONEY ISLAND.

The same temptation which attracts the holiday merchant or mechanic to the sandy shores whereon the ocean breaks so beautifully, in regular, continuous swell, brings the confidence man, the gentleman with his "little joker," and the ingenious individual, who strikes for fortune and the State prison, through the medium of sleight-of-hand manipulation. It is merely a question of pecuniosity; the distribution of wealth on the one hand, and the gathering it on the other. The same wave that plashes so merrily among the group of innocent bathers, murmurs at the feet of the gentleman, who, with his one legged table stuck in the sand before him, and a broad umbrella over his shoulder and head, blandly offers to bet you $10 or $20 that you cannot turn the face card from the three which he throws upon the little deal-table before him.

This class of swindlers have always been rather numerous at Coney Island, but they have become peculiarly noticeable this summer from the excessive boldness with which they practice their frauds upon the unwary. Let us see them at their work for a few minutes. The boat has just landed, and a long train of passengers, of both sexes and all ages, are streaming across the sandy neck of land, over the plank walk which passes the Pavilion Hotel and proceeds to the shore. Numbers of bathers are already in the waves, and throngs are also strolling along the beach, for the breeze is wonderfully fresh and pleasant, and the soft wash of the billows on the strand is in its-if a musical bath in the land of dreams.

You are first interrupted in your walk by the appearance of a gentleman, who gives every indication of being engaged in some business. He stands with his back to the sea and his face to the sandhills, his head being sheltered from the hot sunshine by a broad umbrella, the handle of which is supported by his right shoulder and arm. In front of him stands a little deal-top table, about two feet square, the single, sharp pointed leg of which is planted firmly into the sand. The "gentleman" has usually something of the appearance of the returned Californian, with slouched black hat and black frock coat, vest and pants of the free-and-easy cut. He has a number of $10 greenbacks twined around one of the fingers of his left hand, and he is slowly, and with apparent carelessness, dealing what is called the "three-card Monte." This is one of the simplest games in the world. Of the three cards one is a face-card, and the two others are not. The game consists in the dealer's throwing them in different positions on the table, backs up, and betting that you cannot turn up the face-card. You condemn the pursuit, but are drawn almost irresistibly to see what is going on. It looks so easy to determine the face-card; for you can almost swear that you saw it slide from the dealer's hand upon the table. But, of course, if you bet, it will be on the wrong card, for the returned California gentleman is not standing there in the hot sun all day to lose money, but to make it. He generally has several pimps around him, and these gentlemen usually play the unsophisticated rustic with considerable powers of mimicry. The suavity of the glib-tongued dealer soon attracts a crowd.

"Come gentlemen, and see if any of you can turn the face-card, for a little matter of $10. Don't consider that I am pressing you. I am only here for your amusement. Your money is just as free as the water that runs in the sea at your feet. Here are the cards; you see their faces plainly, and you see how slowly I cast them down. You think you know which is the face-card. I bet you $10 you don't turn it up, and will make it $20 if you prefer. No, thank you, I don't take $5 bets; I would like to oblige you, if I could; but my own risk is very great, and an honest man must make a living some-how. Now gentlemen, who will undertake to turn the winning card for a little matter of $10?"

Every inducement is put forth to excite a bet. Sometimes the "winning card," while in the dealer's hand, is plainly distinguished from the others by a large grease-spot on the back, or by one corner being turn off. You see how it is marked and you see that it is the right card; but as soon as they are all upon the table, if you bet on it you will certainly lose; for in the meantime another card, similarly marked, has been substituted by the dealer's sleight-of-hand, and your pious attempt to cheat (it is nothing else) is rewarded by your being neatly fleeced.

The bystanders are almost always hesitating, but when they are unusually backward about coming forward, the secret partners of the dealer begin to hurry up business in their peculiar style. For instance, here is quite a crowd around our friend of returned Californian appearance. That old gentleman in the blue flannel blouse and with a heavy tobe-chain has been watching the three cards, open-mouthed, for some time. Every time they are thrown he is perfectly certain that he knows the winning card, but he is opposed to gambling, "on principle," and there he hangs fire—The blandishments of the dealer have been lavished upon him for some time in vain, when suddenly a small-minded, idiotic-looking youth, who has been watching the cards earnestly for some moments, bursts from the side of the old gentleman, saying, "I'm going to do it, by Jingo! I know I've spotted the card, and I'll win. Watch me." This last is spoken to the old gentleman, and with a confidential elbow nudge in his ribs

The young man bets on the wrong card, and turns away with a well-simulated gasp of disappointed agony.

"My dear fellow," says the old gentleman, sympathetically, "what in the name of conscience did you bet on that card for? You had a sure thing on the card with a red-checkered back."

"I thought I had the right one," murmurs the youth in a blubbering way; but suppose you bet on the card with a red-checkered back?"

This is too much for the old gentleman. "By Jove! I will," says he.

He does so, and, losing his money, looks exasperated but does not move away.

"I'll fix him this time," whispers the simple young man to his comrade in misfortune. "Just wait till he turns his head away."

Strange as it may appear, just at this moment the dealer does turn his head away. The simple young man slips up to the table softly, reveals the face-card to everybody, marks it by turning up one corner, replaces it, and then resumes his place beside the old gentleman, with the chuckling whisper, "We've got him now, and no mistake."

"Come gentlemen," resumes the apparently unconscious gambler, abstractedly continuing his deal, "Who'll go the very small matter of $10 on the winning card?"

"I bet $10 on *this* card," exclaims the simple young man, enthusiastically clapping his fist on the paste-board he had just marked.

The respectable old gentleman slowly draws out his huge morocco wallet. "I will go one hundred dollars," says he "on the same card; that is, if you bet as high as that."

"Certainly, I bet as high as you please."

The card is turned up, and of course it proves to be the wrong one. The respectable old gentleman resumes his wallet, and staggers mutely out of the crowd, with a mistrustful glare at the simple, idiotic looking young man, whom he now, for the first time, begins to suspect, very reasonably, as one of the gambler's confederates.

IN THE U. S. SENATE, Monday, Dec. 9, Senator Chandler called up his resolution declaring neutrality on the part of the United States between the contending forces of England and Aysinia, but no question was taken.

The Chair laid before the Senate resolutions of the Legislature of Maine in favor of impartial suffrage, condemning the present governments in the lately rebellious States, and asking they be annulled.

Among the resolutions presented was one directing the Committee on Foreign Relations to inquire into the expediency of a reciprocity treaty between the United States and the Dominion of Canada, and for the cession of British Columbia to the United States on certain prescribed conditions. Ordered to be printed.

The act to suspend further contraction of the currency came from the House and was referred.

The bill of Mr. Morrill of Vermont in regard to the currency was postponed until Wednesday.

In the HOUSE, many resolutions and bills were introduced; among them a bill by Mr. Lynch of Maine to provide against undue expansions and contractions of the currency, which was similar to the one introduced by him in February last.

Mr. Hooper asked unanimous consent to offer a resolution restricting the amount annually collected by taxation to three hundred millions, and proposing a reduction of taxation and the tariff to that amount.

The House refused to suspend the rules, as moved for by Mr. Hooper—the Democrats voting against it. They appear determined to keep taxation at the present high rates, and to increase the expenditures of the Government in every possible way, so as to keep up their party cry of *retrenchment*, and thereby help them to climb into power.

There was a spicy debate on an amendment offered by Gen. Butler on the resolution referring the President's Message, providing that the portion referring to the purchase of Alaska be referred to the Committee on Appropriations. When a vote was taken the proposition of Gen. Butler was carried, but several members changed their votes and the result as announced was 78 yeas to 83 nays. So the resolution goes to the Committee on Foreign Relations, which is understood to be friendly to the purchase.

—A New York paper raises the puerile query whether bakers on a strike can be considered loafers. Information kneaded.

—In the contest for the Republican National Convention, Chicago, it is said, offers to furnish a "Wigwam" and give $15,000 for campaign purposes. Representative Eggleston offers to raise $20,000 in Cincinnati if the Convention is held there.

☞ Emerson Bennett's exciting story of "SOL SLOCUM; or The Maid of the Juniata," has just been commenced in the New York Weekly, and the reputation of Mr. Bennett has already added thousands to its circulation. The New York Weekly is acknowledged one of the best story and sketch papers in the world, and it seems that the public generally are aware of this fact, for the N. Y. Weekly has already achieved a circulation of 150,000 copies. Read the advertisement in another column. 1daw

HAS your Sister secured a Certificate of the Washington Library Company of Philadelphia, in aid of the Riverside Institute, for educating orphans? Each certificate costs a dollar, with a beautiful engraving, worth more than a dollar at retail, and secures besides, a present at the Great Distribution by the Company, and an equal chance that the present may be one worth thousands of dollars. It is wonderful and true. Read advertisement. 12

A breath of submission we breathe not,
The sword we've drawn we sheath not,
'Till bread pure and white we have won.

What sight to a man of refinement is more disgusting, or to the stomach of a Christian more nauseating than yellow bread, reeking with the fumes of caustic alkalies? Use Herrick Allen's Gold Medal Saleratus according to directions and you will be sure of light, white bread and biscuit, a happy husband and healthy household. 22

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

THE MIRROR AND FARMER

FOR 1868,

To be Enlarged to a Quarto of Forty-eight Columns,

Making the

Largest as well as Cheapest Farming and Family Paper in New England.

THE SAME LOW PRICES CONTINUED!

THE PAPER FOR THE PEOPLE!

Containing more reading matter of Family and Farming interest than any of the papers that cost twice as much.

The Enlargement to commence with the first number of 1868.

The large and rapidly increasing circulation of the Weekly Mirror and Farmer, and consequent demand upon its columns by advertisers, enables the Proprietor to enlarge it to a QUARTO, which will furnish TWO THOUSAND FOUR HUNDRED and NINETY SIX COLUMNS of reading a year for the unexampled price of **One Dollar and Fifty Cents**, for a single copy, and to those in the largest Clubs as low as **Ninety Cts.** per copy. This is for a longer or shorter time in putting down the rebellion, have it for ONE DOLLAR!

What it has done in the past it will endeavor to do in the future. It was FROM A TO Z THIS YEAR. It believes in Progress; that its readers desire to know all improvements connected with the

FARM AND FARM BUILDINGS,

Garden, Kitchen, School Room, Loom, Anvil,

Workshop, Mill, Mechanic and Scientific Arts,

BREEDS OF HORSES, CATTLE, SHEEP AND POULTRY.

That they wish to be well posted in all the

NEWS OF THE DAY,

Of our State, New England, the United States, and the World; of its

Accidents. Fortunes, Misfortunes.

SPORTS ON THE TRACK, HUNTING, FISHING AND GAMES;

THE CATTLE MARKETS, STOCK MARKETS.

And Prices Current of Everything, Latest Fashions, New Domestic Recipes, &c.

All these will be found in the columns of the Mirror and Farmer for 1868. Its Editor has decided notions upon POLITICAL MATTERS, which he will express in political times, though that is not the leading feature of the paper. He believes that loyal, honest men should rule the nation, and not those who aided and abetted the Rebellion; that Government Bonds should be converted into those that can be taxable; that every dollar of our indebtedness should be paid just as we agreed to pay it, in Legal Taxation, one that will not 'make the rich richer and the poor poorer,' and that taxes should be assessed chiefly on property, based on enterprise and labor; that governments are best that look to the greatest good of the greatest number, regardless of the interest of the few; that the people are the rulers, and that their voice should be heeded in preference to wealth, aristocracy or monopolies, in selecting men for office, or in legislation and in social organizations.

Terms of Subscription.

Single subscribers (not soldiers) one year, $1.50
Soldiers, marked in the statement of the Postmaster of the town that they have ever been soldiers in the U. S. Army, can have it for $1.00

Astonishing Club Rates.

Ten Copies, $13 50
and one copy to the getter up of the club. The same rate for all between ten and twenty.
Twenty Copies (to P.O.) each, $24.00
The getter-up of the club can have one paper and retain one dollar for his trouble. The same rates and allowances for all between twenty and fifty.
Fifty Copies (to P.O.) each, $60.00
The getter-up of the club can have one paper and retain two dollars for his trouble. The same rates and allowances for all between fifty and seventy-five.
Seventy-five Copies ($1.10 each), $82.50
The getter up of the club can have one paper and retain $4 50 for his trouble, and same rates for all between 75 and 100.
One Hundred Copies (to one address, $100 00
The getter up of this club can retain $10 of the amount for his enterprise.
Subscribers can be added to the club list to help make up the club, but the getter-up of the club will receive no allowance on their subscription, except clubs of fifty and upwards.
Additions to Clubs will be made at any time, a Club Rates, through the Local Agents ONLY, but all subscriptions will end with the club.
The above rates are all STRICTLY IN ADVANCE. When clubs are ordered, the money must accompany the order. All PAPERS DISCONTINUED AT END OF TIME PAID FOR. Second copies only, each member of the club will have his name printed on his paper.
☞ Specimen copies sent gratis on receipt of a two cent stamp to prepay postage.
Subscribers wishing the address of their paper changed, must send us their POST OFFICE as well as PRESENT address, otherwise we CANNOT make the change.

$205 in Prizes for the Seven Largest Clubs in Town.

$100 in money to the getter up of the largest club in any town, as follows: First, $50; $30; Second, $20; $15; Third, $10; $5; to the 3d, 4th, 5th, 6th and 7th.
The Clubs to be completed on or before the 31st of March, 1868, with yearly subscribers.
Don't such canvassers as may have about what he has got to do, I will give him a few towns in which the Mirror and Farmer has the largest circulation, and the names of those towns.
Milford and Fisherville, just alike, 155 each; Weare, 131 distributed through the whole town; Exeter, 125; West, North, South and Old Mills, Derry, 117; Goffstown, 120; Enfield, 107; Francestown, 96. How much larger than any one another paper will this make. New London has 103 and Hillsborough 102.

CHAS. E. FURBISH,
d5 Advertising Agent.

525 MILES
OF THE
UNION PACIFIC RAILROAD,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in gold of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the subsidy of the government and no more. Dodge, Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which about two millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it will always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government sections. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS AND INTEREST, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Lands, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

DR. TOBIAS' VENETIAN LINIMENT As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Contraction of the Muscles, Headache, Bruises, Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are miraculous.

Taken Internally in cases of Sick Headache, Colic, Bowel Complaints, Cholera, Dysentery, Vomiting and dyspepsia, its soothing and penetrating qualities are felt as soon as taken.

☞ If the reader or his friends have any complaint named in this advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.

Ask for Dr. Tobias' Venetian Liniment and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and Oils now flooding the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d3dwim

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Difficult Breathing, and all Diseases of the Pulmonary Organs.

Its taste is expectorant, alterative sudorific, sedative, diaphoretic and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration and causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warranted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, at though an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

all—1m

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK:—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly sp ak or breathe. I was not more than two hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

PIERCE PATCHER.

Beaver Dam, Schuyler Co., N. Y., Sept. 14, 1867.

LAW OF HUMANITY.

IN RELATION TO SOCIAL EVILS.

An Essay for Young Men on Physiological Errors and Abuses, Incident to Youth and Early Manhood, with the humane view of Treatment and Cure. Sent in sealed letter envelopes, free of charge. Address Dr. J. SKILLEN HOUGHTON, Howard Association, Philadelphia, Pa. s.7—s82mlaw

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 8 cents—$2 per year; for balance of this year free to new subscribers.

☞ Among the Theatrical Company which opens at the Temple to night for a short season, is Yankee Locke, whose comic delineations we have in times past enjoyed more keenly than any others we ever witnessed anywhere. Also Miss Bidwell, and Mr. Meidrum; and a good stock company is promised besides. Mr. Bidwell is well known as a thorough gentleman and a careful and judicious manager; and we have no doubt will give some creditable and acceptable representations.

☞ Mr. Head advertises his annual Christmas display of fancy goods, with a larger variety of gifts than ever before.

☞ Try Carter's Clam Chowder—'tis an excellent lunch for these cold evenings.

☞ A Baltimore dispatch says that Jeff. Davis remarked, in conversation with his friends there, that a Southern Rebel would yet be President of the United States, and it would not be long until they had everything their own way, in and out of Congress. He also talks of his trial for treason as a farce. [So it will be, undoubtedly.—His head is in no more danger than Pres. Johnson's; not so much so as Gen Grant's, or that of any other conspicuous loyalist against whom rebel assassins and murderers have a grudge.]

☞ Thomas Leonard, Jr., 21 years of age, was murdered Saturday night in West Boyleston, near Springfield, Mass. The police on Sunday morning arrested his father, an Irishman about 50 years old, on the charge of committing the deed. Both are known to have been drunk and fighting Saturday night. The old man says three men came in and killed Tom. The deed was done with an ax. Young Leonard was a desperate character, and spent the largest portion of the last five years in jail. He was also in the army, from which he deserted seven times.

— The most common cakes in the suburbs just now are cakes of ice. They make a cold bite.

— Charivari has a school scene. "Why don't you study your Roman history?" says a schoolmaster to a lazy pupil. "I am waiting for it to be finished," is the reply.

— A young lady eloped from Lawrenceburg, Ind., with her true love, on the very night for her wedding with another fellow, the true love of her parents.

— A woman was banished from town by the authorities of New Haven, because she allowed a man, not her husband, to kiss her. But that was in 1643; they do things differently there now.

— A lecturer who undertook to cure the under-graduates of Cambridge, in England of smoking, by giving them a lecture on its evils, was surprised to find some four hundred students in attendance, each with a pipe surcharged with tobacco.

— James S Sharswood, of Westport., has brought a suit for breach of promise of marriage against Mrs. Eloisa B. Guyer (nee Coley) of Boston. Damages for dis appointed affection, blighted hopes and shivered heart only $20,000.

— M. Prussak, a Russian physician and naturalist, has apparently proved, by injection of salt into the blood vessels of animals, that the popular notion that scurvy is caused by an undue proportion of salt in the blood, is entirely correct.

MARRIAGES.

SOL SLOCUM;

OR,

THE MAID OF THE JUNIATA!

From the pen of America's gift d romancer,

EMERSON BENNETT,

Commenced in the

NEW YORK WEEKLY,

NO. 6—NOW READY!

SOL SLOCUM;

OR,

THE MAID OF THE JUNIATA,

BY

EMERSON BENNETT.

Is the greatest product of his transcendantly great pen. It is a tale of the great border, and the characters which figure in it are as various as the many scenes through which they have to pass. One after another are introduced the hardy pioneer, the cunning trapper, the wily savage, the eccentric scout after adventure; the tender maiden, severed by the force of circumstances from friends and kindred; the hardie and daring youth whose aspirations are lofty, whose soul is fearless and whose deeds are daring; together with a miscellaneous crowd of adventurous spirits presenting almost every phase of human character, each of whom plays his or her part in the thrilling drama. The story is replete with scenes and incidents which cause the blood of the reader to leap with electric force; and cousin by alternating between joy and sorrow, tears and laughter, indignation and admiration, he suffers and rejoices with the characters, absolutely seeming to act with them, so intensely is he interested—so deeply is he spell-bound. The story never flags from the beginning to the end, and the love portions of it are especially beautiful, and such as to enlist the sympathies of every lady reader. This great story is commenced in No. 6 of the present volume, and those who desire to read it should send in their orders. Once more we say buy the

NEW YORK WEEKLY,

and read

SOL SLOCUM,

BY

EMERSON BENNETT.

Among the Romance Writers of the New York Weekly may be mentioned

Mrs. Mary J. Holmes, Mrs. Leon Lewis,

Mary Kyle Dallas, Mrs Catharine A. Wakefield,

Margaret Blount, Mrs Ann S. Stephens,

Almaiin M. Brown,

Helen Forest Graves,

Ike en Corwin Fisher,

Edmund Pyrke,

Leon Lewis,

Wm. Henry Peck,

Alfred B. Street.

Edward S. Ellis.

Emerson Bennett,

F. Hastings Myers,

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the prefered claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	6,000,000
U. S. SUBSIDY BONDS, 720 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	21,517,000
Resources first 725 miles	$77 83,000

The First MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which price they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

These bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

AMERICAN

WALTHAM

WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use watches are rapidly made, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, a Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the size or shape of the pieces of which it is composed—nothing wanting in their proportion, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of multiplying gauges and micrometer scopes, tests and inspection, the detection of wear in the cutting tools, and for lasts and flows in steel or stone, are made to accompany the work in every stage from beginning to end. And no necessary result will ever come to gether a perfect machine. Every part is formed to fit properly in its place. Every pin may be pushed in its proper hole with the finger, and home. Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear, ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper of unusual merit.

This system of watchmaking is unknown in foreign countries, and is entirely original with the American people, and is conceived in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and cannot be made to be afraid to buy it.

Every Watch Fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

For further information address the Agents,

ROBBINS & APPLETON,

Dental Card.

HIGHLY IMPORTANT.

DR. GOODALL announces to the citizens of Portsmouth and vicinity that he has purchased the right to use the

NEW PACKING RIDGE,

In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction, Firmness and Freedom from Food and Moisture working under the Plate.

The expense of the Patent is considerable, but I shall not present charge only 5 dollars additional when I apply it.

I am admitted here by EITHER dentists, and from my long and successful experience, will promise any one they shall not suffer pain from the extraction of tooth or 32. So not delude your needless fears, and procure for this Great Improvement in Artificial Teeth.

P. S.—I can also insert Teeth (in many cases) with this New Patent, without extracting the Plate over the tooth.

Portsmouth, N. H.

THURSDAY, DECEMBER 12, 1867.

INCIDENTAL BENEFIT OF PROHIBITORY LAW.—We place the following in this category, though it may claim a higher relation as a direct benefit. Many similar results in other connections might be given:

Mr. Charles Currier, of Newburyport, himself the owner of several fishing vessels, states that since the constabulary law went into effect, he has found no difficulty whatever in getting the men on board the vessels at the day of sailing. The law closed the groggeries, and no seaman was harbored in them and kept from his vessel beyond the appointed hour. Before the prohibitory law was enforced it was nearly impossible to sail a vessel on the day set, because the men would either be drunk, or otherwise detained in the rum shops and drinking houses. He says he believes every merchant in that city would agree with this statement. All the owners found the operation of the law very favorable to the voyages of their vessels.

So says the Traveller; and yet some of these same merchants and owners voted for the men and the party who are about to repeal that law,—and to substitute in its place —they know not what—but certainly nothing that will close the dens where seamen are drugged and fleeced.

☞ The body of Mr. Robert Butterworth of Amesbury, whose disappearance (and lost hat) we noticed last week, was found in Clark's pond, and the Villager says of it:

The evil influences of the drinking customs of society, or, that apathy of public sentiment which allows the sale of intoxicating drinks, has been brought home to this community with peculiar force within the last week. A young man in the full vigor of health and strength, tenderly loved by wife and sisters, and respected by a large circle of friends, is led to indulge too freely in the drink which intoxicates, and in seeking his home finds a watery grave! Is there not in this sad incident, and all the attending circumstances connected therewith, a lesson of warning?

We recollect on one occasion of hearing John B. Gough depict in his forcible manner a scene similar to this, and after bringing an audience of a thousand people to tears and sobs of grief,—suddenly utter the startling cry—"And who murdered that young man?"—and "what mean those words?" "Woe unto him who putteth the bottle to his neighbors lips?"

GOV. SWANN of Maryland is a dishonorable man, and it is said he has dishonorably dismissed the officers and men of three companies of the Eighth militia regiment, because, when on parade in October, they groaned for him and cheered for Congress. Two other companies are publicly reprimanded for a milder form of the same political independence.

As he, like A. J., has betrayed the men who elected him, violated the principles he professed, and gone over to his late opponents, he should be second on the ticket with A J.

CONGRESS proposes to adjourn next week for a fortnight, which will enable many of the members to consult with their constituents on the great financial questions, and to return after Christmas holidays ready for action.

In the House, Tuesday, Mr. Thad Stevens' confiscation bill was used for the display of Democratic eloquence by Messrs. Chandler and Eldredge, whose speeches may be read by their constituents, but were not listened to while being delivered.

The House did not order an investigation into the charges made against Colonel Ordway, Sergeant-at-Arms, by a New Hampshire paper, and by a man who was for a time his temporary clerk, but who has "swung around the circle" into the Interior Department. Col. Ordway, seeing these charges, presented them to the attention of the House in a letter asking an investigation, but the House, on motion of Mr. Allison, who complimented Mr. Ordway, simply referred the matter to the Committee on Accounts.

The bill striking the word "white" from the laws and charter of the District of Columbia, having passed Congress, will be vetoed by the President, and his veto message may be sent to Congress early next week.

It seems probable that the House Committee on Freedmen's Affairs, of which Mr. Loan is chairman, will recommend the continuance of the Freedmen's Bureau until all the Southern States are represented in Congress. Letters from the South to the Committee state that it would not be safe to abolish it at present.

In the Senate, Mr. Doolittle brought forward the new Democratic base of operations on Reconstruction. It is hoped by the allies of the rebels that the constitutions adopted by the conventions held this winter in the Southern States will be defeated by the popular vote in those States, and then the colored people are to be disfranchised, excepting those who are highly qualified—which it is hoped by the confederated rebels and copperheads, will return them to power.

☞ The Picayune contradicts a recent item in Northern papers that "only one thousand grain a day is to be run to New Orleans," and says the roads are now doing a business fully equal to the capacity of their rolling stock.

NEW HAMPSHIRE ITEMS.—The proposed White Mountain and Winnepisaukee Turnpike will bring Manchester within about ten hours' ride of Mount Washington, and give the most splendid lake and mountain scenery in New England, with but half a day's staging from Centre Harbor to the Notch, and give a view of Squam Lake, which no route now hits.

The Winter Term of the Wolfeborough Christian Institute commenced on the 4th inst. Number of pupils much larger than ever at a winter term before, many of them from abroad.

The Manchester papers say a company of Bangor lumbermen has been formed which has just bought 75,000 acres of State land in New Hampshire, on which there is most valuable timber. They propose to operate this season.

At Manchester, a boy eight years of age had the end of his forefinger pinched off by the swinging of a door.

In Manchester, on Tuesday the Republicans elected their local officers in all the wards, excepting the fifth or "Irish ward;" but James A. Weston, Democrat, is chosen Mayor by three hundred and three majority over Hon. Joseph B. Clark, the Republican nominee and the present incumbent of the office. In the foreign ward Mr. Clark had "eleven" votes to Mr. Weston's five hundred and forty. The whole Mayor vote thrown was twenty-nine hundred and seventy-one, against a vote of thirty-two hundred and and nineteen at the last State election, when Gov. Harriman carried the city by one hundred and five majority. Mr. Weston is a native of Manchester, by profession a civil engineer, forty years of age, and during the rebellion was a "War Democrat."

Senator Patterson, of this State, is preparing a bill to revise, retrench, and improve the diplomatic and consular system of the United States.

YORK COUNTY.—Whilst Mr. Charles Grant, of York, was spending Thanksgiving evening at the Cape Neddick House, some person removed the nuts from the hind wheels of his wagon. After driving a few rods on his return home, the wheels came off, endangering the lives of Mr. Grant and a young lady riding with him. Such malicious conduct should not go unpunished. A reward of $50 is offered for proof sufficient to convict the guilty party.

We learn that a Revival of unusual interest is in progress at the Baptist Church near Beech Ridge in York—a series of meetings are being held and are largely attended. Rev. Joel Wilson, the pastor, is unceasing in his efforts for the spiritual welfare of his people, and we doubt not is doing great good in the cause in which he is engaged.—*Saco Democrat.*

☞ The Amesbury Villager says, a Brahma Pootra cock killed by Mrs. F. Noyes of Haverhill, Mass., on Thanksgiving week, had in his gizzard thirteen small nickel cents, two 2-cent pieces and two small pieces of earthern ware. The whole number of these pieces of coin, when in a perfect state, weigh 46 1-2 penny weights, but when taken from the fowl had depreciated considerably in weight, and the figures and letters had entirely disappeared, having the appearance of being rubbed with sand. The exact depreciation in weight of eight of the nickel cents was eight penny-weights. It is asserted that this "crower" would gobble down cents as readily as corn —thinking, perhaps, that one was as expensive a luxury as the other.

WEST INDIES.—Advices from Porto Rico state that the earthquakes had not ceased. There were 144 shocks in eight days. Several buildings had been destroyed since the last accounts.

At St. Thomas the people had given up all efforts to rebuild their habitations or resume business.

Intelligence from St. Domingo via Jamaica 30th ult., reports the brother of Montez at the head of 8000 Haytians on the frontier, threatening to invade the republic. A sanguinary conflict between his troops and those of Salvavo was expected. President Salvavo is determined to set fire to the powder magazine and blow up the capitol, rather that yield up the government to the rebels.

☞ On Tuesday night, in Washington, the Liquor Dealers' Convention met at Willard's Hotel, and organized by the election of E. N. Curtiss of New York, who has a quarter of a million of dollars invested in whiskey, as permanent President. The delegates expressed a determination to sustain the collection of a reasonable tax, and say they hope to put down illicit manufacturing; but they demand that the honest distillers shall be recognized and *sustained* in return. A few of them advocate a reduction of the tax on whiskey to ninety cents per gallon.

— The Committee of Ways and Means, in Congress, are preparing a bill greatly reducing the internal revenue taxes on the necessaries of life.

— Rev. Mr. Jameson of Salisbury Point, Mass., makes acknowledgment of a donation of $218 from the church and society over which he is settled, and which were never more prosperous than now.

For the Chronicle.

WITHOUT AND WITHIN.

When dead leaves flutter down,
And boughs grow sear and brown;
When birds depart,
And flowers the woods forsake;
A spring-time then I make
Within my heart.

My green leaves on the trees,
Are happy memories
Of Youth's sweet prime;
Earth's friendships pure and fond;
And hopes that reach beyond
The bounds of time.

My melodies of birds,
The Poet's golden words,—
All songs above,—
My violets, heavenly blue,
The tender eyes and true
Of her I love.

ALBERT LAIGHTON.

NEW BOOKS, MAGAZINES, &c.

THE HELPING HAND SERIES.—Our thanks to the fair authoress,—now Mrs. Wm. G. Nowell, of Ware, Mass.,—*nee* Miss Hattie Hill of this city, who was well known here for the interest she manifested in the education and improvement of children and youth—for a copy of her new book, just published by Lee & Shepard, Boston. It is entitled "Climbing the Rope," and is the first of the Helping Hand Series of six volumes, by "May Mannering." We are sure it will interest all the children, and those of a larger growth who take it up to look at the pictures, will not be in haste to put it down unread.

"THE IDEAL HEADS of American Women," advertised by the publisher, Mr. L. D. Robinson of Springfield—are from the pencil of Mr. Chas. A. Barry, and engraved in France, it is said in the very best style. We have not seen the pictures, but the best judges pronounce them exquisite. The five portraits are called The Angel of the Hospital—at the Front—The Color Bearer—Before the Battle and Army News. Life size, $2.50 each. Sold only by subscription.

PUTNAM'S MONTHLY MAGAZINE has been revived in New York, after several years suspension; and the number for January 1868 is received at Mr. Foster's Bookstore in this city. Putnam was the first attempt of such an original literary Magazine in this country, and was always a very popular and valuable publication; and we have no doubt will prove equally so in its revival. Copies sold and subscriptions received by Mr. J. H. Foster.

"JEWELS FROM THE QUARRY OF THE MIND."—Fifth edition, richly bound in antique morocco, gilt and embossed. Price 84; by James H. Head.

"HOME PASTIMES."—Fifth edition in morocco antique, with gilt edges; by James H. Head. The popularity of these two home books is shown by the fact that they have passed through five editions since their first issue, and are now presented in elegant dress, making suitable presents for the holidays.

PEPPERELL TOMB.—A fine engraving of the tomb of the Pepperell Family at Kittery Point, graces the pages of Frank Leslie's Illustrated Newspaper this week.

BRITISH PERIODICALS.—The L. Scott Publishing Co., New York, reprint the London Quarterly Review (Conservative), Edinburg Review (Whig), Westminster Review (Radical), North British Review (Free Church), and Blackwood's Magazine (Tory).

These periodicals contain the fruits of the scholarship, wit and genius of the literary men of Great Britain, and are alike of great value to the scholar, the professional man, or the intelligent reader. Their pages abound with elaborate criticisms, brilliant essays, profound speculations, and with whatever of interest may be found in science, literature, morality and religion—While they are the acknowledged representatives of certain principles in politics, they are far from being grossly partisan.

The publishers furnish Blackwood or either of the Reviews for $4 a year; two Reviews, or Blackwood and one Review $7; the four Reviews $12; all five publications $15.

☞ Die Modenwelt, for January, is received from S. F. Taylor, publisher, New York. It is a well illustrated record of the fashion and of nearly every kind of fancy work for ladies' use. $3 a year.

GOLD, Wednesday, 135 3-8.

"Why Fred, I hardly recall you, old fellow, Your face was once so billious and yellow, What wonderful doctor has got you in hand? Such care transformation I don't understand." "Three magical words, and the secret is said, Gold Medal Saleratus I use in my bread!"

It is true that when the hygienic properties of Herrick Allen's Gold Medal Saleratus become generally known, no other rising will find favor among discriminating housewives for their biscuit, pies, cakes, &c. 28

THESE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair. First, the prompt, quick action, great growth, life and vigor that it is sure to give the hair, never failing by a few applications, to restore Gray or White hair to its natural color, imparting to the Hair a delightful aroma, fresh, rich, lively and unchangeable in any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury before their dress. It retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing immediately all sense of dandruff and pimples. Price One Dollar. For sale by all Druggists. n2t—1m

THE EIGHTH WONDER OF THE WORLD. Not the Atlantic Cable, nor the Great Eastern, but Pyle's Saleratus, that always makes good, light and wholesome bread, biscuit and cake, preserves health, and is the best and most economical Saleratus in the world. Everybody wonders at it. Sold by grocers everywhere. His name is on each package. 3

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

☞ A breeze-kissed honeysuckle diffuses a pleasant fragrance, but its aroma has not the tropical richness of Phalon's "Night-Blooming Cereus." That marvelous scent, voluptuous, yet not too powerful, seems closely akin to the fragrant charm with which Nourmahal enchanted her liege lord in "The Light of the Harem."—*Eastport Sentinel.* 9

Sole Agent for Portsmouth and Vicinity.

Special Notices.

TRY A BOTTLE AND BE CONVINCED!—It will only cost you your time in using it, if it does you no good.

Take TOBIAS' VENETIAN LINIMENT. As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Contraction of the Muscles, Headache, Bruises, Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are miraculous.

Taken Internally in cases of Sick Headache, Colic, Bowel Complaints, Cholera, Dysentery, Vomiting and dyspepsia, its soothing and penetrating qualities are felt as soon as taken.

If the reader or his friends have any complaint named in this advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.

Ask for Dr. Tobias' Venetian Liniment and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and Oils now flooding the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d8eowlm

Dental Notice.

At No. 3 MARKET SQUARE, FOLSOM & WEED are using, and have been using for nearly a year, the Patent PACK RIDGE on rubber dental plates, invented by Dr. N. T. Folsom of Boston.

Also, put in the Alviola Plate with same Ridge.
m2eodzw

Dental Card.

HIGHLY IMPORTANT.

Dr. GOODALL announces to the citizens of Portsmouth and vicinity that he has purchased the right to use the

NEW PACKING RIDGE.

In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction, Firmness and Precision from Food and Moisture working under the plate.

The expense of the Patent is considerable, but I shall at present charge only 5 dollars additional when over I fix up.

I am admitted term: ETHER continually, and from my long and successful experience, will promise any one they shall not suffer pain in the extraction of 1 tooth or 32. So put aside your needless fears, and prepare for this Great Improvement in Artificial Teeth.

P. S.—I can also insert Teeth (in many cases) with this New Patent, without extending the Plate over the Roof of the Mouth.

E. S. GOODALL, 60 Congress Street,
n23 Portsmouth.

Take Notice!

The subscribers respectfully request those having credit on their books to call and settle for the same, as times are not brisk just at present, and we wish to square our accounts for the new year. Those whose accounts have stood two or three years or more, need not be ashamed to come,—we shall be happy to settle with them.

FURNER'S TIC DOULOUREUX OR UNIVERSAL NEURALGIA PILLS is a safe, certain and speedy Cure for Neuralgia and all Nervous Diseases. The severest cases are completely and permanently cured in a very short time. Neuralgia in the face or head is utterly banished in a few hours No form of Nervous Disease with which it stands its magic influence. It has the unqualified approval of many eminent physicians. It contains nothing injurious to the most delicate system. Sold everywhere. Sent by mail for $1 and two postage stamps. TURNER & CO., 130 Tremont st., Boston, Mass., Proprietors
Boston, July 1, 1867. eodawly

ALLEN'S LUNG BALSAM!
Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like 'hot cakes,' and gives Universal satisfaction.

Stanley & Skipper, Chippawa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

P. L. Allen, a well known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted.—He says, 'I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens up to that far-off region of gold. Cures, and that accounts for its great success None use it who do not, in return, recommend it to their friends. Hence its great sale.
Sold by Druggists. Price $1 per bottle.

SUDDEN DEATH
Is the fate of every fibre upon which the CAUSTIC POISON
of an ordinary hair dye falls. There is no RESURRECTION
for the filaments thus blighted. But, as it were, in the TWINKLING OF AN EYE,
hair of any unnatural color is changed to a RICH AND GLORIOUS HUE,
and at the same time vitalized and improved by use of CRISPADORO'S HAIR DYE.
Nature's safe ally, and beauty's regenerator.—Manufactured by J. CRISTADORO, 63 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. n30dswim

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.
DR ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. I was not more than two hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,
MRS. PATCHER.

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 8 cents—$2 per year; for balance of this year free to new subscribers.

☞ Philharmonic rehearsal this (Thursday) evening, at half past 7.

☞ Our types made us say, a few days ago, that the "music" (we wrote muse) of New Hampshire's favorite bard, was too long silent. This may not have been so very different from the meaning we intended—for the distinction between music and poetry is not wide, though all good rhyme even is not alike easy to set to music. We are glad to be able to present evidence this morning, that the muse of the poet of Strawberry Bank has encouraged him to take his harp from the willow. If there is not both music and poetry in his philosophy, then we are mistaken.

☞ Hosts of the friends of Mr. Nathan P. Thacher, in Boston and all over the country, will regret to learn of his untimely death in this city, as we record to-day. He was a druggist, and one of the neatest and most capable and attentive of shopkeepers; and by too close attention to business, broke down his health, and brought on consumption, which has proved fatal after but a few months' continuance.

☞ The Star says, "The four-wheeled chaise last owned and used by Daniel Webster may be seen in Portland streets almost any day, being now the property of a well-known citizen of Westbrook, Mr. John A. Holmes." The coach presented the Great Expounder by his friends, when he was in Washington, is now owned by Col. Clement March of Greenland; is still in good order, and is sometimes driven to this city. It was a very grand affair originally, and is still staunch enough to carry almost any X-pounder.

☞ Every available seat in the Temple was occupied on Wednesday evening, to witness the rendition of "Nobody's Daughter," by Bidwell & Locke's dramatic company. Miss Dollie Bidwell enacted her triple characters with that fidelity to the text and appreciation of its spirit which have deservedly won for her heretofore a popularity with our amusement goers. Mr. Meldrum was equally felicitous in his rendering of his dual characters of Joyce Harker and Larkespur, while Mr. Wilkinson, as Dennis Wyman, was redolent of "the auld sod" throughout the play. Messrs. Bidwell and Churchill carried out their parts most creditably,—but we have not time for extended comments on the performance, which was very satisfactory.

Yankee Locke appeared in a new role—(hardly comedy to those who have endured the hideous whistlings and kindred noises so common at most of our public amusements.) rebuking those who in addition to forgetting their respect for themselves were unmindful of that due to others. The lesson had a good effect, and we trust that there may be no occasion for its repetition, tho' some people seem imbued with the idea that rowdyism is an accessory to manliness, than which nothing is farther from the truth.

This evening Dollie Bidwell appears in the "French Spy," and Yankee Locke in "Sam Patch in France."

☞ From the New York correspondence of the Detroit Post, we copy the following gossip:

There is a large class of young men in New York who are destined to make their marks on the literary world of the future. We notice only two at this time—Mr. George Wakeman and Mr. James K. Medbery. Both are young men, not yet 28 years of age, and both are hard workers with the pen. Mr. Wakeman is connected with the World, and is known by his writings in the Galaxy.

Mr. Medbery is connected with the Evening Mail. He is known as a writer for the North American Review, the Atlantic, Hours at home, Galaxy, etc. The last number of the Atlantic contains an article from his pen on the Pacific Railroads. He is a classical, polished writer, and one of the most promising in New York. Unfortunately he is in poor health.

☞ Portland didn't write letters enough to make it an object to carry an early morning mail to Boston, and the mail on the first train has been discontinued.

☞ Dupree & Benedict's popular troupe of Minstrels will visit this city next Saturday.

☞ In the Island of St. Thomas a popular vote has been taken to ascertain the sentiments of the people on the transfer of the island to the United States. A dispatch by the Cuba Cable informs us that the vote has resulted in favour of annexation. In Cuba, as our correspondent, who is a prominent Cuban, informs us, the purchase of the Danish island by the United States is creating considerable excitement. The whole of the native population begins to be tired of Spanish rule, and the idea of an incorporation with the United States is very popular.—*Tribune*

— The volunteer officers in the Freedman's Bureau in Virginia who are ordered to be mustered out of service on the 1st of January, will, it is understood from district headquarters, be retained as civilians in the service of the Government in that bureau until that institution is dispensed with.

DEATHS.

In this city, Dec. 9, Mr. MATTHEW B. LOWD, aged 61 years.

In this city, Dec. 11, Mr. NATHAN PARKER TRACHER, aged 33; one of our active, popular and successful business men, whose loss will be keenly felt by his associates in commercial and social life.

In Newington, Nov. 27, Capt. THOMAS PICKERING, aged 76 years, 6 mos. Beloved and respected by all who knew him.

AMERICAN
WALTHAM
WATCHES.
This country has reason to be proud of this splendid specimen of American Skill, Energy and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment. for it turns out watch movements at just about one half the cost of important movements—besides the uniform reliability of the machine made watches make give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one by hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of foreign articles miscalled time-keepers, by furnishing so excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a considerable time, and comparing them with former first class works of different manufacture possessed by us, they have established in our opinion their superiority over any ever introduced for correctness as time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only comparatively of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that there is a pleasure in the operation is poetic, gradually give the American Watches a public preference that will not be decried.—*Harper's Weekly.*

Every Watch fully Warranted.
For Sale by all First-class Dealers in the United States and British Provinces.

Every kind of Boot or Shoe Made to Measure, and REPAIRING done neatly, promptly, and faithfully. HILL & CARR.

525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the road will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but sixty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. S. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over Five million have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed, that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.
SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by
CONTINENTAL NAT. BANK No 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.
and by the Company's authorized Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. n8—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources of the Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.
JOHN J. CISCO, Treasurer, New York.

Secure Profitable Investment.
THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the
Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on the continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 02	$105,08861	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following unique Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	9,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	21,517,000
Resources first 721 miles	$77 83 ,00

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, roundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO
Central Pacific First Mortgage Bonds,
now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

SEXES OF ANIMALS AT WILL.—The following from the Southern Cultivator seems "passing strange," but the authorities cited are so respectable, and the truth of the theory of such importance to breeders, that we cannot refrain from "telling the tale as it was told us."

For many years eminent naturalists have been satisfied of the near discovery of a practical way to produce the sexes at will. But M. Thury, a Erenchman, seems to be the first to put it in practice. He says he bred 20 heifers and 8 bull calves as he desired, without a failure.

On the 18th of August, 1863, M. Thury submitted a memorial to the Academy of Science of Paris, and the French Emperor ordered the renewing of the experiments on several large model farms. These curious trials have been made also with equal success in the case of other animals, as horses, sheep goats, etc. It is also known, that with hen's eggs, the first laid give female, and the last laid give male products. The law is general until the end of the laying season, when the number of female production exceeds the male, under circumstances not yet sufficiently ascertained to be reported.

It is on account of this new pratical law that the people can explain why the stock raiser must give young bulls to his cows. The bull, when young, is more prompt, and meets the female at the beginning of the heat, instead of a bull old or exhausted, or lazy by long service, which meets the cow only at the end of the heat. The first gives heifers, the second produces generally males.

The law for stock raisers and farmers is as follows: If you wish to produce females, give the male at the first signs of heat; if you wish males, give him at the end of the heat I myself tested this law, and it will apply to men. I have already been able in many cases to guess, with certainty, the sex of a future infant. More than thirty times among my friends, I have predicted the sex of a child before the birth, and the event proved nearly every time that I was right. T. DE R——

Thibodeaux, La., March, 1867.

Improve Your Eyesight!

REVOLUTION IN TRADE!
LADIES will be astonished at the value of all kinds of Goods sent by the well known and justly celebrated firm of GRAHAM & CO.,
ONE PRICE ONLY.
Such as Silk, Merino and Alpaca Dresses, Shawls Balmorals, Linen Goods, Embroidered Table Covers, Watches, Jewelry, Silver Plated Ware, Sewing Machines, &c. This is no humbug, but a reality. Send your clubs of ten and upwards, for checks describing the Goods, with ten cents for each check and the getter up of the club will receive a valuable present, worth from $3 to $300, according to number of names sent.
Agents wanted in every town. Circulars sent free. Address GRAHAM & CO., 64 & 66 Federal Street, Boston.

TO THE WORKING CLASS.
Farmers, Mechanics, Ladies or Boys (or Everybody). I am now prepared to furnish you with constant employment at your homes, the whole of your time, or in your spare moments. Business new, light and profitable. Fifty cents or $5 an evening is easily earned by persons of either sex who are willing to work. Great inducements are offered to those who will provide their own time to the business, and the boys can earn nearly as much as men. I wish all persons who have spare time to send me their address and test the business for themselves. To all who are not well satisfied with the business, I will send $1 to pay for the trouble of writing me. Full particulars, directions, &c., sent free. Samples sent for ten cents. Address.
E. C. ALLEN, Augusta, Maine.

WANTED—AN AGENT.—One chance in each town, not by the attention of an active business man, to take the eye by or for the sale of Brewster's Kaleidoscope Mouldings and Window Strips, applied to the sides, bottom, top and centre of doors and windows. The sale is twenty anything ever offered before to an agent, and from $10 to $25 per day can be made. Send for agents' circular. The first who apply secure a bargain. Terms for Mouldings, cash.
J. B. BRADSTREET & CO., Boston, Mass.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1866, 25 Rue Faubv St. Honore.
"Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. Belmont & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous of procuring it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Spasms, Colic, Cramps, Sprains, &c.*, it is unsurpassed. It is also most efficatious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Sick Headache, Colic, Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No Family should be without it. Every DRAGGIST in and out of town and sold by retail by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for Major LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 156 Greenwich street, N. Y.; F. C. Wells & Co., 162 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the country. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,
Manufactured under Patents of the Colwells, which create impediments to Marriage, with sure means of relief. Sent in sealed letter envelope free of charge. Address Dr. J. SKILLIN HOUGHTON, Howard Association, Philadelphia, Pa.

Adopted by the Cities of Boston, Charlestown and Chelsea.

A NEW WATER PIPE, free from all the objections to common Lead Pipe. One fourth of its thickness is PURE TIN, encased in four fifths of Lead, forming a perfect union. Water conveyed through it only comes in contact with the tin.

Is as Strong as Lead Pipe of twice the weight per foot.

Costs less per foot than Lead Pipe of the same strength.

Also, superior qualities of WHITE LEAD and ZINC, dry and ground in oil. RED LEAD, LITHARGE. LEAD PIPE, TIN PIPE, SHEET LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by **Boston Lead Co.**

The Chronicle.

From "The Mormon Prophet and his Harem," BY MRS. C. V. WAITE.

BRIGHAM YOUNG'S HAREM: No. 2.

BRIGHAM AT HOME.—Much interest naturally attaches to the inner life of such a man as Brigham Young. His time is much occupied. He rises early, calls the family together; they sing a hymn; he prays fervently, and they separate for the duties of the day. In past times, he ate at the Harem. His fare is very simple, usually consisting of a bowl of milk, covered with cream, and dry bread.

His next duty used to be to see the women folks to whom he was friendly and kind, but no more. He is not Brigham the husband, but Brigham the Prophet and Seer. The women fear and reverence him as their God, watch his countenance as he gives them counsel, and look upon every word he utters as the 'key' to some great mystery.—He pays much less attention to them now than formerly, but is kind and considerate toward them.

This duty done, he next proceeds to his office, to receive his visitors and to transact any business that may be there awaiting his attention. His counsel is sought upon all subjects, even in the minutest domestic affairs of the people. So numerous are these applications for advice and assistance, that many are turned away with a very brief answer, while some are denied access entirely.

Theoretically, no one but he can 'seal' or give plural wives in marriage, and such at first was the practice. But in later years, this power has been delegated to Kimball and others, and to the Bishops of distant wards. The divorces of such can only come from him, and from this source alone he derives a handsome revenue. He once said from the pulpit to the people, that "the divorce money which he received through their d—d foolery, furnished him plenty of spending money."

No speculations are entered upon, no enterprises begun, without consulting 'Brother Brigham.' This he encourages and commands. "If you do not know what to do, in order to do right, come to me at any time, and I will give you the word of the Lord on the subject."

It is a common expression among the people at Salt Lake, "When I obey counsel, I am prospered in everything; when I neglect it, I prosper in nothing."

MRS. MARY ANN ANGELL YOUNG.—This lady is the first living and legal wife of the Prophet. She is a native of New York, and is a fine looking, intelligent woman.—She is large, portly and dignified. Her hair is well sprinkled with the frosts of age; her clear, hazel eyes and melancholy countenance indicate a soul where sorrow reigns supreme. She has been very much attached to her husband, and his infidelity has made deep inroads upon her mind. Her deep-seated melancholy often produces flights of insanity, which increase with her declining years.

Bereft of her husband's society, she naturally clings to her children, of whom she has five: Joseph, Brigham A., John, Alice, and Luna. They all reside with her. She formerly occupied the "Bee-Hive House," but as the number of her husband's wives increased, it became necessary that additional accommodations should be furnished the 'plural' portion of the family. The first wife was obliged to vacate her residence for the benefit of new comers. She was removed to a great barn-like house on the hill.—This building looks more like a penitentiary than anything else. It was the first house built on the premises, and, as has been before stated, is deficient in the number and size of its windows.

Mrs. Young seldom receives guests, and her husband scarcely ever pays her a visit. When I looked upon this poor, suffering woman, as she sat at church, surrounded by her husband's mistresses, I seemed for the first time to fully realize the true character of that "institution," which has crushed the hearts of many noble women.

She is very kind to her children and dependents, and is much beloved by them.—She has not succeeded so well in gaining the affection of the 'wives.' With them she is very unpopular, and by some of them she is often mocked and upbraided. It is said, "one bates whom he has injured." This may account for much of this feeling among the 'plurals.'

WM. P. WALKER,
DRAPER AND TAILOR,

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 ENDICOTT ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered.
Office hour from 8 A. M. to 9 P. M.
Boston, Aug. 4, 1867.—lycaa

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it, whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.

John H Moran, Joseph H Gardiner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jenness, Capt John Fisher, Mrs Wm Haslet, Israel Marden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Herbert, Mrs Chas Hodgdon, J H Downing, Jacob G Crockett, John Mills, Thomas Moore, Mrs Hannah Stevens, Ebenezer Haines, Alfred D Moses, James Douglas, Ephraim H Downs, George Booth, Mrs Augustus Shuckley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, John Kimberly, W H Thompson U S N, Alexander L Robinson, Elizabeth Hewitt, Wm B Norton, 4 G Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Bilbrook, Chas A Green, Simon H Mills, Mrs Mary McAwley, Phineas Hoyt, Nathan Whalley, A G Holmes, Oliver Sisey, Edwin Sanborn, Jas F Parsons, John Senter, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, George E Childs, Chas Locke, Frank Watkins, Albert Leach, Wm Hunter, I F Lord, James Greenwood, Leonard Evans, Oliver Frys

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 13, 1867.

TERRIBLE DISASTER.—On Wednesday one of the most fearful accidents known to the annals of Vermont happened at what is known as the Harlow Bridge, near Northfield, on the line of the Vermont Central Railroad. This bridge was burned on Sunday morning, and during the week a hundred men have been engaged in rearing a trestle work for temporary use. Most of the employees, having dined at Northfield, were returning to their work, about one and a half miles from that town. They were in a passenger car, which was being backed up to the work. By some forgetfulness the engineer proceeded with them at a rapid rate, and did not check his speed till too late, and the whole car, with its freight of 75 to 100 men, was backed off the abutment into the river below, a distance of sixty feet—the tender to the engine following. The number of casualties is appalling. Fifteen men were killed instantly, and three or four have since died. More than as many others were more or less injured—many seriously and some fatally it is feared. Among the injured is E. C. Chase of Manchester, N. H.

☞ On Wednesday, in the U. S. Senate, after the transaction of the business of the morning hour, Senator Morrill of Vermont spoke at length in support of the bill providing for the resumption of specie payment after the 4th of July, 1869.

In the House, Gen. Washburn of Wisconsin made a speech denying the Constitutional power of the President and Senate to make treaties compelling appropriations of money, and criticizing the purchase of Alaska and the Danish Islands. He was followed by Mr. Broomall of Pennsylvania, who gave his financial views at length, but had few listeners.

Several Senators, including Mr. Sumner, are opposed to the Christmas recess voted by the House, preferring to adjourn over every three days during that time.•

Thirty male and female clerks in the Departments have been, or will be, discharged during the present month.

The Senate Finance Committee agreed to report the House bill, without amendment, for the repeal of the cotton tax.

STATISTICS OF INTOXICATION.—Dr. Caffe, a celebrated French medical writer, gives an interesting and curious article on this subject, showing how the races of men have "sought out many inventions" whereby they are made to partake of the cup of degredation by some form of intoxication. For instance: Siberia has its tungus; Turkey, India and China have opium; Persia, India, Turkey and Africa, from Morocco down to the Cape of Good Hope, and even the Indians of Brazil, have their hemp and bachish; the islands of the Pacific have their daily hava; Peru and Bolivia their eternal cocoa; New Granada and the chains of the Himalaya their red thorny apple; Asia, America, and the whole world perhaps, patronize tobacco; the English and Germans have hops; and the French have lettuce.

Of all these drugs, tobacco is that which claims sovereignty over the largest portion of the human race, for its votaries are stated at 900,000,000; opium fortunately does not boast of but 400,000,000; but hachish, a drug quite as inroxicating as opium, is commonly indulged in by 300,000,000 of people. Betel, which is hardly more than a gentle stimulant, extends its sway over about 100,000,000.—Cocoa, the virtues of which have scarcely been sufficiently studied, except by Professor Mantegazza of Milan, can barely muster 10,000,000 of people; and all the other drugs taken together are used by about 25,000,000 of the human race.

IMPORTANT DECISION TO FARMERS IN A RAILROAD CASE.—Some time ago a cow belonging to a farmer who lived upon the the line of Pittsburg, Fort Wayne and Chicago Railroad, in one of the northern counties of Indiana, says the New Albany Ledger, ran upon the track, in front of an advancing train, throwing the train off the track, badly wrecking it, and injuring several persons. The railroad company sued the owner of the cow for the full amount of damage caused the train by the accident, and recovered, in the lower court, a verdict for $4000. An appeal was taken by the farmer to the Supreme Court of Indiana, and on Tuesday last the Court affirmed the verdict of the court below, holding the farmer for the full amount of the $4000 damages assessed. This is an important decision, as it holds that persons living on the line of railroads in that State cannot allow their stock to run at large, so as to endanger the safety of passing trains, without being legally obligated for all damages that may ensue from such stock being run over, and throwing the trains off the track.

—Bad habits make strong men weak.—Good habits make weak men strong.

—Colorado is again to apply at once to Congress for admission into the Union as a State. All parties there are now said to be in favor of the movement.

—In the U. S. Circuit Court, Brooklyn, Judge Benedict sentenced Edward Duffy, who had been convicted of illicit distilling, to the Albany Penitentiary for thirteen months.

NEW HAMPSHIRE ITEMS.—The Directors of the Strafford County Agricultural Society met at Dover on Monday, and chose the following officers for the ensuing year: President, H. R. Roberts; Secretary, J. H. Ela; Treasurer, O. H. Lord; Superintendent, Jos. F. Lawrence. The Treasurer's report showed that although the Society had expended almost $3500 in premiums and expenses, there still remains several hundred dollars in the treasury. Mr. Lord and Mr. Lawrence both refusing to accept anything for their services beyond their actual expenses, the President was instructed to present them, at the expense of the Society, with some fitting testimonial for their efforts in making the late Fair a success. They chose a committee on the location of a Fair the coming year, and another on premiums.

As Mr. Daniel Wheeler of Amherst, was descending an embankment, he lost his foothold and fell a distance of six or eight feet, receiving injuries which will probably prove fatal.

George Kent, of Amherst, a deaf mute, spends his leisure hours in angling along the stream and in the ponds in his vicinity.—He has the past summer taken 1168 trout and 125 pickerel, all within three miles of Amherst, where most people think no fish can be caught.

The "Farmer's Cabinet" (newspaper) at Amherst, is to be enlarged January 1st, to its old size; but the price kept at $1 per year, which is altogether too cheap. For nearly sixty-seven years the Cabinet has received the deserved liberal support of the farmers of Hillsborough county, while for fifty-eight years it has continued in the family of its present publisher, Mr. Boylston—a permanency which has attached to no other press within our knowledge.

By a unanimous vote of the Bar, the new Judge Smith was invited to hold the term of Court in February at Colebrook—so popular was he at his first term in Lancaster.

The Company having given notice of a reduction of 15 per cent. in wages, after Dec. 1st, the operatives in the Littleton Woolen Mill suspended work on Friday morning last, and the mill has not been running since. The prospect now is that very little, if any more, work will be done in the mill before Spring.

Mr. Charles Baker, one of the oldest residents of Lancaster, died very suddenly on Sunday evening, in his 75th year.

The Hillsborough county jail pays $600 a year, the prisoners being employed in cane seating chairs.

Gen. Samuel Griffin, an eminent citizen of Keene, died on Wednesday, aged 83.

DOINGS IN NEW YORK CITY.—The Episcopal Bishop has designated five Presbyters to form the Court of the trial of Rev. Stephen Tyng, Jr. The Court is summoned to meet Jan. 10.

A man named Miller, calling himself a produce broker, attempted on Wednesday to pass a certified check for $22,000, altered from $2,200, but fled and has not yet been taken. Two other bogus checks were passed on the same day—probably by part of a gang who infest the large cities just now.

John Jones, 23 years of age, was arrested on supicion of shooting fatally Henry Waffenback in a lager beer saloon on the 9th inst.—The shooting occurred during a quarrel arising from a refusal to pay for drinks.

A sailor named James Scott was shot and instantly killed at 11:40 P. M., by another sailor named James Griffin, who was instantly arrested.

In the evening a fatal battle occurred between Samuel and Tom Sharpley, and Allison of the Theatre Comique, on one side, and Kelly and Leon of the Minstrel Troupe on the other. As they came out of the Opera House Sam. Sharpley stepped up and asked whether Kelly had circulated a report that he (Sharpley) was bankrupt. The lie was given and a general melee ensued. Kelly was knocked down, and when rising he drew his revolver and fired two shots, both of which took effect in the body of Tom Sharpley, killing him instantly. In a few moments after Sam. Sharpley fired at Kelly. The ball took effect in the back part of his head, and glancing, lodged near his left eye, inflicting a dangerous wound. Officers than came up and arrested the whole party.

CONTEMPT OF COURT.—A case of contempt recently occurred in a Detroit court room which has excited a large amount of angry comment. A young man was on trial for murder. He voluntarily made a a statement. The Judge decided that he could be cross-examined on this statement, and must answer the question put to him. Acting on the advice of his lawyer the defendant respectfully refused to answer. The Judge said both the lawyer and his client had committed contempt, but he should not stop the trial at that point to take notice of it. After the case had gone to the Jury, the Judge found himself at leisure to vindicate his dignity by inflicting upon the lawyer a nominal fine of ten dollars, which was promptly paid.

—The inquest on the nitro glycerine explosion case in South Bergen, N J., is concluded, and the jury rendered a verdict that the explosion was caused by the carelessness of Burns, one of the victims, and censuring the contractor, Col. Shatner, for employing him.

DISTURBANCE IN LONDON.—News by the mail steamer New York says that on Sunday, Nov. 24, All Saints Church, Lambeth, London, was the scene of a grand uproar. Immediately after the procession of clergy and choristers entered the church, a large number of those present hissed and hooted them, and during the lessons for the day the same noise, accompanied by groans, took place; but when the man appeared with a long taper to light the candles of the altar, the uproar became general, and there were cries of "No popery in our English churches." Mr. Machonochie commenced his sermon in the midst of a storm of hisses, and evidently with great nervousness, occupying only six minutes in the delivery. When the Eucharistic service commenced the riot became general, and three cheers were proposed and responded to by a portion of the audience. A rush was then made to the altar, and one of the crosses broken and kicked about the aisle. The beautiful font within the communion rails was thrown down and broken, the water running down the steps. A general fight then ensued with some who desired to protect the church from injury. Soon after the people retired shouting "Down with ritualism!" "Shame, shame!" "God enters!" "Traitors!" &c.

HOW ROSS WOULD DO IT.—The Hon Lewis W. Ross is a Copperhead of the Illinois breed—not a good variety of the unlikely species. In the casual debate of Saturday he managed to deliver himself to the following effect:

1. He desires to see our currency still further 'watered.'

2. He wants the National Bank notes called in, and more 'legal tender' issued in their stead.

3. He wants the bonds issued and owing by the Government to be subjected to taxation, in definance of the Government's pledge that they shall not be.

4. He wants to issue 'gradually' greenbacks enough to pay off the National Debt.

5. He holds that the bonds may thus be paid off, one-sixth to one-eighth per annum, and thinks the legal tender act has thus opered a way to the people to get rid of the enormous debt.

We ask Messrs. Butler and Stevens to look at their own faces in the glass that Mr. Ross holds up to them. If the counterfeit presentment does not flatter, we can't say the fault is in the glass.

Mr. Ross detests the bond-holders, because they furnished the needful means by which the Rebellion was put down. He will cheat them if he can, because they thwarted his fond desires that the Union should be reconstructed on the Montgomery platform. By the help of the doctrine of Total Depravity, we can readily account for Mr. Ross' Demonstration. But even such strong meat does not enable us to explain the aid and comfort he is receiving of Messrs. Butler and Stevens.

Mr. Ross is not satisfied with being a scoundrel himself; he insists that the people are all scoundrels, especially at the West. He talks to Mr. Wasiburne after this insolent fashion:

"He would tell his colleague that, if he planted himself on the bondholders' platform, he would soon find himself solitary and alone on that platform in the State of Illinois. *His colleague was willing to turn off the decrepid soldier, and the widows and orphans of soldiers, with payment in paper currency, and to reserve the gold to pay off rich bondholders.*"

Messrs. Republicans who vote to "water the currency,"—or against getting the water out of it—do you mean to let Ross and his fellow repudiators put that issue upon you? We protest against it, and you ought to know better than to allow it. Rely on it, no course is wise or safe that does not lead right on to Resumption, and thus to one currency for bondholders, pensioners, and everybody else.—*Tribune.*

☞ Messrs. Luther Hayes of Milton, N. H., Henry Nutter and E. T. Nutter of Cape Elizabeth, Me., and Geo. S. Barstow of Portland, have purchased the "Blake wood lot and Mills" in Raymond, for $16,000, and also the flowage lands adjacent and backing, at a heavy additional sum, and will immediately erect additional mills, and go largely into the manufacture of shooks and staves for the West India market, employing 100 men.

—He who will not profit by advice, is as great a fool as he who cannot.

A SPLENDID GIFT TO A FRIEND—Four Certificates of the Washington Library Company of Philadelphia, in aid of the Riverside Institute for educating orphans, costing four dollars, with the fine engraving "The Perils of our Forefathers." Each certificate secures also one present at the Great Distribution by the Company, making four presents, one or more of which may be worth thousands of dollars. It aways pays to be kind to a true friend. Read advertisement. 12

> The deep affections of the breast,
> Which heaven to lordly man impart,
> Are oft extinguished or repressed
> By lack of culinary art.
>
> Wives, would you retain your husband's affection? Remember how near the heart lies the stomach; never place before him yellow alkaline or hard sour bread made by your hand. Herrick Allen's Gold Medal Saleratus will enable you to arrive at perfection in cookery. 24

THE EIGHTH WONDER OF THE WORLD. Not the Atlantic Cable, nor the Great Eastern, but Pyle's Saleratus, that always makes good light and wholesome bread, biscuit and cake, preserves health, and is the best and most economical Saleratus in the world. Everybody wonders at it. Sold by grocers everywhere. His name is on each package. 33

—Rev. Wm. H. Pearson of Newburyport, has accepted a call to the pastorate of the South Congregational church at Ipswich, for which Rev. Dr. Fitch has officiated for so many years. The salary is $1200. Mr. Pearson is a graduate of Bowdoin College and studied Theology at Princeton. He is also a graduate of the Herald Office. He was a good printer, and is an able and eloquent clergyman.

AMERICAN
WALTHAM
WATCHES.
This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one who has kept watch of the operations of the Waltham establishment, for it turns out watch movements at just about one half the cost of imported movements—and the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A poor timepiece of the machine make will be rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of worthless foreign articles miscalled time-keepers, by furnishing so excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a considerable time, and comparing them with former first class works of different manufacture possessed by us, they have established in our opinion their superiority over any heretofore introduced for correctness as time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only comparatively of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the more spectacle of its operation is poetic, gradually give the American Watches a public preference that will not be deceived.—*Harpers' Weekly.*

Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

DR. TOBIAS' VENETIAN LINIMENT. As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Contraction of the Muscles, Headache, Bruises, Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are miraculous.
Taken Internally in cases of Sick Headache, Colic, Bowel Complaints, Cholera, Dysentery, Vomiting and Dyspepsia, its soothing and penetrating qualities are felt as soon as taken.
☞ If the reader or his friends have any complaint named in this advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.
Ask for Dr. Tobias' Venetian Liniment and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and Oils now flooding the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d8dwlm

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like hot cakes, and gives Universal satisfaction.

Stanley & Skipper, Chippewa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. L. Allen, a well-known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted.—He says, "I have retailed nearly four dozen of it. Has over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that favor region of gold. In Texas, and that accounts for its Great Success None use it who do not, in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

SUDDEN DEATH

Is the fate of every fibre upon which the CAUSTIC POISON

of an ordinary hair dye falls. There is no RESURRECTION

for the filaments thus blighted. But, as it were, in the

TWINKLING OF AN EYE,

hair of any obnoxious color is changed to a RICH AND GLORIOUS HUE,

and at the same time vitalized and improved by use of

CRISTADORO'S HAIR DYE.

Nature's safe ally, and beauty's regenerator.—Manufactured by J. CRISTADORO, 65 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. s30dawlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

PIERCE PATCHER.

Beaver Dam, Schuyler Co., N. Y. Sept. 14, 1866

Principal Agency, Brandreth House, N. Y. Sold by 100,000 Druggists, to whom we refer as to their superior qualities. n29dawlm

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$2 per year; for balance of this year free to new subscribers.

GRANT HALL.—We understand that the Republicans of Ward Two have secured this hall in the new Bell Tavern Block, and it is expected the Republicans of the other wards will join in making this a general headquarters. The papers, telegraphic news and other matters of general interest will be there diffused, for the benefit of all concerned.

☞ A Government detective has discovered and seized in the northern part of this State and in Vermont, a lot of *dies*, plates and presses, for making counterfeit coin and notes He has brought them to this city, and they will be forwarded to Government Headquarters at once.

☞ To-night is the last chance to witness the pleasing performances of Bidwell & Locke's Dramatic Company. Their bill includes "East Lynne," and the "Yankee Duelist," and will repay those who may attend.

☞ To-morrow evening, Duprez & Benedict's Troupe, the favorite Minstrel organization in these parts, will give one of their varied entertainments at the Temple.

☞ Another prize fight, not far from here, is on the tapis. Parties looking for the grounds were in this city on Thursday.

THE NATIONAL UNION REPUBLICAN EXECUTIVE COMMITTEE met at Washington on Wednesday, and voted to call a Convention, to meet at Chicago May 20. The call noticed below was unanimously adopted. It is certain that every State will be fully represented, and the Southern loyalist will constitute an important element.

There was no official mention made of candidates, but the expression of opinion was decidedly in favor of the nomination of Gen. Grant.

Each State in the United States is authorized to be represented in said Convention by a number of delegates equal to twice the number of Senators and Representatives to which each State is entitled in the National Congress. The call says:

We invite the co-operation of all citizens who rejoice that our great civil war has happily ended in the discomfiture of the rebellion, who hold fast to the unity and integrity of the Republic and maintain its paramount right to defend to the utmost its own existence, whether imperilled by secret conspiracy or armed force; of all citizens who are in favor of an economical administration of the public expenditure, of the complete extirpation of the principles and policy of slavery, and of the speedy reorganization of those States whose Governments were destroyed by the rebellion, and their permanent restoration to their proper practical relations with the United States, in accordance with the principles of Republican Government.

THE ADAMS COLONY DISPERSING.—The following extract of a letter from an officer on board the U. S. steamer Swatara, will be read with interest:

"The American colony at Jaffa is gradually dispersing. The Quaker City took off several, and a sufficient sum was subscribed on board this vessel to send one family home. This was not done on account of any very great sympathy on our part for any of the people, but because all the members of this family were sick and had been sick, and we did not like the idea of leaving them to die in a strange land, or bog of the Arabs.

Elder Adams, the Apostle of the church and founder of the colony, joined the party of officers who visited Jerusalem, and made such an unfavorable impression upon them by his own statement of affairs as to satisfy them all that he was no enthusiast, but a common swindler, who hoped to establish a rival colony to that of Salt Lake. He is a common fellow, a protégé of the Mormon Elder. I can scarcely conceive it possible that any intelligent man could have surrendered himself so completely to his guidance. People who never would have paid their pew rent at home without taking a receipt, appear to have blindly placed the whole of their means in his hands without any vouchers, articles of association or means of controlling the disposition. They assert that they believed the second advent of Christ was about to take place, and that even those who did not believe this were of the opinion that the ancient utility of Palestine was about to be restored by some revolution in nature, and they wished to be on hand when the distribution of farms and town lots took place.

This is absolutely the explanation given to me by two of the most intelligent of the colonists, one a supporter and the other an opponent of Mr. Adams.

THE THURSDAY SPECTATOR and Boston Weekly Advertiser, is a large and valuable quarto paper, issued from the office of the Boston Daily Advertiser; price $2 a year, in advance.

—A German emperor took for his motto, "Better please one good man than a crowd of bad ones."

—The peasant who predicted the death of the Czar Nicholas within a year, has made the same prediction in the case of Alexander. The former monarch was indignant and imprisoned the offender, but the present Czar heard the prediction with equanimity.

—The reports prevalent two months ago in Europe, of the dangerous illness of the Czar of Russia, are said to have arisen from an accident which befel him while staying at Livadia, his Crimean summer residence. His Majesty was entering the dining room with his family and suite, when, at the moment of stepping over the threshold, the ceiling fell down. In another instant the Imperial family must have been crushed in the fall.

HANCOCK, BLAIR AND JOHNSON.—It is reported that Gen. Hancock had an understanding with the President and the Democratic chiefs before he arrived at New Orleans, and it is generally understood that he is in training for the Presidency.

Some noted wire pullers were at Washington, Friday and Saturday. One of them, a Mr. Haskins, spent an hour with the President early Saturday evening, and afterward was one of a party of politicians who spent the remainder of the evening at Montgomery Blair's. Mr. Haskins has been sounding President Johnson on the Presidential question, and the meeting at Mr. Blair's was for the purpose of comparing notes on a candidate. The chances of Johnson, Seymour, Pendleton and others were severally discussed, but none of them were accepted. A new man was agreed upon, and his name is Gen. W. S. Hancock. Messrs. Haskins, Reynolds and others who had just been with the President, stated that Mr. Johnson told them that Gen. Hancock was doing *admirably*, and had only begun the programme that had been laid out by them some two months ago. They allow it to be understood that Gen. Hancock was Mr. Johnson's choice, and was the only man that could make a show against Grant. Consequently this clique of politicians, at their meeting that night, privately nominated Gen. Hancock as the Democratic candidate for the next Presidency, and pledged themselves to his support.

—From the official reports it now appears that the Papal forces in the battle of Mentana amounted to 8000, and the French to at least 4000; whereas the Garibaldians, who were marching from Mentana to Trivoli, amounted in all to 4000 men. The Garibaldian losses also prove to be much less than reported.

—The New York Times says that the ablest men in Congress have freely discussed the financial situation with Secretary McCulloch, and have agreed upon a common policy.

525 MILES

OF THE

UNION PACIFIC RAILROAD,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The remaining grade from the base of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock cuttings and the steeper slopes will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to those of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, it not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and there will be no competition, as always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger of more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. 4m—2m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINKS OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 92	$102,088 61	$491,759 31

The result, however, would have been far greater but for the inability of wagon trains to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following unique Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,500,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	6,000,000
U. S. 6 PER CENT BONDS, 738 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 738 miles	$77 83 .00

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 93 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT. These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lean upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, convenience and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from **12 to 18 per cent. Advantage,** with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

☞ WOOD SAWED and SPLIT when desired.

Morning Chronicle.

☞ The Concord Patriot refers to those days of Republican simplicity, in "sad contrast with the present," when the Governors of the State, the Woodburys, Badgers, Dinsmores, &c., walked from the American House to the Capitol, and were inducted into office without ceremony, and at no cost to the State. But the Dover Enquirer says the Patriot is guilty of falsehood or it must have a very short memory, if it does not remember that things were just the reverse of all this in those good old times. The Woodburys, Badgers, &c., were inducted into office with a great deal more ceremony than any Governor of late years has been. The escort to meet the Governor elect some dozen or twenty miles off, the long procession of official dignitaries to the old North Church, the "election sermon" and other ceremonies, consumed more time and wasted more money than is now ordinarily required to inaugurate two or three Chief Magistrates; and it was the Republican party, or its predecessor, the Whigs, we believe, who first successfully moved to abolish all this, very much against the will of some Democrats, who thought these "time-honored ceremonies" should be continued.

Yes, and the greatest of all these parades, and the most expensive, of late years, were paid for by the House Guards—who, after expending say twenty thousand dollars for the glory and dignity of the State, without due acknowledgement, as they thought, gave it up. The Boston Lancers are supported, or at least assisted, by the State.

☞ The New York Herald deduces from certain calculations and theories of its own, this conclusion, "That the recent great political revolution in the State and City of New York annihilates copperheadism as well as radicalism, and that the popular conservative movement will finally dispose of both these disturbing elements that combine to keep the country in a turmoil and increase the burdens of debt and taxation."

Pooh, pooh! says Uncle Toby; this is only a rehearsal of what we used to hear in New Hampshire four or five years ago, that the people would soon put down both the pro-slavery secessionists and the abolitionists.

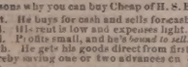
CHEAP!

Reasons why you can buy Cheap of H. S. BODGE.
1st. He buys for cash and sells for cash.
2d. His rent is low, and expenses too.
3d. Profits small, and he's bound to sell.
4th. He gets his goods direct from first hands, thereby saving one or two advances on original cost.

JEWELRY,
Bogwood, Rubber and Jet of every variety and style.

A large assortment of CLOCKS for Office, Parlor, Sitting room and Kitchen. All our Clocks are from the best manufactories in the country. Each one is Regulated before leaving the Store, and is Warranted a Good Timekeeper. Those in want of a Good Clock will do well to examine our stock.

COIN SILVER WARE,
Rogers' Silver Plated Ware, thoroughly tested, and satisfactorily proved to be the best in market.
Spoons, Forks, Pitchers, Salvers, Goblets,
Children's Cups, Card Receivers, Vases,
Cake Baskets, Syrup Pitchers, spoon holders,
Dessert Knives, Nut Picks, Castors, Table Bells,
Salt Cellars, Butter Dishes, Pie Knives, &c
Gold, silver, Fine Steel, Plated and Common
SPECTACLES and READING GLASSES of every description, with Convex, Concave and Periscopic Glasses.
Just received, a large lot of the



New and Improved Spectacles,
Which surpass all others in the market. Having made this line of our business a specialty for several years, and our lenses being selected by one of the oldest and best educated Opticians in New York, we feel safe in saying our Spectacles and Eye Glasses are Superior to all other in the market; and notwithstanding the above list of Goods are for sale in almost every store in the city, we shall continue to keep a large variety, and sell
AS LOW AS THE LOWEST.
Strict Attention to Business, and Small Profits.
Jewelry and Spectacles Repaired, Glasses exchanged and refitted to suit the sight.
Remember the place and give us a call.
H. S. BODGE.
Cor. Congress and High streets, Portsmouth.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 35 Rue Fauby. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever offered; as a killer of pain, taken inwardly or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It is also most excellent when taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. SEAMEN and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Packing, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price 50 **Cents** per bottle. For sale at wholesale and retail by Dennis Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; F. C. Wells & Co., 129 Fulton street, N. Y.; Chas. N. Crittenden, 38 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned J. T. LANE & CO., Proprietors, 168 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,
Manufactured under Patents of the Colwells, Shaw & Williard Manufacturing Co.
Adopted by the Cities of Boston, Charlestown and Chelsea.

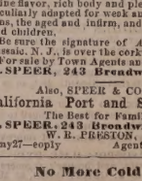
Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated. *As a Diuretic* it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic affections. *As a Blood Purifier*, it is superior, being one of the best alteratives known in the medical pharmacopœia.
The qualities of SAMBUCI are "*unitum in parce*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.
N. B.—None genuine unless bottles contain sanguinem facti.
SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.
Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.
For sale by Town Agents and Druggists.

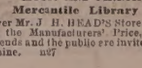
They Have Never Been Beaten.
The PIANO FORTES manufactured by Messrs. HALLET, DAVIS & CO. of Boston, have never been excelled.



The subscriber has used them for many years, and they have proved equal in all respects to any other make, and superior to most. Pianos which I sold to my pupils in this city from FIFTEEN to TWENTY YEARS ago, are giving perfect satisfaction to-day.
A splendid new 7 octave Instrument, fresh from their mint, may be seen at his

The Chronicle.

From "The Mormon Prophet and his Harem," By Mrs. C. V. Waite.

BRIGHAM YOUNG'S HAREM: No. 3.

THE FIRST WIFE'S CHILDREN.—Joseph, or "Joe Young," as he is familiarly known in Utah, is a fast young man. He has been on a "mission," travelled in Europe, smokes, chews, gets drunk, swears, preaches the gospel; has three wives, whom he whips and otherwise ill-usually abuses, and is a good Mormon, in full fellowship in the church. While at a fashionable watering-place, at Great Salt Lake, in the summer of 1863, he insulted a gentile lady.—The gentleman who accompanied her, being an officer, promptly knocked him down, and this not seeming to be satisfactory, afterwards challenged him. Joseph's friends interfered, and obtained a settlement of the difficulty.

Brigham A. is more respectable. He has also been on a mission. This is equivalent to saying that he has been wild and reckless, as it is the Mormon custom to send all who are unruly and hard to manage, or who have committed crimes, on a mission. It is thought that by bearing the pure vessels of the Lord to such poor wicked wretches as the Gentiles, perchance they themselves will become purified.

John, being the youngest, has not developed his tastes so fully. He seems inclined to seek after the loaves and fishes of office. He was Sergeant-at-Arms of the Council in the winter of 1863-64, and will doubtless be one of its members when he is old enough, should his father then reign in Utah.

Mrs. Alice Clawson is the oldest daughter, rather amiable, with fair hair, blue eyes and petite stature. She is one of the performers in her father's theatre. As an artiste, she is "flat, stale and unprofitable."—But being Brigham's daughter, and good looking, she is applauded to the echo. She is one of the three wives of Hiram B. Clawson, who is the Prophet's chief business agent and manager. Quick, shrewd, and unscrupulous, he is a fit instrument with which to accomplish the purposes of such a man.

In the year 1851, a Mr. Tobin came to Salt Lake with Capt. Stansbury. While there, he met Miss Alice, fell in love with her, and they were engaged to be married. Mr. T. had occasion to leave Salt Lake on business, and did not return until 1856.—He then renewed his engagement with Alice, but afterwards, for reasons satisfactory to himself, broke it. This subjected him to the vengeance of her father, which never slumbers. Tobin and his party were followed, attacked in the night on Santa Clara river, 370 miles south of Salt Lake City.—Several of the party were severely wounded. They lost six horses, and were compelled to abandon their baggage, which was completely riddled by bullets. During Tobin's absence, Alice had been engaged to another, who had been sent off to the Sandwich Islands by her watchful father. Hiram B. Clawson, the confidential clerk of the President, next appeared as a candidate for the young lady's hand. He had already one wife, but was anxious to secure a second.

A little incident in their courtship will illustrate the manner of obtaining No. 2.—"Good morning, sister *Clawson*," said a young friend whom she met in walking.—"What do you wish me to understand?" said Alice. "Nothing more than that your father gave his consent this morning, in my presence, to your marriage with Hiram B. Clawson."

"There Alice," said brother Clawson, who at this moment made his appearance, "did I not tell you? You would not believe me." "This matter begins to be serious," said Alice, "now that my father has given me away to a man that has one wife already, and is courting another beside me, both of them being much handsomer than I am."

Hiram was nettled, for it was true that he was courting a third wife, and of these three Alice was the least beautiful. She then proposed, playfully, to elope with an old gentleman, a friend of the family. "I would do so," she said, "before I would be given away like an old mule to a man who already has one wife, and is seeking for others."

Yet Alice, though doubtless giving expression at this time to the sentiments of her heart, was afterward prevailed upon, and consented to become No. 2 in the Harem of Hiram B. Clawson. Hiram, having commenced at a much earlier age than his father-in-law, may, if unchecked in his career, yet rival him in the number of his wives and the extent and magnificence of his 'piral' establishment.

Luna Young is a character. She is very wilful and headstrong. She always governed her sister Alice, and even her father could not control this wayward child. She is the fourth daughter, by the first wife, two having died. She has light hair, blue eyes, and a fair complexion. She is very haughty and beautiful. Slender as the gazelle, and free and joyous as a bird, brooking no control, she was the light and often the annoyance of her father's house in her girlish days. She is now married, and very likely will become amiable and docile under Mormon discipline.

CATTLE MARKET at Brighton —Dec. 11. At Market for the current week: Cattle, 1514; Sheep and Lambs, 11463; Swine, 1610.

THE STOVE FOR THE MILLION!

THE
KEARSARGE
HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in No Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
No. 78 State street (opposite Kilby street,) Boston
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign Patents, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me FIFTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

A part of the LAND of the late THOMAS NORTON on Austin street, being 66 feet on Austin street and 72 feet deep, containing several choice Fruit Trees. Also, a BUILDING 30 by 15 feet, suitable for a barn or shop. For further information apply to Mrs. Norton, on the premises, or to BENJ. M. PARKER.

Farm for Sale.
The well known PARSONS FARM, on Boyd's Road, next adjoining the estate of the late Hon. Levi Woodbury; containing 115 acres, has cut 90 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 59 Congress street. o23 H. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 14, 1867

FEAR AND DREAD.—We admit that the fear of impeachment has exercised a wholesome effect in restraining President Johnson within bounds; but, on the other hand, the dread of such an event has exercised a most distracting influence on the business circles of the country, and caused a great deal of fluctuation in the markets; and whatever good might be reached by getting Johnson out of power, it would be far more than counteracted by the loss of confidence and the disturbance of all business confidence and stability.—*Philadelphia N. American.*

Perhaps so, at this late hour, and as matters now stand; but it might have been quiet otherwise, if done a year ago, or six months ago. Cowardice in business is a poor guide; and it is an old saying that brave are always cowards. The most eminent brave and no less sad reward in the land, is justly chargeable with the great flow of doubt and uncertainties in business,—as his presidency has stirred up the old rebel elements.

☞ As to the cause of the Vermont Railroad disaster, it is said, there seems now but one opinion, the neglect of the engineer, Mr. Abbott. The engine was the General Sheridan, nearly new, in perfect order; Abbott is said to have shown singular insensibility at absent mindedness heretofore, and says he thought the bridge was there all right. He exhibits indications of insanity since the disaster. He is 45 years of age, has been in the employ of the company 15 years, and has always had their confidence as a safe, reliable man.

The rate of speed at which the train was running was twenty to twenty-five miles an hour. The grade from Northfield to the bridge is about fifty feet to the mile, and near the bridge is still heavier; the ascent of the last few rods is ample, they say, to have stopped the train had the steam been shut off. All agree that the engineer did not reverse until the train reached the abutment, and then only on calls and impressions of those about him. The engine went so far before it was stopped that the tire of the driver-wheels jutted over the abutment four inches. Had it gone over, the havoc would have been more fearful.

THE NATIONAL MILITARY ASYLUM.—The Soldiers' Home, as the government asylum for disabled soldiers should be designated, was visited Tuesday by ex-Gov. Smyth of New Hampshire, one of the managing directors. The occasion had been selected for the raising of a flag at the new building, and the members of the Mendelssohn Quintette Club, with Miss Addie Ryan, accompanied the Governor, Mr. McGlenen having accepted an invitation given by Col. Yates. The party arrived at the asylum before noon, and upon the assembling of the brave hearts, Col. Yates introduced Gov. Smyth, who made a very pleasing address. Subsequently the Mendelssohn favored the company with some of their charming instrumentation, and Miss Ryan sang "Down by the River," and the "Wee Bird Singing." Col. Yates, on behalf of the inmates of the asylum, thanked the visiting parties, and an adjournment was made to the grounds, where a large flag-staff has lately been erected. A new and splendid flag was then raised by the Governor, the soldiers and visitors singing the "Star Spangled Banner," Mr. Ryan of the Mendelssohns using his cornet with splendid effect. The veterans seemed joyous, and we are sure that Thursday will be long and pleasantly remembered by all of them.—*Alexandria Sentinel, Nov. 20.*

NEGROES VS. CHINAMEN.—In Nevada county, Cal., Judge Niles recently decided that a negro cannot be convicted on Chinese testimony in that State. A State law provides that Chinese testimony shall not be accepted for or against any white man on trial for a criminal offence, and the Federal Civil Rights act provides that all negroes born in the United States shall be entitled to the benefit of all laws for the security of person and property of white men. Judge Niles decides that the law excluding Chinese testimony for and against white men in criminal trials, is a law for the security of the person of the white man, and the negro is entitled, under the Civil Rights bill, to the benefit of that provision. The negro was set at liberty under this decision.

☞ Right, as the law now reads; but wrong in principle. All sorts of witnesses should testify, but Courts and juries should judge of their credibility, and decide accordingly.]

A GREAT SNOW STORM occured on Tuesday, reaching from Cape Cod to Ohio, and from Maryland to Massachusetts. In Boston about 10 inches of snow fell; but what fell none in Portsmouth.

— A flash concern—the meteoric shower.

— The civil docket of the Supreme Court in Cumberland County, Me., contains about 2000 cases. The lawyers of that county want an intermediate court. The idea is a new one. A bill was passed several years ago to establish such a tribunal, but a little piece of trickery by one of the members of the House in arranging the terms, by having assumed to alter the bill after it was ordered to be engrossed, was discovered, the bill was recalled from the Governor and rejected.

MATTERS AT NEW ORLEANS.—The following is an extract of a private letter from New Orleans to a gentleman in Boston. It is dated Nov. 29:

We are having terrible times here; nothing like it since 1837. The planters are all of them broken up by this year's losses. You can calculate the loss when the niggers have been fed and each hand paid from $12 to $15 a month. Now the products of such labor is only one bale of cotton in hand. This bale, after paying freight, Government tax and commission, will net only $50. This heavy loss must be borne by the merchants who have made the advances to get the crop. There must be a smash up all through the South. The only inducement the planter will have of trading again next year, will be the repeal of the Government tax. What we want is the plantations divided up into small places and sold to white men—men of industry and energy. When that is done, then the prosperity of the South will become a fixed fact.

The future of the South looks very dark to me, and not a bright spot anywhere. The people all despond. They want some Yankee pluck and energy to lure them on to success. At every landing we made on the river we found lots of white people that ought to be at work; and then the planters, although badly in debt, with no money to spend, yet they came on board and met them in kid gloves, and in the way they splurged about one would think them owners of the boat and all the people on it. These kind of people must be brought to realize the present *true situation*.

The Democratic succession in the recent elections has done much injury. What we want in these political questions settled. It would have been better to have had the Rebel ideas swept the country, as these people would have consented to reconstruction and thus settle down on a basis which would have been an end to the trouble. Now they hope and expect something to be done more favorable; yet if they would calmly considered the situation they would find the Democratic party powerless for either good or evil. These are sad times, and the only consolation we can have is that they cannot be any worse."

☞ WASHINGTON ITEMS, Dec. 12.—A driving storm of snow and sleet has raged all day, increasing the desire of a large majority of Congress to enjoy the comforts of their home firesides at Christmas.

The Senate voted to non-concur in the House resolution of adjournment, but the vote was reconsidered, and little or no business of any importance will be transacted till after New Year's.

In the Senate there was a spicy debate on the proceeds of the sales of confiscated property, during which Mr. Fessenden said that the vexatious and trouble to which the present Secretary of the Treasury had been subjected were enough to drive a man crazy.

Reverdy Johnson replied at length to Mr. Drake's resolution censuring the President, which finds few endorsers.

The President sent in to the Senate his reasons for suspending Secretary Stanton. They are personal, and as contemptible and mean as their author.

Senator Patterson, from the Retrenchment Committee, reported a resolution, which was adopted, that in the present unsettled condition of the country, contracts for stationery and other supplies for the Executive Departments shall not be made for more than one year, and that bidders shall have notice and allowed to be present at the opening of the bids.

In the House, many resolutions were offered and referred.

Mr. Eliot offered a resolution directing the Committee on Commerce to inquire into the causes that have produced the present depression in the shipping interests in the United States, and whether our maritime interests do not require remission of internal revenue duties on materials entering into the building of vessels, or some legislation to facilitate the transfer of foreign vessels to American owners. Adopted.

☞ A Connecticut correspondent of the Boston Advertiser, looking back to the last annual election, and forward to the next, says:

The "labor dodge" was the chief humbug, and it is pretty safe to say that the laboring men of the State have by this time come to understand that legislative action concerning hours of work gives them no benefit whatever. Two-thirds of the mills in the State are now running on half time, if running at all; and the matter of ten hours or eight hours, which was the hobby six months ago, has been swallowed up by the "hard times," and with the working man now, bread and butter is of vastly more importance than time for mental and moral improvement," on which so many changes were rung by politicians to buy votes when Gov. English was a bidder for them.

NEW MEXICO.—A letter from Santa Fe, says the Legislature of that Territory assembled on the 2d inst. and organized by electing as the officers of both Houses, the friends of Colonel Chaves, Republican candidate for Congress. The letter further states that the Legislature stands on joint ballot 30 Republicans and 9 Democrats

HIGHLY IMPORTANT, IF TRUE.—The Tribune says the National Convention of Base Ball Players, in session at Philadelphia on Wednesday, resolved that no Club composed of persons of color, or having in its membership persons of color, should be admitted into the National Association.—"Ye that have tears, prepare to shed them now." But, says Uncle Toby, how much pa ns some people take to make themselves ridiculous.

— The speaker who "took the floor" has been arrested for stealing lumber.

CAPITAL PUNISHMENT NOT ECONOMICAL.—Capital punishment has been very often and very severely denounced, but we believe that one of the Holland journals has the entire precedence in assailing the execution of the death penalty upon economical, rather than humanitarian grounds. In commenting upon the report of the Dutch Minister of Justice, the journal referred to figures on the comparative expense of hanging men and imprisoning them, and shows that it only costs in Holland one-twentieth as much to keep a man imprisoned for twenty years, which is the maximum of imprisonment there, as to hang him. The conclusion founded upon these figures is that the gallows is too expensive a luxury for a small State like Holland to indulge in, and the more economical way of imposing long sentences of imprisonment as punishments for the greatest crimes, is recommended to the law makers of that country.

LINCOLN.—The stepmother of Abraham Lincoln still lives near Farmington, Coles County, Illinois, in a one story log cabin, containing two rooms. Aunt Sally Lincoln, as the villagers call her, is now eighty years old, and very feeble. She is a plain, unsophisticated old lady, with a frank, open countenance, a warm heart, full of kindness toward others, tall and slender, and, in many respects, very much like the President—enough so to be his own mother—And as he was but nine years of age at the time of her marriage with his father, it is not improbable that she had much to do in forming his character. She still speaks of Abraham as her "good boy," and praises his obedience. She says that Abraham and his step-brother never quarrelled but once, and that, you know, is a good deal for step brothers. About a mile and a half from her old cabin is the grave of Thomas Lincoln, father of the President. It is marked by a piece of clapboard on which is rudely carved only the initials "T. L."

☞ A breeze-kissed honeysuckle diffuses a pleasant fragrance, but its aroma has not the tropical richness of Phalon's "Night-Blooming Cereus." That marvelous scent, voluptuous, yet not too powerful, seems closely akin to the fragrant charm with which Nourishment and her liege lord in "The Light of the Harem."—*Eastport Sentinel.* 9

☞ This day week (Dec. 7) the editor of the New Orleans Picayune was luxuriating on strawberries, raised in the open air at Pinchatoula. We'd like to trade him a little of the weather we have enjoyed the past week for some of his strawberries.

☞ Two fine steel engravings lead off the January number of the Lady's Friend. One is called "My Household;" the other a Dutch Skating Scene, seasonable and appropriate. The colored double page steel fashion plate, and many illustrations of the fashions, etc. The literary matter is by Virginia Townsend, Elizabeth Prescott—who begins a story called "A Dead Man's Rule,"—Florence Percy, Louise Chandler Moulton. Price (with engraving) $2 50 a year. Address Deacon & Peterson, 319 Walnut street, Philadelphia.

A KERNEL OF WHEAT IN A BUSHEL OF CHAFF.—In this age of humbuggery, when the wits of one-half the world are at work to cheat the other half, it is refreshing to find an article of general utility among us that possess the merit claimed for it. It requires a knowledge of the higher mathematics to enumerate the number of worthless hair preparations that flood our market, vaunting their superior excellencies from the show cases of every druggist. Among this mass of rubbish, however, there is one article that, if the popular verdict is worth anything, is at least entitled to the competitors in the valuable properties it possesses, as it is in its enormous demand. Of course we allude to the popular "Barrett's Vegetable Hair Restorative,' which is so highly indorsed and recommended by druggists. Those who have used it—and their name is legion are unanimous in their praise of its absolute superiority over all of its would-be competitors.—*Cincinnati Times.*

—It is stated that at least three-fourths of the Republican National Committee are in favor of Gen. Grant for the next Presidency.

—The statement of Senator Wilson, who knows whereof he speaks, that the number of the disfranchised at the South will not reach a total of fifty thousand, affords a timely correction of a very prevalent mistake. The Democratic papers foster the impression that it is in consequence of the vast numbers of disfranchised whites that an opportunity has been given for the "negro supremacy" of which they have so much to say.

An eminent legal gentleman says, "Of the 147 applications for divorce that have come under my notice in the last ten years, the cause of dissatisfaction in 134 cases arose in the culinary department." Take notice, young wives. Herrick Allen's Gold Medal Saleratus ensures the nicest, lightest bread, pies, and cakes, is eminently wholesome, and is a perfect magnet to bring husband home. 25

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair First, the prompt, quick action, great growth, life and vigor that it is sure to give the hair, never failing by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh & floate and unsurpassable in any climate Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur color found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury to dress their hair. It retains the hair in any desired form, and is cooling, healthy and cleansing to the scalp, removing immediately all scurf, dandruff and pimples. Price One Dollar. Sold by all Druggists. w3t—1m

THE EIGHTH WONDER OF THE WORLD.—Not the Atlantic Cable, nor the Great Eastern, but Pyle's Saleratus, that always makes good light and wholesome bread, biscuit and cake, preserves health, and is the best and most economical Saleratus in the world. Everybody wonders at it. Sold by grocers everywhere. His name is on each package. 24

VALUABLE DISCOVERY.—Immense deposits of valuable phosphates, said to be superior to Peruvian guano, and of inexhaustable value, have been discovered on plantations hitherto considered of little value, stretching along the banks of the Ashley river for miles above Charleston, S. C. A company has been formed, backed by Northern capitalists, to utilize these deposits, which consist of animal remains, forming a thick substance for many miles. The subject excites considerable talk there.

AMERICAN

WALTHAM

WATCHES.

This country has reason to be proud of this splendid specimen of American operative genius and superb abilities. That it will work revolution in the watch manufacturing of the world no one can doubt who examines the operations of the William Wadsworth Watch, or the finer cut watch movements at just about one half the cost of imported movements—besides the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A pocket-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is imperfect. It will be a cause of congratulation if the highly useful American Enterprise shall have the effect of driving out of market the thousands of trashy foreign articles manufactured in cheap-working to excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a year or more, and have been using them with former first class works of different manufacture possessed by us, they have established in our opinion their superiority over any ever introduced for correctness as time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacturers, which, although only commencing of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference that will not be deceived.—*Harpers' Weekly.*

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

PAIN KILLER A CURE FOR DIPHTHERIA!

All it needed, please read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Tounoo, Burmah:

"My son was taken violently sick with diphtheria, called in the burning fever and sore throat. I counted one morning ten little vesicles in his throat, very white, and his tongue towards the roots was like a watermelon, full of seeds; the whole throat was one black mass of the deadly. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a couple of teaspoonfuls down dy. I did so, and found the gargle invariably cut off the vesicles, and he ran red them up, often quite a tea spoonful of blood. He was taken sick Sunday; on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, both outside and hard about the throat. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are losing so many children by this dreadful disease.

I have found your Pain Killer one of the most valuable medicines ever used in Burmah. Once I was cured by a very large black scorpion, and pain was indescribable. Immediately applied the Pain Killer (for I never travel without it) again and again and in half an hour from time was well.

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the 1st bottle of Allen's Lung Balsam. It sells like hot cakes, and gives Universal satisfaction.

Stanley & Skipper, Chippewa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. L. Allen, a well known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted. He says, "I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from Coal-pits is large for a medicine acknowledged to be the most safe and speedy remedy offered for sale. We have sold hundreds of dozens to go to that far-off region of gold. I. CRARY and that accounts for its great Success. Notice me if what do not in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

nature's safe aid, and beauty's regenerator.—Manufactured by J. CRISTADORO, 68 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. n30dawlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK:—In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly sp ak or breathe. I was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months, but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

PIERCE FATHER.

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$4 per year; for balance of this year free to new subscribers.

☞ It has been stated in the Boston and other papers, that Mr. Belmont of New York has purchased a Farm in this city; and one of our reporters wrote, on what he thought good authority, that it was Mr. Winchester's fine place which was thus sold. We did not see the item till printed, and at once decided it was incorrect; and we are now informed on the best authority, that Mr. Winchester has not sold his farm, (nor is it, we presume, for sale at any price;) and we also doubt whether Mr. Belmont has invested at all in real estate here. As for Mr. Winchester, we expect him and his partner, Mr. Maio, to return "home" and live on their adjacent estates here, when they get enough of California.

☞ The "Drummer Boy of the Rappahannock," whose elopement with a young lady of Poughkeepsie, N. Y. created some talk a few months since, has been forgiven by his wife's parents.

—A Missouri paper finds a blessing even in prairie fires. It says that the conflagrations have wholly destroyed the malarious poisons, so that although property is lost, health is gained.

—It is said that the Democratic members of Congress like the Republicans, are hopelessly divided on the currency question. Secretary McCulloch has a larger number of supporters for his financial policy on the Republican side of the House than on the Democratic.

— Mayor Macmichael of Philadelphia married a couple the other day, and in reply to the question what was the price of the ceremony, said there was no regular charge. "Gosh! Mr Mayor, give us your hand," exclaimed the delighted groom, "you're just the kind of fellow I like to meet," and shaking the worthy chief magistrate violently by the hand, bowed him politely to the door.

MARRIAGES.

In this city, Dec. 4 by Rev. George M. Adams, Mr. HENRY K. MARDEN to Miss ADDIE FLETCH, both of Kittery, Me.—Dec. 12, Mr. CHARLES N. NEALLEY of South Berwick, Me., to Miss SARAH A. CHASE of Kittery, Me.

DEATHS.

In this city, Dec. 9, Miss PHEBE MEAD, aged 88 years.

At Bay Side, Greenland, Dec. 10, Mr. PETER BONNER, aged 86, formerly of this city. A soldier in the war of 1812.

☞ The Funeral services of Mr. NATHAN P. THACHER will take place at No. 48 1-2 Pleasant street, on Saturday a. m., o'clock, Noon.

Lost.

On Thursday, a POCKET KNIFE, with three blades and a buckhorn handle. The finder will be liberally rewarded on leaving the same at the Chronicle Office.

LOST.

On Friday evening, Dec. 13, between Whidden and Market streets, a SABLE FUR. The finder will receive suitable reward on leaving the same at No. 15 Market street.

525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its six per cent. bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a second lien as security, and receives payment for a large part of the full amount of its claim in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by Government Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile which will be delivered from time to time to the Company, out of this same line of the Pacific Railroad, which is the most fertile in the world, and other large portions are granted to it at $2 50 cents, and a Grand Total of the best quality.

The company is also authorized to issue their First Mortgage Bonds to an amount equal to the issue of the Government and to secure them by a first mortgage on the entire line, the Government Directors acting as Trustees for the bondholders, and deliver the bonds as the road progresses, so that the security to the purchaser will always represent an actual and present value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived from the local traffic of the country already in such a manner as to pay the interest on all the bonds the company can possibly get issued for the present year, and leave a handsome surplus. It is understood that when the road is completed through the line of the only more productive, the profits and receipts will be very large and rapidly increasing, and as there will be no competition, it can always be done at profitable rates.

It will be seen by these that the Union Pacific Railroad is, in fact a Government Work, built under the supervision of Government officers, and to a large extent with Government money, and that the bonds are issued under Government direction. It is believed that no other security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by STATE NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK, No. 7 Nassau St
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds payable in New York, and the bonds will be sent free of charge by return express. n18—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices and of its advertised Agents, or will be sent free on application.

Secure Profitable Investment.
THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent, Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Only Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES.	NET EARNINGS.
$409,381 92	$167,660 81	$241,749 11

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The Land Grant of 12 sections per mile, and the Bonds granted by the Government, and will have full-wine and ample Resources at command for the Construction.

DONATION Lands, 6,400, Coin) - $12,800,000
CAPITAL STOCK, Net Earnings, &c. (one half) - - - 11,000,000
U. S. 6 PER CENT BONDS (subordinate lien) - - - 8,000,000
U. S. 6 PER CENT BONDS 7-3 miles, (subordinate lien) - - - 25,517,000
FIRST MORTGAGE BONDS - - - 25,517,000
Resources first 725 miles - - - $77 83 .00

The FIRST MORTGAGE BONDS are in sums $500 each, with semi-annual gold coupons attached, and are offered for sale at the present at 85 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT IN GOLD. THEY HAVE TWENTY YEARS TO RUN.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the said Resources. They possess special advantages and security over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, cheapness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO
Central Pacific First Mortgage Bonds,
now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or by responsible Banking agencies.

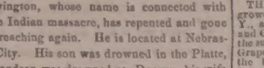
Morning Chronicle.

☞ A correspondent of the Cascago Tribune writing from California declares that if Congress adopts a Radical policy it will lose the support of the Pacific States, and that Gen. Grant approves the Radicalism of Congress, he can carry neither California, Oregon, nor Nevada. If President Lincoln were living, this might perhaps remind him of the little anecdote about a Hibernian breakfasting on eggs. Hearing a faint cluck from one of them just as it was passing the larynx—"Be me soul chick," he remarked, "ye spoke too late." Congress adopted a Radical policy at its last session, and if that fact has not yet been ascertained in the Pacific States, we doubt if it will greatly affect the next election.—*Tribune.*

A VISITATION OF PROVIDENCE.—Colonel Chivington, whose name is connected with some Indian massacre, has repented and gone to preaching again. He is located at Nebraska City. His son was drowned in the Platte, a grandson was drowned at Denver, his wife died very suddenly at camp meeting, and it is reported that one of his daughters was lately drowned while stepping from a ferryboat.—He had also been unfortunate in his business transactions, having lost the accumulation of years. Considering all these afflictions as a visitation of Providence, he has asked and been restored to the church with which he was formerly connected, and has assumed clerical duties.

—HON. T. D. ELLIOTT has had an extensive correspondence with leading loyalists in nearly every Southern State, as to the expediency of discontinuing the Freedmen's Bureau.—Many of these writers do not hesitate to say that such a movement now would effectually defeat reconstruction in many States, as it is only by knowing that the officers of the government stand ready to protect them, if any outrage is offered, that many blacks and whites who stood loyal throughout the rebellion, and who are members of the conventions to frame new State constitutions, dare to attend the sessions of those bodies.

Improve Your Eyesight!

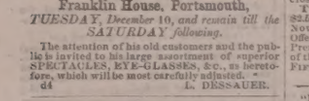


DR. LOUIS DESSAUER,
OPTICIAN,
Of 397 Washington St., Boston, will be at the
Franklin House, Portsmouth,
TUESDAY, December 10, *and remain till the SATURDAY following.*

The attention of his old customers and the public is invited to his large assortment of superior SPECTACLES, EYE-GLASSES, &c., as heretofore, which will be most carefully adjusted.
d4 L. DESSAUER.

P. P. P. P. P. P. P. P.
PERFECT SIGHT
PRODUCED BY PROCURING A PAIR OF
Messrs. LAZARUS & MORRIS'
PERFECTED SPECTACLES.
PARTICULAR REASONS why they are
PREFERRED Above All Others:
BECAUSE They do not Tire the Eye.
Because They do not Inflame the Eyes.
Because They do not Weaken the Eyes.
Because They do not Dim the Eyes.
—AND—
Because They DO Strengthen the Eyes.
Because They DO Preserve the Eyes.

They do not require Changing. They are Perfectly Achromatic: in fact they are the only PERFECT SPECTACLES made.



One of the Firm will be at the Book and Fancy Store of their Agent, MR. J. F. SHORES, JR.,
PORTSMOUTH, N. H., 3 DAYS ONLY,
THURSDAY, FRIDAY & SATURDAY
December 12, 13 and 14, 1867.

For the purpose of assuring their Agent in fitting the eyes of those persons who require more than ordinary attention.

MR. J. F. SHORES, JR., is our Sole Agent for Portsmouth, N. H.
NOTICE. No Peddlers Employed.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubv St. Honore
Will you be kind enough to have forwarded to me from 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & CO., New York.
Baron Solomon Rothschild having recommended many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should feel obliged by your having him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.,* it is unequaled. It is also most efficacious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Sudden Colds, Sore Throats, &c.,* it is unequaled. *Spasm, Colic, &c.,* and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELLER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of sudden attacks and sudden shocks of Stomach Complaints, its value cannot be estimated. Inquire for Major LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per bottle For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 126 Greenwich Street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 58 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN THOS. LANE, and countersigned by J. T. LANE'S CO., Proprietors, 163 Broadway, N. Y. Send for circular.

The Chronicle.

WAR INCIDENT.—Col. E. Goodrich is furnishing a series of incidents to the Brooklyn (New York) Union. We copy one of them:

A favorite saying of those who are afraid to run the race with the black man is, that "they make good servants." Will you, in these days of "Societies for the prevention of cruelty to animals," print the following narrative of the war, showing how much better master the black man may be than some of those who believe him only fit to serve?

On one of the marches of the gallant Ninth Corps from the Rapidan to Richmond, the transportation was climbing a long and steep hill when one of the six mule teams came to a halt. The loyal Southerner (black to be sure) called to his usually faithful mules for another pull, but they did not respond as promptly as the blasphemous wagon master thought proper, and with the customary oaths, crack went his whip over the heads of the willing mules.

"Hold on dar, boss, don't whip dem mules," cried the teamster, and getting down from his wagon-seat, he commenced his tour round his team, touching the head and neck of each animal, and ostensibly examining harness, etc., but saying to his mules as he goes round them, "Look here! who give you dem oats every morning?—Who carry you down every morning? Who take dem mules to de spring twice a day? What's de matter wid you, de wagon for, any how?" By this time he had returned to his seat, he gathers up the reins, the faithful mules tightened in their traces, the moral suasionist cracks a loud crack in the air, crying out, "Go on with this wagon, and stop fooling." The wagon goes on, and both humanity and brute force are honored in the transaction.

HEAVING THE LEAD.—The Amaranth was coming down the Upper Mississippi loaded with pig lead. As she was going over a shoal place the pilot gave the signal to heave the lead. The only man that was forward at that time was a green Irishman.

"Why don't you heave the lead?" asked the mate.

"Is it to heave the lead, your honor? Where to?"

"Overboard, you blockhead."

The Irishman snatched up one of the pigs of lead and threw it overboard, and the mate, in endeavoring to prevent him, lost his balance, and fell into the river.

The captain, running to the edge of the roof, asked, "Why don't you heave the lead, and sing out how much water there is?"

"The lead is heaved your honor, and the mate's gone down to see how much water there is," responded Pat.

—Some of the London papers are urging the increase of their police force from 7000 to 16,000.

— The Newburyport Herald says that the Essex North Congregational Association having restored Rev. Charles Beecher of Georgetown to full fellowship, his church have held a meeting and unanimously asked him to withdraw the resignation he tendered them some time since, and he has consented to do so.

— It is cited as an instance of progress, that Mr. Maynard of Tennessee, who on Thursday made a motion that the Foreign Relations Committee be instructed to inquire into the expediency of requiring that this country shall be represented at Hayti by a black man, was three years ago begging not to keep the negro always before Congress.

Dental Card,
HIGHLY IMPORTANT.
DR. GODALL announces to the citizens o Portsmouth and vicinity that he has purchased the right to use the
NEW PACKING RIDGE.
In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction, Firmness and Freedom from Food and Moisture working under the Plate.
The expense of the Patent is considerable, but I shall at present charge only 5 dollars additional whenever I apply it.
I am administering ETHER continually, and from my long and successful experience, will promise any one they shall not suffer pain from the extraction of 1 tooth or 32. So put aside your needless fears, and prepare for this Great improvement in Artificial Teeth.
P. S.—I can also insert Teeth (in many cases) with this New Patent, without extending the Plate over the Roof of the Mouth.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth.
John H Moran, Joseph H Gardner, John H Morrill, Edward J Moulton, Addison Carroll, Mrs Isaac Jeuness, Capt John Fisher, Mrs Wm Hasket, Israel Marden, James D Akerman, Samuel Cook, Gideon Walker, John Frisbee, George Booth, Mrs Augustus Shackley, Daniel Philbrook, Gardner J Greenleaf, Abner Greenleaf, Robert Bell, William Skeels, Allen A Rand, John Kimberly, Frank Strobridge, Mrs Jacob Ritticy, Charles W White, E F Yeaton, Joseph Drake, J C Garland, J F Jones, Jas M Parsons, Jonathan Jeuness Jr, Edwin D Hobbs, Albert D Brown, James Lane, Prescott Williams, Joseph Moulton, Capt Daniel Frisbee, Augustus Zora, Samuel Jacobs, Capt Henry Frisbee, Frank Pearl, Stephen H Hill, Jos G Todd, Luther Lewis, Geo Philbrick, Leonard Jenkins, Benj Fernald, Gilbert Spear, Sergeant Mulligan, Levi Brard, John Burnham, Daniel Perry, Edward Appleton, David Grogan, James Clark, Joseph Lutz, Mrs James Philbrick, Capt John Rogers, Rev A Cook, W H Thompson U S N, Alexander A Robinson, Elizabeth Hewitt, Wm B Norton, J G Hill, Mrs J N Sherburne, Patrick Crane, Michael Murray, George Philbrook, Chas A Green, Simon H Mills, Mrs Mary McAwley, Phineas Hoyt, Nathan Whalley, E A G Holmes, Oliver Stacy, Edwin Sanborn, Jas F Jenness, John Spencer, Miss Dow 10 Austin St, Mrs Ann Crowley, Mrs Elizabeth Horrock, James Chadwick, Misses Sherburne, Misses Childs, Chas Locke, Frank Watkins, Albert Leach, Wm Hunter, I F Lord, James Greenwood, Leonard Evans, Oliver Frys, Samuel Goodwin, Alpheus Dearing, John Parrott, Capt J B Frisbee, A J Mason, Sylvester Frye, Edward Safford, Frank Dolan, John Chickering, Ephraim Pettigrew, Timothy Rowell, John Chickering jr, Albert Adams, James Burns, William F Stickney,

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 73 State street (opposite Kilby street,) Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers for the drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on once rejected applications, ASSISTED APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Late Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part prompts me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHAAR,"
Boston, Jan. 1, 1867.—3tawly

The well known PARSONS FARM, on Boyd's Road, next adjoining the estate of the late Gen. Levi Woodbury; containing 115 acres, has cut 60 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State. Will be sold with or without the Stock, as the purchaser may desire. For terms apply on the premises, or at 39 Congress street. o22 H. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 16, 1867.

IN CONGRESS, on Friday, prominent among the Democrats who addressed the House was Judge Woodward of Pennsylvania, whose maiden speech was listened to with marked attention. While he defended the President, he virtually indorsed Gov. Boutwell's positions, that mal administration of office is a high crime and misdemeanor; that the House acts in the capacity of a Grand Jury; and that the Senate sits as a court to try impeachments presented, as a court would try indictments.

Mr. Ela of New Hampshire reviewed the President's message in a speech characterized by sound common sense and practical ability. It should be read by every New Hampshire voter before the coming contest in the State, for it is replete with sound Union doctrine.

A BLOW UP.—At London, Dec. 13, a daring attempt was made to release the arrested Fenian, Col. Burke, confined in the Clerkenwell prison. Powder was placed beneath one of the prison walls and exploded, it is supposed by Burke's confederates, but was not successful in the rescue of Burke. The prisoner was confined in an inner cell and could not escape by the breach. He has been removed to a place of greater security. The explosion was tremendous. The prison wall and the neighboring buildings are a mass of ruins. Some lives must have been lost. It is widely rumored that twenty persons have been killed, and that some bodies are buried in the ruins.

During the morning repairs had been commenced on the wall. Later in the day some unknown men were seen to roll a barrel, which doubtless contained powder, under the place where repairs were being made. Shortly after this the explosion took place. Two men and a woman who were found in the vicinity have been arrested on suspicion of being connected with the perpetration of the outrage. The excitement is so great that it is impossible as yet to obtain any correct account of the casualties.

WASHINGTON ITEMS. — The Government Commissioners having reported the fifteenth section of the road and telegraph line of the Union Pacific Railroad Company as ready for present service and completed and equipped as required by law, the President has accepted the same and ordered the issue of bonds and patents for lands on account of said section of road.—This completes the road for 510 miles west from Omaha.

Among the communications sent to the House was one from the War Department enclosing the application of H. B. St. Marie for compensation for information furnished by him which led to the capture of John H. Surratt. Judge Advocate General Holt thinks he ought to be paid.

WEATHER COLD AND FUEL SCARCE. A Louisville special says the arrival of 11,000 bushels of coal from below for the city, which was offered to the public at cost price, has caused a decline of Pittsburg coal from sixty to forty cents per bushel.—The extreme cold, however, the mercury being at 19 degrees, will probably prevent factories from re-employing their discharged workmen, which they designed to do. All other topics are absorbed in the great anxiety for a speedy supply of fuel.

WHAT ARKANSAS WANTS.—The Fort Smith, Ark., Times thus expresses the wants of that State, and the proper course for the people to take:

"Arkansas is getting anxious for railroads, schools, local improvements, a steady immigration, and will therefore vote for a speedy settlement with the United States. The day of settlement is fast approaching.—Conservatism will not always save you.—The people will not allow you to keep this whole country in turmoil and contention any longer. Hostility to the Congressional policy will only result in evil. The people see it, and understanding, will act accordingly."

DOMESTIC EXPORTS.—The Director of the Bureau of Statistics reports that the domestic exports of the United States for the quarter closing October 1, were in value over $90,000,000, while for the corresponding period in 1866 they were $78,000,000, thus showing an increase over the same period of last year of $12,000,000.

—Unmanageable female prisoners at the great jail of St. Lazare, near Paris, are punished by putting them in a wire cage that revolves and exposes them to the view of all in the prison. This course is said to be invariably successful.

—The recent election of a member of Parliament in Manchester, Eng., was characterized by at least one extraordinary incident. A woman presented herself at the Chorlton Town Hall and tendered a vote for Mr. Jacob Bright. An examination of the register showed that her name had really been placed on the list of electors, and her vote was received. She was loudly cheered on leaving the polling place.

From "The Mormon Prophet and his Harem." BY MRS. C. V. WAITE.

BRIGHAM YOUNG'S HAREM: No. 3.

LUCY DECKER SEELY.—This is the first wife in 'plurality,' or the second 'woman.' Lucy Decker was married to Isaac Seely, and had two children. She afterwards became a Mormon and went to Nauvoo to reside. Her husband, Seely, was somewhat dissipated, but treated her well. She, however, saw Brother Brigham and loved him. He visited her, told her that Seely could never give her an 'exaltation' in the eternal world; that he, being high in the priesthood, could make her a queen in the first resurrection.

She yielded to these inducements and the promptings of her inclination, left her husband, and was 'sealed' to Brigham Young. Lucy Decker has brown hair, dark eyes, small features, a fair skin, and of short stature; but quite *en bon point*. She would strongly remind you of a New England housewife, 'fat, fair and forty.' In common with nearly all the inmates of the Harem, she is of very ordinary intellect and limited education. Her first child, after marrying Young, was named Brigham Heber, and was the first born in Mormon polygamy. He is now about eighteen years of age.

Lucy Decker is still one of the favorite wives. She lives in the 'Bee-Hive,' and keeps a sort of boarding-house for the work hands. She has had eight children by Brigham, all of whom are now living. A story is told which illustrates well the disposition and character of these polygamous children. Brigham Heber was in the habit of playing while the family were at breakfast. One morning, after breakfast was over, this boy, then only ten or twelve years of age, went into the kitchen and undertook to help himself to anything he could find. Mr. Smith, the cook, would not permit it.—Brigham Heber seized a fork, and with oaths that would put a pirate to shame, swore he would stab the cook. Smith caught him, wrenched the fork from his hand and pushed him into the hall. He and Oscar, son of Harriet Cook, swore that they would kill Smith the first time they should catch him out.

CLARA DECKER, sister of Lucy Decker, is a short, thick-set person, very much like Lucy in appearance. She is much more intelligent and agreeable than her sister, and in every way her superior. She is also quite a favorite with the Prophet; has three or four children, and is much attached to her husband.

HARRIET COOK was early in plurality, having been sealed to Brigham at Winter's Quarters, on the Missouri river, while the Mormons were on their way to Utah. This was five years before polygamy was publicly proclaimed in Utah as a divine institution. Harriet is very tall, has light hair, blue eyes, a fair complexion and sharp nose. She is rather slender, but has much power of endurance, and a look of determination.

When all is going on smoothly, she is as calm and serene as a May morning; but let Brigham or any one else in the establishment cross her path, and the blue eyes at once light up, and give evidence of a coming storm. When irritated and aroused she denounces the whole Mormon religion, including polygamy, and says, "the whole thing is a humbug, and may go to the devil for aught she cares." Brigham, though a stern disciplinarian, makes good his escape at such times, and the 'women' keep at a respectful distance.

When she is in a religious mood, which is seldom the case, she says, "I don't profess to know much, but there is one thing I do understand, and that is Mormonism—Whenever Brother Brigham (all the wives call him brother) goes behind the veil, I make him tell me what he sees and hears there. I mean to know all about it." She is the smartest of all the women. She has one son in plurality, named Oscar. He is a wild, ugly boy, and curses his mother *ad libitum*. Brigham cares nothing for this woman, and always avoids her as much as possible.

LUCY BIGELOW is of middling stature, has dark brown hair, blue eyes, aquiline nose, a pretty mouth, and is very pleasant and affable. She is very pretty and ladylike in the ball-room, but does not appear to so good advantage in the nursery and kitchen. She is the one who was the subject of a well-turned repartee at the anniversary ball in Salt Lake City, on the 24th of July, 1863. Governor Harding, on that occasion, having danced with several of the wives of 'Governor' Young, became somewhat enthusiastic and extravagant in his compliments. Among other fine sayings, he remarked to one of the wives, upon leading her on to the floor, "The President has introduced several of his wives to me as 'Mrs. Young,' 'Mrs. Young,' 'Mrs. Young.' As well might the astronomer point to me the stars of heaven, without giving me the names." "Governor, I understand your compliment and appreciate it. The name of this particular star is Lucy." She has but little influence over Brigham and he seldom visits her.

TWISS has sandy hair, inclined to curl, round features, blue eyes, low forehead, fair complexion, face somewhat freckled. She is short and stout. This woman makes a good servant, and is always ready to wait on her lord and master. She prepares his linen and is content. She has no children.

MARTHA BOWKER is low in stature, with black hair and eyes. She is very quiet.—She is plain and sensible; neither showy nor interesting. Very neat in dress, and very ordinary in intellect and acquirements. She is of few words, and rather quick tempered. She has very little influence over the Prophet.

HARRIET BARNEY is tall, slender and graceful. She has hazel eyes, light-brown hair, mild, sweet expression of countenance, and is indeed a beautiful woman. Her character is as lovely as her face, and the suffering and sorrowing always find a friend in her. She is patient and forbearing, and would rather suffer wrong than do wrong. Her kind and sympathetic nature, and excellent character, place her far above the other inmates of the Harem.

Believing in polygamy, she left her husband and became one of the plural wives of the President of the church in which she believed. She loves, with all the intensity of her nature, him for whom she has sacrificed everything. Of course, she deeply feels his neglect, but, like a true woman, complains not. Having sacrificed her happiness upon the altar of her faith, she continues to love, to endure, and to suffer. She had three children by her first husband; none since.

LIBEL SUIT.—In 1866 Josiah Emery brought an action against the proprietors of the Farmington (Me.) Chronicle for an alleged libel. The gist of his complaint, says the Chronicle, was that the defendants had published an article in relation to the "Johnson Convention," held at Auburn a short time previously, in which the plaintiff alleged the defendants had alluded to him as "delegate" to that Convention, and as "having been a convict for crime and an inmate of the State Prison at Thomaston," alleging further in his writ that if he, the plaintiff, had been guilty of any crimes, he had been pardoned by the lawfully constituted authorities of the country, &c. This action came on trial at the April term of the Court in Franklin county, when the counsel for the defence demurred to the plaintiff's writ and declaration, among others for the reason that the plaintiff admitted by his pleadings that what he charged as libelous was, in fact, true. The presiding Judge sustained the demurrer, and the plaintiff's counsel "excepted." The exceptions were argued before the full court, and were overruled. Judgment for defendant's costs follows the decision of the full court.

☞ The annual meeting of the New Hampshire State Teachers' Association, held at Concord last week, was well attended, and the exercises interesting. The new board of officers of the association for the ensuing year are as follows:

President — Amos Hadley, Concord; Vice Presidents—A. M. Payson of Portsmouth, W. D. Ewer of Milton, Charles Burnham of Meredith, Edwin F. Moulton of Wolfeborough, Isaac Walker of Pembroke, S. W. Clark of Manchester, A. J. Burbank of Keene, Foster Henry of Newport, V. J. Hartshorn of Enfield and G. H. Pinkham of Whitefield.

Councillors—E. T. Quimby of Hanover; Abel Wood of Meriden; Thomas Corcoran of Manchester; A. C. Stockin of Fisherville; Arthur Given of New Hampton; Roger M. Sargent of Farmington; B. C. Noe of Dover.

Treasurer—David Crosby of Nashua.

Secretaries—Frank W. Parker of Manchester and S. Lowell French of Lake Village.

THE EARTHQUAKE IN THE WEST INDIES.—Secretary Welles has received a despatch from Mr. Thomas Savage, Acting Consul General at Havana, dated December 10th, in which he says:—"From our Consul at Jamacia we have further particulars of the earthquakes in the islands of St. Thomas, Tortola and St. Croix. The earthquakes began on the 18th of November, and continued until Monday, the 20th The destruction of lives and property was immense. The steamer De Soto was washed ashore into the harbor bottom upwards. Her officers and crew were saved. The steamer Monongahela was thrown into the town of Meddleton, St. Croix, and broken to pieces. Nothing is said about her officers and crew. Admiral Palmer has arrived safe at Havana."

The Navy Department has further information in regard to the steamer Susquehanna. She is not damaged greatly, and it thought will soon arrive at Fortress Monroe, when full particulars of the disaster will be obtained.

BRING OUT THE BIG GUN: Let the Rooter Crow.—Some papers of the democratic party are crowing lustily over what they call victory in the Pittsburgh charter election. We do not see it, says the Tribune. True, the regular Republican candidate was defeated, but his competitor was not the nominee of the Democratic party. They had no candidate. There was a large party of workingmen in the field, who put up Mr. Blackmore for Mayor without reference to his political views; the Democrats generally, and a good many Republicans supported him—the Republicans on the Labor question, and the Democrats for the lack of any nominee of their own. Hence his success. But in the Select Council the Republicans have 24; Democrats, 2; Labor Reform, 1; in the Common Council, Republicans, 41; Democrats, 2; and one tie. Thus, with *sixty-five* members in the City Council where the Democracy have only *four*, we judge that the Republican party will manage to outlive the effects of the "great Democratic victory" in Pittsburgh.

The Dover Cocheco Manufacturing Company has declared a dividend of $40 per share.

Now, oft we hear the ladies say,
No more our husbands bend their way,
To take their meals from day to day
At saloons and restorators.
And, oh, the blessedness to know
They never more will hungry go
Since in our bread we've learned to throw
Gold Medal Saleratus.
It is true that in the manufacture of Herrick Allen's Gold Medal Saleratus a degree of perfection has been attained surpassing every other manufacture of Saleratus or Soda. 25

THE EIGHTH WONDER OF THE WORLD. Not the Atlantic Cable, nor the Great Eastern, but Pyle's Saleratus, that always makes good, light and wholesome bread, biscuit and cake, preserves health, and is the best and most economical Saleratus in the world. Everybody wonders at it. Sold by grocers everywhere. His name is on each package. 23

—Col. B. B. J. Twyman, formerly Consul to Mexico, for some years connected with newspapers in Kentucky, and at one time wealthy, committed suicide in Cairo, Ill., recently. Despondency, produced by pecuniary misfortune, caused the act.

—It is a rare circumstance in New Hampshire to have a candidate for Governor going about adjusting his "financial irregularities" in order to appease the scorched members of his own household.

Christmas Comes but Once a Year,
But when it does come, everybody wants
CHRISTMAS PRESENTS,

PROCLAMATION
For a Day of Merry-Making,
Congratulations and Rejoicing.
Be it known unto the good people of the city of ancient Portsmouth and its vicinity, that by and with the advice of all the Little Boys and Girls, and all the Big Boys and Girls, I have appointed
WEDNESDAY, The Twenty-fifth Day
of this present month of December, as a day of General Merry-Making, Congratulations and Rejoicing. And I would ask of all the
Good Grand Fathers and Grand Mothers,
Fathers and Mothers, Uncles and Aunts,
Friends and Relations, to remember
the day and to make a merry
and happy day, by giving all kinds
and descriptions of PRESENTS to their
Grand-children, Children, Nephews, Neices,
Relations and Friends.
And as they may be somewhat puzzled where to obtain all the various articles needed for so general a giving of Presents, I would further proclaim and make known to all, both small and great, old and young, that my friend,
JAMES F. SHORES, Jr.,
Has almost everything that is necessary to answer the various wants of the dear people for
HOLIDAY GIFTS.
His stock is so large, his assortment is so numerous, that it would take more room than the publisher of this paper would allow, to enumerate them all; it is sufficient for me to say that Friend Shores has
Illustrated Standard Works, Miscellaneous Works, Bibles, Prayer Books, Children's Books, Toy Books, Games, Toys, Desks, Stationery, Work Boxes, Silver Fruit Knives and Napkin Rings, Card Receivers and Cases, Stereoscopes and Views, Photographs, Tintype and Photograph Albums, Flower Vases in great variety, Pocket Cutlery and Glove Boxes, Standsides, Pocket Books, Gold Pens, Rubber Pencils with Gold Heads, Dressing Cases, Handkerchief and Glove Boxes, Parian Busts, &c., &c,
All of which he will sell you at the Lowest Prices, and I further request all my good friends to be sure and examine this splendid stock of Goods which is now open for Free Exhibition at
No. 1 CONGRESS BLOCK,
Which No. 13 Congress Street, before they make their purchases, as unless they look at them, they will not know what they are in. They are so well arranged on the counters and shelves, that a few minutes will suffice to give a general idea of the various articles of Utility and Amusement.
FAIL NOT to take heed to these words.
Given under my hand and seal at my council chamber (in everybody's dining room) on the tenth day of December, A. D. 1867, and of the Independence of the United States the 92d.
SANTA CLAUS. [Seal.]
By advice of Council,
Attest, FOSTER SHORES,
MANNING K. KAND, } Alds. d16

AMERICAN
WALTHAM
WATCHES.
This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements at just about one half the cost of imported movements—besides the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A poor time-piece of the machine made will be as rare in the future as a good one of hand made has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of trashy foreign articles miscalled time-keepers, by furnishing so excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a considerable time, and comparing them with former first class works of different manufacture possessed by us, they have established in our opinion their superiority over any ever introduced for correctness as time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only comparatively a recent birth among us, is already producing results of the highest excellence and value. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and accuracy of performance are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference that will not be deceived.—*Harper's Weekly.*

Every Watch fully Warranted.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

TRY A BOTTLE AND BE CONVINCED!—If will only cost you your time in using it, if it does you no good.
DR. TOBIAS' VENETIAN LINIMENT. As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Muscles, Contraction of the Muscles, Headache, Bruises, Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are miraculous.
Taken Internally in cases of Sick Headache, Colds, Bowel Complaints, Cholera, Dysentery, Vomiting and Dyspepsia, its soothing and penetrating qualities are felt as soon as taken.
☞ If the reader or his friends have any complaint that needs the advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.
Ask for DR. TOBIAS' VENETIAN LINIMENT and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and other Nostrums of the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d8dwlm

HOLLOWAY'S PILLS.—COSTIVENESS.—The bowels become torpid and powerless under continual purgation. Holloway Pills penetrate to the nucleus of the disease and eradicate it. They evacuate the foul and vitiated particles from the intestines, by a mild aperient operation, and recuperate the system with energy, by restoring tone and vigor; they induce a healthy action and prevent a relapse of the malady. For Piles, Fistulas, Dyspepsia and all disorders of the viscera, they stand without a rival. Sold by all Druggists. d14daw

PAIN KILLER A CURE FOR DIPHTHERIA!

All interested, please read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Tounghoo, Birmah:

* * * "Our children were taken violently sick with diphtheria, cold chills, burning fever and sore throat. I counted one morning ten little vesicles in his throat, very white, and his tongue towards the root was white. I gave him emetics, but could do the remainder coated as thick as a knife-blade—So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a gargle with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and the white fabric was often covered with blood. He was taken sick on Sunday; on Wednesday his throat was clear, and his tongue rapidly coleaning off. I also used it as a liniment to the caster oil and hartshorn, for his neck. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are losing so many children by this dreadful disease.

I have found your Pain Killer one of the most valuable medicines ever used in Burmah. Once I was stung by a very large black scorpion; the pain was indescribable. I immediately applied the Pain Killer (for I never travel without it) again and again, and in half an hour my foot was well. d14—1m

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like 'hot cakes,' and gives Universal Satisfaction.

Stanley & Skipper, Chippewa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. L. Allen, a well-known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted. He says, "I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand (or it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that far-of region of gold. It Cures, and that accounts for its Great Success. None use it who do not, in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

It will not be convenient for Dr. Fitch to visit Portsmouth again. s30sn6m

Local.

☞ On Thursday evening last the British bark Echo, of St. John, N. S., Capt. McIntosh, for Boston, laden with lumber, attempted to make this harbor, but was obliged to anchor within quarter of a mile of the breakers. On Friday the captain hoisted a signal of distres, but a very heavy surf running, no boats were able to reach the distressed craft. On Saturday U. S. steam tug Portfire, Acting Ensign J. Louis Harris in command, went to her assistance, and succeeded with great difficulty, after three hours' exertion, in passing a hawser on board, and towing her into the lower harbor. She will at once be put in thorough sea-going order.

☞ Heigho! for an Evening with Barnabee to-night. He owes us one, (us season ticket-holders), don't he? Well, he won't "owe you one," after you hear his jokes and his fun—see if he does. The Journal says he is going to "treat" to-night—and we have no doubt he will, of subjects both grave and gay.

It is the misfortune of comic or humorous writers and singers, that people who know and appreciate their happiest of gifts, are apt to suppose the possessors have no others of a heavier or sober quality. But it is not always so—and usually the true and accepted humorist is desirous of excelling in some other departments. Thus Warren of the Boston Museum can hardly come on the stage even in a serious character, without exciting the mirth of a portion of the audience. This, whatever other deduction may be made from it, at least shows to us, that fun is the strongest card for many; but it is well to be able to discriminate—and Mr. Barnabee will to-night prove, as he has before, that his great powers do not all lie in one direction.

☞ The stores in this city, generally, were closed on Saturday at noon for two hours, in respect to the memory of Mr. N. P. Thacher, whose funeral occurred at that time.

☞ Yankee Locke is certainly one of the most comic geniuses on the stage; and why anybody ever wants to witness any plays besides laughable ones, is beyond our imagination. There is plenty of misery and crime in the world, without shamming any; but there is not half enough fun and laughter. We have no doubt it is better to go to the house of mourning, than the house of feasting," but also "it is better to laugh than be sighing."

U. S. MARINE CORPS.—Lieut. and Brevet Captain Percy C. Pope has been detached from the Marine Barracks, Boston, and ordered to St. Thomas, W. I.; upon arrival to report for duty upon U. S. S. Monongahela. [If the latest news from the West Indies be reliable, it will puzzle Capt. Pope to obey his orders.]

☞ At a caucus of the Republicans of Rye, Friday evening, the following gentlemen were elected to the several Conventions:

State—J. Jenness Rand, John O. Foss.
Councillor—G. H. Jenness, Emmons B. Philbrick.
County—George G. Lougee, Levi T. Sanborn.
Senatorial—Orion Foye, Wm. H. Seavey.

☞ A tremendous sea was running off this harbor on Friday and Saturday. But it is to be hoped it won't run it far off.

☞ Brevet Major W. D. Fuller, First Lieutenant Third U. S. Artillery, has been tried before a General Court-martial on the following charges: 1st, Conduct to the prejudice of good order and military discipline; 2d, Violation of the Sixth Article of War. The Court found Major Fuller guilty of the charges preferred against him and sentenced him to be suspended from command for a period of two months and to be reprimanded in orders by the department commander. Major General MEADE, commanding Department of the East, makes the following remarks on the case:

"The Major General Commanding, on a careful review of the evidence, is not able to discover the peculiar circumstances' which the Court quote as inducing leniency on their part. Brevet Major Fuller appears to have yielded to an ungovernable and ill-regulated temper, for which he is most justly subject to punishment, and for which the Major General Commanding regrets to say Major Fuller has been already twice reprimanded within the present year, in conformity with the sentences of a General Court-martial. Brevet Major Fuller is hereby released from arrest."—*Army and Navy Journal.*

☞ We are requested to state that the rumors circulated in regard to bark Quickstep, to the effect that disaster has befallen her on the voyage from this port to Savannah, are entirely without foundation. Hardly a ship leaves this port, but the same heartless canard is put in circulation:—heartless, because such stories painfully affect the friends and relatives of those on board.

☞ A fine new ship of about 800 tons, unnamed, built for Capt. J. Gilman Moses by Wm. F. Fernald, was launched from the Raynes ship yard on Saturday. She made a beautiful launch, and now lies at Pier Wharf.

GOLD, Saturday, 133 3-8.

☞ At Messrs. Tobey & Littlefield's yard a marine railway has been improvised. A schooner has been drawn up on the ways—the power used being that of oxen, aided by purchases—so that she may be repaired about as conveniently as if in a dry dock.

☞ About 3 o'clock on Sunday afternoon fire was discovered in the upper part of Hon. Horton D. Walker's stable, situated on Short street, and closely surrounded by other wooden buildings. The firemen were promptly on hand, and succeeded in confining the fire to the building in which it originated, and which was nearly all burned. The animals in the stable were saved, and the premises were insured. The origin of the fire is unknown, for though there was a stove for heating the stable, the portion of the building least injured is that around the stove and chimney.

SNOW began to fall in Washington at 11 o'clock Saturday forenoon; in this city, at about two o'clock Sunday afternoon.

☞ In the New York minstrel shooting case, Sam Sharpley is at large on his own recognizance, — and Leon is fully discharged.

☞ On Friday night, at Douglas, Mass., a great reservoir burst, the water carried off a house, and the owner waked up in season to warn the 5 o'clock railroad train of danger,—and thus prevent a great disaster.

525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a second lien as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger of more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. 1d—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,841 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CAPITAL STOCK, Net Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	5,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 726 miles	$77 834,00

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special guarantees and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, roundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

—It is proposed to establish a temperance hospital in London, "where the sick may be cured without the aid of alcoholic drinks."

—Miss Mary Bloomfield of Middle Haddam, Ct., 18 years of age, was thrown from a carriage at Middletown on Sunday, and ruptured a blood vessel, which caused her death in a few moments. She was to be married on Christmas day.

—The Director of the Bureau of Statistics reports that a complete list of the merchant vessels of the United States has been prepared under his supervision, and is now in press. Each vessel is numbered in arithmetical succession, and her rig, name, tonnage, horse power of steamers and home port shown.

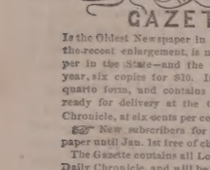
—Three weeks ago a very large eagle made a swoop at a goose in Cawwoods gap, near Saltville, Va., but not having taken good sight, as a hunter would say, overshot the goose and impaled himself upon a snag, causing instant death. He measured seven feet from tip to tip of his wings

—It is said of the King of Denmark that while one of his daughters will one day be Queen of Great Britain and another Empress of Russia, the poor King has not money enough to pay the expenses of a journey to the Courts of his sons-in-law. If this be true, the sons-in-law might make a small donation, so that grandpa should see the children.

—Old Guizot is a very hearty eater, drinks a bottle of claret for dinner, and walks every afternoon five or six miles.—Old Auber, the composer, on the contrary, is exceedingly temperate, and drinks nothing but water, but he rides a good deal on horseback. Both Guizot and Auber work at least eight hours a day, notwithstanding their eighty odd years.

—A man in Julesburg, Ill., saw a policeman approaching him and imagined that he was the person sought. He betrayed his fear by asking the policeman if he was looking for himself, but though he received a negative answer, drew two pistols and emptied them, wounding the policeman in five places. The latter fired back and killed the man instantly.

—Gen. Leslie Coombs of Kentucky, the compeer of Clay, Webster and Crittenden, and the companion of Presidents Harrison and Tyler, went out hunting the other night, and captured three 'possums and a coon. The old gentleman is as straight as an arrow, hale and hearty, and looks as if he might live for thirty years to come. He has not an unsound tooth or gray hair in his head, and never carries a cane.



Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $3 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.

New subscribers for 1868 will receive the paper until Jan. 1st free of charge.

The Gazette contains all Local Items from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Salomon Rothschild.
PARIS, 8th April, 1864, 35 Rue Faubourg St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send it the same time to account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Salomon Rothschild having recommended to many of his friends MAJOR LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, for rheumatism, as a killer of pain, taken inwardly, or outwardly applied, has no equal. For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It is also most effectacious when used internally, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhoea, Dysentery, Chalera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by Land or Sea should have a bottle. Mariners and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** vegetable preparation. Price 50 Cents per bottle. For sale at wholesale and retail by Burnham, Burnet & Co., 21 Park Row, N. Y.; Gale & Robinson, 59 Gravier sixth street, N. Y.; F. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenton, 48 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by John Thos. Lane, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,
Manufactured under Patents of the Colwells, Shaw & Willard Manufacturing Co.
Adopted by the Cities of Boston, Charlestown and Chelsea.

A NEW WATER PIPE, free from all the objections to common Lead Pipe. One-fifth of its thickness is Pure Tin, encased in the Purest Lead, forming a perfect union. Water conveyed through it only comes in contact with the tin.
Is as Strong as Lead Pipe of twice the weight per foot.
Costs less per foot than Lead Pipe of the same strength.
Also, superior qualities of WHITE LEAD and ZINC, dry and ground in oil. RED LEAD, LITHARGE, LEAD PIPE, SHEET LEAD, BAR LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by **Boston Lead Co.,**
J. H. CHADWICK & CO. Agents,

PERFECT SIGHT
PRODUCED BY PROCURING A PAIR OF
Messrs. LAZARUS & MORRIS'
PERFECTED SPECTACLES.
PARTICULAR REASONS why they are
PREFERRED Above All Others:
BECAUSE They do not Tire the Eye.
Because They do not Inflame the Eyes.
Because They do not Weaken the Eyes.
Because They do not Dim the Eyes.
Because They DO Strengthen the Eyes.
Because They DO Preserve the Eyes.
They do not require Changing. They are Perfectly Achromatic; in fact they are the only PERFECT SPECTACLES made.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 EXCHANGE ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an extensive practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered.
Office hour from 8 A. M. to 9 P. M.
Boston, Aug. 4, 1867.—1yeas

Levi Woodbury; containing 116 acres, but cut 60 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in the State. Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 21 Congress street. o22 H. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 17, 1867.

DESTRUCTIVE FIRES.—On Sunday afternoon, at Fall River, Mass., the American Printworks were destroyed by fire, with all the printing machines and a large stock of calicos. Five hundred hands are thrown out of employment. Loss $1,500,000. It was the finest structure of the kind in the country, and its destruction will probably occasion the stoppage of many cotton mills, and is a great blow to the industry of Fall River.

On Sunday, at Washington city, the Calvary Baptist Church was destroyed by fire between 4 and 5 o'clock. The fire was caused by the explosion of a flue. The loss is stated at $117,000 and the insurance at $55,000. The church was built about two years ago,—Amos Kendall gave a large portion of the money to build it.

On Sunday morning, at Northampton, Mass., an incendiary fire destroyed $65,000 worth of property, including two dwelling houses, six barns, 150 sheep, 100 tons of hay and 10 tons of tobacco, with other stock and produce. The heaviest losers are J. Smith Parsons & Son, Orrin Kingsley and J. D. Kellogg. The insurance amounts to $25 000.

On Sunday morning, at Buffalo, N. Y., Curtzman & Son's piano forte manufactory was destroyed by fire, with a number of pianos and a quantity of material. Loss on stock $22,000; insured $10,000. The building was valued at $12,000; insured for $8000. Forty-five workmen are thrown out of employment.

The mixing mill of the Hazard Powder Company at Hazardville, Conn., was burned on Thursday, Dec. 12, and Mr. Peter Heavey, 2d, was so badly injured by inhaling the flames before he could escape from the burning building that he died on the following morning, after suffering the most agonizing torture for sixteen hours.

On Friday night the paper mill of B. L. Bunnell, in South Orange, N. Y., was destroyed by fire. Loss on stock, building, and machinery was $50,000.

☞ A fire occurred at Franklin, N. H., Saturday morning at 4 o'clock, destroying Dodge's Knife and Fork Manufactory, and damaging Stewart's tannery. Loss $4000, —partly insured.

☞ The U. S. steamer De Soto has arrived in Hampton Roads. She left St. Thomas at noon Dec. 5. Although considerably damaged by the earthquake she leaks very little. Earthquakes were of frequent occurrence from Nov. 8th up to the time the DeSoto sailed, but not of great violence. The principal damage was caused by the first one, which shook the buildings to pieces, and the smaller ones which followed only served to knock down the remaining few that had resisted the first shock. The De Soto's bottom was temporarily repaired by divers. The officers and crew are all well.

ST. THOMAS.—The Danish proclamation transferring St. Thomas to the United States, appears in the St. Thomas Times of Nov. 30. Two years are conceded to the inhabitants to effect a complete change of nationality.

Vice Admiral David D. Porter has written a letter descriptive of the Island of St. Thomas, Mr. Seward's latest purchase, and giving his opinion on its value as a naval station. The Admiral entertains a high opinion of the importance of the island and of the advantages which would accrue to the United States from its possession. He says it can easily be fortified so as to resist attacks by sea; and an enemy cannot be landed, except in the harbors.

Advices from St. Thomas state that the city is crowded with shipwrecked sailors.—The inhabitants are returning to the island, and confidence is restored.

SNOW BOUND.—A dispatch of Sunday, from Sacramento, Penn., says four thousand passengers are reported weather bound at Bound Creek and Somerville, on the Central Railroad, New Jersey. The engine of the train due there at 10 P. M., was thrown off the track by the spreading of a switch near the top of Wilksbarre Mountain. The engineer was fatally injured, but none of the passengers were hurt.

☞ The following nominations have been confirmed by the Senate: Capt. Theodore P. Green, to be Commander in the navy, on the active list. Israel H. Washburne to be First Lieutenant in the Marine Corps.

☞ At Gorham, Me., two little children of Rev. E. W. Jackson got hold of a loaded pistol on Saturday, and while playing with it one of them, a little girl was shot through the eye, causing her death.

— On Sunday last in Paris, a deputation from the English Bible Society had an audience with the Emperor, and presented him with a copy of the Bible. He made a brief address to the gentlemen of the deputation, in which he declared that it was his first rule to protect all religions.

Written for the Portsmouth Chronicle.

LOST AT SEA!

Upon the shell-strewn, shifting sand—
Amid the glinting pebbles of the strand,
And sea mosses waving with the flow
Of limpid waters murmuring soft and low,
The silvern wavelets play with noiseme glee,
Like miniature ripples of the surging sea,
Forming in pearly lines adown the beach
Of rocks and seaweeds and the sandy reach.

Above the ocean depths the rutted cliffs
Reflect the sunshine in their golden rifts—
And gleaming thwart the western main,
The sunbeams are scattered like crystal rain;
Rare beauty dwells o'er the landscape serene,
As ere's sombre mantle closes the scene.

Yet, on the morrow, the sun reflects
Its golden splendors on rocks and wrecks;
And the shifting sands are thickly strewn,
For the white-winged ship has met her doom;
While the mariner's rest beneath the sea,
Shrouded for aye in its mystery.

In sunnier climes perchance there are
Some who are waiting their friends from afar—
Husbands, or brothers, or lovers, may be—
Alas! while they're waiting, these sleep in the sea
"Sleep in the sea;" how quiet the phrase,
Yet to many these simple words memories raise.—

Memories of loved ones lost in the deep;
Unburied, unhonored, yet remembered they sleep.
Ah! well—in the future we know there will be
A great resurrection for those lost at sea.

HARRY BIMMICK.

Portsmouth, Dec. 10, 1867.

YORK COUNTY.—The printers of Saco and Biddeford are going to try how many different newspapers they can issue. Hon. C. A. Shaw is to greatly enlarge and improve the Saco Democrat, and remove it to Biddeford. Then the publishers of the Biddeford Journal are also to start another paper in Saco, the semi-weekly Courier; and Mr. Noyes, the former Democrat publisher, announces that he shall start a new paper in Saco the 1st of February.

The work of rebuilding the Baptist Church in Doughty's Falls, North Berwick, is soon to be completed. It is an elegant edifice, its dome reaching far above the surrounding buildings, adding much to the beauty of the village.

Mr. Abraham Morrill, a man about 35 years of age and an esteemed citizen of North Berwick, died on Sunday of lockjaw, in consequence of having a leg broken badly by a loaded team passing over it, about four weeks since.

Austin Edgerly of Biddeford has received an appointment of Inspector at the Portland Custom House.

Communication.

The third and last night of Bidwell & Locke's Dramatic Company was a decided success, being attended by one of the largest and most fashionable audiences of the season. The beautiful play of East Lynne was produced with good effect, chat to the strength of the entire company. The difficult part of Lady Isabel was rendered by Miss Dollie Bidwell very finely and to the delight of all present. Since her last appearance here she has improved wonderfully, and is now a first class actress.

Mr. Meldrum also appeared to good advantage, together with Mr. Churchill, Miss Langley and all the troupe. Their performances are worthy of being seen by everyone, and we are glad to hear that they intend returning in a few weeks to play for a short season. We hope they will be well patronized, as so good a company rarely appears here. Success to them.

P.

☞ In New York, on Friday, an inquest was held over the remains of Mr. Isaac B. Brevoort, late apothecary on board U. S. steamer Pisicataqua, lying off the Battery.—The testimony went to show that Mr. Brevoort was much depressed in spirits, and while in that condition he swallowed a dose containing both strychnine and morphine, which had the desired effect. The jury returned a verdict corresponding with the above facts. Deceased was 42 years of age, a native of Catanavia, N. Y. He had been 21 years in the naval service. Deceased left a note addressed to his brother, requesting that his remains should be interred in Greenwood Cemetery.

OLIVER TWISE.—D. Appleton & Co., New York, have just published this favorite story by Dickens in neat pamphlet form, at the low price of 25 cents.

HARPER'S WEEKLY for the current week has the best lot of illustrations in any one number for a long time.

DEMOREST'S MONTHLY for January is received in a new and beautiful dress.

☞ Luther Tucker & Son, Albany, N. Y., send us their "Illustrated Annual Register of Rural Affairs for 1868." Very neat and useful. Price 30 cents.

☞ It will be seen by Mr. Head's Christmas advertisement, that he has established agencies in most of the neighboring towns for the sale of Holiday Gifts.

—The new British knapsack weighs only four pounds three ounces.

— Thomas Lee of Boston, an eminent merchant, died Saturday morning, aged 88. Hon. Stephen M. Weld, an eminent scholar and patriot, died at Roxbury Friday night, aged 49.

—News from Kingston, Jamaica, to the 5th, says the American emigration scheme has been abandoned, in consequence of the government refusing to grant a subsidy to a line of steamers.

—Commodore Bussel's account of the disaster to the Monongahela is published. But four lives were lost; and the vessel, though ashore in the very town of Frederickstad, St. Croix, may yet be saved.

CABLE ITEMS, Sunday.—At Paris it is said that a General Conference on the Roman question has been abandoned, the leading European Governments having finally declined to take part in it.

The great powers have addressed a note to the Sublime Porte, asking that the navigation of the Dardanelles be made free to to the shipping of all nations.

In England it is thought that the Fenians will cease all active attempts against law and order, in consequence of the universal horror and indignation caused by the disastrous attempt on Clerkenwell jail. Large rewards have been offered by the Government for the discovery and arrest of the guilty parties.

At Liverpool, on Sunday, great precautions of military and police force were used, to prevent a Fenian Funeral for the men who were hung.

☞ Robert J. Walker has located near Washington, and is talked of by the Democrats as the best man to be Secretary of the Treasury. Mr. McCulloch won't turn out the Republicans,—probably because he wishes the revenue collected,—and does not fancy the candidates who wish to help themselves too liberally.

☞ It is mentioned that a number of Johnson men have drawn up a paper proposing a meeting in Washington city, of some of the friends of the administration who are favorable to a renomination of Andrew Johnson for President. The object is to bring his name before the Democratic Convention, which will probably meet in Baltimore the 1st of June.

BIG RUMOR.—A rumor, said to be authentic, has been received at Havana, that the Spanish Government had made a formal offer to the American Minister at Madrid, to sell Cuba and Porto Rico to the American Government for $150,000,000 in gold.

BUSINESS COLLEGE, POULTNEY, VT.—The Vermont Commercial College and Normal Academy opened for the winter Dec. 5. Students may enter any time before Jan. 15, and enjoy the benefits of the winter and spring months. Business course, $35.—Board, washing, fuel and lights, per week, $4.77. Classics, by Rev. J. Goadby, D. D. Common English, Music and Telegraphy taught. Circulars free. daw3t

☞ A breeze-kissed honeysuckle diffuses a pleasant fragrance, but its aroma has not the tropical richness of Phalon's "Night-Blooming Cereus." That marvelous scent, voluptuous, yet not too powerful, seems closely akin to the fragrant charm with which Noormahal enchanted her liege lord in "The Light of the Harem."—*Eastport Sentinel.*

— Ex-Marshal Francis Tukey, formerly of Boston, died in California recently, aged 52 years.

POOR BREAD.—It has often been remarked by medical men that among all the articles of food, no one is half so injurious as poor bread. A great amount of good flour is worse than thrown away daily, by using poor yeast, poor soda and poor saleratus. If everybody will use Herrick Allen's Gold Medal Saleratus, such flour daily condemned would prove perfectly satisfactory. It takes far less than of any other saleratus. 27

—Rossini refuses steadily to accept the invitations tendered him by Baron James de Rothschild to visit him at his splendid country seat of La Ferriere, because, he says, the prince of bankers, forty-five years ago, refused to lend him fifty francs.

THERE ARE TWO SPECIAL QUALITIES which determine and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle over all other preparations for the Hair. First, the prompt, quick action, great growth, life and vigor that it lends to give the Hair, never failing, by a few applications, to restore any gray White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, delicate and unchangeable by any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen.—Ladies will find it a standard Toilet Luxury to dress their Hair; it retains the hair in any desired position, and is cooling, healing and cleansing to the scalp, removing immediately all scurf, dandruff and pimples. Price One Dollar. Sold by all Druggists. m2I—1m

PHILADELPHIA covered herself with glory by feeding the soldiers who went to the war from all parts of the North and West; and now an association of Philadelphians, not "weary in well doing," have organized a scheme to shelter and educate the orphans of the same brave men who were welcomed there in those troublous times. Riverside, New Jersey, is the site of their Institute, and the funds for its endowment are being raised by the Washington Library Company of Philadelphia, by the sale of stock at $1 per share. Will each share a handsome steel engraving is given at the time of purchase; and, as a farther inducement, all are entitled to one of the $300,000 worth of presents to be fairly distributed to the stockholders; or in other words, for every share of stock held, a present is guarantied. One present to be given away is worth $40,000. Read advertisement.

Tickets and circulars may be obtained in Portsmouth, at E. A. Joy's Music Store.

"WHILE THE LAMP HOLDS OUT TO BURN" there is a chance for the restoration of health.—If, therefore, the constitution has been weakened by disease or excess—the nerves shattered—the stomach weakened, the appetite gone, and all the world appears gloomy—pour some nice fresh oil into your lamp, in the shape of Plantation Bitters, which will make the flame of life again burn brightly, and illuminate a once wretched existence. For ladies it is an elegant and gentle stimulant, exactly such as they require. Many families will not be without it. It has an immense sale throughout the world. d7t28

THE EIGHTH WONDER OF THE WORLD. Not the Atlantic Cable, nor the Great Eastern, but Pyle's Saleratus, that always makes good, light and wholesome bread, biscuit and cake, preserves health, and is the best and most economical Saleratus in the world. Everybody wonders at it. Sold by grocers everywhere. His name is on each package. 23

Christmas Presents.

PROCLAMATION

For a Day of Merry-Making,

Congratulations and Rejoicing.

Be it known unto the good people of the city of Ancient Portsmouth and its vicinity far and by and with the advice of all the Little Boys and Girls, and all the Big Boys and Girls, I have appointed

WEDNESDAY, THE TWENTY-FIFTH DAY

of this present month of December, as a day of General Merry-Making, Congratulations and Rejoicing. And I would ask of all the

Good Grand Fathers and Grand Mothers,
Fathers and Mothers, Uncles and Aunts,
Friends and Relations, to remember
the day and to make it merry
and happy day, by giving all kinds
and descriptions of PRESENTS to their
Grand-children, Children, Nephews, Neices,
Relations and Friends.

And as they may be somewhat puzzled where to obtain all the various articles needed for so general a giving of Presents, I would further proclaim and make known to all, both small and great, old and young, that my friend,

JAMES F. SHORES, Jr.,

Has almost everything that is necessary to answer the various wants of the dear people for

HOLIDAY GIFTS.

His stock is so large, his assortment is so numerous, that it would take more room than the publisher of this paper would allow, to enumerate them all; it is sufficient for me to say that Friend Shores has

Illustrated Standard Works, Miscellaneous Works, Bibles, Prayer Books, Children's Books, Toy Books, Games, Pocket Books, Autograph Albums, Work Boxes, Silver Fruit Knives and Napkin Rings, Card Receivers and Cases, Stereoscopes and Views, Photographs, Tintype and Photograph Albums, Flower Vases in great variety, Toilet Sets, Handkerchiefs, Pocket Books, Gold Pens, Rubber Pencils with Gold Heads, Dressing Cases, Handkerchief and Glove Boxes, Parian Busts, &c., &c.

All of which he will sell you at the Lowest Prices. And I further request all my good friends to be sure and examine this splendid Stock of Goods which is now open for Free Exhibition at

No. 1 CONGRESS BLOCK,

Which No. 13 Congress Street, before they make their purchases, as unless they look at them, they will not know what there is. They are so well arranged on the counters and shelves, that a few minutes will suffice to give a general idea of the various articles of taste, Utility and Amusement.

FAIL NOT to take heed to these words.

Given under my hand and seal at my council chamber (in everybody's chimney top) on this tenth day of December, A. D. 1867, and of the Independence of the United States the 92nd.

SANTA CLAUS. [Seal.]

By advice of Council,
Attest, FOSILIER SHORES, }
MANNING E. HAND, } Aids. d16

AMERICAN
WALTHAM

WATCHES.

This country has reason to be proud of this splendid specimen of American ingenuity and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements at just about one half the cost of imported movements—besides the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A good Sized watch of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of vastly foreign articles miscalled time-keepers, by furnishing so excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a considerable time, and comparing them with former first class works of different manufacture possessed by us, they have established in our opinion their superiority over any ever introduced for correctness at time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only comparatively of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery as exquisite as the mere spectacle of its operation is poetic, gradually drive the American Watches a public preference that will not be decived.—*Harper's Weekly.*

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

TRY A BOTTLE AND BE CONVINCED!—It will only cost you your time in using it, if it does you no good.

DR. TOBIAS' VENETIAN LINIMENT. As an External Remedy in cases of Chronic Rheumatism, Chapped Hands, Mosquito Bites, Cuts, Stiffness of the Joints and Contraction of the Muscles, Headache, Bruises, Pains in the Limbs, Back and Chest, Sores, Toothache, Stings of Insects and Sprains, its wonderful curative powers are miraculous.

Taken Internally in cases of Sick Headache, Colic, Bowel Complaints, Cholera, Dysentery, Vomiting and dyspepsia, its soothing and penetrating qualities are felt as soon as taken.

☞ If the reader or his friends have any complaint named in this advertisement, try the Venetian Liniment. Remember, if you do not find relief you can have your money refunded.

Ask for Dr. Tobias' Venetian Liniment and take no other. It is pleasant to take and clean to use, and eradicates the disease from the system so that it does not return, as is the case after using the many Liniments, Pain Killers and Oils now flooding the country, that only stop the pain while the article is being used, and then return. Sold by the Druggists. Depot 56 Cortland street, New York. d8dwlm

PAIN KILLER A CURE FOR DIPHTHERIA!

All interested, please read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Toungboo, Birmah:

"My son was taken violently sick with diphtheria; cold chills, burning fever and sore throat. I counted one morning ten little vesicles in his throat, very white, and his tongue towards the root was, in a measure, full of seeds; the remainder coated as thick as a knife-blade. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a gargle with small doses inwardly. I did so, and found the gargle invariably out off the vesicles, and he raised them up, often covered with blood. He was taken sick on Sunday; on Wednesday his throat was clear, and his tongue rapidly cleaning off. I also used it as a liniment externally and hartshorn, on the neck. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are losing so many children by this dreadful disease.

I have found your Pain Killer one of the most valuable medicines ever used in Burmah. Once I was stung by a very large black scorpion, and the pain was indescribable. I immediately applied the Pain Killer (for I never travel without it) again and again, and in half an hour my foot was well. d14—1m

HOLLOWAY'S PILLS.—COSTIVENESS.—The bowels become torpid and powerless under continual purgation. Holloway's Pills penetrate to the nucleus of the disease and eradicate it.—They evacuate the foul and vitiated particles from the intestines, build up digestive operation, and recuperate their exhausted energy, by restoring tone and vigor; they induce a healthy action and prevent a relapse, the malady. For Piles, Fistulas, Dyspepsia and all disorders of the viscera, they stand without a rival. Sold by all Druggists. d14daw

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like 'hot cakes,' and gives Universal satisfaction.

Stanley & Skipper, Chippawa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. L. Allen, a well-known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted.—He says, 'I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large, for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that far-of region of gold. It CURES, and that accounts for its popularity. None use it who do not, in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Boston, who got me one of your Porous Plasters for my chest. I was so sore through me at the time, I could hardly speak or breathe. It was not more than hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months, but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

WM. BUTCHER.

Local.

☞ August Belmont, the rich New York banker, has bought the "Oakland Farm" in Portsmouth, for many years the country residence of Dr. William E. Channing.—*Exchanges.*

The above item may be the root from which the report came, that Mr. Belmont had purchased Mr. Winchester's farm in this city. Perhaps Portsmouth in Rhode Island may have an "Oakland Farm," and Dr. Channing might spend his summers there. We have no farm called by that name in this Portsmouth; Dr. C. never resided here; and Mr. Belmont has not purchased any property here, we think.

☞ The annual City Mission meeting was held at the North Church on Sunday evening, Dec. 8th, Rev. Mr. DeNormandie presiding. The report of the last six months was read by Rev. Mr. Waterhouse, the City Missionary. Addresses were made by Rev. Messrs. Ambler, Kellogg, Adams, Ex-Gov. Goodwin, Hon. Ezra A. Stevens, and others. A collection of about $120 was taken up for the poor who apply to the Missionary for aid. The report of the City Missionary will be published in the Journal this week.

OUT OF DEBT.—The North Parish in this city has been in debt ever since the erection of the new church, about twelve years since—much to the annoyance of the Wardens who have had to attend to the interest account. A few Sundays since, after the close of the morning service, the Wardens requested the parishioners to remain for a short time. A statement was then made that $4000 dollars were needed to pay the debts of the Parish. In a few minutes $1100 was subscribed. At a second like call on another Sabbath, about $2000 was subscribed in about twenty minutes; and by calling that week on other parishioners who were not present, the sum of $4300 was obtained. This placed in the Warden's hands the means for raising the mortgage, paying every debt, and enough over to make some needed repairs on the church. The wardens, doubtless, have now stronger faith in the promise—"Ask, and ye shall receive."—*Journal.*

We are not sure whether a Government debt is more of a benefit than injury, but we do think Church debts (like City or private ones,(must be a nuisance to those who owe them—for if any measure of needed expenditure is suggested, "O, we can't afford it so long as we are in debt," is the reply. We congratulate every corporate and other body, who can say and feel they "owe no man anything."

☞ Lamprey & Tompson's Quadrille Band are to give a grand Ball at Congress Hall New Year's Eve, Tuesday, Dec. 31. They deserve and will have a full and genteel company.

Communication.

☞ A collection of badinage concerning what ladies have in their stockings, has been passing from paper to paper, gathering a little from each, as a ball rolled in the snow on a mild day, until it assumed considerable proportions and no little genuine fun. The editor of a copperhead sheet not far from this burg, published it in his last issue, with this addenda:

"Jes' so! Don't dispute any of you, gentlemen. But we guess the most common thing to be found in a lady's stocking, is a *dirty foot.*"

Very likely he speaks the truth so far as the females who would be willing to associate with *him* are concerned. I'll not gainsay him, but would suggest that he amend the phrase he puts in the mouth of "major general d. h. s." in the same issue—to the effect that "the Devil and Dr. Foster have left;" as I have decided His sulphurous Majesty to be a little too particular what company he keeps, to be willing to be classed with him.

PUELLA.

☞ The Concert of Saturday evening by Dupres & Benedict's Minstrels was one of the best of the sort we ever attended—and a pretty good sort it was too. The music was finely sung and played—the chorus rich and full, the songs well given, and the dancing excellent. Frank Kent can't be beat in women's characters—hardly by the women themselves; and the comic acting, conundrums and nonsense of all sorts, was laughable enough, without being rude or indelicate. Mr. Dupres, the manager, is one of the veterans in the business, and a most agreeable gentleman.—He is a native of Hooksett, where his aged mother still lives.

☞ The Journal "would particularly notice some very handsome gent's calf"—but folks don't so much admire *gents'* calves,—though as finely developed as the pair which Forrest carries, or which carry him. It is the "twin calves" of which Perley sang at the old Dover Fair, that people are always ready to notice and admire,—whether displayed by the wind, tilting skirts, short dresses, or what not. But of course a nicely finished and neat-fitting gaiter, (if not too high-heeled and long-legged,) "lends enchantment to the view."

☞ The subject of Rev. Mr. DeNormandie's Lecture before the Lyceum this evening, will be, "From Hebron to Damascus,"—incidents of his late journey; and as this, we believe, is his first appearance here in the capacity of lecturer, of course his friends especially will be desirous to hear him. The lecture will be prefaced by a grand Concert by the Portsmouth Cornet Band, commencing at 7 o'clock. An attractive evening's entertainment, we should say—and all of home talent.

MARRIAGES.

In South Eliot, Nov. 28, OREA PAIGN to Miss NELLIE L. STAPLES.——GEORGE L. A. HILL to Miss MARY L. DAVIS, both of Stoneham, Mass.

In South Newmarket, Nov. 19, Capt. MOSES PETTENGILL of Newbury port, to Miss HATTIE N. WENTWORTH.

In Great Falls, Dec. 5, MARK NOWELL of No. Berwick, to Miss EMMA H. HOLMES.

In Brentwood, Nov. 28, JOSIAH SMITH to Miss OLIVE J. ROBINSON of Exeter.

In Chester, SAMUEL H. HARRIMAN of Raymond to Miss. H. MARIA HAZELTON.

DEATHS.

In this city, on Sunday, Dec. 15, after a long and severe illness, Miss ISABELLA S. FERNALD, aged 74 years, 6 mos, and 23 days. Beloved and respected by all who know her.

☞ Funeral, Thursday afternoon, at 2 o'clock, from her late residence in Gardner Street.

In Newington, Dec. 15, Mr. WILLIAM C. GARLAND, aged 67 years, 10 months;—a good citizen, a kind husband and an indulgent father.

In Exeter, Miss MARY ANN COLCORD, aged 74.

525 MILES

OF THE

UNION PACIFIC RAILROAD,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the mountains on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants to the Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States' Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company, much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Trafic D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived solely from its local traffic, but as this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, it not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, like the Government Bonds, built under the supervision of Government Officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger of more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & Co., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 59 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. s5—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

d16—tf

Secure Profitable Investment.

THE

CENTRAL PACIFIC RAILROAD,

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin. We represent the purest claim upon the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on the continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$593,847 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon trains to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien)	$12,800,000
CASH in STOCK, Not Earnings, &c. (no lien)	11,000,000
LOANS (subordinate lien)	5,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien)	25,517,000
FIRST MORTGAGE BONDS	24,517,000
Resources first 726 miles	$77,834,000

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds are endorsed by the Pacific Railroad Acts of Congress, are issued only as the work progresses, and to the same extent only, as Bonds are granted by the Government, and are the prior claim upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES INTO

Central Pacific First Mortgage Bonds,

now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

From "The Mormon Prophet and his Harem."
By Mrs. C. V. Waite.

BRIGHAM YOUNG'S HAREM: No. 4.

ELIZA BURGESS.—Her parents resided in Manchester, England, and came to Nauvoo in the early days of Mormonism. Soon after they both died, leaving Eliza an orphan. She was thrown upon the cold charities of the world, and Brother Brigham, ever the friend of *youth* and *beauty*, took her into his family. She served for seven years and then desired to marry another.—She applied to Young for his consent, but the Prophet had other projects inconsistent in their nature with the proposed marriage. "Eliza," he said "you have been so long in the family that I need you. I wish to marry you myself. Will you not be my wife? Brother S. is a very good man, but I can give you a greater exaltation. I can make you a queen." This argument was conclusive, and Eliza gave up her lover, and married Brigham Young.

In person Eliza is small, with large dark eyes, dark hair, and dark complexion. She is quick-tempered, and is of the class—English serving-girl. She is the only one of the Prophet's women who is not an American. She has several children.

ELLEN ROCKWOOD is of medium size, slender, with light hair, light-brown eyes, and fair complexion. She is the daughter of the warden of the penitentiary, who is a "regular down-east Yankee." Ellen is rather quiet, even-tempered, but quite narrow-minded. Her health is poor, and she spends most of her time in embroidery and needle work. She has no children, and in consequence has very little influence with her husband. He calls on her in her little room about once in six months.

SUSAN SNIVELY.— A middle-aged woman, of medium size, dark hair, light eyes, dark complexion, and expressionless face; the plainest of all the women. She is good and kind in her nature, quiet and retiring. She spins and colors yarn, and is a good housewife, of the type—New England farmer's wife. Having no children, she adds nothing to the kingdom and glory of her husband, and she is estimated accordingly.

JEMIMA ANGELL is the sister of Mary Ann, the lawful wife. She is an elderly lady, with dark hair, gray eyes, and pensive countenance. Of low stature, but quite robust. Her first husband died out of the church, and she is merely sealed to Young for her exaltation in another state. She lives in a little house by herself, and she seldom receives a visit from her spiritual husband.

MARGARET ALLEY was short and small; has light hair and eyes, rather lengthened features, but mild expression of countenance. Being much neglected by her husband, she became melancholy. She died in 1853, leaving two children.

MARGARET PIERCE is of medium size; has light hair, and blue eyes, sharp nose, and is very variable in temper. She has several children, but not much influence with her husband.

MRS. HAMPTON.—This woman is very tall, and noble in appearance, has round features, large lustrous eyes, dark hair, and fair complexion. She was early married to Mr. Hampton, by whom she had six children. They removed to Nauvoo, where Mr. Hampton died. Mrs. Hampton was afterward sealed to Young.

When the Mormons were driven from Nauvoo, Mrs. Hampton was, for some reason, left behind. She then married a Mr. Cole, by whom she had one daughter, named Vilate. When this child was about four years old, Cole went to California. Young then sent for Mrs. Hampton to come and live with him. She obeyed, and became, a second time, one of his plural wives. During this time Cole wrote letters frequently, and sent her his likeness. About this time, Feramorz Little, one of Young's nephews, married Julia Hampton, daughter of Mrs. H., and half sister to Vilate Cole. Mrs. Hampton lived at the Harem about eight years, and superintended the culinary department. Some misunderstanding having arisen between her and the Prophet, he again cast her off. It is said that she was unwilling to be sealed over the altar for eternity to Young, performing her first husband in the eternal world. Her son, Nephi Hampton, provided a house for her at Ogden, a pleasant town forty miles north of Salt Lake, where she now resides.

Vilate is now about fourteen years of age, beautiful and accomplished. She and Brigham Heber, now about twenty years old, were engaged to be married, but his father disapproved the match, and laid a plan to defeat it. In the fall of 1863, Feramorz Little sent for Vilate to come down to the city, and proposed to have her board with him and attend school. His real object was to secure her for his fourth wife and at the same time prevent her marrying the son of the President. During all this time the girl frequently inquired with much anxiety about her father.

In 1863 Cole enlisted in the 2d Regiment of Infantry, Nevada Volunteers, and came to Salt Lake City expressly for the purpose of finding his daughter. After much inquiry he ascertained where his wife and child were living, and wrote a letter to Vilate. The mother received the letter, read it, and put it in the fire. Thus the matter rested, until Vilate came to the city. One day she said to her sister Julia, (Mrs. Little,) "Would it not be strange if my father was among the soldiers?" Said Julia, "He is. Didn't you know it? Nephi told me all about it."

This gave her new courage and thenceforth she made every effort to see her father. For some time she was closely watched, and Cole, who had found where she was, was denied admission to her; but the girl's resolution remaining firm, Little, fearing she would leave him, finally permitted an interview. The happy meeting of the father with his only child, after an absence of eleven years, who shall describe? Cole still remains in Utah, devoted to his daughter, whose visits frequently, and is not without hope of getting her away from her unfortunate associations. The task is a delicate and difficult one, and in the efforts to accomplish it, he has the sympathy of every father.

A. E. TAYLOR, New Britain, Conn.

AMERICAN HOMESTEAD LAND and Immigration Office. Lands in tropical Florida for sale in lots of from 40 to 400 acres. These lands are adapted to the growth of the pecan, orange, pomegranate, grape, Muscadine, lemon, banana, guave, fig, corn, tobacco, sugar, and all vegetables grown North. One acre in bananas will yield a crop equal to 133 acres in wheat, or 44 in potatoes. The country abounds in game, and fish are in endless variety. Price $2.50 to $5 per acre. Climate the most equable in the world. A. B. STONELAKE, M. D., late Register U. S. Lands, 65 Broadway, N. Y.

TORREY'S PATENT WEATHER STRIPS.—An examination of its merits will convince any one that Torrey's Patent Weather Strips excel all others. Send for illustrated circular. Agents wanted in every town. E. S. & J. TORREY & CO., Sole Manufacturers, 72 Maiden Lane, New York.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Salomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubg St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Signed, Salomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a remedy for pain, as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It is also most effectual when taken inwardly, for the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT,** and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Druggists Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 181 Greenwich street, N. Y.; P. C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenden, 36 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by Major LANE. Agents countermanded by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

Patent Lead-Encased Tin Pipe,
Manufactured under Patents of the Colwells, Shaw & Willard Manufacturing Co.
Adopted by the Cities of Boston, Charlestown and Chelsea.
A NEW WATER PIPE, free from all the objections to common Lead Pipe. One-fifth of its thickness is TIN, encasing in fourfifths of Lead, forming a perfect union. Water conveyed through it only comes in contact with the tin.
Is as Strong as Lead Pipe of twice the weight per foot.
Costs less per foot than Lead Pipe of the same strength.
Also, superior qualities of WHITE LEAD and ZINC, dry and ground in oil. RED LEAD, LITHARGE, LEAD WORK, TIN PIPE, SHEET LEAD, CAST IRON PIPE and FITTINGS, PUMPS, &c.—Manufactured by **Boston Lead Co.,**

A SAFE, CERTAIN AND Speedy Cure FOR Neuralgia, AND ALL Nervous DISEASES.
Its Effects ARE Magical.
It is an UNFAILING REMEDY in all cases of Neuralgia Facialis, often effecting a perfect cure in less than twenty-four hours, from the use of no more than TWO OR THREE PILLS.
No other form of Neuralgia or Nervous Disease has failed to yield to this
WONDERFUL REMEDIAL AGENT.
Even in the severest cases of Chronic Neuralgia and general nervous derangements—of many years' standing—effecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.
It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can safely be used with
PERFECT SAFETY.
It has long been in constant use by many of our MOST EMINENT PHYSICIANS,
who gave it their unanimous and unqualified approval.
Sent by mail on receipt of price and postage.
One package, $1.00, Postage 6 cents.
Six packages, 5.00, " 37 "
Twelve packages, 9.00. " 48 "
It is sold by all wholesale and retail dealers in drugs and medicines throughout the United States, and by

The Chronicle.

AN UNCHRISTIAN CHURCH.—A Washington dispatch says the Unitarian Church of that city has turned out of doors a colored Sunday school. Time was not given to notify the children, and they went to the church only to find the door blocked against them. They assembled on the portico and in the street in front of the church, however, and sung their hymns, shivering with cold. The Chronicle remarks:

"Thus this structure, founded in 1821 by John Quincy Adams, and in which the voices of such noble men as Dewey, Channing, and many other great philanthropists have echoed in years gone by, has at last, in the year of our Lord, 1867, gone back to the days of barbarism, by refusing the use of the church for the purpose of teaching Christianity and the Bible to a class of children who are to become citizens in our midst, and exercise a marked influence in our country for good or evil.

THE WHISKEY TAX.—The practical tests of metres before the Congressional Committee on Ways and Means, with exhibitions of how they can be tampered with, have but added to the mixed condition of information on the whiskey tax. It appears almost impossible to secure an honest payment of the government tax, the union between sots, soakers and swindlers being so strong, the profits on the stuff so large, and the conscience of the trade so weak and doubtful.

ARMS AND AMMUNITION.—The Annual Report of the War Department says that during the year over 23,000 Springfield muskets were altered into breech loaders, and over 100,000 rifles have been cleaned and repaired, and all the soldiers on the Plains have been armed with best muskets. Seven hundred million cartridges have been made for these muskets, with an average failure of but one-third per cent. All smooth bore cannon of less than eight inches have been condemned. The Military Academy contained in June 255 cadets, of which number 63 have since graduated and obtained commissions. The entire military estimates for the coming fiscal year are set down at $77,000,000; $500,000 are asked for the Department of the General of the Army, $300,000 for the Adjutant General's office, and for the Military Academy $350,000.

☞ The Boston Post understands that from and after Jan. 1868, when present contracts will expire, the Boston & Lowell and Nashua & Lowell Railroads will decline any renewal of Express contracts, and thereafter conduct in their corporate capacity all express business between points on their roads, thus adding a parcels department to the existing passenger and freight departments.

The Oldest American Newspaper.
THE NEW-HAMPSHIRE
1756
GAZETTE.
Is the Oldest Newspaper in America; and with the recent enlargement, is now the Largest Paper in the State—and the Cheapest, at $2 per year, six copies for $10. It is now printed in quarto form, and contains 48 columns, and is ready for delivery at the Office of the Daily Chronicle, at six cents per copy.
☞ New subscribers for 1868 will receive the paper until Jan. 1st free of charge.
The Gazette contains all Local Items from the Daily Chronicle, and will be found especially interesting to natives of Portsmouth or New Hampshire abroad. Copies in wrappers for mailing may always be had at the Office.

Dental Card,
HIGHLY IMPORTANT.
Dr. GOODALL announces to the citizens of Portsmouth and vicinity that he has purchased the right to use the
NEW PACKING RIDGE.
In inserting Artificial Teeth, whereby he is able to obtain nearly double the amount of Suction, Firmness and Purity from Food and Moisture working under the Plate.
The expense of the Patent is considerable, but I shall at present charge only 5 dollars additional whenever I apply it.
I am administering NITROUS constantly, and from my long and successful experience, will promise any one they shall not suffer pain from the extraction of 1 tooth or 32. So put aside your needless fears, and procure for the Great Improvement in Artificial Teeth.
P. S.—I can also insert Teeth (in many cases) with this New Patent, without extending the Plate over the Roof of the Mouth.
E. B. GOODALL, 50 Congress Street,
n28 Portsmouth.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining documents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his practice, made on *twice* rejected applications, SIXTEEN APPEALS; every one of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all, and but ONE of which patents have been granted, and that one *is now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
Boston, Jan. 1, 1867.—3tawly

n1

Farm for Sale.
The well known PARSONS FARM, on Boyd's Road, next adjoining the estate of the late Hon. Levi Woodbury; containing 118 acres; has cut 60 tons of hay the present year; can easily be made to cut 100 tons annually, or will make one of the best milk farms in this State. Will be sold with or without the Stock, as the purchaser may desire. For Terms apply on the premises, or at 23 Congress street. o22 E. M. CLARK.

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 18, 1867.

BURDENSOME TAXES—*How to get rid of them.*—It is a plain matter of fact that many people complain of the National, State and local taxes, as a burden, and would like to be relieved, but do not see how it is to be done. The newspapers of the Democratic party and some of its busy talkers advise such people, in substance, to join "the old Democratic party" as the panacea for such ills. But let us look a little, at the Democratic party where it is the strongest: say in Kentucky and Maryland. In one of these States, there is not a single Republican member in the legislature,—and in both of them there are are gigantic schemes *to increase our National debt.*

The Kentucky Senate has, by a vote of 25 to 6, adopted a resolution providing for the appointment of a select committee of five from the Senate and five from the House, with instructions to report as early as practicable the assessed value of slaves taken from the citizens of Kentucky by Federal Executive Proclamation, by acts of Congress and by the amendment to the Constitution of the United States, known as the Thirteenth Article; and also the value of such slaves taken from each county in the Commonwealth; and that said Committee report what steps are necessary and proper to enable the citizens of the State to obtain compensation from the Federal Government for such slaves so taken. This harmonizes with the action of the Constitutional Convention of Maryland and with movements said to have been initiated in the Gulf States.

It is, we suppose, well understood that if the Northern Democratic party in unison with the Democratic States above mentioned, and those of the same sort further South, could get the power, they would add the pay for all those freedmen to our national debt, and pile our taxes up so much higher! They might also attempt to adopt and pay the Rebel Confederate Bonds — amounting to uncounted millions.

Does any one say that this does not look much like getting rid of burdens? Truly it does not; but it would be the natural course of things, if democratic victories should abound next year.

The project is sanctioned by the Democratic Johnson doctrine, that the Southern States were always as fully and completely in the Union as the Loyal States, and that the war ought to have been so waged as to disturb none of the institutions of the rebellious States. Besides, this compensation movement is engineered by ardent and influential Democrats, in close affiliation with their Northern brethren, and whose co-operation in the future is of the utmost importance.

It may be worth while, also, to remember how we came to have such a great debt, and such heavy taxes, viz: 1, because of the war in the Democratic Convention at Baltimore, where the slave-power, being in the minority, chose rather to break down the party than to suffer the majority to nominate or elect Douglass; and 2, because the same power in Congress, chose to secede and figut down the Union, to erect on its ruins a great Empire, whose corner-stone should be chattel slavery.

These things, every one knows, or might know; and also, that our costly war which put down the rebellion, was made much more costly by copperhead votes and movements in towns and States which furnished men to carry it on.

And now, that slavery itself has been broken down in the attempt to make it strong and perpetual, the Democratic States of Kentucky and Maryland demand payment for the loss; and the Democratic party of the North, while *talking* of economy, and of lightening burdens, are doing all they can to play into the hands of their old masters at the South.

This is not the way to lighten the burden; but Economy in public expenditure, such as Gen. Grant is practising in the War Department; Honesty in funding and paying our National debt; and Equity, so far as possible, in our legislation for all our people, would surely lighten our burdens by degrees; and this is what reasonable people desire. The man who expects a speedy and total relief for himself, is a mere dreamer. And the man who teaches others to expect it, is a lying demagogue and cheat, unless he be a fool.

U. T.

SUFFOCATED BY SMOKE.—A tenement house in New York city, 596 Second Avenue, caught fire at 2 o'clock Monday morning, in the bakery of one Miller, on the lower floor, and the building, four stories high, was destroyed. Mrs. O'Meara and three daughters were suffocated, also two girls and a boy named Murphy. Six other persons are injured. Miller and his wife escaped. The manner in which the fire originated has not yet been developed, but the suspicious circumstances surrounding it warranted Capt. Allaire in arresting Maximilian Miller, the baker, in whose place the fire originated, and his journeyman Fernando Grice, and they are detained at the Station House, pending an investigation.

THE BRISTOL LINE.—The steamer Providence, of the Bristol Line from Boston to New York, landed her passengers in Bristol at five o'clock next morning after the great snow storm last week, and they reached Boston at 8 1-4 o'clock. This performance, considering the heavy weather and rough state of Long Island Sound, the Transcript says, must be set down as one of the best ever made by a Sound steamer. No boat on either of the other routes came through. The steamer Bristol left her wharf at 9 o'clock same evening, and arrived in New York next morning. Everything considered, these trips are highly creditable to the superb boats of this route, which is the favorite line to the metropolis.

GOLD, Tuesday, 134 1-8.

NEW HAMPSHIRE ITEMS.—Nathaniel White, Esq., of Concord, has contributed $100 towards a chime of Bells for St. Paul's Church in that city.

The forth-coming Political Manual from the Concord Statesman office, will contain, arranged under each town, the traders therein; a new feature in this statistical work. The issue of the Manual is delayed, in order to incorporate within it the municipal officers recently elected in Portsmouth, Dover and Manchester.

The Union Bank, Concord, which has just paid its final dividend to the stockholders, was in operation ten years. For one hundred dollars paid in on each share, there has been returned exactly two hundred and twelve dollars and thirty cents.

The Congregational Society in Hampstead has recently obtained a new Organ, the price of which was $1400, but which, through the exertions of a New York city resident, native of Hampstead, was purchased for $1000.

The Treasurer of the New Hampshire Agricultural Society is ready to deliver the Diplomas awarded at the Fairs of 1866 and 1867. Persons entitled should notify George W. Riddle, Manchester, who will forward them by mail or express.

Will the new railroad about to be built to connect Nashua and Rochester pass through Sandown? is the question now agitating the minds of the people of that usually quiet town. Chester people don't like the idea of being left out in the cold, and consequently are putting forth extra exertions to secure the route through *their* town.

The closing of one of the shoe manufactories at Salem has thrown seventy-five men out of employment.

The Grand Jury of the County of Coos, at the recent term of the Supreme Court in Lancaster, made an examination of the jail, and pronounce it unsafe, and otherwise not suitable to its purpose. Judge Smith, who presided during the term, recommended the County Commissioners to take measures by which to procure the erection of a new and improved jail.

D. F. Morris of Meredith, slaughtered a porker a few days since, which weighed 702 pounds; eighteen months old, Chester county blood.

The Nashua Telegraph says, "New Hampshire has the unenviable distinction of paying more revenue on distilled spirits than all the other New England States combined. Maine and Vermont pay nothing." Is this so? and if true, will somebody please explain it?

Elder Brown of Lebanon, one of the local preachers of the Free Will Baptist denomination, has suddenly died at Eaton, where he labored.

The Citizens of Meriden were somewhat surprised a few days since by seeing Mr. Norman Hebbard of Cornish, driving John Gilpin style through the streets with a *colt* not yet six months old. He was attached to a light carriage, and after coming nearly three miles, showed no signs of fatigue. He already weighs five hundred and seventy-five pounds.

In Effingham, 9th inst., about 10 o'clock in the forenoon, a fire broke out in the dwelling house of James Leavitt, which was entirely consumed with all its contents.—There was no insurance, and the loss is a heavy one for Mr. Leavitt. It is supposed the fire originated by leaving ashes in a wooden vessel in an adjoining building.

Mr. John Hayward of Hancock raised 252 bushels of good sound oats (besides what was eaten green, and soft, imperfect ears) on a few rods less than two acres of land.

David Wheeler, of Alstead, died at the Pynchon House in Springfield, Mass., Wednesday, from the effects of a dose of laudanum administered by himself on Monday.

Esther Brooks, a young girl employed in Aldrich's mill in Peterboro', fell down a flight of steps one day last week, and broke her leg just above the ancle.

LIPPINCOTT'S MAGAZINE of Literature, Science and Education, a new and beautiful monthly, is published for January, containing: Dallas Galbraith, A Welcome to Garibaldi, The Old State-roof House, The Forget-me-not, Education in a Republic, Rays for the Honeymoon, Pre-historic Man, Vox Humana, The Abbe Brasseur and his Discoveries, Trade and Currency, The Cook in History, My Destiny, Our Ancient City, Our Monthly Gossip, Literature of the Day. $4 a year; single numbers 35 cents. J. B. Lippincott & Co., publishers, Philadelphia, Pa.

—The revenue receipts from distilled spirits in New Hampshire the fiscal year ending last June, were greater than in all the other New England States combined. The aggregate, as appears from the report of Commissioner Rollins, was $28,296,264; of this amount there was collected:—from Maine, nothing; New Hampshire, $1,234,000; Vermont, nothing; Massachusetts, $663,185; Rhode Island, $69,687, and Connecticut, $185,462.—*Exch.*

Can anybody explain this—tell what it means? New Hampshire does not make, use or sell this proportion of liquors; can it be she is the only State which honestly pays her tax?

—Official reports declare that 6872 infants have been murdered, directly or indirectly or by abandonment, in Great Britain in a single year.

SHIPWRECK AND EARTHQUAKE.—The U. S. steamer Monongahela was knocked about like a cork on the waters, in the earthquake and flood at St. Thomas. Her entire cables were carried out, and the bolts drawn from her keelson, without stopping her way; up over the city she went, and then back, where she now lies on a rock or cliff fifteen feet wide by thirty feet long. Her engines are in good order, and she will be easily launched as soon as the ship carpenters arrive. The town of St. Croix was under thirty-seven feet of water at one time. All the inhabitants fled to the mountains—that is, all who could get there. Those who were not so fortunate were drowned. The Monongahela, in going over the houses, knocked some of them down.—All the houses were more or less damaged.

John B. Hooper, a tiller, had his legs broken and died of his injuries. Charles Haggerty, cooper; Albert Vassman, coxwain, and James Smallden and John Cotton, landsmen, were drowned. The town of St. Thomas was much damaged. It is about thirty-five miles from St. Croix, and the intervening space was all more or less affected by the hurricane or earthquake. The principal hotel there is destroyed. At St. Croix a schooner and brig are lying high and dry in the town, while all the lighters have been washed up to the market place.

The guns of the Monongahela, the powder and all the stores have been removed to the dry land above St. Croix. The Secretary of the Navy has issued the necessary orders to have the vessel attended to, and a force of workmen will be sent to St. Croix for that purpose.

The De Soto has been sent to the Norfolk Navy Yard for repairs.

THE BANGOR NUISANCE CASE.—It is stated that the exceptions to the Judge's ruling in the Bangor Democrat case have been sustained by the full bench at a recent session in Bangor, and a new trial granted.

—A man named Thomas Collins, who was on his way home to Brookfield, Nova Scotia, took his passage for Halifax at Portland on Saturday, and afterwards got drunk and fell into the harbor and was drowned.

The man, who for sinful love of pelf,
Adulterates our food by compounds vile,
Is fit for treason, stratagem or spoils—
Let no such man be trusted.
Such a man is not the inventor of Herrick Allen's Gold Medal Saleratus. It is an article, says the Edinborough Journal, destined to promote longevity throughout the civilized world. 28

PROCLAMATION
For a Day of Merry-Making,
Congratulations and Rejoicing.
Be it known unto the good people of the city of ancient Portsmouth and its vicinity, that by and with the advice of all the Little Boys and Girls, and all the Big Boys and Girls, I have appointed
WEDNESDAY, THE TWENTY-FOURTH DAY
of this present month of December, as a day of General Merry-Making, Congratulations and Rejoicing. And I would ask of all the
Good Grand Fathers and Grand Mothers,
Fathers and Mothers, Uncles and Aunts,
Friends and Relations,
to remember the day and to make a merry and happy day, by giving all kinds and descriptions of PRESENTS to their
Grand-children, Children, Nephews, Neices, Relations and Friends.
And as they may be somewhat puzzled where to obtain all the various articles needed, for so general a giving of Presents, I would further proclaim and make known to all, both small and great, old and young, that my friend,
JAMES E. SHORES, Jr.,
Has almost everything that is necessary to answer the various wants of the dear people for
HOLIDAY GIFTS.
His stock is so large, his assortment is so numerous, that it would take more room than the publishers of this paper would allow, to enumerate them all; it is sufficient for me to say that Friend Shores has
Illustrated Standard Works, Miscellaneous Works, Bibles, Prayer Books, Children's Books, Toy Books, Games, Toys, Books, Stationery, Work Boxes, Silver Fruit Knives and Napkin Rings, Card Receivers and Cases, Stereoscopes and Views, Photographs, Ihtype and Photograph Albums, Flower Vases in great variety, Toilet Sets, Work Stands, Desks, Portfolios, Gold Pens, Rubber Pencils with Gold Heads, Dressing Cases, Handkerchief and Glove Boxes, Paper Rants, &c., &c.
All of which he will sell you at the Lowest Prices. And I further request all my good friends to be sure and examine this splendid Stock of Goods which is now open for Free Exhibition at
No. 1 CONGRESS BLOCK,
Which No. 13 Congress Street, before they make their purchases, as unless they look at them, they will not know what there is. They are so well arranged on the counters and shelves, that a few minutes will suffice to give a general idea of the various articles of Taste, Utility and Amusement.
FAIL NOT to take heed to these words.
Given under my hand and seal at my council chamber (in everybody's chimney top) on this tenth day of December, A. D. 1867, and of the Independence of the United States the 92d.
SANTA CLAUS. [Seal.]
By advice of Council.
Attest, FOSTER SHORES, }
MANNING K. RAND, } Aids. d16

AMERICAN
WALTHAM
WATCHES.
This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements at just about half the cost of imported movements—besides the uniform reliability of the machine made watches must give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation if this highly useful American enterprise shall have the effect of driving out of market the thousands of trashy foreign articles miscalled time-keepers, by furnishing 30 excellent and economical a substitute.—*N. Y. Times.*
We have had one of the works of this Company in a case for a considerable time, and comparing them with former first class works of different manufacture possessed by us, find the one established in our opinion their superiority over any ever introduced for correctness as time pieces.—*The World.*
We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only comparatively of recent birth among us, is already producing watches of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*
The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference that will not be deceived.—*Liberty Tree.*
Every Watch fully Warranted.
For Sale by all First-Class Dealers in the United States and British Provinces.

PAIN KILLER A CURE FOR DIPHTHERIA!

All interested, please read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Tounghoo, Birmah:

* * * My son was taken violently sick with diphtheria, cold chills, burning fever and sore throat. I counted on removing the little rascals in his throat, very white, and his tongue towards the roots was like a watermelon, full of seeds; the remainder colored as though it was a boiled beet. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a gargle with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and he raised them up, often covered with blood. He was taken sick on Sunday; on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, with castor oil and hartshorn, for his neck. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are losing so many children by the dreadful disease.

I have found your Pain Killer one of the most valuable medicines ever used in Burmah. Once I was stung by a very large black scorpion; the pain was indescribable. I immediately applied the Pain Killer (for I never travel without it) again and again, and in half an hour my foot was well.

HOLLOWAY'S PILLS.—COSTIVENESS.—The bowels become torpid and powerless under continual irregation. Holloway's Pills penetrate to the nucleus of the disease and eradicate it.—They evacuate the foul and vitiated particles from the intestines, by a mild aperient operation, and recuperate their exhausted energy, by restoring tone and vigor; they induce a healthy action and prevent a relapse of the malady. For Piles, Fistulas, Dyspepsia and all disorders of the stomach they stand without a rival. Sold by all Druggists. d14daw

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Orid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like 'hot cakes,' and gives Universal Satisfaction.

Stanley & Skipper, Chippawa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. J. Allen, a well-known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted.—He says, "I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that far-of region of gold. It CURES, and that accounts for its Great Success. None use it who do not, in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

Local.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$2 per year; for balance of this year free to new subscribers.

☞ Respecting the strange and somewhat romantic story concerning the adventures and wanderings of two boys, now at our City Farm, who claim that their parents were from Charlestown, Mass., and went West,—the Advertiser "can find no one who recollects such an individual as William G. Berry, as ever having lived in the city; and Marshal Kelley, whose experience with these roving characters is greater than most men's, does not give that credit to the boy's story that seems to be accorded in Portsmouth. He thinks the elder boy has chosen this mode of living rather than work, and has induced the younger boy to accompany him, since he was in that city, alone, a few months ago, and stopped but one night, and then said nothing of the brother his present story represents as having escaped the massacre, and accompanied him on his five-years' walk from Minnesota."

PORTSMOUTH BOOT AND SHOE MANUFACTURE.—We take pleasure and pride in calling attention to the styles of Portsmouth boots, shoes, &c., which are now being manufactured by Mr. T. S. Nowell. We have seen samples, which we are quite sure leave Lynn and Haverhill in the shade, and we doubt if any which reach the New York and California markets are superior. For years it has been the aim of our single Portsmouth establishment to reach the highest grade of first quality work, and to lead in style of samples. To accomplish this, Mr. Nowell has exerted his most untiring ability and energy, with a thorough understanding of every detail of his business, and a close oversight of the demands of the market.

Mr. Nowell finds that his business has extended with his means of filling orders, and it is to his credit that at times of much depression in the business his orders have kept his best workmen employed. Nothing but first quality work passing his hands, his New York customers have expressed themselves highly pleased with his goods, and they are regarded in the same light in all the ten States to which he has directly contributed a supply. We think dealers in every market who are seeking their spring supply, would find their interests forwarded by coming to Portsmouth in making their selection.

Among the many styles we would particularly notice some very handsome gents' calf Balmoral and creole Congress boots, adapted to the New York and California markets.—*Journal.*

NOT FAIR.—The Exeter News Letter man says, "The Editor of the Chronicle seems to have got Rockingham Fair on the brain."—Perhaps so, but we are sorry we cannot return the compliment, for the reason given by the physician in answering a thick-skulled fellow who inquired whether he was in danger of brain-fever—"No, never," said the doctor, "for that would suppose you in possession of considerable brains." We did *not* "attempt to compare the management of the society this year, with that of last year," but did refer to the old Board of 1863-4-5, who would not call a Fair at all till they could be sure it would "pay." The Fairs of the two last years we class together, as both were held in and for Exeter, and each ran behind about the same amount. It is palpably absurd, however, for the News Letter to charge two members of a Board with controlling the action of all seven. The un-Fair editor continues:

"Had the people turned out as well this year to see 'a good show,' as they did last year to see a *poor one*, the Society, instead of losing about $300, would have made $1100, and would now have a fund of $1700, instead of $300. The 'side show' at Portsmouth, held on the same days of the County Fair, no doubt injured the Fair at Exeter three or four hundred dollars."

Ho, ho,—so you acknowledge the side show was more attractive than the regular big tent, do you? Well, we told you so, when you began that "Hampton Falls" tilt at us. He concludes by saying, "The Chronicle man has been *sold* by somebody, in regard to the payment of premiums." Maybe we have, but it was by an Exeter man, again—a good responsible citizen, too, whose name we have for a voucher, and no trumped-up sheep-tender from Hampton Falls.

Communication.

JUSTICE, *Mr. Editor:*—I am very glad that the Mayor and Aldermen had the spirit to vote the money necessary to pay the amount recovered against Police Officers Johnson and Pickering, for their fearless and impartial enforcement of the law against an ignorant and lawless Irishman. The cause of justice and order must be maintained against the combined efforts of corrupt juries and copperhead lawyers.

And now, Mr. Editor, permit me to express the hope, concurred in by many of your constant readers, that the Mayor and Aldermen will also render an equal amount of justice to Hon. Daniel H. Spinney. Let the City pay the paltry sum he has been condemned to advance for merely looking on while the office of the "Stars and Bars" were being gutted.—Mr. Spinney was no more guilty than many others of our prominent citizens; and if he did a little exceed the law, the act was considered a truly loyal one by all patriotic citizens. The amount is not large, and if it were, the money of the city cannot be put to a better use than by reimbursing him, and thereby showing substantial sympathy for a gentleman whom the Republican party in his Ward have so unanimously pronounced to be worthy of the trust and approbation of the public.

LINCOLN.

☞ The Salem Board of Trade has been in operation about a year; and the papers of that city say, has done wonders for the prosperity and development of the place. Why should not Portsmouth organize one?

☞ Mr. Barnabee's "Evening," —a "Patchwork of Song and Story," for Monday, was a very nice entertainment, and highly enjoyed to the very close, by a full and appreciative audience. Few single performers, indeed, can for a whole evening, keep up the interest of an audience so well as Mr. Barnabee, whose dramatic and musical powers are versatile as well as great, so that there was no lack for variety. His serious selections were given perhaps fully as well as the humorous; and his accurate remembrance of all his pieces is a great addition. For so young an "artiste," he occupies the highest position, and his fame and fortune seem sure.

The third Concert will be given Dec. 30th, and Miss Loring, soprano, Miss Rametti, alto, and Mr. McDonald, tenor, will take part.—This is one of the most popular and successful series of entertainments ever given here, and shows that a prophet is not always without honor, even in a man's own country.

☞ Masonic Hall was filled Tuesday evening to witness the installation of the following officers of St. Andrew's Lodge:

Harry G. Tanton—W. Master.
Mercer Goodrich—S. Warden.
Wm. H. Smart—J. Warden.
Wingate N. Haley—Treas.
Joseph C. Walker—Sec.

A beautiful silk banner, elegantly embroidered with Masonic emblems, and mounted on a splendid shaft, was then presented to the Lodge by the lady of the Worshipful Master, in a neat address, which was responded to in a felicitous manner by Brother Chas. W. Gardner on behalf of the lodge; after which the guests partook of a bountiful collation in the banquet room.

☞ Rev. Mr. De Normandie's lecture before the Lyceum Tuesday evening, was a very interesting account of his travels in the Holy Land—"From Hebron to Damascus." We see he is announced to give the same in Hampton, Exeter and elsewhere.

The Cornet Band's concert was a grand introduction, and a great addition to the evening's entertainment.

☞ Meetings are being held during the present winter at Hayes' Hall, Kittery Foreside. Mr. A. J. Penhallow is the officiating preacher. The meetings of the Methodist Society at Kittery Foreside, are being largely attended and are exciting much interest. Rev. Mr. Griffin, the preacher in charge, is laboring with great zeal for the salvation of his hearers.

☞ Rev. Mr. De Normandie of this city is to lecture at Exeter Friday evening, Dec. 20th.

IN CONGRESS, on Monday, the House, by voting on a resolution offered by Mr. Benjamin of Missouri, and adopting it by 111 yeas against 32 nays, reaffirmed its adherence to the reconstruction policy of Congress, despite the pleas and the menaces of Andrew Johnson against it. There was no hesitancy as Republican after Republican declared, by his vote, that he would never take one retrograde step from his advanced position in protecting all, and in promoting the cause of equal rights.

Gen. Butler asked leave to introduce a resolution embodying his ideas as to the payment of government bonds, and moved to suspend the rules for that purpose. This required a two-thirds vote in its favor, but the House refused to suspend the rules by a vote of 54 yeas to 83 nays. Butler, Banks and Barnum were the only New England members who voted to suspend the rules. This indicates a determination not to consider any financial question until after the holidays, when the subject will be discussed and acted upon.

Mr. Baldwin introduced a joint resolution to abolish the present bonded warehouse system, which is said to contain many abuses and to greatly enrich political favorites.

A bill introduced to take from the President the appointment of Marshal for the District Supreme Court will, if enacted, displace Mr. Gooding, the present incumbent, and secure the appointment of Gen. Brisbin of Kentucky.

The Deficiency bill came before House razeed to the lowest point, and containing several economical provisos, among them, that hereafter no Representative shall have over $125 worth of newspapers; and another, that no farther allowances shall made be for stationery until March, 1868. The whole bill amounted only to about $118,800, somewhat less than one-half of the estimae submitted by the Departments.

Mr. Thad. Stevens offered an amendment renewing the twenty per cent. allowance to the Government Clerks at Washington. The House voted the amendment, but then laid the bill on the table, and subsequently took it up and passed it as reported without the extra pay.

In the Senate, Mr. Patterson of New Hampshire introduced a bill incorporating the New Jerusalem Religious Society at Washington, with power to erect a church and parsonage not to exceed $100,000.

GEN. GRANT has been represented (in a letter purporting to be written by his brother-in-law, Gen. Dent) as not wishing to be the candidate either of the Republican or the Democratic party, but a sort of people's [indefinite] candidate. But Gen. Dent denies that he has written such a letter, or any letter about the matter,—and denounces the letter as a forgery. So Gen. Grant has not expressed any such notion.

☞ It is now reported that the great fire at Fall River on Sunday was incendiary. Loss $750,000 to $1,000,000. Insured $95,000. Preparations are making to rebuild.

BATCHELDER & CO.
No. 3 CONGRESS BLOCK,
Have for sale all the Daily, Weekly and Monthly
Papers and Magazines,
Which they sell by single copies or deliver in the city by the week, month or quarter. Also Paper-Covered NOVELS of every description, together with a large variety of

BATCHELDER & CO.,
3 CONGRESS BLOCK, PORTSMOUTH, N. H.
d16—tf

525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in service. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests, and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. S. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this already is much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond present record, and as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government Officers, and to a large extent with Government money, for which its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

are offered for the present at NINETY CENTS and ACCRUED INTEREST, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

Six Per Cent. in Gold,

or over NINE PER CENT. upon the investment.

SUBSCRIPTIONS will be received in Portsmouth by FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NAT. BANK No. 7 Nassau St.
CLARK, DODGE & CO., Bankers, 51 Wall St.
JOHN J. CISCO & SON, Bankers, 33 Wall St.

And by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. n8—3m

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Lands, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

NEIL, TARLTON & CO.,
—DEALERS IN—
CORN, FLOUR AND SALT.
No. 65 Market Street.
Thos. Neil, Jas. N. Tarlton, Jas. R. Tarlton, Jr.

Secure Profitable Investment.

THE
CENTRAL PACIFIC RAILROAD,
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, represent the preferred claim upon one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the

Main Trunk Line across the Continent.

The Road is now nearly completed from Sacramento to the Richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent.

The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the Quarter ending Oct. 31, were as follows, IN GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$993,817 92	$102,088 61	$491,729 31

The result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and Cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual Interest obligations, and will have following ample Resources at command for the Construction:

DONATIONS in Lands, Bonds, Concessions, &c. (without lien) . $12,800,000
CAPITAL STOCK, Net Earnings, &c. (no Bonds) 11,000,000
LOANS (subordinate lien) . . . 6,000,000
U. S. SUBSIDY BONDS, 726 miles, (subordinate lien) . . . 25,517,000
FIRST MORTGAGE BONDS . . 24,517,000
Resources first 726 miles . . . $77,834,00

The FIRST MORTGAGE BONDS are in sums $1000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly NINE PER CENT. UPON THE INVESTMENT.

These Bonds, authorized by the Pacific Railroad Acts of Congress, are issued only as the Roads progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the Government. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES

Central Pacific First Mortgage Bonds, now realize for the holders from 12 to 18 per cent. Advantage, with the same rate of interest.

Bonds can be obtained through the subscribers directly, or thro' responsible Banking agencies.

Morning Chronicle.

From "The Mormon Prophet and his Harem."
By MRS. C. V. WAITE.

BRIGHAM YOUNG'S HAREM: No. 6.

MARY BIGELOW.—I can give no description of this woman. She was sealed to Young at "Winter Quarters," and came on with him to Utah. After a time she left the Harem, and what became of her is unknown to me.

EMELINE FREE, OR THE LIGHT OF THE HAREM.—Emeline is tall and graceful; with mild, violet eyes, fair hair, inclined to curl. She has long been the favorite of the Prophet,—the light of his eyes, and the joy of his heart. Mr. and Mrs. Free, her father and mother, were opposed to polygamy, and Brigham went one day to convince them of their error. The beautiful Emeline was the first he sought to win, and he argued and expounded the new doctrine with wonderful zeal and fervor. At length the parents were convinced. The Prophet of the Lord stepped up to Emeline, laid his saintly hand upon her shoulder, and said, in fervid accents, Emeline, will you be my wife?" "Yes sir," was the reply. This was their courtship. She at once became the favorite, and many hearts grew sad when she became an inmate of the Harem.

Brigham distinguished her in every way; gave her better rooms than the rest, and servants to wait upon her. She grew to love him, and obtained a powerful influence over him. There is no weapon so powerful as a woman's tears. This Emeline believed, and often acted upon, to bring back her truant lover, when she thought too much attention was paid to others. Finally, so great became the jealousy of the other wives, that the husband of these contending fair ones constructed a private hall leading from his office to Emeline's room, that he might visit her without observation or constraint. He devoted himself to her exclusively, and she reigned supreme over the sisters. She received her company in the grand saloon; she occupied the seat of honor at the table, at the right hand of her husband. In short she was the mistress of the Harem.

At that time the most of the women did their own work, and stayed in their own rooms, so that their was but little communication with each other. She has eight children, but is still a young-looking woman. But, alas! "the course of true love never did run smooth," and Emeline was doomed to have a rival. When the Prophet "took" Amelia, his last love, poor Emeline was heart-broken. She was taken very sick, and her life was, for a long time, despaired of. From her "sisters" she received nosympathy. The bitter cup which they had been obliged to drink, was now commended to her own lips. From the confiding and happy wife, she has become the rejected and suffering mistress, and must now drag out the remainder of her days a faded, cast-off woman. And Amelia, the present queen, what of her? She too, will soon take her place by the side of Emeline and Mary Ann. Other and younger women will take the place she now occupies, and in their turn be cast off, to suffer with her.

"PROXY WOMEN."—This is a very common term in Utah, and signifies that a woman is married to one man for "time," and sealed to another for eternity. All her children belong to the man to whom she is sealed, no matter which may be their father, or whether the mother ever married the celestial husband "in time." This is a refinement upon the Jewish doctrine, which required a man to "raise up children to his dead brother."

Of the class of women Brigham Young has four, all of whom, while they live with him for "time," are sealed to Joseph Smith for eternity, and to Joseph must they be delivered over, with their children, in the first resurrection.

"Miss" *Eliza Story Snow* is of middling stature, dark hair, well silvered with gray; dark eyes, noble intelligent countenance, and quiet and dignified in manner. She is the most intellectual of the women.

Her literary taste and acquirements are good, and she has composed some very creditable hymns for the church of which she is a conscientious and devoted member A volume of her poems has also been published, some of which evince genius of a high order.

She is quite exclusive in her tastes, and associates but little with the "women." She occupies a small room on the third floor of the Harem, about twelve by fifteen feet in size. A neat carpet covers the floor; a common bedstead occupies one corner. There are some oak chairs grained, with crochet covers, white window-curtains and bed spread, her own handiwork." Behind the door is a neat little wardrobe. On a shelf over the window, stands a vase of artificial flowers. A stand covered with books, usually occupies the centre of the room, and these articles, with a neat little stove, make up the furniture.

This is the *home* of "the sweet singer of Israel." She has cast the charm of her genius over the rude materials, and there is an air of neatness, comfort, and refinement about her little sanctum which is not apparent in any other portion of the house. Here she receives and entertains her company. She occupies her time chiefly in writing, and in needle-work. She is highly respected by the family, who call her "one of the nobles of the earth." When tired of writing and study, she walks out and visits her friends. If any one is sick in the house she looks after the invalid, and shows every kindness and attention. She soothes the afflicted, and cares for the infirm and aged. She and *Zina D.* Huntington are the most lady-like and accomplished of the wives.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Fauby. St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BARING BROS. & Co., New York.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever yet, has killer of pain, taken inwardly, or outwardly applied, has no equal.—For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, &c.*, it is unequalled.—It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Dysentery, Diarrhœa, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the best of Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden wrenks of Stomach Complaints, its value cannot be estimated. Inquire for **Major LANE'S INDIAN LINIMENT**, and take no other. Price 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 181 Greenwich street, N. Y.; Gale & Wells & Co., 102 Fulton street, N. Y.; Chas. N. Crittenden, 6 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN TROY. LANE'S PANACEA prepared by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

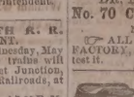
SPEER'S SAMBUCI WINE.
Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing a good appetite and building up the system of the most debilitated.
As a Diuretic it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.
As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.
The qualities of SAMBUCI are *unsurpassed* by any preparation of the kind.
SPEER'S SAMBUCI is a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.
N. B.—Vinum bonum bonum sanguinem facit.
SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.
Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.
For sale by Town Agents and Druggists.

The Chronicle.

From "The Mormon Prophet and his Harem."
By MRS. C. V. WAITE.

BRIGHAM YOUNG'S HAREM: No. 6.

Zina D. Huntington Jacobs is of large form, well proportioned, high forehead, with light hair and eyes. She is of a melancholy temperament, as is plainly indicated by the expression of her countenance. She has three children, and has charge of the children of Clara Chase.

Zina has some literary ability, and sometimes writes poetry. She has a special office in the family, which is to act as governess for all the young ladies, accompanying them in their attendance to singing-schools and other public places. Zina came to Utah with her husband Dr. Jacobs. Young became attached to her, sent the Doctor on a mission, and in his absence appropriated to himself the wife and children. Dr. Jacobs is still in California, and is an "apostate." Zina stands in great awe of Brigham, who treats her with marked coldness and neglect.

Amelia Partridge is rather tall, with a fine form, black hair, dark eyes, dark complexion, sweet expression of countenance, and very mild and amiable in disposition. She and her sister Eliza had been servants in the family of Joseph Smith, in Nauvoo.

Amelia has four children, to whom she is devotedly attached. She is a kind and gentle mother, patient and forgiving,—one of the excellent ones on earth. She takes but little interest in family matters, outside of the circle of her own children.

Mrs. Augusta Cobb is a native of Massachusetts, and formerly resided in Boston. She is a large, fine-looking person,—dark hair, gray eyes, and clear complexion. She is very stylish in appearance, and of dignified demeanor. She was converted to Mormonism at Boston, fifteen years ago, left her husband and a very interesting family of children, and with one little girl, Charlotte, came to Utah, and took up her residence at the Harem, as a plural wife of Brigham Young.

She is high spirited and imperious. She once returned to her family in Boston, and remained two years, but was too deeply involved in the meshes of Mormonism to be satisfied away from Zion, and again returned to Salt Lake. She now lives in a neat little cottage near the Lion House, and is supported by Young. Her son James Cobb, after finishing his course of study in the East, came to Salt Lake, and after some years, through the influence of his mother, joined the church. Previous to becoming a Mormon, he expressed much anxiety about his mother and sister Charlotte,—now an interesting young lady,—and used many arguments and entreaties to induce them to leave, but finally himself yielded to the seductive influences which surrounded him. Charlotte at one time enjoyed the title of "the belle of Salt Lake." She has steadfastly opposed polygamy, and hence has remained unmarried.

Mrs. Smith is an elderly woman, who admired Brother Brigham very much, and desired to be sealed to him, to insure her salvation. Young did not reciprocate her sentiments towards him, but compromised the matter by sealing her to Joseph Smith for eternity, and to himself for time. After this ceremony had been performed, he committed her to the care of the Bishop of the ward, directing him to support her. There are many of this class of women in the Territory.

Clara Chase the Maniac.—This woman was of medium height, dark hair and eyes, rather sullen expression of countenance, low forehead, and her features indicative of deep-seated melancholy. When Young married her, he treated her with marked consideration. He assigned to her an elegant apartment, in which hung the only oil-painting of himself. She from the first distrusted the principle of polygamy, and had many misgivings of conscience in regard to her course in marrying the Prophet.

For a time she lived in this way, in a strait between two opinions. When her husband treated her kindly, she tried to be happy, but when he was cold and unfeeling toward her, she was driven well-nigh to desperation. In the mean time she had four children, two of whom are now living. They are bright and intelligent girls, fourteen and sixteen years of age.

As she approached her fourth confinement, her fits of remorse became more frequent and more terrible. She reproached herself with having committed the *unpardonable sin*. Her condition was truely pitiable. During her sickness Brigham treated her with such coldness and neglect, that she became actually insane, and raved incessantly.—"Oh, I have committed the unpardonable sin! Oh, warn my poor children not to follow my bad example. I am going to hell. Brigham has caused it. He has cursed me, and I shall soon be there. Oh! do not any of you go into polygamy. It will curse you, and damn your soul eternally." When her husband appeared, she cursed him as the author of her destruction.

The "President" and his two "counsellors" "laid hands" on her, but all of no avail. Dr. Sprague, the family physician, was sent for; but her poor wrecked spirit would no longer abide where it had suffered so much, and she died a raving maniac.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economiser of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 19, 1867.

GEN. GRANT'S LETTER.—The General's private letter to President Johnson, protesting against removing Secretary Stanton and Gen. Sheridan, copied below, was written August 11, 1867, and has now come before the public by a call from Congress.

It shows well for the General and badly for the President. Everybody will read it. It is properly addressed to the President, and read as follows:

SIR: I take the liberty of addressing you privately on the subject of the conversation we had this morning, feeling as I do, the great danger to the welfare of the country should you carry out the design then expressed.

First—On the subject of the displacement of the Secretary of War. His removal cannot be effected against his will without the consent of the Senate. It was but a short time since the United States Senate was in session; and why not then have asked for his removal if it was desired? It certainly was the intention of the Legislative branch of the Government to place a Cabinet Minister beyond the power of the Executive removal, and it is pretty well understood that, so far as Cabinet Ministers are affected by the Tenure of Office bill, it was intended specially to protect the Secretary of War, whom the country felt great confidence in. The meaning of the law may be explained away by an astute lawyer, but common sense and the views of loyal people will give to it the effect intended by its framers.

Second—On the subject of the removal of the very able commander of the Fifth Military District. Let me ask you to consider the effect it would have upon the public. He is universally and deservedly beloved by the people who sustained the Government through its trials, and feared by those who would still be enemies of the Government. It fell to the lot of but few men to do as much against an armed enemy as Gen. Sheridan did during the rebellion, and it is within the scope of the ability of but few in this or any other country to do what he has. His civil administration has given equal satisfaction. He has had difficulties to contend with which no other district commander has encountered. Almost, if not quite from the day he was appointed District Commander, to the present time, the press has given out that he was to be removed; that the Administration was dissatisfied with him. This has emboldened the opponents of the laws of Congress within his command, to oppose him in every way in their power, and has rendered necessary measures which otherwise may never have been necessary. In conclusion allow me to say, as a friend desiring peace and quiet,—the welfare of the whole country, North and South,—that it is in my opinion more than the loyal people of the country (I mean those who supported the Government during the great rebellion) will quietly submit to, to see the very man of all others who they have expressed their confidence in, removed. I would not have taken the liberty of addressing the Executive of the United States thus, but for the conversation on the subject alluded to in this letter, and from a sense of duty, feeling that I know I am right in this matter.

With great respect, your obedient servant, U. S. GRANT, General.

GEN. POPE'S REPORT of his action under the Reconstruction law, is very able and conclusive, giving the best of reasons for his acts in removing officers in his district, viz., they were disloyal obstacles in the way of reconstruction.

The General states his reasons for issuing the order forbidding the Government advertising to be given to disloyal newspapers. It was almost impossible to fill civil offices which became vacant, on account of the opposition of the disloyal press, which denounced, in terms of unscrupulous and unqualified abuse, all persons who accepted appointments at the hands of the military authorities, attempting to degrade them in the eyes of their neighbors, and encouraging acts of wrong and outrage towards them. It became impracticable, in the midst of the abuse, to find persons willing to accept such appointments, although the people were absolutely suffering in their business interests from the want of proper law officers. As these disloyal papers outside of the cities owe their existence solely to the patronage of State and county officers, he considered it necessary to interests of the people and the maintenance of civil government, to prohibit the civil officers from contributing official support to such newspapers.

FROM ST. THOMAS.—Advices to the 7th have been received. The transfer of that Island to the United States will probably be made on New Year's day, but the date has not been positively fixed.

A Government architect has examined the edifices which were left in a dangerous condition by the earthquake. He had ordered the demolition of the English Mail offices, Lloyd's building, Dorwal's Hotel, the Hyardewal the new town and Butcher's gates and the warehouse of Merrizon, Muss & Camp.

Up to the 7th inst. five hundred shocks of earthquake had been felt. Divers were busy at work in the bay, and two hundred packages were raised daily from the wreck of the steamer Columbia.

Business had been generally resumed, and no more failures were reported. Rents of corner lots were greatly increasing.

— Two sciences are employed by teamsters in driving oxen—*Hay*nticulture and *Geology*.

NEW HAMPSHIRE ITEMS.—The Rev. Amos Brown who recently died at Eaton was not the Congregational minister of that name who was once a teacher in this city, but a Freewill Baptist minister and revivalist, highly esteemed by his brethren.

Adjutant General Natt Head is at Washington, engaged in obtaining for the State of New Hampshire, copies of the rolls of the soldiers from this State who served in the war of 1812, the Mexican war and the Indian wars. It is against the regulations of the War Department to permit copies of rolls to be taken, but in this case General Grant issued a special order granting the desired permission, thus enabling Gen. Head to complete the military records of the Granite State.

R. A. Dannatt of Henniker and John Gove of Hillsborough, have laid a wager of $100 a side that the latter cannot haul five Keene sleighs, hitched together, from Henniker to Hillsborough Bridge, a distance of six miles. Gove is to have any six consecutive days of the winter which he may choose to do the work in. The sleighs, connected as closely together as possible, will make a line of about forty feet, and will average in weight one hundred and thirty-five pounds each. The road for Gove to haul his load over is mostly a slight up grade, with two small hills besides.

The Fifth Annual session of the New Hampshire Musical Festival will be held in Concord, commencing January 13, 1868.—Mr. Emerson will officiate as Conductor.—A large and attractive solo force has been secured, including Miss Clara Loring, Dr. Guilmette, Mr. James Whitney, Mr. Eugene Thayer, Mr. Cobb, Mr. Graves, and the Mendelssohn Quintette Club. The Convention will be entertained with an Organ concert on Thursday, in the Universalist Church, by Mr. Thayer. There are indications of a large attendance.

A horse 28 years old, belonging to Joseph B. Ellis, Concord, died on Sunday night. "Old Gray" will be missed from the streets which he has so faithfull travelled for more than twenty years.

The First National Bank, Concord, has declared a dividend of six per cent. out of its earnings for eight months past, payable January 1st.

At Concord, the U. S. Revenue Officers have brought up several manufacturing concerns for frauds on the revenue. Among them are those of W. J. Daniels at Franklin, B. F. Martin at Suncook, and the Webster Mills at Suncook.

IN THE U. S. SENATE, Dec. 17, Mr. Davis offered a resolution requesting the President to furnish the Senate with a statement of the aggregate cost to the United States, since June 30, 1865, of the freedmen, with the cost of the Freedmen's Bureau and measures for reconstruction,

Mr. Morrill of Maine suggested to amend by including the words, "and the expenses of refugees."

Mr. Davis said he had no objection if it was separately stated. After discussion the resolution was laid over.

In the House, the Speaker presented Executive communications; among them one from Gen. Grant relative to the removal of Sec. Stanton and Gen. Sheridan.

On motion of Mr. Dawes the latter was read to the House, with an indorsement by Gen. Grant of Sheridan's communication with reference to the affairs in Texas.

Mr. Brooks asked if there was anything in the communication relating to a recontre in New England between gamblers and civil officers, wherein several officers were killed.

Mr. Dawes said he could quiet the gentleman's fears and apprehensions in relation to the people of Massachusetts. If there had been any such instance of outrage, the people there were both willing and able to enforce the law and bring to condign punishment any violation of it. He wished he could say as much for the people of the gentleman's district.

Mr. Brooks wished to know whether the people of Massachusetts desired martial law there.

Mr. Dawes replied that if martial law were necessary for the protection of the citizens of Massachusetts, they would submit to it; but there never had been occasion for martial law there since the example set by one-third of the people of the Union in the attempt to overthrow it, encouraged and sustained by the people of the gentleman's (Brooks) district and city, encouraged by the Governor of his State, who addressed them as his friends and supporters. (Laughter.) He moved the previous question on the reference of the papers.

Mr. Brooks desired to reply, but was cut off by the previous question. He then remarked that he had not expected the previous question to be withdrawn, as that was the usual way members on his side were treated.

[Poor Mr. Brooks lost his temper. He ought to remember the time when John P. Hale and another Senator were put on no Committees, because they belonged to no healthy political organization.]

—At Havana, Dec. 17, the principal of a large provision house, called the San Cipriano, absconded, leaving liabilities to the amount of $700,000. Assets small.

—The Old Reform Dutch Church in Kinderhook, N. Y., was destroyed by fire on Saturday night. Loss $25,000; insured $8000.

— When does a man look like a cannon ball? When he looks round.

— The first bus in America was Columbus.

WEST INDIAN NEWS.—Arrivals at Havana report that there had been a desolating conflagration on Guadaloupe Island, but no particulars of it are given.

Fearful shocks of an earthquake visited St. Kitts on the 12th and 20th of November. Many buildings were destroyed and several lives were lost.

An earthquake visited Antigua on the 18th, causing great loss of life and property.

The reports from St. Thomas are more cheerful. The men of the New York Submarine Company were engaged in raising the wrecks with great success.

Advices from Hayti confirm the report of the assassination of Monta. The revolution was increasing. President Cabral of St. Domingo was marching with an army against Hayti, under pretence of avenging the death of Monta, but in reality to gain possession of the whole island.

The American wife of Senor Hernandes and her child were burned to death at Guanabacao.

The commercial feeling in Havana is very insecure. The condition of several merchants is critical and some bankruptcies may be expected.

☞ Admiral Porter's idyllic description of St. Thomas as the place of all the earth, next to Walrussia, worthy to be called the Garden of Eden, contains one or two points which should meet the attention of the Committee on Retrenchment. The Admiral says that the ports require 15-inch guns and chains to make them fortified.—We don't know how many guns will be required, but our experience of that sort of business in the Rebellion makes us dread a return to it. The one thing that costs is a gun. We must have men to handle it, and barracks to cover the men, and food, and transportation, and powder for salutes, and all the paraphernalia of a peaceful military occupation, which costs as much as war.—If we want a port in the South, we have a thousand miles of coast, and numerous bays, without wasting money on coral reefs. On the top of this comes the story that Spain wants $150.000,000 for Cuba. How much does King Theodore want for Abyssinia? Is not Lapland for sale? Can't we manage to buy a tract of Greenland?—*Tribune.*

CUBA.—The telegram from Cuba that the Spanish Government has offered to sell that island and Porto Rico to the United States for One Hundred and Fifty Millions of dollars, does not seem probably well founded. Spain would hardly allow such an offer to become public at so early a stage of the negotiation; and, should she wish to sell, she would begin by inviting proposals rather than by making a plump offer to sell for a specified sum. Cuba is now a chief source of income to her treasury; its possession is one of the last buttresses of Spanish pride—reminiscence of faded glories—and we can imagine nothing short of an urgent and palpable necessity that would induce her to part with it. We judge, therefore, that the report has been set afloat in Cuba by parties who wish it to become true rather than believe it to be so already.—*Tribune.*

☞ The war on the river Platte has taken a new turn. The Paraguayans have again assumed the offensive, and gained a complete victory over the Brazilians. The latter are said to have suffered a loss of about 4000 men, 1500 of whom were taken prisoners. As the Brazilians have for more than a year found it very difficult to recruit their army, this total defeat may have for them very serious consequences.

—The Abyssinian expedition, on advancing into the interior, is greatly suffering from scarcity of water. This has from the beginning been regarded as the great obstacle to the success of the expedition; but on the other hand, the reenforcement of the expedition by Egyptian and other African troops is likely to hasten the conquest of the country.

☞ The robber Time, that steals all sweetness from the fruits and flowers, is baffled by Phalon's Night-Blooming Cereus. Its aroma is less perishable than that of foreign extract, essence or toilet water, and incomparably more delightful.—*Hartford Courier.*

From lofty themes, from thoughts that soared on high,
And opened wond'rous scenes above the sky,
My muse descend, indulge my fond desire,
With thought more pratical my song inspire,
And first and foremost on the scroll of fame,
Let me record Herrick Allen's Gold Medal Saleratus' name.

After a fair trial according to directions, no good housekeeper will fail to continue its use. It is far superior to the best soda or other saleratus. 29

BUSINESS COLLEGE, POULTNEY, VT.—The Vermont Commercial College and Normal Academy opened for the winter Dec. 5. Students may enter any time before Jan. 15, and enjoy the benefits of the winter and spring months. Business course, $35.—Board, washing, fuel and lights, per week, $4.72. Classics, by Rev. J. Goadby, D. D. Common English, Music and Telegraphing taught. Circulars free. daw3t

"WHILE THE LAMP HOLDS OUT TO BURN" there is a chance for the restoration of health.—If, therefore, the constitution has been weakened by disease or excess—the nerves shattered—the stomach weakened, the appetite gone, and all the world appears gloomy—pour some nice fresh oil into your lamp, in the shape of Plantation Bitters, which will make the flame of life again burn brightly, and illuminate a once wretched existence. For ladies it is an elegant and gentle stimulant, exactly such as they require. Many families will not be without it. It has an immense sale throughout the world. d21s28

HOW TO GET RICH.—In every purchase be sure and get the worth of your money, and live within your income. If you are housekeeper, always ask your grocer for Fyle's O K Soap which saves labor, time and money. 33

MAGNOLIA WATER.—A delightful toilet article—superior to Cologne, and at half the price.

— We have news that two of the Windward Islands have been destroyed by earthquakes. How fortunate it is for us that Mr. Seward did not buy them just before the catastrophe.

—The sexton of the Calvary Baptist Church in Washington, which was burnt Sunday, is missing, and it is feared that he may have lost his life in the building. The building was insured for about $60,000.

HON. GEO. W. WILCOX, Mayor of Gardiner, Me., died in that city Dec. 17, aged 50.

PROCLAMATION

For a Day of Merry-Making,

Congratulations and Rejoicing.

Be it known unto the good people of the city of ancient Portsmouth and its vicinity, that by and with the advice of all the Little Boys and Girls, and all the Big Boys and Girls, I have appointed

WEDNESDAY, THE TWENTY-FIFTH DAY

of this present month of December, as a day of General MERRY-MAKING, Congratulation and Rejoicing. And I would ask of all the

Good Grand Fathers and Grand Mothers,

Fathers and Mothers, Uncles and Aunts, Friends and Relations, to remember the day and to make a merry and happy day, by giving all kinds and descriptions of PRESENTS to their

Grand-children, Children, Nephews, Neices, Relations and Friends.

And as they may be somewhat puzzled where to obtain all the various articles needed for so general a giving of Presents, I would further proclaim and make known to all, both small and great, old and young, that my friend,

JAMES F. SHORES, JR.,

Has almost everything that is necessary to answer the various wants of the dear people for

HOLIDAY PRESENTS.

His stock is so large, his assortment is so numerous, that it would take more room than the publisher of this paper would allow, to enumerate them all; it is sufficient for me to say that Friend Shores has

Illustrated Standard Works, Miscellaneous Works, Bibles, Prayer Books, Children's Books, Toy Books, Games, Toys, Dolls, Stationery, Work Boxes, Silver Fruit Knives and Napkin Rings, Card Receivers and Cases, Stereoscopes and Views, Photographs, Tintype and Photograph Albums, Flower Vases in great variety, Toilet Sets, Standidges, Pocket Books, Gold Pens, Rubber Pencils with Gold Heads, Dressing Cases, Handkerchief and Glove Boxes, Parian Busts, &c., &c.

All of which he will sell you at the Lowest Prices. And I further request all my good friends to be sure and examine this splendid Stock of Goods which is now open for the Exhibition at

No. 1 CONGRESS BLOCK,

Which No. 13 Congress Street, before they make their purchases, as unless they look at them, they will not know what there is. They are so well arranged on the counters and shelves, that a few minutes will suffice to give a general idea of the various articles of Taste, Utility and Amusement.

FAIL NOT to take heed to these words.

Given under my hand and seal at my council chamber (in everybody's chimney top) on this tenth day of December, A. D. 1867, and of the independence of the United States the 92d.

SANTA CLAUS. [Seal.]

By advice of Council,
Attest, JOSIE SHORES, } Aids.

AMERICAN

WALTHAM

WATCHES.

This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment. Its perfect and exact movements at just about one half the cost of imported movements—besides the uniform reliability of its machine made parts—must give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article as easy as one which is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the shelloads of trashy foreign articles miscalled time-keepers, by furnishing so excellent and economical a substitute.—*N. Y. Times.*

We have had one of the works of this Company in a case for a considerable time, and in comparing them with former first class works of different manufacture possessed by us, they have established in our opinion a superiority over any we have introduced for correctness as time pieces.—*The World.*

We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufacture, which, although only commencing of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—*N. Y. Herald.*

The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is puzzling, gradually give the American Watches a public preference that will not be deceived.—*Harpers' Weekly.*

Every Watch fully Warranted.

For Sale by all First-Class Dealers in the United States and British Provinces.

PAIN KILLER A CURE FOR DIPHTHERIA!

All interested, please read the following extract from a letter from Mrs. Ellen B. Mason, wife of Rev. Francis Mason, Toungboo, Birmah:

* * * My son was taken violently sick with diphtheria, cold chills, burning fever and sore throat. I sent out one morning ten miles distant in his throat, very white, and his tongue towards the roots was like a watermelon, full of seeds; the remainder looked as though it was knife-blades. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a gargle with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and he raised them up, often covered with blood. He was taken sick on Sunday; on Wednesday the throat was clear, and his tongue rapidly clearing off. I also used it as a liniment, with castor oil and harebone, for his neck. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are losing so many children by this dreadful disease.

I have found your Pain Killer one of the most valuable medicines ever used in Burmah. Once I was stung by a very large black scorpion; the pain was indescribable. I immediately applied the Pain Killer (for I never travel without it) again and again, and in half an hour my foot was well. d1—1m

HOLLOWAY'S PILLS.—COSTIVENESS.—The bowels become torpid and powerless under continual purgation. Holloway's Pills penetrate to the nucleus of the disease and eradicate it.—They evacuate the foul and vitiated particles from the intestines, by a mild aperient operation, and recuperate their exhausted energy, by restoring tone and vigor; they induce a healthy action and prevent a relapse of the malady. For Piles, Fistulas, Dyspepsia and all disorders of the viscera, they stand without a rival. Sold by all Druggists. d14daw

ALLEN'S LUNG BALSAM!

Charles Farmer, Druggist, writes from Ovid, Mich., "I have just sold the last bottle of Allen's Lung Balsam. It sells like 'hot cakes,' and gives Universal Satisfaction.

Stanley & Skipper, Chippawa Falls, Wis., write, "We wish you would send us a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

F. L. Allen, a well-known druggist at New London, Conn., writes us that ALLEN'S LUNG BALSAM is favorably received by the afflicted.—He says, 'I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that distant region. It CURES, and that accounts for its Great Success. None use it who do not, in return, recommend it to their friends. Hence its great sale.

Sold by all Druggists. Price $1 per bottle.

d11—1mdaw

SUDDEN DEATH

Is the fate of every fibre upon which the CAUSTIC POISON of an ordinary hair dye falls. There is no RESURRECTION for the filaments thus blighted. But, as it were, in the TWINKLING OF AN EYE, hair of any obnoxious color is changed to a RICH AND GLORIOUS HUE, and at the same time vitalized and improved by use of CRISTADORO'S HAIR DYE. nature's only, safe, and beauty's restorator.—Manufactured by J. CRISTADORO, 68 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. m30dawlm

ALLCOCK'S POROUS PLASTERS.

SORE CHEST AND COUGH CURED.

DR. ALLCOCK.—Sir: In May last I was visiting my cousin in Corning, who got me one of your Porous Plasters for my chest. It was so sore through me at the time, I could hardly speak or breathe. It was not more than three hours after I put it on before I felt comfortable. I had suffered very much from soreness of the chest, with cough and hoarseness, for months; but your Plaster has cured me, and my health is better than it has been for years. Yours respectfully,

PHEBE PATCHER.

It will not be convenient for Dr. Fitch to visit Portsmouth again. s30sn6m

Local.

☞ A wagon load of very good mutton, from Hampton, was sold on Market Square in this city, on Tuesday, for 8 cents per pound, by the carcass. Also beef at 10 cents, by the quarter.

☞ It is said that Life Insurance agents have a better field of operations in this city than any other of its size in New England. It speaks well for the good sense of this community, for there is certainly no better use to which to put a portion of one's surplus funds, than placing it in security for his family. One agent here informs us that in the last week he has issued policies to the amount of thirty-six thousand dollars—on one of which the premium amounted to over seventeen hundred dollars. There is one insurance of $25,000 in this city, in one Company, and many of $10,000 and $15,000.

FORT MCCLARY.—Most people, even in the vicinity, are probably not aware of the gigantic works now being carried on by the Government in the neighborhood of Portsmouth. Forts Washington and Sullivan are abandoned, nothing remaining of them worth noticing, but huge banks of earth, thrown up in olden time. Old Fort McClary, on Kittery Point, is being entirely remodeled and rebuilt. It is to be about five hundred feet long and three hundred wide. A few items will show the nature of the improvements. The old walls were two feet in thickness; the new walls are seven feet in thickness, of solid granite, protected in exposed places by immense masses of wrought iron. The old cannon balls were a little larger than a large apple. The new guns weigh about twenty-five tons each;—are to be worked on iron carriages; will receive a half-bushel measure into the muzzle, or a solid shot weighing about a quarter of a ton. Nine of these monsters are already on the ground. The rifled cannon weigh about fourteen tons each.

Some of the stones worked for this fort weighed, in their rough state, fourteen tons. The machinery for moving these boulders is admirable for its simplicity and efficiency. The foundation of Fort McClary is hardly yet completed. It will, when finished, be a magnificent and impregnable structure. Fort Constitution, on New Castle Island, is larger than Fort McClary, and more nearly completed. A company of regulars are stationed there. The Government is building several large ships at the Navy Yard. More than two thousand men are employed on all these works.

No one can visit Portsmouth and vicinity without realizing the change that has taken place in warfare within fifty years.—Some may think that it is foolish to spend money to protect our harbors, but in my opinion, in the present state of the world, Forts McClary and Constitution will do more to avert war than ten thousand resolutions of a Peace Congress. The Gospel will govern well those who yield to it, but the sword of the magistrate is necessary to awe evil-doers into good behavior.—*Cor. Concord Statesman.*

☞ Mr. George Saville, one of the oldest engine drivers on the P. S. & P. Railroad, was seriously injured at the station in Portland a few days since, in attempting to step upon the tender as the engine was backing out of the repair shop. The space between the door-post and the side of the engine is very narrow, and he was caught between them and seriously jammed.

Communication.

A BOLD DEED.—A lady, coming from Boston to this city in the cars, a few days ago was robbed under the following singular circumstances. She gave up one-half of the seat she was occupying to a well-dressed, gentlemanly looking man, but who appeared very uneasy and nervous. After riding a short distance, she grew suddenly quite sick, and was obliged to rest her head against the side of the car. At Salem the man left the train. The lady, also, was obliged to get out to breathe the pure air, when, in feeling for her purse, she found it was gone, together with a bunch of keys. No doubt exists in her mind but that the stranger stole them; and if so, it was certainly a very bold performance, for which he should hammer stone for a season. P.

THE REPUBLICAN STATE CONVENTION was held in Concord on Wednesday, fully attended, harmonious and earnest.

On Tuesday evening the State Central Committee met, and selected Hon. Onslow Stearns as permanent President.

The following resolution was introduced and passed unanimously:

Resolved, That whereas, all the political and pecuniary evils which now afflict our country, are mainly attributable to the unpatriotic conduct of a wrong-headed President, it is of vital importance that the successor to the present incumbent shall embody the loyal spirit and purposes of the nation; we, therefore, in behalf of the loyal people of New Hampshire, do hereby proclaim as our and their first choice for that position, the great Captain, Gen. Ulysses S. Grant, who conducted our armies to victory, and our country to peace—Reticent and sagacious in council, self-possessed and daring in battle, modest and magnanimous in victory, he is first in the confidence and first in the hearts of his countrymen.

After the transaction of the business, stirring, pertinent and practical addresses were made by Hon. Geo. G. Fogg, Congressmen Ela and Benton, Hon. E. H. Rollins, Hon. W. E. Chandler, Hon. N. G. Ordway, Mr. Pike, Hon. J. D. Lyman, Secretary of State, and others.

On Wednesday, in Convention, Gov. Harriman was nominated for re-election, by acclamation.

The Resolutions endorse the reconstruction measures of Congress; favor the equalization of the burdens of taxation, and recommend to Congress the issuing of new and taxable bonds to take the place of the present indebtedness, the revenues upon which shall be collected by the Government and paid over to the several loyal States.

☞ A London item of Dec. 17, says, A terrible explosion occurred at Newcastle on the Tyne that day. The authorities the night before received information that a quantity of glonoin, or nitro glycerine, had been secreted in that place, it was supposed by some Fenians. The Sheriff and Town Surveyor, with a large squad of policemen, proceeded to the spot indicated, and discovered oil packed in the usual manner.—While men were removing it, the substance exploded with a terrific detonation. Several policemen were instantly killed, and few in the party escaped injury. The men who were nearest the packages of glycerine were blown to atoms. The Sheriff and Surveyor were badly hurt and are lying in a critical condition.

The truth of the report that Spain has offered to sell the islands of Cuba and Porto Rico to the United States is denied.

—At Philadelphia, Dec. 17, the steam boiler in the distillery of John Haas in West Philadelphia exploded, completely shattering the building and seriously injuring three persons.

A CAPITAL JOKE—Democratic ballots headed "City Reform."

— He who relates the faults of others to you, designs to relate your own to others.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Daily Chronicle Office. Price 6 cents—$2 per year; for balance of this year free to new subscribers.

☞ Philharmonic rehearsal this (Thursday) evening, at half past 7.
